PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS

May 15, 2012

QUESTIONS AND ANSWERS ABOUT THE 2012 ANNUAL MEETING AND VOTING

How do I vote?

You can vote either *in person* at the Annual Meeting or by *proxy* without attending the meeting. Even if you expect to attend the meeting in person, please sign and return the enclosed proxy in the envelope provided so that your shares may be voted at the meeting. You may also vote your shares by telephone or via the Internet as set forth in the enclosed proxy. If you execute a proxy, you still may attend the meeting and vote in person.

Can I change my vote?

Yes. If you are a registered stockholder, you can change your proxy vote or revoke your proxy at any time before the Annual Meeting by:

- (1) Revoking it by written notice to Neil E. Jenkins, our Secretary, at 1666 East Touhy Avenue, Des Plaines, Illinois 60018 before your original proxy is voted at the Annual Meeting;
- (2) Delivering a later-dated proxy (including a telephone or Internet vote); or
- (3) Voting in person at the meeting.

If you are a beneficial owner and hold your shares in street name, please refer to the information forwarded by your bank, broker, or other holder of record for procedures on revoking or changing your proxy.

How many votes do I have?

You will have one vote for every share of Lawson common stock that you owned at the close of business on March 26, 2012.

How many shares are entitled to vote?

There are 8,574,291 shares of Lawson common stock outstanding as of March 26, 2012 and entitled to be voted at the meeting. Each share is entitled to one vote.

How many votes are needed for the proposals to pass?

Directors will be elected by a plurality of the votes cast at the meeting by the holders of shares represented in person or by proxy.

Edgar Filing: LAWSON PRODUCTS INC/NEW/DE/ - Form DEF 14A

The affirmative vote of a majority of the shares present in person or by proxy must be cast in favor of the ratification of the appointment of the independent registered public accounting firm.

If any nominee should become unavailable for election as a director, which is not contemplated, the proxies will have discretionary authority to vote for a substitute.

In the absence of a specific direction from the stockholders, proxies will be voted for the election of all named director nominees.

Because directors are elected by a plurality of the votes cast at the meeting, a proxy card marked **Withhold** with respect to one or more director nominees will have no effect on the election of the nominees.

What if I vote **abstain ?**

A vote to **abstain** on the election of directors will have no effect on the outcome. A vote to **abstain** on the ratification of Ernst & Young LLP as the Company's independent registered public accounting firm will have the effect of a vote *against* this proposal.

If you vote **abstain**, your shares will be counted as present for purposes of determining whether enough votes are present to hold the Annual Meeting.

What if I don't return my proxy card and don't attend the Annual Meeting?

If you are a holder of record (that is, your shares are registered in your own name with our transfer agent) and you do not vote your shares, your shares will not be voted.

If you are a beneficial owner and hold your shares in street name, and you do not give your bank, broker, or other holder of record specific voting instructions for your shares, your record holder can vote your shares on the ratification of the independent registered public accounting firm because this proposal is considered a routine matter. Therefore, banks, brokers or other nominees have the discretion to vote shares held by them on behalf of their customers if instructions are not received from the client in a timely manner. However, your record holder cannot vote your shares without your specific instructions on the election of directors because this proposal is considered a non-routine matter. Therefore, banks, brokers or other nominees will not have the discretion to vote shares held by them on behalf of customers if no instructions are received.

For the aforementioned proposal for which a broker cannot vote without your instruction, if you do not provide voting instructions to your broker on such proposal, the votes will be considered broker non-votes and will not be counted in determining the outcome of the vote. Broker non-votes will be counted as present for purposes of determining whether enough votes are present to hold the Annual Meeting.

Is my vote confidential?

Yes. Your voting records will not be disclosed to us except:

As required by law;

To the inspectors of voting; or

In the event the election is contested.

The tabulator, the proxy solicitation agent, and the inspectors of voting must comply with confidentiality guidelines that prohibit disclosure of votes to Lawson. The tabulator of the votes and at least one of the inspectors of voting will be independent of Lawson and our officers and directors.

If you are a holder of record or an employee savings plan participant and you write comments on your proxy card, your comments will be provided to us, but your vote will remain confidential.

When will I receive the Proxy Statement?

This Proxy Statement is being sent to stockholders on or about April 9, 2012, in connection with the solicitation of the accompanying proxy by our Board of Directors. Only stockholders of record at the close of business on March 26, 2012 are entitled to notice of and to vote at the meeting. We have retained Morrow & Co., LLC, 470 West Ave., Stamford, Connecticut, 06902, a firm specializing in the solicitation of proxies, to assist in the solicitation at a fee estimated to be \$6,000 plus expenses. Officers of the Company may make additional solicitations in person or by telephone. Expenses incurred in the solicitation of proxies will be borne by the Company.

If the accompanying form of proxy is executed and returned in time or you vote your shares by telephone or via the Internet as set forth in the enclosed proxy, the shares represented thereby will be voted.

Proposal 1: Election of Directors

Stockholders are entitled to cumulative voting in the election of directors. Under cumulative voting, each stockholder is entitled to that number of votes equal to the number of directors to be elected, multiplied by the number of shares such stockholder owns, and such stockholder may cast its votes for one nominee or distribute them in any manner it chooses among any number of nominees. Unless otherwise indicated on the proxy card, votes may, in the discretion of the proxies, be equally or unequally allocated among the nominees named below. Directors will be elected by a plurality of the votes cast at the meeting by the holders of shares represented in person or by proxy. Thus, assuming a quorum is present, the three persons receiving the greatest number of votes will be elected as directors and votes that are withheld will have no effect.

The By-Laws of the Company provide that the Board of Directors shall consist of such number of members, between five and nine, as the Board of Directors determines from time to time. The size of the Board of Directors is currently set at nine members. The Board of Directors is divided into three classes, with one class being elected each year for a three-year term. At the annual meeting, three directors are to be elected to serve until 2015.

CORPORATE GOVERNANCE

Board Leadership Structure

Our Amended and Restated By-Laws provide that the roles of Board Chairman and Chief Executive Officer (CEO) may be filled by the same or different individuals. This provides the Board the flexibility to determine whether these roles should be combined or separated based on the Company's circumstances and needs at any given time. The role of Chairman of the Board is currently held by Ronald B. Port, M.D. and the position of CEO is currently held by Mr. Thomas Neri. This structure has been in place since 2007. The separation of the Chairmanship and the CEO functions provides the Board with additional independence and oversight. The Board believes this leadership structure has served the Company well and believes it is in the best interest of the Company's stockholders to continue with this structure at this time.

Board of Director Meetings and Committees

The Board of Directors has standing Audit, Compensation, Financial Strategies, Management Development, and Nominating and Governance Committees. All committees have each adopted a charter for their respective committees. These charters may be viewed on the Company's website, www.lawsonproducts.com, and copies may be obtained by request to the Secretary of the Company. Those requests should be sent to Corporate Secretary, Lawson Products, Inc., 1666 East Touhy Avenue, Des Plaines, Illinois 60018 (until May 15th). All further requests should be sent to the Corporate Secretary, Lawson Products, Inc., Triangle Plaza, 8770 W. Bryn Mawr, Chicago, Illinois, 60631.

Annual Meeting Attendance Policy

The Company expects all members of the Board of Directors to attend the annual meeting of stockholders, but from time to time, other commitments may prevent all directors from attending each meeting.

Director Attendance at Board of Directors and Committee Meetings

In 2011, the directors attended on average, either in person or via teleconference, over 95% of the meetings of the Board of Directors and, on average, over 99% of the respective committees' meetings on which they served. The following chart shows the membership and chairpersons of our board committees, committee meetings held and committee member attendance.

The Compensation Committee also administers incentive-compensation plans and equity-based plans established or maintained by the Company from time to time; makes recommendations to the Board of Directors with respect to the adoption, amendment, termination or replacement of the plans; and recommends to the Board of Directors the compensation for members of the Board of Directors. The CEO makes recommendations on compensation to the Compensation Committee for all executive officers except himself.

The Compensation Committee consists of Lee S. Hillman (Chair), Andrew B. Albert, I. Steven Edelson and Robert G. Rettig. Each member of the Nominating and Governance Committee satisfies the independence requirements of The Nasdaq Stock Market.

Director Nominations

The Nominating and Governance Committee will consider Board of Director nominees recommended by stockholders. Those recommendations should be sent to the Chairman of the Nominating and Governance Committee c/o Corporate Secretary of Lawson Products, Inc., 1666 East Touhy Avenue, Des Plaines, Illinois, 60018. In order for a stockholder to nominate a candidate for director, under the Company's Certificate of Incorporation, timely notice of the nomination must be given in writing to the Secretary of the Company. With respect to the meeting, in order to be timely, such notice must be mailed or delivered to the Secretary of the Company not less than fourteen days prior to the meeting. The Company's Certificate of Incorporation specifies additional information regarding the nominee that must accompany the notice.

The Nominating and Governance Committee will follow procedures which the Nominating and Governance Committee deems reasonable and appropriate in the identification of candidates for election to the Board of Directors and evaluating the background and qualifications of those candidates. Those processes include consideration of nominees suggested by an outside search firm, by incumbent members of the Board of Directors and by stockholders. The manner in which the Nominating and Governance Committee evaluates nominees for director is the same regardless of whether the nominee is recommended by a security holder.

The Nominating and Governance Committee will seek candidates having experience and abilities relevant to serving as a director of the Company and who represent the best interests of stockholders as a whole and not any specific interest group or constituency. The Nominating and Governance Committee does not have a policy with regard to consideration of diversity in identifying director nominees. The Nominating and Governance Committee will consider a candidate's qualifications and background including, but not limited to, responsibility for operating a public company or a division of a public company, other relevant business experience, a candidate's technical background or professional qualifications and other public company boards of directors on which the candidate serves. The Nominating and Governance Committee will also consider whether the candidate would be independent for purposes of The Nasdaq Stock Market and the rules and regulations of the SEC. The Nominating and Governance Committee may, from time to time, engage the service of a professional search firm to identify and evaluate potential nominees.

Determination of Independence

The Company's Board of Directors has determined that Directors Andrew B. Albert, I. Steven Edelson, James S. Errant, Lee S. Hillman, Ronald B. Port, M.D, Thomas S. Postek, Robert G. Rettig and Wilma J. Smelcer are independent within the meaning of the rules of The Nasdaq Stock Market. In determining independence, the Board of Directors considered the specific criteria for independence under The Nasdaq Stock Market rules and also the facts and circumstances of any other relationships of individual directors with the Company.

The independent directors and the committees of the Board of Directors regularly meet in executive session without the presence of any management directors or representatives.

The Board of Directors Role in Risk Oversight and Assessment

The Board is responsible for overseeing the most significant risks facing the Company and for determining whether management is responding appropriately to those risks. The Board implements its risk oversight function both as a whole and through committees. The Board has formalized much of its risk management oversight function through the Audit Committee.

In 2010, the Audit Committee adopted a plan to implement an Enterprise Risk Management (ERM) program. The goal of the ERM program is to provide the oversight, control and discipline to drive continuous improvement of our risk management capabilities in a constantly changing operating environment. In connection with the ERM, the Company retained a risk management consultant to assist management in identifying and prioritizing risk along with processes to mitigate such risks. The Company has developed metrics for reporting risks to the Board. A steering committee, comprised of senior management, has been tasked with continually assessing risk and communicating risk awareness throughout the Company. The ERM program continued to be executed in 2011 including assessment of new risks and the implementation of mitigation plans on previously identified risks.

In addition to the formal ERM program, the Board committees have significant roles in carrying out the risk oversight function which include, but are not limited to, the following:

The Audit Committee oversees risks related to the Company's financial statements, the financial reporting process, accounting and legal matters and oversees the internal audit function;

The Compensation Committee oversees the Company's compensation programs from the perspective of whether they encourage individuals to take unreasonable risks that could result in having a materially adverse effect on the Company;

The Management Development Committee oversees management development and succession planning across senior management positions; and

The Financial Strategies Committee oversees risk inherent in allocating capital and developing financial plans.

While the Board oversees risk management, Company management is charged with managing risk. Management is responsible for establishing and maintaining an adequate system of internal control over financial reporting and establishing controls to prevent or detect any unauthorized acquisition, use, or disposition of the Company's assets.

The Company has an internal audit consultant and an internal audit employee both of whom report to the Audit Committee on a regular basis (collectively the Internal Audit Department). Part of the Internal Audit Department's mission, as described in its charter, is to bring a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes. One way which the Internal Audit Department carries this out is by evaluating the Company's network of risk management programs and reporting the results to the Audit Committee.

Management conducts detailed periodic business reviews of the Company's business. These reviews include discussions of future risks faced by various departments and functional areas across the organization. Additionally, the Company has established a Disclosure Committee which is comprised of senior management from various functional areas. The Disclosure Committee meets at least quarterly to review all disclosures and forward-looking statements made by Lawson to its security holders and ensure they are accurate and complete and fairly present Lawson's financial condition and results of operations in all material respects.

The Company has also established and communicated to its employees a Code of Business Conduct and maintains an ethics hotline where employees can confidentially and anonymously express any concerns they may have of any suspected ethics violations either through a dedicated web site or through a toll free number. The Company requires annual ethics training of all employees and independent sales representatives.

Code of Business Conduct

The Company has adopted a Code of Business Conduct (the Code of Conduct) applicable to all employees and independent sales representatives. The Code of Conduct is applicable to senior financial executives including the principal executive officer, principal financial officer and principal accounting officer of the Company. The Code of Conduct is available on the Corporate Governance page in the Investor Relations section of the Company's website at www.lawsonproducts.com. The Company intends to post on its website any amendments to or waivers from the Code of Conduct applicable to senior financial executives. The Company will provide a copy of the Code of Conduct without charge upon written request directed to the Company at c/o Corporate Secretary, Lawson Products, Inc., 1666 East Touhy Avenue, Des Plaines, Illinois, 60018 (until May 15th). All future written requests should be directed to the Corporate Secretary, Lawson Products, Inc., located at Triangle Plaza, 8770 W. Bryn Mawr, Chicago, Illinois, 60631.

Compensation Risk Assessment

The Company has reviewed its compensation programs, including all of its business units, to determine if they encourage individuals to take unreasonable risks; and has determined that any risks arising from these compensation programs are not reasonably likely to have a material adverse effect on the Company.

Board of Directors Self-Assessment

Our Board annually conducts a self-evaluation to assess its adherence to the committee charters and identify opportunities to improve Board performance. The Board also reviewed our committee charters and updates them as necessary to reflect changes in regulatory requirements and evolving oversight practices. The self-evaluation process is designed and overseen by the Nominating and Governance Committee, and the results of the evaluations are reported to the full Board.

Corporate Governance Principles (Guidelines)

In 2011, our Board of Directors adopted Corporate Governance Principles. The Corporate Governance Principles and the charters of the five standing committees of the Board of Directors now describe our governance framework. The Corporate Governance Principles and charters are intended to ensure our Board has the necessary authority and practices in place to review and evaluate our business operations and to make decisions that are independent of management. Our Corporate Governance Principles also are intended to align the interests of directors and management with those of our stockholders, and comply with or exceed the requirements of the Nasdaq Stock Market and applicable law. They establish the practices our Board follows with respect to:

Responsibilities of directors

Board size

Director independence

Attendance at meetings

Access to senior management

Copies of these Corporate Governance Principles are available through our Web site at www.lawsonproducts.com.

Stockholder Communications with the Board of Directors

Stockholders may send communications to members of the Board of Directors by either sending a communication to the Board of Directors or a committee thereof and/or a particular member c/o Corporate Secretary, Lawson Products, Inc., 1666 East Touhy Avenue, Des Plaines, Illinois 60018 (until May 15th). All further communications after May 15th should be directed to c/o Corporate Secretary, Lawson Products, Inc., Triangle Plaza, 8770 W. Bryn Mawr, Chicago, Illinois, 60631. Communications intended for non-management directors should be directed to the Chairman of the Nominating and Governance Committee. All such communications will be reviewed promptly and, as appropriate, forwarded to the Board of Directors or the relevant committee or individual member of the Board of Directors or committee based on the subject matter of the communication.

Executive Summary

Overview of 2011 Performance and Compensation

2011 Business Environment and Company Performance

In 2011, we continued to transform the business while rebuilding the Company's foundation. After considerable discussion and review among the Board of Directors and senior management, it became apparent that we needed to make a number of strategic changes to evolve our business in order to not only remain competitive, but to provide for future growth. While the decisions we made will have long-term benefits for the Company, they had a considerable financial impact in 2011.

We dedicated a significant amount of resources in terms of both capital expenditures and human capital to refocus our portfolio on our core maintenance, repair and operations (MRO) business and improve our business operations. We continue to make investments in the business and are confident that these investments will provide us with the foundation for our growth and also improve our customers' experience with Lawson.

The multimillion dollar investment made to replace the outdated legacy systems and business processes that limited our ability to have the necessary infrastructure to enhance the customer experience not only affected costs, but negatively impacted sales in the second half of the year.

We continue to act prudently and responsibly in terms of managing our day-to-day operations and maintain a strong commitment to investing in our business, including our people. We concluded 2011 with a healthy balance sheet including cash on-hand and no outstanding borrowings. We have made progress toward optimizing our distribution network and transforming our organization to allow our customers to conduct business with us through multiple sales channels.

Executive Compensation in 2011 Relative to Company Performance

Lawson has a long-standing commitment to pay for performance which means an executive's total compensation should rise or fall based on company and individual performance. This commitment is evidenced by the link between the Company's performance and the actual realizable compensation payable to its CEO and other NEOs in 2011. By making performance metrics substantial components of the executive's compensation, we tie our executives' short- and long-term interests to that of our stockholders.

In 2011, this pay-for-performance link is summarized below:

Performance Measures The financial, corporate and individual performance measures used to determine the level of performance are as follows: Adjusted earnings before interest expense, taxes, depreciation and amortization (EBITDA), Return On Invested Capital (ROIC %), Gross Profit Dollars, ERP Implementation and Individual Objectives. The actual results are reflected in the table below. Additionally, the threshold, target and maximum performance goals and actual results relative to the executive compensation programs are described in more detail in the sections titled Annual Incentive Plan and Long-Term Incentive Plan.

Base Salary The CEO did not receive a merit increase. The other NEOs received modest merit increases averaging three percent (3%), which was consistent with the base salary increases received by other employees across the Company.

Annual Incentive Plan In order to receive an AIP payout based upon a Company performance measure, a threshold result must be achieved. In 2011, threshold performance was not achieved under the financial measures; therefore, there was no payout on the award opportunity aligned with the financial measures. Each AIP participant has one or more individual goals, which may include certain operating goals established by the Company. The payouts associated with these individual goals ranged from 0% to 150%.

Long-Term Incentive Plan The long-term incentive award opportunity was based on a total target opportunity equal to 25% of time-based equity awards to attract and retain talent while 75% of the opportunity is tied to performance-based cash awards to be earned based on results versus pre-defined financial measures at threshold, target and maximum. Based upon 2011 results, the performance-based cash 2011-2013 LTIP is forecasted to result in no payout to the CEO and other NEOs. The actual payout is based upon three-year results versus three-year targets; therefore, the forecast will be updated each year until the end of the performance cycle in 2013.

Total Compensation Consistent with our pay-for-performance philosophy, the total compensation payable to our CEO and other NEOs declined over 37% year over year, as described in the table below. For example, the CEO and other NEOs actual AIP payments in 2011 declined approximately 73% year over year due to the decline in performance.

2011 Changes in Compensation Programs and Policies

The Board eliminated MRO Working Capital as an AIP financial measure and included Gross Profit Dollars. This action was taken because the Gross Profit Dollars measure reflects the close relationship to sales growth while at the same time balancing the required margin returns to support our expense structure.

The 2011-2013 LTIP award was designed to preserve the performance metrics from the 2010-2012 LTIP award while maintaining its pay-for-performance link and continuing to drive superior financial results; however, the performance metrics for the 2011-2013 LTIP award were modified in two ways from the 2010-2012 LTIP award structure to further align the executives' compensation with financial performance and stockholder value in the future.

First, we eliminated the annual earning feature as had been approved for the 2010-2012 LTIP; 100% of the award to be earned in the 2011-2013 LTIP will be determined upon three-year results versus goals.

In addition, as a result of the sale of certain businesses, it was determined that overall Company ROIC and gross profit metrics and goals were more appropriate than MRO-only metrics and goals.

Additionally, the Compensation Committee adopted three key policies that became effective in 2011 (see pages 13 and 25 for a further description):

Adoption of Corporate Governance Principles (Guidelines);

Adoption of a Compensation Recovery Policy (Clawback Policy), and

Adoption of an Anti-Hedging Policy.

Response to Say-On-Pay Vote

Although the annual advisory stockholder vote on executive compensation is non-binding, the Compensation Committee has considered, and will continue to consider, the outcome of this vote each year such a vote is taken when making compensation decisions for our CEO and other NEOs. At our annual meeting of stockholders held on May 10, 2011, over 86% of the shares present or represented by proxy at the meeting voted for the approval of the compensation of the CEO and other NEOs. The Compensation Committee believes that this shareholder vote strongly endorses the compensation philosophy of the Company. The Compensation Committee will continue to consider the outcome of the Company's say-on-pay votes when making future compensation decisions for the NEOs. Accordingly, the Compensation Committee did not take any specific actions with respect to its executive compensation programs as a direct result of the 2011 advisory vote on our executive compensation. In addition, the shareholders approved a triennial frequency for submitting our executive compensation program to an advisory stockholder vote in the future.

Compensation Philosophy and Objectives

The Company's executive compensation programs are designed to reward executives for the development and execution of successful business strategies. In determining the type and amount of compensation for each executive, we use both annual cash compensation, which includes a base salary and an annual incentive award, and a long-term incentive opportunity, which includes both cash and equity components. We believe the mix of these forms of compensation, in the aggregate, balance the reward for each executive's contributions to our Company. Our compensation programs are designed to encourage and reward the creation of long-term stockholder value.

The Company guides its executive compensation programs with a compensation philosophy expressed in these three principles:

1. *Talent Acquisition & Retention.* We believe that having qualified people at every level of our Company is critical to our success. Although we strive to develop executives from within to lead the organization, due to the particular needs of the Company, a significant number of executives have been recruited from outside the Company during the past few years. Our compensation programs are designed to encourage talented executives to join and continue their careers as part of our senior management team.
2. *Accountability for Lawson's Business Performance.* To achieve alignment between the interests of our executives and our stockholders, we use short-term and long-term incentive awards. Our executives' compensation increases or decreases based on how well they achieve the established performance goals.
3. *Accountability for Individual Performance.* We believe teams and individuals should be rewarded when their contributions are exemplary and significantly support Company performance and value creation.

When making compensation decisions, the various elements of compensation are evaluated together, and the level of compensation opportunity provided for one element may impact the level and design of other elements. Lawson attempts to balance its executive officer total compensation program to promote the achievement of both current and long-term performance goals. While each compensation program has specific objectives, in the aggregate, the Company strives to position its executive officer total compensation program in alignment with the competitive practices of the market.

Determination of Competitive Practices

Peer Group for Compensation Benchmarking

In 2011, we engaged Grant Thornton LLP (Grant Thornton), an independent compensation consulting firm, to review the then-current core peer group we relied on to make compensation decisions in previous years. Grant Thornton found that several companies in the core peer group had been acquired and were no longer publicly traded, which necessitated modifications to the composition of the core peer group. Consequently, Grant Thornton updated the companies to develop the current core peer group of 15 companies in order to assist the Company and the Board to understand the current competitiveness of the total direct compensation of the NEOs as compared to market practices. The current core peer group consists of a strong representation of companies within Lawson's industry and/or companies with revenues and market capitalization similar to that of Lawson. The core peer group companies had median revenue of approximately \$585 million and a market capitalization of \$546 million compared to Lawson's 2010 revenue of \$317 million and market capitalization of \$135 million.

In addition to the core peer group of companies, Grant Thornton reevaluated the supplemental peer group and recommended for inclusion a broader general industry representation of 41 companies. The median revenue of \$345 million and market capitalization of \$262 million of the supplemental peer group is more similar to Lawson in terms of size. Accordingly, the supplemental peer group served as an additional reference point so we could make appropriate compensation decisions based upon comprehensive market reference points. We used the data from the peer groups to benchmark total direct compensation which includes the level of base salaries and the mix, form and size of annual and long-term incentives provided to executives of similar companies to Lawson in terms of industry and size.

The core peer group includes the following companies (see Appendix A on page 41 for the Company's Supplemental Peer Group).

Aceto Corp.
 Barnes Group Inc.
 Circor International Inc.
 Colfax Corp.
 DXP Enterprises Inc.
 H&E Equipment Services Inc.
 Hardinge Inc.
 Houston Wire & Cable Inc.
 Interline Brands Inc.
 Kaman Corp.
 Kaydon Corp.
 NN Inc.
 Park Ohio Holdings Corp.
 Robbins & Myers Inc.
 Simpson Manufacturing Inc.

We are committed to obtaining as much information as possible to make informed business judgments regarding the compensation offered to the NEOs and our deep and extensive review of the 56 companies' total direct compensation is evidence of this commitment. We also continuously track the corporate measures of our strongest competitors, and by doing so, we set performance targets for compensation purposes in comparison to these industry leaders to drive growth and profitability.

Elements of Total Compensation

The following table describes each executive compensation element utilized in fiscal 2011 for our NEOs based on the philosophy and objectives described above as well as each element's link to our compensation philosophy.

Compensation Element	Philosophy Statement	Talent Acquisition and Retention	Accountability for Business Performance (Align to Stockholder Interests)	Accountability for Individual Performance (Support Company Performance and Value Creation)
Base Salary	We intend to provide base pay competitive to the market of industry peers across other industries where appropriate. Our goal is to strike a balance between attracting and retaining talent, expecting superior results and finding individuals who can focus on transforming our business. Base salary maintains a standard of living, is used to compete in the market for talent and forms the foundation for other reward vehicles.	X		
Annual Incentive Plan	The AIP rewards specific annual performance against business measures set by the Board. The	X	X	X

amount of the reward is determined by formula and can vary from 0% to 150% of an individual executive's target incentive.

<p>2011-2013 Long-Term Incentive Plan</p>	<p>The LTIP rewards specific performance against a three-year average of financial measures set by the Board. The performance-based cash award opportunity is determined based upon ROIC% and Gross Profit Dollars and can vary from 0% to 200% of an individual executive's target incentive. Additionally, the restricted stock award opportunity is time-based and cliff vests at the end of the performance cycle subject to the recipient's continued employment with the Company.</p>	<p>X</p>	<p>X</p>
<p>Other Compensation and Benefit Programs</p>	<p>Lawson offers employees benefits programs that provide protections for health, welfare and retirement. These programs are standard within the United States and include healthcare, life, disability, dental and vision benefits as well as a 401(k) program or other federally provided programs outside of the U.S. A deferred compensation program is also provided to a select group of our management, including our NEOs, in order to provide for tax advantaged savings beyond the limits of qualified plans. Investment choices are market based.</p>	<p>X</p>	

Base Salary

Base salary for our executive officers, including the NEOs, represents the basis for competing in the market for similar positions of industry peers and across industries where appropriate. We are committed to rewarding our NEOs for performance and recognize talented individuals who contribute to the growth of the Company and continue the transformation process. Our current compensation plans and programs reflect this commitment. Our base salary philosophy is intended to keep our fixed costs at an appropriate level while delivering expectations for each role. We provided base salaries to compensate executives for the services rendered during the fiscal year. In setting base salaries for the CEO and other executives, the Compensation Committee considered:

Competitive market data;

The experience, skills and competencies of the individual;

The duties and responsibilities of the respective executive;

The ability of the individual to effectively transform our company and culture; and

The individual's ability to achieve superior results.

A merit increase was not provided to the CEO; however, the other NEOs received a modest merit increase averaging three percent (3%) on March 15, 2011, which was consistent with the average merit increase offered to the employees across the Company.

The base salaries for the named executive officers in 2011 were as follows:

Executive Name	2011 Base Salary
Thomas J. Neri	\$ 500,000
Ronald J. Knutson	291,200
Harry A. Dochelli	432,600
Neil E. Jenkins	372,300
Stewart A. Howley	301,522

2012 Base Salary

Base salary increases are reviewed on a yearly basis by the Compensation Committee. There were no base salary increases awarded to the CEO or the other NEOs for 2012.

Annual Incentive Plan

Our success partly depends upon our executive officers being focused on achievement of the critical strategic and tactical objectives that lead to company success in the short term. Therefore, performance goals under our annual incentive compensation programs have been designed to align executive compensation with our annual business objectives. The design of these compensation programs, the selected performance measures, the targets and the timing of awards and payouts are all designed to drive business performance and stockholder return on an annual basis. The financial, corporate and individual performance measures included a balance of Adjusted EBITDA, Gross Profit Dollars, ERP Implementation and Individual Objectives to ensure focus for 2011. The performance goals aligned with the financial and corporate measures, including Adjusted EBITDA, Gross Profit Dollars and ERP Implementation, accounted for 75% of the CEO's target opportunity and between 60% and 70% of the other NEOs' award opportunity.

In developing the 2011 AIP, the Compensation Committee increased the emphasis on Adjusted EBITDA, ERP Implementation and Individual Objectives, but eliminated MRO Working Capital, utilized in the 2010 AIP, as a financial measure and replaced it with Gross Profit Dollars. This action was taken because the Gross Profit Dollars measure reflects the close relationship to sales growth while at the same time balancing

the required margin returns to support our expense structure, thus demonstrating our commitment to rewarding our CEO and NEOs for growth and fiscal responsibility.

Each year, the Compensation Committee approves short-term performance goals under our AIP to focus our executive officers on business priorities for the upcoming fiscal year. The 2011 AIP target opportunities as a percent of each NEO's salary were set as follows:

	2011 AIP Target		Adjusted EBITDA	2011 AIP Goal Weighting		Individual Objectives
	Amount	Percent of Base Salary		Gross Profit Dollars	ERP	
Thomas J. Neri	\$ 500,000	100%	55%	10%	10%	25%
Harry A. Dochelli	259,560	60	50	10	10	30
Neil E. Jenkins	186,150	50	50	10	0	40
Stewart A. Howley	150,761	50	50	10	0	40
Ronald J. Knutson	145,600	50	50	10	10	30

A further description of the financial, corporate and individual performance measures is provided as follows:

Adjusted EBITDA consisted of earnings before interest, taxes, depreciation and amortization plus/minus other adjustments including incentive compensation, the net market loss of the cash surrender value of life insurance and the deferred compensation liability and other non-routine, non-operation adjustments;

Gross Profit Dollars consisted of the amount reported on our current statement of operations with no adjustments made for accounting purposes based upon Generally Accepted Accounting Principles (GAAP).

ERP Implementation for purposes of calculating AIP incentives consisted of the following measures: (1) completion of key milestones on schedule; (2) implementation costs incurred within the pre-determined budget; and (3) minimizing the business impact to the Company's customers.

At the beginning of each year, AIP award opportunities are established as a percentage of the participant's annual base salary. The 2011 AIP award opportunities at threshold, target and maximum for the NEOs in 2011 are provided in the table below entitled Grants of Plan Based Awards in 2011.

The 2011 financial performance measure targets and actual results were as follows (dollars in thousands):

	Actual Results	Threshold	Performance Targets	
			Target	Maximum
Adjusted EBITDA	\$ 5,069	\$ 24,000	\$ 29,600	\$ 40,000
Payout percentage	0.0%	50.0%	100.0%	150.0%
Gross Profit Dollars	\$ 179,777	\$ 196,662	\$ 207,011	\$ 214,928
Payout percentage	0.0%	50.0%	100.0%	150.0%

Adjusted EBITDA

Target Adjusted EBITDA was established at 105% of budgeted EBITDA plus AIP and LTIP incentives. Actual EBITDA was \$0.2 million. This amount was then adjusted for EBITDA from discontinued operations, AIP and LTIP incentives, various factors outside of current management's control, and other non-recurring, non-operational gains and losses. The aggregate amount of all adjustments was \$4.9 million resulting in an Adjusted EBITDA of \$5.069 million, which fell short of the pre-determined performance goal.

Gross Profit Dollars

Gross Profit Dollars was below threshold primarily due to lower sales and margin primarily due to the implementation of the ERP system and also driven by three factors: (1) increased vendor costs that were not passed along to customers as we held pricing constant to facilitate the ERP conversion; (2) an increase in outbound freight and labor costs following the ERP conversion; (3) the Company's ongoing strategy to pursue larger customers with lower margins.

ERP Implementation

ERP Implementation is a corporate measure that the Company utilized to measure the productivity and progress throughout 2011 as the Company consolidates into a single computer system. The payout percentage of target was determined to be 50% based upon the completion of key milestones on schedule, 75% based upon implementation costs incurred just under the pre-determined budget and 0% based upon the business impact to the Company's customers, which aggregated to a net payout of 45%.

Individual Objectives

The individual objectives were established to reward each NEO for the attainment of certain performance goals as outlined below. The individual objectives payouts were between 0% and 150% of target for the NEOs.

Specific weightings for each NEO's individual performance goals, percentage

achieved and resulting payout percentage is included in the table below.

2012 AIP

For 2012, the Compensation Committee approved certain changes to the AIP performance goals. ERP will no longer be a performance goal under our AIP; therefore, the Company will utilize the following financial and individual performance measures: Adjusted EBITDA; Gross Profit Dollars; and Individual Objectives to align executive compensation with our annual business objectives in 2012. Additionally, the portion of the award opportunity for the CEO and other NEOs financial performance goals were increased to 80% and for individual objectives, decreased to 20%.

Long-Term Incentive Plan

Background LTIP

In 2011, the Compensation Committee engaged Grant Thornton, an independent compensation consultant to make LTIP recommendations intended to be competitive with market practices, aligned with Lawson’s business goals and supportive of the Company’s strategy for retaining and motivating leadership talent as well as rewarding for superior performance.

Performance-Based LTIP

The Compensation Committee decided to grant a total award opportunity that would be equal to 75% in a performance-based cash LTIP and 25% in time-based restricted stock awards (RSAs). In furtherance of the goals related to the 2010-2012 LTIP cycle, the 2011-2013 LTIP award was designed to incentivize financial performance over a longer time period than the AIP. The LTIP opportunity, calculated as a percentage of base salary, was determined to be competitive in the market and aligned with our compensation philosophy and objectives. The following threshold, target and maximum percentages of the target LTIP award will be determined at the end of the three-year performance cycle dependent upon the conditions stated below.

	Payout
Threshold	50%
Target	100%
Maximum	200%

The performance-based LTIP award is delivered in cash and may be earned on the basis of average three-year financial results of the business determined by the performance goals set at the beginning of the three-year performance cycle. Financial results less than the threshold amount for the LTIP award results in no payout to the NEOs. The performance metrics are as follows:

ROIC%

Weighting: 70%

Rationale: We have utilized ROIC% as a performance metric because this measure is a good indicator of whether or not a company is improving cash flows and thus increasing the enterprise value of the Company. High/low (relative) ROIC% levels are general indicators of strong/weak company performance and strong/weak capital management.

Gross Profit Dollars

Weighting: 30%

Rationale: We have utilized gross profit dollars as a performance metric because it has a close relationship to sales growth while at the same time balancing the required margin returns to support our expense structure.

Time-Based RSAs

The Compensation Committee also decided to grant a separate award outside of the 2011-2013 LTIP for retention purposes. The time-based RSAs will cliff vest on December 31, 2013 subject to the recipient’s continued employment with the Company.

2010-2012 LTIP Status

Edgar Filing: LAWSON PRODUCTS INC/NEW/DE/ - Form DEF 14A

The 2010-2012 LTIP award is designed to be delivered 50% in cash and 50% in stock at the end of the performance cycle in 2012. Each year, performance versus goals is measured and a partial award may be earned; however, the annual award is unvested until the end of the performance cycle. Upon the conclusion of the three-year performance cycle, the average of the actual results will be calculated and the total payout, including amounts as may have been earned each year, will be determined. The status of the 2010-2012 is provided in the table below based upon MRO results only.

Dollars in millions	Three-Year Performance Period 2010-2012				
	Measure	Threshold	Target	Maximum	Actual Results
2010	ROIC%	6.0%	8.0%	10.0%	23.3%
	Gross Profit \$	\$ 195.0	\$ 206.0	\$ 216.0	\$ 203.4
2011	ROIC%	10.0%	13.0%	16.0%	1.2%
	Gross Profit \$	\$ 206.0	\$ 217.0	\$ 228.0	\$ 189.8
2012	ROIC%	16.0%	23.0%	30.0%	N/A
	Gross Profit \$	\$ 224.0	\$ 236.0	\$ 250.0	N/A
Three Year Average	ROIC%	11.0%	15.0%	19.0%	N/A
	Gross Profit \$	\$ 208.0	\$ 220.0	\$ 231.0	N/A

2012-2014 Performance Cycle

The LTIP design process is intended to have the Compensation Committee evaluate and consider the specific plan components each year. After review and consultation with the compensation consultant, the Compensation Committee continued to focus on the pay for performance and retention elements of the 2011-2013 LTIP with the 2012-2014 performance cycle in order to optimize our goals to drive stockholder value creation, while simultaneously motivating, attracting and retaining leadership.

In 2012, long-term incentive awards (2012-2014 performance cycle) were granted to the NEOs based on a total target opportunity equal to seventy-five percent (75%) in performance-based cash awards and twenty-five percent (25%) in RSAs. We plan to grant a value of each award and the total 2012-2014 long-term incentive opportunity to each NEO as follows:

Executive	2012-2014 Performance-Based Target Award	2012 RSA Grant Date Fair Value	Total 2012 Opportunity
Thomas J. Neri	\$ 375,000	\$ 125,000	\$ 500,000
Harry A. Dochelli	259,560	86,520	346,080
Neil E. Jenkins	167,535	55,845	223,380
Ronald J. Knutson	131,040	43,680	174,720
Stewart A. Howley	67,842	22,614	90,457

Consistent with the mechanics of the 2011-2013 LTIP award, each NEO will receive threshold and maximum LTIP award opportunities equal to 50% and 200% of the cash-based LTIP target. In determining the actual award earned under the cash-based 2012-2014 LTIP, actual results vs. ROIC% and Gross Profit Dollars performance goals will continue to be weighted at 70% and 30%, respectively. The balance of the total 2012 target long-term incentive award opportunity will be delivered in time-vested RSAs which will cliff vest on December 31, 2012 subject to the recipient's continued employment with the Company.

Benefits

The NEOs are eligible for both standard and non-qualified benefits. Standard benefits are generally available to all Lawson employees and in some cases are subject to favorable tax treatment. Our standard benefit plans cover such items as health insurance, life insurance, vacation, profit sharing, and 401(k) retirement savings. NEOs and employees are required to contribute to offset a portion of the cost of certain plans. In contrast to our standard benefits plans, non-qualified plans are not generally available to all employees and are not subject to favorable tax treatment under the Code.

The only non-qualified benefit available exclusively to selected executives is the opportunity to defer compensation in a deferred compensation plan. The deferred compensation plan allows participants to defer the receipt of earnings until a later year, and therefore, defer payment of income taxes into retirement years when income and tax levels are generally lower. A feature of the deferred compensation plan allows participants to select a set of mutual funds, which are then tracked for growth. The Company purchases life insurance policies which have been deposited into a rabbi trust to offset the Company's deferred compensation liability. We believe the deferred compensation program provides executives a valuable benefit at a relatively small cost to the Company. Executives in the plan are unsecured creditors and are at risk of losing part or all of their deferrals in the event of a Company bankruptcy.

The Company has broad-based, qualified, profit-sharing and 401(k) plans available to the NEOs, along with other employees, to facilitate retirement savings. For 2011, the Company made a profit sharing contribution of 5.0% of the executive's base salary up to the IRS annual

compensation limit of \$245,000. The Company contributed 5.0% on any amounts of the executive's base salary in excess of the \$245,000 limit into the deferred compensation plan.

Perquisites

Our Company operates in a spirit of thrift and directs its resources at building shareholder value. We believe that perquisites are generally not a good investment. We do not offer perquisites for our executives, such as country club memberships, executive life insurance or car allowances. Nor do we provide executives with the use of a company aircraft, the services of an executive dining room or vehicles. We do offer annual physicals to key members of the management team and in 2011 we provided financial advisory services to our CEO.

Separation, Change-in-Control, Compensation Recovery and Anti-Hedging

Employment and Change-in-Control Contracts

Certain executive officers have employment contracts with the Company. Employment and change-in-control contracts help attract executives to work for the Company by protecting them from certain risks, such as business reorganization with position elimination, or position elimination in the event of a change in control or sale of the Company. The executives or their heirs may also be protected in case of disability or death.

Clawback Policy

In 2011, the Board of Directors approved a policy for recoupment of incentive compensation (the Clawback Policy). The Board of Directors adopted the Clawback Policy in order to protect the Company in the event that the Company is required to prepare an accounting restatement due to the material noncompliance of the Company with any financial reporting requirement under the securities laws.

If such an event occurs, the Company will recover from any current or former executive officer of the Company who received incentive-based compensation (including stock options awarded as compensation) based on the erroneous data during the 3-year period preceding the date on which the Company is required to prepare an accounting restatement in excess of what would have been paid to the executive officer under the accounting restatement, as determined by the Compensation Committee, in accordance with Section 10D of the Securities Exchange Act of 1934 as added by Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and any applicable guidance or rules issued or promulgated thereunder.

Anti-Hedging Policy

In 2011, the Board of Directors approved an Anti-Hedging Policy. Under the Anti-Hedging Policy, the Company prohibits any executive officer of the Company or member of the Company's Board of Directors (or any designee of such executive officer or director) from purchasing financial instruments (including prepaid variable forward contracts, equity swaps, collars, and exchange funds) that are designed to hedge or offset any decrease in the market value of Company common stock (a) granted to the executive officer or director by the Company as part of the compensation of the executive officer or director; or (b) held, directly or indirectly, by the executive officer or director.

Role of Executives in Setting Compensation

The Company's CEO makes recommendations on compensation to the Compensation Committee for all executive officers except himself. Executive officers will generally make compensation recommendations to the CEO regarding employees who report to them. Executives are not involved in decisions regarding their own compensation. The Compensation Committee has overall responsibility for the compensation programs for the CEO and other NEOs as described above under the caption The Compensation Committee.

Compensation Committee Interlocks and Insider Participation

In 2011, no executive officer of the Company served on the Board of Directors or Compensation Committee of any other company with respect to which any member of the Compensation Committee was engaged as an executive officer. No member of the Compensation Committee was an officer or employee of the Company during 2011, and no member of the Compensation Committee was formerly an officer of the Company.

Role of the Independent Compensation Consultant

In 2011, the Compensation Committee engaged Grant Thornton LLP to perform benchmarking analysis and make recommendations on performance metrics and potential incentive opportunity levels for its executives as well as conduct a benchmarking analysis for director compensation relative to market. Grant Thornton was also asked to make recommendations related to the 2011-2013 LTIP award, including plan design, performance metrics and goals, and related incentive opportunities and estimated plan costs. Grant Thornton is independent and all work performed by Grant Thornton is subject to review and approval of the Compensation Committee.

Tax & Accounting Considerations

Section 409A

Section 409A Code relates to the tax treatment of earnings when certain payments the Company is obligated to make to an executive are deferred to a future tax year. The Company has reviewed its executive employment contracts and other compensation agreements and believes they are either exempt from or in compliance with Section 409A, though we cannot guarantee any particular tax treatment under our executive compensation programs.

Policy with Respect to Section 162(m)

Section 162(m) of the Code limits the Company's ability to deduct compensation paid in any given year to a NEO in excess of \$1.0 million. Performance-based compensation may be structured to be exempt from this restriction. After stockholder approval on May 10, 2011, we may grant awards, including annual incentive awards, under our 2009 Equity and Incentive Compensation Plan that are intended to meet the performance-based compensation exception under Section 162(m). However, we reserve the right to design compensation plans that recognize a full range of performance and other criteria important to our success regardless of the federal tax deductibility of compensation paid under those plans.

Stock Based Compensation

The fair value of stock-based compensation, which includes equity incentives such as stock options, RSAs, and stock appreciation rights, is measured in accordance with Generally Accepted Accounting Principles and is expensed over the applicable vesting period.

Sections 280G and 4999

Sections 280G and 4999 of the Code relate to a 20% excise tax that may be levied on a payment made to an executive as a result of a change-in-control (CIC) if the payment exceeds three times the executive's base earnings (as defined by the Code Section 280G). The Company seeks to minimize the tax consequences that might arise under a potential CIC of Lawson by limiting the amount of compensation that may be paid to an executive in such a circumstance. In the event the excise tax is triggered, the existing CIC agreements provide that the Company will reduce the CIC payment by the amount necessary so that the payment will not be subject to the excise tax, if this would result in the most beneficial outcome for the executive, net of all federal state and excise taxes. Should the Company not reduce the payment as noted, the existing agreements do not provide for any gross-up payment related to potential Code section 280G excise taxes, which are the sole responsibility of the executive.

Report of the Compensation Committee

The Compensation Committee reviewed and discussed with management the foregoing Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K for the year ended December 31, 2011. Based on such review and discussion, the Compensation Committee recommended to the Board, and the Board approved, that the Compensation Discussion and Analysis be included in this Proxy Statement.

Respectfully Submitted by the Compensation Committee:

Lee S. Hillman (Chairman)

On February 12, 2009, Mr. Howley entered into a CIC agreement. If within one year following a change in control, the Company terminates Mr. Howley's employment without cause or Mr. Howley terminates his employment for good reason, in lieu of all other severance benefits he will be entitled to a lump sum payment equal to one and one-half times his then current annual base salary and one times his most recent annual bonus. Mr. Howley has agreed not to compete with the Company during his period of employment and for a period of eighteen months thereafter.

NONQUALIFIED DEFERRED COMPENSATION

With respect to the Company's 2004 Executive Deferral Plan, certain executives, including NEOs, may defer portions of their base salary, bonus, LTIP awards, and the excess contribution to the profit-sharing plan. Deferral elections are made by eligible executives by the end of the year preceding the plan year for which the election is made. An executive may defer a minimum of \$2,000 aggregate of base salary, bonus and/or LTIP award. The maximum deferral amount for each plan year is 80% of base salary, 100% of bonus and 100% of LTIP amounts.

The investment options available to an executive include some funds generally similar to or as available through the Company's qualified retirement plan. The Company does not provide for any above market return for participants in the 2004 Executive Deferral Plan.

Distributions from the Plan

An executive may elect to receive distributions under three scenarios, receiving benefits in either a lump sum or in annual installments up to five years in the event of termination and up to fifteen years in the event of death or disability. Upon demonstrating an unforeseeable financial emergency and receipt of approval from the Compensation Committee, an executive may interrupt deferral or be allowed to access funds in his deferred compensation account. In the event of a change in control of the Company, an independent third party administrator would be appointed to oversee the plan.

SUMMARY TABLE OF POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE-IN-CONTROL

The following table outlines potential payments to our NEOs under existing contracts, agreements, plans or arrangements for various scenarios under termination or a CIC, assuming a December 31, 2011 termination date and the closing price of our common stock of \$15.43 on that date. The termination benefits are further described in the foregoing Compensation Agreements section. Payments may be reduced if it would result in the imposition of an excise tax under Code Section 280G and the reduction would result in the executive officer receiving a greater amount net of tax payment. The actual amounts payable can only be calculated at the time of the event. This table only reflects amounts with respect to contracts and agreements that are beyond those benefits generally available to all salaried employees. In addition, upon termination, payments due to executives include distribution of any balance in the deferred compensation plan, any accrued and unpaid vacation and all other benefits that have been accrued but not yet paid.

In order for the CEO and other NEOs to receive the acceleration of benefits listed below, termination of employment is required within a designated time period after the occurrence of a CIC. This approach is commonly referred to as a "double trigger" acceleration upon a CIC.

- (2) Termination payment does not include the payouts of deferred compensation of \$2,768,296, \$40,878, \$219,679, \$1,826,587 and \$29,055 due to Mr. Neri, Mr. Knutson, Mr. Dochelli, Mr. Jenkins and Mr. Howley, respectively, discussed above under the caption Nonqualified Deferred Compensation .

- (4) Accelerated vesting of the unvested shares of restricted stock is valued at the closing price of our Common Stock on December 31, 2011 of \$15.43.
- (5) The CIC payment amount would have triggered a 20% excise tax. The cutback deduction reduces the change-in-control payment by the amount necessary so that the payment would result in the most beneficial outcome for the executive, net of all federal state and excise taxes. See further discussion under the caption Tax and Accounting Considerations .

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Company's policy regarding related party transactions is outlined in the Code of Business Conduct which is applicable to all employees and independent sales representatives and is available on our website at www.lawsonproducts.com in the investor relations corporate governance section. Additionally, all directors and senior officers of the Company must complete an annual questionnaire in which they are required to disclose in writing any related party transactions.

The Company's policy is for all transactions between the Company and any related person to be promptly reported to the Company's Chief Ethics and Business Conduct Officer who will gather the relevant information about the transaction and presents the information to the Audit Committee. The Audit Committee then determines whether the transaction is a material related party transaction to be presented to the Board of Directors. The Board of Directors then approves, ratifies, or rejects the transaction. A majority of the members of the Company's Board of Directors and a majority of independent and disinterested directors must approve the transaction for it to be ratified. The Board of Directors only approves those proposed transactions that are in, or not inconsistent with, the best interests of the Company and its stockholders.

The Company's Chairman of the Board, Dr. Port, is a partner in two partnerships that have an interest in Lawson's common stock. During 2010, litigation was initiated against Dr. Port, requesting that the partnerships be changed to allow the partners to have more control over their respective shares. The suit named Dr. Port as a defendant based on his role in the partnerships and as a director of the Company. The Company is not a party to the lawsuit. In 2011 and 2010, the Company incurred \$0.1 million and \$0.7 million for legal services provided to Dr. Port in relation to this litigation.

The Audit Committee will regularly review summary reports detailing all services being provided to the Company by its external auditor.

Report of the Audit Committee of the Board of Directors

The responsibilities of the Audit Committee, which are set forth in the Audit Committee Charter adopted by the Board of Directors in 2011, include providing oversight to the Company's financial reporting process through periodic meetings with the Company's independent auditors and management to review accounting, auditing, internal controls, and financial reporting matters. The management of the Company is responsible for the preparation and integrity of the financial reporting information and related systems of internal controls. The Audit Committee, in carrying out its role, relies on the Company's senior management, including senior financial management, and its independent auditors.

With regard to the 2011 audit, the Audit Committee discussed with the Company's independent auditors the scope, extent and procedures for their audits. Following the completion of the audit, the Audit Committee met with the independent auditors, with and without management present, to discuss the results of their examinations, the cooperation received by the auditors during the audit examination, their evaluation of the Company's internal control over financial reporting and the overall quality of the Company's financial reporting.

The Audit Committee reviewed and discussed the audited financial statements included in the 2011 Annual Report on Form 10-K with management. Management has confirmed to us that such financial statements (i) have been prepared with integrity and objectivity and are the responsibility of management and (ii) have been prepared in conformity with accounting principles generally accepted in the United States.

We have discussed with Ernst & Young LLP, our independent auditors, the matters required to be discussed by SAS 61, as amended (AICPA, Professional Standards, Volume 1 AU Section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. SAS 61, as amended, requires our independent auditors to provide us with additional information regarding the scope and results of their audit of the Company's financial statements with respect to (i) their responsibility under auditing standards generally accepted in the United States, (ii) significant accounting policies, (iii) management judgments and estimates, (iv) any significant audit adjustments, (v) any disagreements with management, and (vi) any difficulties encountered in performing the audit.

We have received from Ernst & Young LLP a letter providing the disclosures required by the Public Company Accounting Oversight Board Rule 3526 (Independence Discussions with Audit Committees), as adopted by the Public Company Oversight Board in Rule 3600T, with respect to any relationships between Ernst & Young LLP and the Company that in its professional judgment may reasonably be thought to bear on independence. Ernst & Young LLP has discussed its independence with us. Ernst & Young LLP confirmed in its letter that, in its professional judgment, it is independent of the Company.

Based on the review and discussions described above with respect to the Company's audited financial statements included in the Company's 2011 Annual Report on Form 10-K, we have recommended to the Board of Directors that such financial statements be included in the Company's Annual Report on Form 10-K.

The Audit Committee has selected Ernst & Young LLP as the Company's independent auditors for the fiscal year ending December 31, 2012, and the Board of Directors has concurred with such selection.

The Audit Committee also reviewed management's process designed to achieve compliance with Section 404 of the Sarbanes-Oxley Act of 2002 and received periodic updates regarding management's progress.

As specified in the Audit Committee Charter, it is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with accounting principles generally accepted in the United States. That is the responsibility of management and the Company's independent auditors. In giving our recommendation to the Board of Directors, we have relied on (i) management's representation that such financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States and (ii) the report of the Company's independent auditors with respect to such financial statements.

Respectfully submitted by the Audit Committee:

Thomas S. Postek (Chairman)

Robert G. Rettig

Lee S. Hillman

Wilma J. Smelcer
