Investment Valuation

The Fund's securities are valued under policies approved by and under the general oversight of the Board of Directors. Effective January 1, 2008, the Fund adopted Statement of Financial Accounting Standards No. 157 (FAS 157). FAS 157 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Fund's investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Debt securities are valued at the last quoted bid prices provided by an independent pricing service that are based on transactions in debt obligations, quotations from bond dealers, market transactions in comparable securities and various other relationships between securities. Equity securities for which market quotations are available are valued at the last sale price or official closing price on the primary market or exchange on which they trade. When prices are not readily available, or are determined not to reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund may value these securities at fair value as determined in accordance with the procedures approved by the Fund's Board of Directors.

The following is a summary of the inputs used in valuing the Fund's assets carried at fair value:

	September 30, 2008	Quoted Prices (Level 1)	Other Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments in Securities	\$ 123,069,714	\$ 183,331	\$ 122,886,383	
Total	\$ 123,069,714	\$ 183,331	\$ 122,886,383	

Securities Lending:

The Fund lends its securities to approved brokers to earn additional income and receives cash and U.S. government securities as collateral against the loans. Cash collateral received is invested in a money market pooled account by the Fund's lending agent. Collateral is maintained over the life of the loan in an amount not less than 100% of the value of loaned securities. At September 30, 2008, the market value of the securities on loan to broker-dealers was \$11,506,620, for which the Fund received collateral of \$11,759,995 in cash. Such collateral is in the possession of the Fund's custodian. The cash was invested in the State Street Navigator Securities Lending Prime Portfolio and is included in the Fund's Portfolio of Investments. As with other extensions of credit, the Fund may bear the risk of delay in recovery or even loss of rights to the collateral should the borrower of the securities fail financially.

Other information regarding the Fund is available in the Fund's most recent Report to Shareholders. This information is available on the Securities and Exchange Commission's website (www.sec.gov).

Item 2 Controls and Procedures

- (a) Western Asset Income Fund (the Registrant) principal executive and principal financial officers have concluded, based on their evaluation of the Registrant s disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the Registrant s disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the Registrant on Form N-Q is recorded, processed, summarized and reported within the required time periods in the Securities and Exchange Commission s rules and forms and that information required to be disclosed by the Registrant in the reports that it files or submits on Form N-Q is accumulated and communicated to the Registrant s management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

- (b) There were no changes in the Registrant s internal control over financial reporting during the Registrant s last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the internal control over financial reporting.
