[Note to XBRL]

Please note that the names of the English accounts contained in XBRL data, which are available through EDINET and TDNet, may be different from those of the English accounts in our financial statements.

1. Qualitative Information related to Financial Statements

(Please refer to Summary Results for the First Quarter of Fiscal 2011 on page 2-1 for more information.)

(1) Qualitative Information related to Consolidated Results of Operations

Reviewing the economic environment during the first quarter of fiscal 2011, the global economy continues to recover gradually overall, but the risk remains of a slackening in the economy due to the fiscal problems experienced by certain countries in Europe, in addition to a movement towards monetary tightening following concerns over the appreciation in the commodity markets and inflation.

In the United States, the economy is slowing as the housing market is sluggish and improvements in consumer spending are coming to a standstill. Regarding the future of the U.S. economy, the risk remains of a slackening in the economy with rising unemployment and the further decline in housing prices and others, and it is difficult to predict federal fiscal trends and the effects following the termination of Quantitative Easing 2 (QE2) at the end of June. In Europe, the Euro-area is maintaining a positive economic growth rate overall, while there is a growing gap between the richer and the poorer countries and there are growing concerns that the fiscal problems experienced by certain countries have a knock-on effect on the financial markets and the real economy. In Asia, the increase in demand in the Chinese market has had an impact, inducing an increase in exports and production activity in neighboring economies, and while the pace of growth is slowing, the region continues to maintain strong economic growth, although there are increasing concerns about inflation.

In Japan, despite the sharp decline in production, exports and personal consumption due to the impact of the Great Eastern Japan Earthquake, there are visible signs of an economic recovery. As for the future direction of the economy, while there are positive factors such as the growing demand for restoring damaged capital assets in the midst of the gradual normalization of production activities, there are also several causes for concern, such as electricity supply constraints, a slowing in economies abroad, and the continuing appreciation of the value of the yen against other currencies and prolonged deflation, and thus the risk remains that these factors will serve as a drag on economic growth.

Under the foregoing business environment, we recorded Net Income of ¥96.3 billion for the first quarter of the fiscal year ending March 31, 2012.

(2) Qualitative Information related to Consolidated Financial Conditions

Consolidated total assets as of June 30, 2011 amounted to ¥156,507.3 billion, decreasing by ¥4,304.6 billion from the end of the previous fiscal year.

Net Assets amounted to ¥6,434.8 billion, decreasing by ¥189.1 billion from the end of the previous fiscal year. Shareholders' Equity amounted to ¥4,207.3 billion, Accumulated Other Comprehensive Income amounted to ¥(6.3) billion, and Minority Interests amounted to ¥2,232.0 billion.

In Assets, the balance of Loans and Bills Discounted amounted to ¥60,820.8 billion, decreasing by ¥1,956.9 billion from the end of the previous fiscal year, while Securities were ¥45,563.5 billion, increasing by ¥781.4 billion from the end of the previous fiscal year. In Liabilities, Deposits amounted to ¥77,678.0 billion, decreasing by ¥1,555.8 billion from the end of the previous fiscal year.

(3) Qualitative Information related to Consolidated Earnings Estimates

As for earnings estimates for fiscal 2011, we estimate Net Income of ¥460.0 billion on a consolidated basis as announced on May 13, 2011.

The above estimates constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995. Please see the forward-looking statements legend for a description of the factors that could affect our ability to meet these estimates.

Summary Results for the First Quarter of Fiscal 2011
I. Summary of Income Analysis**Ø Consolidated Net Business Profits**

Consolidated Gross Profits for the three months ended June 30, 2011 decreased by JPY 81.6 billion on a year-on-year basis to JPY 458.7 billion.

Gross Profits of the banking subsidiaries decreased by JPY 74.4 billion on a year-on-year basis. This was mainly due to a decrease of JPY 68.0 billion in income from Trading and Others. Income from Customer Groups, including domestic business, decreased by JPY 6.4 billion in total, despite an increase in income from overseas business.

G&A Expenses of the banking subsidiaries decreased by JPY 2.5 billion on a year-on-year basis with our continued overall cost reduction efforts.

Aggregated Consolidated Gross Profits (Net Operating Revenues) of our two securities subsidiaries (Mizuho Securities and Mizuho Investors Securities) decreased by JPY 12.4 billion on a year-on-year basis.

As a result, Consolidated Net Business Profits amounted to JPY 128.9 billion, a year-on-year decrease of JPY 88.6 billion.

Ø Consolidated Net Income

Credit-related Costs of the 3 Banks amounted to a net reversal of JPY 16.6 billion, a year-on-year improvement of JPY 9.1 billion, primarily due to improved obligor classifications through our business revitalization support to corporate customers and other factors. Consolidated Credit-related Costs also amounted to a net reversal of JPY 10.6 billion, an improvement of JPY 14.3 billion on a year-on-year basis.

Net Losses related to Stocks of the 3 Banks amounted to JPY 4.3 billion. This was mainly due to recording impairment losses for certain stocks reflecting a decline in stock prices.

Consolidated Net Income for the three months ended June 30, 2011 amounted to JPY 96.3 billion, due to the above mentioned factors and the recording of losses of JPY 20.8 billion for Jusen, housing loan companies. Thus progress is about 25% on our planned net income for full fiscal 2011 (JPY 460 billion), excluding from the calculation the impact of turning the three listed subsidiaries into wholly-owned subsidiaries.

Ø **Net Interest Income**

The average loan balance for the first quarter of fiscal 2011 increased by JPY 0.5 trillion from that of the second half of fiscal 2010. This was due to an increase in domestic loans, particularly those to large corporate customers, and in overseas loans.

The period end loan balance as of June 30, 2011 decreased by JPY 2.1 trillion compared with that of fiscal 2010 (March 31, 2011), almost entirely due to a decrease of JPY 1.8 trillion in loans to the Japanese Government.

The domestic loan-and-deposit rate margin for the first quarter of fiscal 2011 was 1.32%, a decrease of 0.04% from that for the second half of fiscal 2010.

*1 Aggregate of the 3 Banks, excluding Trust Account and loans to Mizuho Financial Group, Inc. Balance for overseas branches includes foreign exchange translation impact

*2 Aggregate figures of domestic operations of Mizuho Bank and Mizuho Corporate Bank after excluding loans to Mizuho Financial Group, Inc., Deposit Insurance Corporation of Japan and the Japanese Government

Ø **Non-interest Income**

Non-interest Income from Customer Groups of the 3 Banks (on a managerial accounting basis) for the first quarter of fiscal 2011 slightly increased on a year-on-year basis to JPY 83.0 billion.

In detail, Non-interest Income from overseas business increased on a year-on-year basis, while income associated with investment trusts and individual annuities, income from solution-related business and income from foreign exchange business remained nearly unchanged from that for the three-month period from April to June 2010.

* Certain items in expenses regarding stock transfer agency business and pension management business, which had been recorded as General and Administrative Expenses until the previous period, have been included in Non-interest Income beginning with this period, and reclassification of the figure for 1Q of FY 2010 has been made accordingly. The impact of the reclassification is -JPY 2.4 billion for 1Q of FY2010 and -JPY 2.3 billion for 1Q of FY2011, respectively

II. Financial Soundness

NPL Ratio remained at a low level of 1.73%.

Unrealized Losses on Other Securities on a consolidated basis amounted to JPY 86.5 billion, a decrease of JPY 87.1 billion from the gain at the end of fiscal 2010 (March 31, 2011), mainly due to a decline in stock prices.

The balance of Consolidated Net Deferred Tax Assets was almost unchanged from that as of the end of fiscal 2010.

We will announce the Consolidated Capital Adequacy Ratio (as of June 30, 2011) at a later date.

	(JPY Bn)	June 30, 2011 Change from Mar. 31, 2011

* The base amount to be recorded directly to Net Assets after tax and other necessary adjustments

III. Disciplined Capital Management

We continue to pursue strengthening of stable capital base and steady returns to shareholders as our disciplined capital management policy. However, considering the ongoing global discussions with respect to capital, uncertainty over the economy and market trends, and other factors, we are placing a higher priority on strengthening of stable capital base.

Amid the ongoing global discussions on the revision of capital regulations, we aim to increase, as our medium-term target, our Consolidated Tier 1 Capital Ratio (under Basel II) to 12% or above and our Common Equity Capital Ratio* (under Basel III) as of the end of fiscal 2012, when the new capital regulations are scheduled to be implemented, to the mid-8% level.

We announced Mizuho's Transformation Program in May 2010, and continue to work to improve profitability and enhance our financial base. We will strive to strengthen further our financial base mainly by accumulating retained earnings and improving asset efficiency through the steady implementation of the Program. Accordingly, we believe we will be able to sufficiently meet the new capital regulations.

* The calculation of our Common Equity Capital Ratio includes the outstanding balance of the Eleventh Series Class XI Preferred Stock that will be mandatorily convertible in July 2016.

Meanwhile, as of today, details - such as the calculation method for the capital adequacy ratio under the new capital regulations - have yet to be determined. Therefore, our Common Equity Capital Ratio is the estimated figure that Mizuho Financial Group calculates based on the publicly-available materials which have been issued as of today.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

(Note) The outstanding balance of the Eleventh Series Class XI Preferred Stock as of June 30, 2011 (excluding treasury stock) was JPY 415.2 billion (56.0% of the initial amount issued of JPY 943.7 billion, had already been converted into common stock).
