Managed Distribution Plan (MDP)

On September 4, 2008, the Fund announced that it had received authorization from the Securities and Exchange Commission (SEC) to distribute long-term capital gains to stockholders more frequently than once per year. Accordingly, the Board of Directors formally approved the implementation of a Managed Distribution Plan (MDP) to make quarterly cash distributions to stockholders.

On December 8, 2008, the Fund announced that in light of current market circumstances, the Fund's Board of Directors decided to reduce from 12% to 10% of net asset value (NAV) the amount of annual distributions that the Fund will pay to stockholders under the MDP during 2009. The Fund intends to pay quarterly cash dividends during April, July and October 2009 and January 2010, each for 2.5% of the NAV per share as of December 31, 2008. You should not draw any conclusions about the Fund's investment performance from the amount of these distributions or from the terms of the MDP. The MDP will be subject to regular periodic review by the Fund's Board of Directors.

With each distribution, the Fund will issue a notice to stockholders and an accompanying press release which will provide detailed information regarding the amount and composition of the distribution and other information required by the Fund's exemptive order. The Fund's Board of Directors may amend or terminate the MDP at any time without prior notice to stockholders; however, at this time, there are no reasonably foreseeable circumstances that might cause the termination of the MDP.

Annual Report

October 31, 2008

Highlights

The Fund's fiscal 2008 ended on October 31, 2008. This has been a particularly difficult period for world financial markets, affected by a credit crisis caused by the collapse of the sub-prime mortgage market in the United States and some European countries, and by the high prices of energy and food. The S&P500 Index and the Dow Jones Industrials Average lost 37.5% and 33.1%, respectively.

Losses extended to emerging markets, which suffered significantly during October 2008, and the Mexican equity market and the Fund were affected by this declining trend as well. During fiscal 2008, the Fund's market price and net asset value (NAV) per share registered total returns¹ of -54.4% and -55.1%, respectively, compared with -48.3% and -45.3% registered by the Morgan Stanley Capital International Mexico Index and Bolsa IPC Index, respectively.

At the end of October 2008, the Fund's market price and NAV per share were \$16.56 and \$19.41, respectively, reflecting a discount of 14.68%, compared with 11.77% at the end of fiscal 2007.

The Fund adopted a defensive strategy at the end of fiscal 2008, investing approximately 81.69% of its net assets in equity securities and 18.62% of its net assets in cash equivalent securities.

The Fund has had a non-fundamental investment policy of investing at least 80% of its total assets in equity securities listed on the Mexican Stock Exchange. In December 2008, the Fund's Board of Directors approved a change to this investment policy. Effective March 1, 2009, the Fund may invest at least 80% of its total assets in equity securities listed on the Mexican Stock Exchange, but may reduce its holdings in equity securities listed on the Mexican Stock Exchange below 80% of its total assets for temporary defensive purposes when unusual market or economic conditions occur.

On September 4, 2008, the Fund announced the implementation of an MDP to make quarterly cash distributions to stockholders. The first two distributions under the MDP were made during September and November 2008, for \$1.13 each. The Board has announced that the third dividend distribution of fiscal 2008, of \$1.2388 per share, will be paid on January 5, 2009 to stockholders of record on December 18, 2008. Together, these three dividends represent 21.1% of the Fund's market price at the end of fiscal 2008.

Mexico's gross domestic product (GDP) increased 1.6% during the third quarter of 2008, compared with 3.7% during the third quarter of 2007.

The Mexican country risk ended this period at 349 basis points, the second lowest after Chile within Latin America.

To Our Stockholders:

We present to you the Fund's 2008 Annual Report. In this Report, we summarize the period's prevailing economic, political and market conditions in Mexico and outline the Fund's investment strategy and resulting performance. We hope you find this Report useful and informative.

Economic Environment

The Mexican economic environment has been affected by several international factors such as a recessionary period in the United States, which is Mexico's most important economic partner, and, during most of fiscal 2008, high prices of energy and food. The Mexican gross domestic product (GDP) increased 1.6% during the third quarter of calendar 2008, compared with 3.7% during the same quarter of 2007, the lowest quarterly growth rate in the last five years, affected by a decline of 0.5% in the United States during the same period. Mexico's industrial production has declined during the last five months and for October 2008 it decreased by 1.8%. Analysts surveyed by Banco de México, Mexico's Central Bank, have adjusted their growth estimates due to the prevailing global economic situation, and now expect that the Mexican GDP will increase approximately 1.8%, 0.4% and 2.5% during 2008, 2009 and 2010, respectively. Under the current global economic environment, in which developed economies may already be suffering a contraction, we believe Mexico offers a relatively better economic outlook for the near future.

The high prices of food and energy that prevailed until mid-2008 and the recent devaluation of the peso against the dollar have affected inflation rates, and for the year ended October 31, 2008 the inflation rate amounted to 5.78%, higher than the 3% \pm 1% target rate set by the Central Bank. Analysts currently believe that Mexico's inflation rate will be 6.3%, 4.4% and 3.9%, during 2008, 2009 and 2010, respectively.

Domestic interest rates remained stable during this fiscal year and at the end of October 2008 ranged from 7.22% for the 28-day Cetes (Treasury Bills) to 8.80% for the 30-year government bonds, denominated in local currency. Emerging markets country risk levels increased during this period as a consequence of the negative impact felt in the financial sector from the credit crisis. As a result, Mexico's country risk, as measured by the spread between the yields of Mexican sovereign debt instruments denominated in dollars and traded abroad versus US Treasury bonds, increased from a minimum historical level of 70 basis points at the end of May 2007 to 349 basis points at the end of October 2008. Compared with other Latin American countries, Mexico's country risk continues to be, together with Chile, the lowest of the region. Analysts estimate that domestic interest rates will be relatively stable during the remainder of 2008 and 2009, and project that the rate of 28-day Cetes will be 8.0% and 7.4%, respectively, at the end of each year.

The Mexican peso suffered a devaluation of 15.8% versus the US dollar during this fiscal year, with most of the devaluation occurring during October 2008. Some factors that affected the value of the peso against the dollar were the volatile performance of global financial markets, in which aversion towards emerging markets currencies was present; important repatriations of financial assets held in Mexico by some international institutions; and a demand for dollars from Mexican corporations that needed to cover financial liabilities, including

derivative positions. The rate of exchange ended this period at Ps. 12.71 per dollar, compared with Ps. 10.70 one year earlier. This decline in the value of the peso occurred despite intervention from the Central Bank, which used international reserves to auction dollars during the most volatile days of October 2008. Analysts estimate that the currency market will eventually stabilize and that the exchange rate may finish 2008 and 2009 at Ps. 12.84 and Ps. 12.67, respectively.

The Mexican trade balance deficit increased 17.1% during the first nine months of 2008, when exports and imports grew at rates near 15%. The Mexican government purchased derivative instruments to guarantee a minimum price of \$70 per barrel for its oil exports, a strategy that has proven successful given the current level of approximately \$33 per barrel for the Mexican oil mix. International reserves at the central bank continue growing as a result of this strategy and currently amount to \$83.4 billion.

Management Discussion of Fund s Performance and Portfolio Strategy

For the reasons mentioned above, fiscal 2008 was a difficult period for the Fund and world financial markets alike. During this period, the S&P500 Index declined 37.5% while the Dow Jones Industrials Average lost 33.1%. Particularly during October 2008, emerging markets like Mexico suffered even more as a result of increased risk aversion from international investors and a severe contraction of credit availability, which significantly impacted the market prices of small and medium size listed companies. As a result, the Fund s market price and NAV registered negative total returns¹ of 54.4% and 55.1%, respectively, during fiscal 2008, compared with declines of 48.3% and 45.3% for the Morgan Stanley Capital International Mexico Index and the Bolsa IPC Index, respectively.

The Fund s five portfolio holdings that most contributed to the decline of the Fund s NAV per share during fiscal 2008 were: América Móvil (AMX), a telecommunications company; Grupo México, a mining company; Axtel, a domestic provider of fixed telephone lines; Empresas ICA (ICA), dedicated to infrastructure and construction; and Urbi Desarrollos Urbanos (Urbi), a housing company. During this period, the market prices of these five issuers decreased 48.6%, 69.7%, 80.9%, 79.3% and 62.7%, respectively. The negative performance of these five issuers, together with those of Grupo Cementos de Chihuahua (GCC), producer of cement and Tenaris, a pipe producer for the oil industry, generated most of the relative underperformance of the Fund s NAV against the indices during fiscal 2008, despite the fact that the Fund reduced its investments in these companies since July 2008. At the end of October 2008, the Fund had disposed of its holdings in Tenaris and Axtel.

As of October 31, 2008, the Fund had total net assets of \$351.3 million. The composite volume of Fund shares traded on all US consolidated markets during fiscal 2008 was 18,452,295 million shares, compared with 18,100,290 shares outstanding at the end of the period.

Table of Contents

The Mexico Fund, Inc.

The following chart shows the Fund's portfolio composition by sector, expressed as a percentage of the Fund's net assets, as of October 31, 2008. The Fund adopted a defensive strategy at the end of this fiscal year by holding a higher than usual percentage in dollars which, at the same time, provided resources to pay stockholders the dividend distributions under the MDP. More detailed information about the Fund's portfolio is available below in this report.

Portfolio Composition by Sector

Percentage of Net Assets,

October 31, 2008

The economic recession in the United States and significant increases in energy and commodity prices during most of fiscal 2008 affected operating and net results of listed companies. For the first nine months of 2008, compared with the same period of 2007, sales of listed companies increased 10.1%, EBITDA² increased 2.5% and net income fell 14.7%. The average price earnings ratio (PER) of the market decreased from 17.86 times at the end of fiscal 2007, to 11.90 times at the end of October 2008 while the price to book value ratio decreased from 3.30 times to 2.14 times during the same period³.

Despite the negative outlook for the US economy and its inevitable impact on Mexico, we believe that the recent volatile and declining trend of the Mexican equity market represents an excellent investment opportunity in selected issuers, as it has resulted in low valuations of

listed companies with positive fundamentals and management quality. The Fund will continue looking for companies with strong balance sheets, positive free cash flow and proven business models.

Long Term Performance

Notwithstanding the Fund's performance in fiscal 2008, it should be noted that during the previous five fiscal years, the Fund's performance has shown strong results, and has generally been competitive with the Morgan Stanley Capital International Mexico Index and the Bolsa IPC Index, as shown in the chart below.

Discount Reduction Efforts

Discounts of closed-end funds increased to record levels during fiscal 2008 as a consequence of investors' aversion towards equity investments and the crisis facing funds that issue auction preferred rate shares. The discount between the Fund's market price and NAV ended October 31, 2008 at 14.68%, compared with 11.8% at the end of fiscal 2007. The Board of Directors closely analyzes and continues to monitor the Fund's discount levels, and has implemented an MDP, as described below.

Declaration of Dividends Under MDP

On September 4, 2008, the Fund announced that it had received authorization from the SEC to distribute long-term capital gains to stockholders more frequently than once per year. Accordingly, the Board of Directors formally approved the implementation of a MDP to make quarterly cash distributions to stockholders. On September 24, 2008 and November 25, 2008, the Fund paid cash dividends each of \$1.13 per share, the equivalent of 3% of the Fund's NAV per share as of July 31, 2008. The Fund will pay another dividend of \$1.2388 per share on January 5, 2009 to stockholders of record on December 18, 2008. Together, these three distributions corresponding to fiscal 2008 represent 21.1% of the Fund's market price at the end of October 2008. These distributions were comprised entirely of realized long-term capital gains. You should not draw any conclusions about the Fund's investment performance from the amount of these distributions or from the terms of the MDP.

Table of Contents

The Mexico Fund, Inc.

In light of current market circumstances, the Board has decided to reduce from 12% to 10% of NAV the amount of annual distributions that the Fund will pay to stockholders under the MDP during 2009. The Fund intends to pay quarterly cash dividends during April, July and October 2009 and January 2010, each for 2.5% of the NAV per share as of December 31, 2008. The MDP will be subject to regular periodic review by the Fund's Board of Directors.

With each distribution, the Fund will issue a notice to stockholders and an accompanying press release which will provide detailed information regarding the amount and composition of the distribution and other information required by the Fund's exemptive order. The Fund's Board of Directors may amend or terminate the MDP at any time without prior notice to stockholders; however, at this time, there are no reasonably foreseeable circumstances that might cause the termination of the MDP.

Non-Fundamental Investment Policy Change

The Fund has had a non-fundamental investment policy of investing at least 80% of its total assets in equity securities listed on the Mexican Stock Exchange. In December 2008, the Fund's Board of Directors approved a change to this investment policy. Effective March 1, 2009, the Fund may invest at least 80% of its total assets in equity securities listed on the Mexican Stock Exchange, but may reduce its holdings in equity securities listed on the Mexican Stock Exchange below 80% of its total assets for temporary defensive purposes when unusual market or economic conditions occur.

Concentration Policy

The Fund has adopted a concentration policy that permits it to concentrate its investments in any industry or group of industries in the IPC Index (or any successor or comparable index as determined by the Board of Directors to be an appropriate measure of the Mexican market) if, at the time of investment, such industry represents 20% or more of the IPC Index; provided, however, that the Fund will not exceed the IPC Index concentration by more than 5%.

At the end of October 2008, the only industry group that represented 20% or more of the value of the securities included in the IPC Index is the communications industry group. This industry includes local, long-distance, and cellular telephone companies, as well as broadcast and media companies. Approximately 85.32% of this industry group is comprised of stocks of telecommunications companies. At the end of October 2008, 30.69% of the Fund's net assets were invested in this industry group. This is compared with the communications industry group's weighting of approximately 39.77% of the IPC Index. The Fund's Investment Adviser will continue to evaluate the concentration in this industry and may, at its discretion, choose not to concentrate in this industry group in the future or to concentrate in other industries subject to the concentration policy described above.

The Mexico Fund, Inc.

Periodic Repurchase Offer Authority

On March 6, 2002, the Fund announced the Board's approval of a policy to conduct periodic in-kind repurchase offers at no less than 98% of NAV for up to 100% of the Fund's outstanding shares. This policy is intended to provide additional liquidity to Fund shares and to reduce the discount at which Fund shares have been trading on the NYSE. Under this policy which was approved by stockholders and is the subject of exemptive relief granted by the Securities and Exchange Commission (SEC), the Fund offers to repurchase no less than five percent of the Fund's outstanding shares each fiscal year, based on the number of shares outstanding at the beginning of the fiscal year. Repurchase offers are in-kind and conducted at least once each fiscal year, but not more frequently than quarterly, and are for between one and one hundred percent of the Fund's outstanding shares. The Board can set or reset the periodic interval between repurchase offers at three, six or twelve months. The Board of Directors of the Fund has announced that the Fund's next repurchase offer will occur during March 2009 for an amount not yet determined.

The repurchase offers are not part of a plan to liquidate the Fund. Stockholder participation in the repurchase offers is not mandatory as stockholders can continue to purchase and sell Fund shares in cash transactions on the NYSE. The Fund continues to provide a convenient professionally managed vehicle for investing in Mexico.

Bylaw Amendments

The Board of Director approved certain changes to the Fund's Bylaws at its September 18, 2008 meeting. The most significant changes are summarized herein:

Special Meetings of Stockholders These revision update the procedures required for stockholders to call a special meeting of stockholders, including provisions that (a) clarify which stockholders may call a special meeting, and (b) expand the information required to be provided by stockholders requesting a special meeting (such information could include information regarding a stockholder's ownership of shares or other information required to comply with the federal proxy rules).

Voting and Inspector These revisions empower the Board or the chairman of the stockholders' meeting to appoint an inspector for any matter, rather than solely with respect to the election of directors.

Table of Contents

The Mexico Fund, Inc.

Advance Notice of Stockholder Nominations for Director and Other Stockholder Proposals These revisions update the advance notice provisions for stockholder nominations for director and stockholder business proposals. The purpose of these provisions is to provide the Board with sufficient time and information to adequately consider and respond to a stockholder nomination or proposal.

Timing of Notice for Annual Meetings The Bylaws formerly required advance notice of director nominations and other stockholder proposals to be brought at an annual stockholders meeting at least 90 and not more than 120 days prior to the first anniversary of the previous year's annual stockholders meeting. The Bylaws now require advance notice of director nominations and other stockholder proposals to be brought at an annual stockholders meeting not earlier than the 150th day and not later than 5:00 p.m., Eastern Time, on the 120th day prior to the first anniversary of the date of the preceding year's proxy statement.

Timing of Notice for Special Meetings The Bylaws formerly required a 90/120-day advance notice period for director nominations to be brought at a special stockholders meeting. The Bylaws now require notice of director nominations at a special meeting to be delivered not earlier than the 150th day and not later than 5:00 p.m., Eastern Time, on the 120th day prior to the date of any special meeting or, if later, the tenth day after announcement of the meeting date and the Board's nominees.

Content of Notice The revisions (a) expand the information required to be provided by the stockholder making the proposal or nomination, including information regarding the hedging activities and investment strategies of such stockholder and the stockholder's affiliates, and (b) establish procedures for verifying and updating information provided by the stockholder making the proposal. These revisions are intended to promote good corporate governance by providing the Board and stockholders with important information about a proposing stockholder's economic interest in the Fund and whether it is aligned with the interests of other stockholders.

Reliance This revision clarifies that directors and officers may rely on information prepared or presented by others whom the director or officer reasonably believes to be reliable and competent in the matters presented.

Ratification This revision clarifies the power of the Board and stockholders to ratify prior actions or inactions by the Fund, and provide that matters questioned in litigation may be ratified, and that any such ratification bars any claim or execution of any judgment as to such questioned matter.

Emergency Provisions This revision provides the Board with procedural flexibility in the event of an emergency (e.g., a shorter prior notice period and reduced quorum requirement for Board meetings).

Delegation of Board Power to Committees This revision eliminate unnecessary language restricting the Board's power to delegate various matters to committees so that the Bylaws will be no more restrictive than required by applicable law.

Table of Contents

The Mexico Fund, Inc.

Fixing of Record Date Under Maryland law, a meeting of stockholders may be adjourned to a date not more than 120 days after the original record date without notice other than announcement at the meeting. The revisions clarify that if a meeting of stockholders is adjourned to a date more than 120 days after the original record date, a new record date must be set for the same meeting. If this procedure is followed, any proxies previously solicited from stockholders who continue to be stockholders as of the new record date remain valid.

Indemnification and Insurance The Bylaws now provide that directors and officers are entitled to indemnification, and that the Fund may pay or reimburse expenses of directors and officers, to the maximum extent permitted by Maryland law and the Investment Company Act of 1940, as amended (1940 Act).

Dividend Reinvestment Plan

The Fund's Dividend Reinvestment Plan (the "Plan") provides a convenient way to increase your holdings in the Common Stock of the Fund through the reinvestment of net investment income and capital gain distributions. Under the terms of the Plan, Fund shareholders are automatically enrolled as participants in the Plan. If you do not wish to participate in the Plan, please contact the Plan Agent. Upon any termination of participation under the Plan, the Plan Agent will cause a share certificate for the appropriate number of full shares to be delivered to the participant along with a cash adjustment for any fractional shares. At a stockholder's request, the Plan Agent will sell the participant's shares and remit any proceeds to the participant, net of brokerage commissions. Stockholders who do not participate in the Plan will receive all distributions in cash.

Under the terms of the Plan, whenever the Fund declares a distribution, Plan participants will receive their distribution entirely in shares of Common Stock purchased either in the open market or from the Fund. If, on the date a distribution becomes payable or such other date as may be specified by the Fund's Board of Directors (the valuation date), the market price of the Common Stock plus estimated brokerage commissions is equal to or exceeds the NAV per share of Common Stock, the Plan Agent will invest the distribution in newly issued shares of Common

commissions is lower than the NAV per share, the Plan Agent will buy Common Stock in the open market. As a participant in the Plan, you will be charged a *pro-rata* portion of brokerage commissions on all open market purchases.

If your shares are registered or will be registered in the name of a broker-dealer or any other nominee, you must contact the broker-dealer or other nominee regarding his or her status under the Plan, including whether such broker-dealer or nominee will participate in the Plan on your behalf. Generally, shareholders receiving Common Stock under the Plan will be treated as having received a distribution equal to the amount payable to them in cash as a distribution had the stockholder not participated in the Plan.

** Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the last business day of each period reported. Dividends and distributions, if any, are assumed to be reinvested at the lower of the net asset value or the closing market price on the dividend/distribution day. For fiscal 2004, the total return was calculated assuming a sale of the rights received on September 22, and reinvested in stock at the closing market price of that date. For fiscal, 2007, the total return was calculated assuming a sale of the rights received on March 26, and reinvested in stock at the closing market price of that date. If the distribution corresponding to long-term capital gains in fiscal 2007 were taken in stock, which was issued at \$38.95 per share, the total return would have been 37.16%. If the distribution corresponding to long-term capital gains in fiscal 2008 were taken in stock, which was issued at \$32.92 per share, the total return would have been (56.64)%.

The Mexico Fund, Inc. (the Fund) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a closed-end non-diversified management investment company. The investment objective of the Fund is to seek long term capital appreciation through investment in securities, primarily equity, listed on the Mexican Stock Exchange.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for the period. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund.

Valuation of investments Investments in which the principal exchange is on the Mexican Stock Exchange are valued at the closing price reported by the Mexican Stock Exchange. The closing price represents the weighted average for the last twenty minutes of operations in any business day. Investments in which the principal exchange is the New York Stock Exchange are valued at the last sale price. Short-term securities with remaining maturities of less than 60 days at the time of purchase are carried at cost, plus accrued interest, which approximates market value. All other securities are valued in accordance with methods determined by the Board of Directors. If the Board of Directors believes that the price of a security obtained under the Fund's valuation procedures does not represent the amount that the Fund reasonably expects to receive on a current sale of the security, the Fund will value the security based on a method that the Board believes accurately reflects fair value.

Security transactions and investment income Security transactions are recorded on the date which the transactions are entered into (the trade date). Dividend income is recorded on the ex-dividend date and interest income is recorded as earned.

Foreign Currency The market value of Mexican securities, currency holdings and other assets and liabilities denominated in Pesos (Ps.) was recorded in the financial statements after being translated into U.S. dollars based on the open market exchange rate prevailing in Mexico City at the end of the period. The open market exchange rate at October 31, 2008 was Ps.12.7125 to \$1.00.

The identified cost of portfolio holdings is translated at approximate rates prevailing when acquired. Income and expense amounts are translated at approximate rates prevailing when earned or incurred.

The Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of securities during the year. Accordingly, the net realized and unrealized gain on investments presented in the accompanying financial statements include the effects of both such changes.

Table of Contents

The Mexico Fund, Inc.

Reported net realized foreign exchange gains or losses arise from sales of short-term securities in exchange of cash, payment of services or functional currency denominated assets, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded by the Fund, and the U.S. dollar equivalent of the amount actually received or paid.

Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments in common stocks, resulting from changes in the exchange rate.

Repurchase Agreements The Fund enters into repurchase agreements with approved institutions. The Fund's repurchase agreements are fully collateralized by Mexican or U.S. Government securities. The Fund takes possession of the collateral and the Fund's investment adviser monitors the credit standing of repurchase agreement counterparties. It is the Fund's policy that the fair value of the collateral be at least equal to the principal amount of the repurchase transaction, including accrued interest, at all times. If the counterparty defaults, and the fair value of the collateral declines, realization of the collateral by the Fund may be delayed or limited.

Realized gains and losses on investments Realized gains and losses on investments are determined on the identified cost basis.

Taxes No provision has been made for U.S. income or excise taxes for the year ended October 31, 2008 on net investment company taxable income or net long-term capital gains as defined by the Internal Revenue Code (the Code), since the Fund intends to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of such income to its stockholders.

In July 2006, the Financial Accounting Standards Board issued Interpretation 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement 109 (FIN 48). FIN 48 clarifies the accounting for income taxes prescribing the minimum recognition threshold a tax position must meet before being recognized in the financial statements. The Fund adopted FIN 48 on November 1, 2007. An assessment of the Fund's tax positions has determined that there is no impact to the Fund's financial statements.

Each of the Fund's federal income tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

Dividends to stockholders from net investment income are determined based on Federal income tax regulations, whereas the corresponding net investment income as reflected in the accompanying financial statements is presented in accordance with accounting principles generally accepted in the United States. Net realized gains from security transactions are distributed annually to stockholders.

Dividends to stockholders Cash dividends are recorded by the Fund on the ex-dividend date. Dividends paid to stockholders may be subject to Mexican withholding taxes.

Risks of Investment in Mexican Securities Investing in Mexican securities involves certain considerations not typically associated with investing in securities of U.S. issuers, including (1) lesser liquidity and smaller market capitalization of the Mexican securities markets, (2) currency fluctuations, (3) higher rates of inflation and domestic interest rates and (4) less stringent disclosure requirements, less available information regarding Mexican public companies and less active regulatory oversight of Mexican public companies.

The Mexican Stock Exchange is a concentrated market. A large percentage of the value of the Mexican securities market is currently represented by certain industry sectors, in particular, the communications industry. Also, a certain individual has a controlling interest in companies representing over 40% of the market capitalization of the Mexican Stock Exchange. The value of the Mexican Stock Exchange may be subject to greater volatility than markets that are less concentrated. Any factors or events which impact this individual could have negative repercussions for the issuers in which he holds a controlling interest, including certain Fund investments and the Mexican Stock Exchange as a whole.

Recently Issued Accounting Pronouncements In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) 157, Fair Value Measurements, which clarifies the definition of fair value and requires companies to expand their disclosure about the use of fair value to measure assets and liabilities in interim and annual periods subsequent to initial recognition. Adoption of SFAS 157 requires the use of the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. At this time, the Fund is in the process of reviewing the Standard against its current valuation policies to determine future applicability.

2. Investment Advisory Agreement:

The Fund has a management contract with Impulsora del Fondo México, S.C. (the Adviser), a Mexican company registered under the U.S. Investment Advisers Act of 1940. The Adviser furnishes investment research and portfolio management services consistent with the Fund's stated investment policies. The Fund pays to the Adviser a monthly fee at the annual rate of 1.00% on the first \$200 million of average daily net assets, 0.90% on the excess over \$200 million up to \$400 million and 0.60% on the excess over \$400 million.

3. Administrative Services Agreement:

The Fund has entered into an Administrative Services Agreement with the Adviser, which provides for certain services to be performed by the Adviser,

including among other administrative activities, the determination and publication of the net asset value of the Fund, the maintenance of the Fund's books and records in accordance with applicable U.S. and Mexican Laws and assistance in the preparation and filing of annual reports and tax returns. The Fund pays to the Adviser a monthly fee at the annual rate of 0.11% on the first \$600 million of average daily net assets, and 0.09% on the excess over \$600 million, with a minimum amount of \$450,000 per year. Additionally, the Adviser receives a fee of \$75,000 per repurchase offer made by the Fund under the program, which is recorded as part of the total expenses of each offer. See Note 7.

4. Purchases and Sales of Investments:

Purchases and sales of investments, excluding short-term securities, for the year ended October 31, 2008 were as follows:

Purchases		
Common Stock	\$	177,442,860
Total Purchases	\$	177,442,860
Proceeds from Investments Sold		
Common Stock	\$	399,359,058
Total Sales	\$	399,359,058

Included in proceeds from investments sold is \$59,374,857 representing the value of securities disposed of in payment of redemptions in-kind, resulting in realized gains of \$16,602,485. Pursuant to a private letter ruling from the Internal Revenue Service, granted to the Fund, these gains are not recognized by the Fund for tax purposes. As a result, net realized gains differ for financial statement and tax purposes. These realized gains have been reclassified from undistributed realized gains on investments to additional paid in capital in the accompanying financial statements

5. Capital Stock:

At October 31, 2008, there were 150,000,000 shares of \$1.00 par value common stock authorized, of which 18,100,290 shares were outstanding.

The Fund offers a Dividend Reinvestment Plan (Plan) to its stockholders. Fund stockholders are automatically enrolled as participants in the Plan unless they notify the Fund's transfer agent otherwise.

shares, which amounted to \$20,258,664. The net asset value per share of the Fund's common stockholders was reduced by approximately \$0.18 per share as a result of this issuance.

In connection with a rights offering by the Fund, stockholders of record on March 22, 2007 were issued one transferable right for each share of common stock owned. The rights entitled the holders to purchase one new share for every three rights held at a subscription price equal to 95% of the lower of (i) the average of the last reported sale prices of a share of the Fund's common stock on the NYSE on the expiration date (April 20, 2007) and the four preceding trading days and (ii) the net asset value per share on the expiration date. On April 30, 2007, the Fund issued 5,021,908 shares of common stock at a weighted average price of \$38.872 per share. Rights offering costs of \$591,673 (\$0.03 per share) and dealer manager commissions of \$6,832,412 (\$0.34 per share) were charged to paid in capital of common stockholders resulting in net proceeds to the Fund of \$187,787,688. The net asset value per share of the Fund's common stockholders was reduced by approximately \$3.06 per share as a result of this issuance, which includes the effect of the dealer manager commissions and rights offering costs.

On December 4, 2007, the Board of Directors declared a stock dividend of \$97,876,754. This dividend was paid in shares of common stock of the Fund, and in cash by specific election. Some stockholders selected the stock dividend, therefore on January 22, 2008 the Fund issued 1,029,467 shares, which amounted to \$33,890,041. The net asset value per share of the Fund's common stockholders was reduced by approximately \$0.20 per share as a result of this issuance.

6. Distributions to Stockholders:

On August 12, 2008, the Fund received authorization from the Securities and Exchange Commission (SEC) which permits the Fund to distribute long-term capital gains to stockholders more than once per year. Accordingly, the Board of Directors approved the implementation of a Managed Distribution Plan (MDP) to make quarterly cash distributions to stockholders. Under the policy, distributions will be made from current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital. The first distribution for \$1.13 per share was paid on September 24, 2008 and a second distribution for the same amount was paid on November 25, 2008, each the equivalent of 3% of the Fund's net asset value (NAV) per share as of July 31, 2008. In light of current market circumstances, the Board has decided to reduce from 12% to 10% of NAV the amount of annual distributions that the Fund will pay to stockholders under the MDP during 2009. The Fund intends to pay quarterly dividends distributions during the months of April, July and October 2009 and January 2010, each for 2.5% of the NAV per share as of December 31, 2008. The MDP will be subject to regular periodic review by the Fund's Board of Directors.

Table of Contents**The Mexico Fund, Inc.**

The tax character of distributions paid during the fiscal year ended October 31, 2008 and October 31, 2007 were as follows:

Distributions paid from:		
Ordinary income	\$ 17,076,007	\$ 6,441,465
Long term capital gains	119,406,627	54,233,393
Total distributions paid	\$ 136,482,634	\$ 60,674,858

Accumulated capital gains	\$ 42,875,848

Total accumulated earnings	\$ (27,441,665)

At October 31, 2008, the cost of investments for federal income tax purposes was \$423,249,471. Gross unrealized appreciation of investments was \$48,456,825 and gross unrealized depreciation of investments was \$119,309,797 resulting in net unrealized depreciation on investments of \$70,852,972 excluding foreign currency transactions. The difference between book-basis and tax basis unrealized appreciation/(depreciation) is attributable primarily to different book and tax treatment on corporate reorganizations to securities held by the Fund.

7. Stock Repurchase Program:

8. Investments:

Certain members of the Board of Directors of the Fund are also members of Boards of Directors of certain companies held in the Fund's portfolio.

9. Commitments and Contingencies:

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties or which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

¹ The term Auditor, as used in these procedures, means the firm engaged to provide the Fund with services listed in Appendix A.

² Examples of types of non-audit services that may be provided to the Fund or a Service Affiliate are listed in Appendix B. **Note that** applicable law also prohibits the provision of certain services by the Auditor to entities in the investment company complex. The investment company complex includes Service Affiliates and other entities. These prohibited services are listed in Appendix C. Investment Company Complex Entities are also listed in Appendix C.

Table of Contents

The following policies and procedures govern the ways in which the Fund's Audit Committee will consider the pre-approval of audit and non-audit services that the Auditor provides to the Fund, and Covered Non-Audit Services that the Auditor proposes to provide to Service Affiliates.³ These policies and procedures do not apply in the case of audit services that the Auditor provides to Service Affiliates, nor do they apply to any services that an audit firm other than the Auditor provides to such entities.

These policies and procedures comply with applicable legal requirements for pre-approval, and also provide a mechanism by which management of the Fund and any Service Affiliates may request and secure pre-approval of audit and non-audit services in an orderly manner with minimal disruption to normal business operations.

The following policies and procedures are adopted by the Audit Committee of the Fund.

A. General

1. The Audit Committee must pre-approve all audit services and non-audit services that the Auditor provides to the Fund.

B. Pre-Approval of Audit Services to the Fund

1. The Audit Committee shall approve the engagement of the Fund's Auditor for each fiscal year (the Engagement). The approval of the Engagement shall not be delegated to a Designated Member. (See Section D below.) In approving the Engagement, the Audit Committee shall obtain, review and consider information concerning the proposed Auditor sufficient to enable the Audit Committee to make a reasonable evaluation of the Auditor's qualifications and independence. The Audit Committee also shall consider the Auditor's proposed fees for the Engagement, in light of the scope and nature of the audit services that the Fund will receive.
2. The Audit Committee shall report to the Fund's board of directors (Board) regarding its approval of the Engagement and of the proposed fees for the Engagement, and the basis for such approval.
3. Unless otherwise in accordance with applicable law, the Engagement, in any event, shall require that the Auditor be selected by the vote, cast in person, of a majority of the members of the Board who are not interested persons of the Fund (as defined in Section 2(a)(19) of the Investment Company Act of 1940) (Independent Directors).

³ Unless otherwise indicated by the context, the term non-audit services herein includes Covered Non-Audit Services for Impulsora, as well as non-audit services for the Fund.

1. The Audit Committee may pre-approve the provision of types or categories of non-audit services for the Fund and Covered Non-Audit Services for Service Affiliates pursuant to this Section C.
2. Annually, at such time as the Audit Committee considers the Engagement of the Auditor, management of the Fund and of any Service Affiliates, in consultation with the Auditor, shall provide to the Audit Committee, for its consideration and action, the following: (a) a list of those types of non-audit services, if any, that the Fund expects to request from the Auditor during the fiscal year; and (b) a list of those types of Covered Non-Audit Services that Services Affiliates expect to request from the Auditor during the fiscal year.
3. The lists submitted to the Audit Committee shall describe the types of non-audit services in reasonable detail and shall include an estimated budget (or budgeted range) of fees where possible and such other information as the Audit Committee may request.
4. The Audit Committee, after appropriate consideration of such information as it deems relevant, may pre-approve a non-audit service that is not a prohibited service (see Appendix C) if it specifically finds that the provision of such service is consistent with, and will not impair, the ongoing independence of the Auditor (the Standard for Pre-Approval). In connection with any such pre-approval, the Audit Committee may set such limits on fees and other conditions as it believes to be appropriate.
5. The Audit Committee s pre-approval of the types of non-audit services submitted pursuant to this Section C shall constitute authorization for management of the Fund to utilize the Auditor for services qualifying within the types of non-audit services so pre-approved, if needed or desired during the fiscal year, subject to such conditions as may have been set by the Audit Committee.
6. Fund management will distribute a list of the types of non-audit services pre-approved by the Audit Committee pursuant to this Section C to management of the Service Affiliates and the appropriate partners of the Auditor. Periodically, the Auditor will discuss with the Audit Committee those non-audit services that have been or are being provided pursuant to this Section C.

D. Pre-Approval of Non-Audit Services to the Fund and to Service Affiliates Project-by-Project Basis

1. Non-audit services may be pre-approved on a project-by-project basis pursuant to this Section D, subject to the Standard for Pre-Approval in Section C.

pre-approved in accordance with these Procedures and (iii) any proposed material change in the nature or cost of any non-audit service, including any Covered Non-Audit Service, previously approved. The authority delegated to the Designated Member shall be subject to such conditions as the Audit Committee may specify by resolution from time to time.

3. Management of the Fund or of Impulsora, in consultation with the Auditor, may submit either to the Audit Committee or to a Designated Member for its consideration and action, a pre-approval request identifying one or more non-audit service projects for the Fund or Covered Non-Audit Service projects for Impulsora, as well as any material changes proposed in a service that has been pre-approved. Any request so submitted shall describe the project or projects in reasonable detail and shall include an estimated budget (or budgeted range) of fees and such other information as the Audit Committee or Designated Member shall request. For any material change in the nature or cost of a pre-approved service, the request shall also describe reasons why the change is requested.
4. The Audit Committee or Designated Member, as applicable, will review the requested non-audit service or proposed material change in such service in light of the Standard for Pre-Approval in Section C. If the review is by a Designated Member, such Designated Member will either:
 - (a) pre-approve, pre-approve subject to conditions, or disapprove any such requested service, or any proposed material change in such service, whether to the Fund or to Impulsora; or
 - (b) refer such matter to the full Audit Committee for its consideration and action.

In considering any requested non-audit service or proposed material change in such service, the Designated Member shall take into account any restrictions placed by the Audit Committee on his pre-approval authority.

5. The Designated Member's pre-approval (or pre-approval subject to conditions) of a requested non-audit service or proposed material change in service pursuant to this Section D shall constitute authorization for the management of the Fund or Impulsora, as the case may be, to utilize the Auditor for the non-audit service so pre-approved. Any action by the Designated Member in approving a requested non-audit service shall be presented for ratification by the Audit Committee not later than at its next regularly scheduled meeting.

E. Covered Non-Audit Services Provided to Covered Entities Pursuant to Waiver

Note: It is generally expected that non-prohibited non-audit services, even when they do not involve significant fees, will be pre-approved in accordance with Section C or D.

1. The Act provides a limited exception to the requirement that non-audit services (that are not prohibited services) must be pre-approved. This exception is designed to prevent the disqualification of the Auditor due to a minor oversight and is to be used only rarely and only if each of the following conditions is satisfied:
 - (a) The aggregate fees and costs of all non-audit services (including Covered Non-Audit Services) that, but for the limited exception provided by this Section E, would require pre-approval by the Audit Committee constitutes no more than five percent of the total fees and costs paid by the Fund and Service Affiliates to the Auditor during the fiscal year during which such non-audit services are provided;

THE MEXICO FUND, INC.

PROXY VOTING POLICY AND PROCEDURES

I. Statement of Policy

The following are general proxy voting policies and procedures (Policies and Procedures) adopted by The Mexico Fund, Inc. (the Fund) and by the Board of Directors (Board) of the Fund with respect to voting securities held by the Funds. These Policies and Procedures are adopted to ensure compliance with Rule 30b1-4 of the Investment Company Act of 1940, as amended (the 1940 Act) and other applicable obligations of the Fund under the rules and regulations of the Securities and Exchange Commission (SEC) and interpretations of its staff (Staff). It is the policy of the Fund to seek to assure that proxies received by the Fund are voted in the best interests of the Fund s stockholders.

Table of Contents

II. Definitions

A. Best interests of Fund stockholders - means stockholders' best economic interest over the long term, *i.e.*, the common interest that all stockholders have in seeing the value of a common investment increase over time. Stockholders may have differing political or social interests, but their best economic interest is generally uniform.

B. Conflict of interest - means circumstances when a proxy vote presents a conflict between the interests of Fund stockholders, on the one hand, and those of the Fund's investment adviser, principal underwriter, or an affiliated person of the Fund, its investment adviser, or principal underwriter, on the other, in how proxies are voted. In practical terms, these circumstances generally would arise when the Fund's investment adviser knowingly does business with a particular proxy issuer or closely affiliated entity, and may appear to have a material conflict between its own interests and the interests of stockholders in how proxies of that issuer are voted. A conflict might exist in circumstances when the Fund's investment adviser has actual knowledge of a material business arrangement between a particular proxy issuer (or closely affiliated entity) and the parent company or a corporate affiliate of the Fund's investment adviser.

III. Delegation of Responsibility for Proxy Voting

A. The Fund's Board annually evaluates its Fund's contract with its investment adviser, and decides whether to renew the contract. This process gives the Fund an annual opportunity to ensure that investment adviser's investment philosophy is generally consistent with its investment objectives and the best economic interests of its stockholders.

B. Because the investment philosophy of the Fund's investment adviser is generally consistent with the investment objectives of the Fund and the best economic interests of Fund stockholders, investment decisions for the Fund should generally be consistent with its investment adviser's philosophy. In proxy voting decisions, as in other investment decisions, the Fund's investment adviser is in the best position to determine whether a particular proxy proposal is consistent with its philosophy, and therefore generally consistent with the investment objectives of the Fund and the best economic interests of Fund stockholders.

C. Accordingly, the Fund has chosen to delegate all responsibility for proxy voting to its investment adviser, provided that the Fund's Board has the opportunity to periodically review and approve its proxy voting policies and any material amendments (and that the policies contains provisions to address any conflicts of interest as described below). Under this delegation, the investment adviser may vote, abstain from voting, or take no action on proxies for the Fund in any manner consistent with its proxy voting policies (subject to provisions for addressing conflicts of interest). The Fund may revoke all or part of such delegation at any time by a vote of its Board. In the event that the Fund revokes the delegation of proxy voting responsibility to the investment adviser, the Fund will assume full responsibility for ensuring that proxies are voted in the best interest of its stockholders, and will promptly notify stockholders of the revocation. Thereafter, such Fund will vote proxies of portfolio securities consistently with the policies of the investment adviser, or develop its own basis for voting on particular matters.

Table of Contents

D. This delegation generally applies to all proxy voting matters on which the Fund may vote, such as corporate governance matters; changes to capital structure, including increases and decreases of capital and preferred stock issuance; stock option plans and other management compensation issues; and social and corporate responsibility issues. This delegation permits the investment adviser to vote (or abstain from voting or take no action on) proxies relating to matters that may affect substantially the rights or privileges of the holders of securities to be voted, and to vote based on the decisions of the investment adviser or on provisions of the investment adviser's proxy policies that may support or give weight to the views of management of a portfolio company.

IV. Conflicts of Interest

A. The Fund recognizes that in unusual circumstances, a conflict of interest in how proxies are voted may appear to exist, such as when its investment adviser knowingly does business with a particular proxy issuer or closely affiliated entity or has actual knowledge of a material business arrangement between a particular proxy issuer or closely affiliated entity, and the adviser's parent or an affiliated subsidiary.

B. In those circumstances, to avoid any appearance concerns, the Fund believes it is appropriate for the investment adviser to follow an alternative voting procedure rather than to vote proxies in the investment adviser's sole discretion. Some examples of acceptable alternative voting procedures for resolving conflicts of interest include the following:

- (1) Causing the proxies to be voted in accordance with the recommendations of an independent service provider, if available, that the investment adviser may use to assist it in voting proxies;
- (2) Notifying the Fund's Board, a designated Board committee or a representative of either, of the conflict of interest and seeking a waiver of the conflict to permit the investment adviser to vote the proxies as it chooses under its usual policy; or
- (3) Forwarding the proxies to the Fund's Board, a designated Board committee or a representative of either, so that the Board, the committee or the representative may vote the proxies itself.

C. The Fund generally delegates all responsibility for resolving conflicts of interest to the Fund's investment adviser, provided that the investment adviser's proxy voting policy (as approved by the Fund's Board) includes acceptable alternative voting procedures for resolving material conflicts of interest, such as the procedures described above. Under this delegation, the investment adviser may resolve conflicts of interest in any reasonable manner consistent with the alternative voting procedures described in its proxy voting policy. The Fund may revoke all or part of this delegation at any time by a vote of its Board. In the event that the Fund revokes the delegation of responsibility for resolving conflicts of interest to the investment adviser, the Fund will seek to resolve any conflicts of interest in the best interest of stockholders. In doing so, the Fund may follow any of the procedures described in Paragraph IV.B., above.

V. Disclosure of Policy or Description/Proxy Voting Record

A. The Fund will disclose its proxy voting policy or a description of it (and the investment adviser's proxy voting policy, or a description of them), in the Fund's annual report on

Form N-CSR (beginning with the first annual report filed on or after July 1, 2003). Upon any request for a proxy voting policy or description of it, the policy or the description (or a copy of the most recent annual report containing the policy or description) will be sent by first-class mail or other equally prompt delivery method within three business days of receipt of the request.

B. Upon any request for the Fund's proxy voting record, a copy of the information disclosed in its most recent Form N-PX will be sent by first-class mail or other equally prompt delivery method within three business days of receipt of the request.

C. The Fund will file Form N-PX, completed and signed in the manner required, containing its proxy voting record for the most recent twelve-month period ended June 30 with the SEC (beginning August 31, 2004).

D. The Fund will disclose the following information on Form N-PX for each matter relating to a portfolio security considered at any stockholder meeting held during the period covered by the report and with respect to which the Fund was entitled to vote:

The name of the issuer of the portfolio security;

The exchange ticker symbol of the portfolio security except to the extent not available through reasonably practicable means;

The Council on Uniform Securities Identification Procedures (CUSIP) number for the portfolio security except to the extent not available through reasonably practicable means;

The stockholder meeting date;

A brief identification of the matter voted on;

Whether the matter was proposed by the issuer or by a security holder;

Whether the Fund cast its vote on the matter;

How the Fund cast its vote (*e.g.*, for or against proposal, or abstain; for or withhold regarding election of directors); and

Whether the Fund cast its vote for or against management.

IMPULSORA DEL FONDO MÉXICO, SC

PROXY VOTING POLICIES AND PROCEDURES

I. Introduction.-

To comply with the Rule 206(4)-6 and certain provisions of Rule 204-2 under the Investment Advisers Act of 1940, as amended (the Advisers Act), as well as other applicable fiduciary obligations under rules and regulations of the U.S. Securities and Exchange Commission (SEC) and interpretations of its staff, Impulsora del Fondo México, SC (the Adviser) has adopted these Proxy Voting Policies and Procedures.

In developing the Proxy Voting Policies and Procedures, the Adviser has taken into account the substantial differences between proxy voting at stockholders meetings held in the United States of America and proxy voting in Mexico. The Proxy Voting Policies and Procedures are reasonably designed to ensure that proxies are voted in the best interests of The Mexico Fund, Inc. (the Fund)(to the extent that the Fund is the Adviser s only client at this time) and its stockholders, in accordance with the Adviser s fiduciary duties and Rule 206(4)-6 under the Advisers Act. Best interests means the Fund s best economic interest over the long term, that is, the common interest that all clients of an investment adviser share in seeing the value of a common investment increase over time.

These Proxy Voting Policies and Procedures incorporate the principles and guidance set forth in Investment Advisers Act Release No. IA-2106 for investment advisers and IC-25922 for investment companies to the extent applicable to the Fund. These Proxy Voting Policies and Procedures shall be reviewed by the Board of the Adviser annually and may be amended as required to comply with applicable law and to reflect changes in proxy voting and stockholders meetings in Mexico.

Table of Contents

II. Stockholders Meetings and Proxy Voting in Mexico

In Mexico, issuers typically do not send proxy voting materials to their stockholders. A stockholders meeting is called through the publication of the call and the agenda in a major newspaper in Mexico or the Official Bulletin. The calls are issued by the Board of Directors of the issuers and, occasionally by the Statutory Auditors. The only information disclosed to stockholders is the Agenda for the meeting. Materials addressing some of the topics included in the Agenda are generally available at the offices of the issuer.

Stockholders meetings in Mexico are considered Ordinary, Extraordinary or Special depending on the topics that are submitted for approval.

Annual Ordinary Stockholders meetings are called for the purpose of: (i) approving the Annual Report of the Board of Directors to stockholders, which includes the audited Annual Financial Statements; (ii) declaring dividends; (iii) electing Directors and other Officers and (iv) approving the compensation to Directors and other Officers.

Extraordinary Stockholder meetings are called to address topics such as dissolution and liquidation of the corporation, increase or reduction of the capital stock, transformation, merger or spin-up, issuance of preferential stock or bonds and amendment to the issuers By-laws. Special meetings are called to adopt resolutions on issues that require a vote from a particular Series or Class of shares.

There is no proxy solicitation effort as in the United States of America. Typically, there is only one call approved by the Board of Directors or Statutory Auditors for each stockholders meeting.

III. Policies.- (Principles)

A. The Adviser has the fiduciary obligation to vote at the stockholders meetings called by the issuers of securities held in the portfolio of its clients. It must be noted, though, that some portfolio holdings are of Series A shares which do not have voting power. In these cases, the Adviser only attends stockholders meetings as an observer.

Table of Contents

B. The Adviser must exercise its voting authority in the best interests of its client and must not subrogate a client's interest to its own.

C. The Adviser must monitor corporate events relating to issuers in which it has invested client assets and seek to obtain all relevant information about its investments for a client.

D. In accordance with the procedures specified below, the Adviser must identify the cases when it may be faced with a potential material conflict of interest in voting shares of portfolio investments in the best interest of its clients. A material conflict of interest may exist when the Adviser or its representatives knowingly does business or is otherwise associated with a particular issuer or closely affiliated entity of the issuer in which client assets are invested, which may appear to create a material conflict between the interests of the Adviser and the interests of the client in how proxies are voted. At this time, since the Fund is the Adviser's only client, potential conflicts of interest could arise where affiliated persons of the Fund or the Adviser have a significant investment in the securities (5% or more of the outstanding securities), or are directors, officers or employees, of a given issuer in which the Fund is invested. Whether such a conflict is material will depend on the facts and circumstances involved.

E. If a potential material conflict of interest exists, the Adviser must exercise its voting authority after careful investigation and research of the issues involved in accordance with the procedures mentioned below. The Adviser could consult with third parties in the cases where the information available is insufficient to make a final judgment on how to vote the securities. In exceptional cases, the Adviser could make the determination that not voting the securities is, under the circumstances, in the best interest of its client.

Table of Contents

IV. Proxy Voting Procedures.-

A. The Adviser's Compliance Officer (Contralor Normativo) will have the responsibility of monitoring corporate events of all of the issuers in a client's investment portfolio. The Adviser's Compliance Officer is responsible for (1) implementing and updating these policies and procedures; (2) overseeing the proxy voting process; (3) consulting with the portfolio manager for the relevant portfolio security; and (4) overseeing voting execution and recordkeeping.

B. The Adviser's Compliance Officer will have the responsibility to obtain all necessary information on the issuer and on the topics included in the Agenda, once a call for any stockholders' meeting is published in accordance with Mexican law.

C. The Adviser's Compliance Officer will identify in which cases, in exercising voting rights, the Adviser could be faced with a potential material conflict of interest. When a material conflict of interest between the Adviser and a client appears to exist, the Adviser may choose among the following options to eliminate such conflict: (1) vote in accordance with these policies and procedures if it involves little or no discretion (*i.e.*, if it is a routine matter); (2) vote as recommended by an independent third party, if available, which has no knowledge of the nature of the material conflict of interest or does not itself have a material conflict of interest; (3) erect information barriers around the person or persons making voting decisions sufficient to insulate the decision from the conflict; or (4) if possible, notify the client of the material conflict of interest and seek a waiver of the conflict.

D. The Adviser's general voting philosophy is as follows:

1) Support existing management on votes on the financial statements of the issuer and the election of the Board of Directors;

Table of Contents

2) Vote for the acceptance of the accounts unless there are grounds to suspect that either the accounts as presented or audit procedures used, do not present an accurate picture of company results; and

3) Support routine issues such as the appointment of independent auditors, allocation of income and the declaration of dividends.

E. If in the opinion of the Adviser's Compliance Officer the matters included in the Agenda are of an extraordinary nature, or an Extraordinary or Special Meeting has been called, he will need to further investigate and analyze all the information and documentation on the subject matter that is available. In this process, he will consult with other officers of the Adviser, and the Adviser's and client's outside legal counsel if necessary, to reach a decision as to how to vote. Such matters will be voted on a case by case basis. Matters which are considered to be of an extraordinary nature include, but are not limited to, delisting of the securities of an issuer in which the Fund has invested from the Bolsa, mergers, spinoffs, and liquidation and dissolution involving an issuer in which the Fund has invested.

F. The Adviser may take a limited role in voting proxies, including abstention or not voting a proxy under the following circumstances:

(1) where the effect on stockholders' economic interests or the value of the portfolio holding is indeterminable or insignificant;

(2) where the costs of voting the proxy are prohibitive; and

(3) in some cases, if the securities are on loan.

V. Disclosure

A. The Adviser will disclose to the Fund and any other clients in the United States its Proxy Voting Policies and Procedures and provide a copy upon request.

Table of Contents

B. The Adviser will provide all necessary information to the Fund, for compliance with its Form N-PX filing on a timely basis.

C. Upon written request from a client, the Adviser will make available a record of how the Adviser voted proxies relating to portfolio securities during the most recent twelve month period ended June 30.

VI. Records

A. The Adviser will maintain records of all proxies voted.

B. As required by Rule 204-2(c), such records will include: (a) a copy of the Policies and Procedures; (b) a copy of any document created by the Adviser that was material to making a decision how to vote proxies on behalf of a client or that memorializes the basis for that decision; and (c) each written request for proxy voting records and the Adviser's written response to any client request for such records.

C. Proxy voting books and records will be maintained in an easily accessible place for a period of five years, the first two in an appropriate office of the Adviser.

VII. Review of Policies and Procedures

These policies and procedures will be subject to review on an annual basis, or more frequently, if deemed appropriate by the Adviser.

VIII. Effective Date

These Proxy Voting Policies and Procedures of the Adviser are effective as of June 19, 2003.

Additionally, all members of the Committee are entitled to the use of a company car, owned by Impulsora.

Criteria on which compensation is based.

The base salary of the individuals identified in the table above in response to paragraph (a)(1) is fixed, and is generally adjusted on an annual basis at a rate similar to the inflation rate in Mexico. Experience and level of responsibility held within the Investment Adviser are taken into account in determining the base salary of each individual.

The annual bonus paid to the individuals identified in the table above in response to paragraph (a)(1) is variable, and depends on the annual performance results of the Investment Adviser. The total amount of bonus paid annually equals 40% of the difference between the Investment Adviser's total income and its fixed costs (operating profit before tax and bonuses). The other half of the bonus is distributed among certain key officers of the Investment Adviser. All of the individuals identified in the table above in response to paragraph (a)(1), as well as the Systems Manager of the Investment Adviser, are considered key officers. The portion of the bonus paid to key officers is determined on the basis of each key officer's contribution to the performance of the Investment Adviser.

The Investment Adviser has a Compensation Committee whose members are appointed by its Board of Directors.
