Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of the Dell Inc. 401(k) Plan:

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Dell Inc. 401(k) Plan (the Plan) at December 31, 2012 and 2011 and the changes in net assets available for benefits for the year ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2012 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

DELL INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following brief description of the Dell Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General Dell Inc. (the "Company" or "Employer") originally adopted the Plan on June 1, 1989, and subsequently amended and restated the Plan effective January 1, 2007, and January 1, 2009. The Benefits Administration Committee of the Company ("BAC") controls and manages the operation and administration of the Plan. The Bank of New York Mellon is the Plan's Trustee (the "Plan Trustee").

The Plan is a defined contribution plan covering all U.S. resident employees of the Company who are not covered by a collective bargaining agreement. Participation in the Plan is at the election of the employee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Participant Contributions Contributions are made to the Plan by the Company on behalf of each eligible participant based upon the participant's elected compensation deferral through payroll deductions. The deferrals are funded by the Company at the end of each payroll period. The amount eligible participants may elect to contribute to the Plan ranges from 1% to 50% of their eligible compensation, in whole percentages, up to the annual statutory limit of \$17,000 as permitted by the Internal Revenue Code of 1986, as amended ("IRC"). Highly compensated employees, as defined by the IRC, may be subject to more restrictive maximum annual contribution limits if the Plan fails to satisfy certain testing criteria set forth in the IRC. The Plan relies on the safe harbor rules of Section 401(k)(12) of the IRC in order to satisfy the nondiscrimination testing requirements. Participants age 50 or over may elect to contribute an additional \$5,500 ("catch-up contributions") over the base statutory limit in accordance with the Economic Growth and Tax Relief Reconciliation Act of 2001. Participants may also elect to make Roth contributions to the Plan.

The Plan also permits employees to contribute balances from other qualified plans ("rollover contributions"). There is a 20% cap on the percentage of contributions a participant may invest in the Dell Stock Fund and Acadian Emerging Market Equity Fund investment options.

Employer Contributions For 2012, the Company matched 100% of the first 5% of eligible compensation that each participant contributed to the Plan. The Company's matching contributions were made at the end of each payroll period. The Company also makes a true-up matching contribution at the end of each Plan year. Additional discretionary Employer contributions may be made upon the approval of the Company's Board of Directors. The Company made no additional discretionary contributions for the year ended December 31, 2012. All of the Company's contributions are invested at the participant's discretion among the fund elections. Neither participant nor Company matching or discretionary contributions, if any, are required to be invested in the Dell Stock Fund.

Participant Accounts Each participant's account is credited with the participant's contributions, allocations of Company matching and discretionary contributions, and Plan earnings or losses offset by withdrawals and Plan administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Table of Contents

DELL INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

Effective January 1, 2012, the Plan added a managed account program, where participants may elect additional services focused on investment, savings and retirement income. Fees for these services are paid by the participant, and are based on the participant's account balance.

Vesting Participants are immediately vested in their contributions and earnings thereon. All participants are also immediately vested in all Employer contributions and earnings thereon.

Forfeitures Company contributions forfeited by participants may be used by the Company to satisfy Plan administrative expenses or to reduce future Company contributions. During 2012, there were no forfeitures used to reduce Company contributions. There was approximately \$716,000 in unallocated forfeited participant accounts at December 31, 2012. This forfeiture amount was a result of re-calculating the match true-up contributions during 2012, and will be used to reduce employer contributions. There were no unallocated forfeited participant accounts at December 31, 2011.

Benefit Payments Participants are entitled to receive a distribution of the vested portion of their account upon reaching age 59½, termination of employment, disability, death, or in the event of financial hardship. A participant who has separated from service may defer benefit payments until reaching age 65, provided his or her vested account balance is greater than \$5,000; otherwise, in the event of a distribution greater than \$1,000 but less than \$5,000, the participant may elect either a direct rollover to an individual retirement account (IRA) or another qualified plan or a lump-sum amount equal to the value of the vested portion of his or her account upon termination of service. If an employee fails to make an election of one of these options within 90 days of the termination date, his or her vested account balance will automatically be directed to a rollover IRA. Similarly, participants with a vested account balance of less than \$1,000 may elect either of the options noted above. If an election is not made within 90 days of the termination date, the balance will be distributed to the participant in a lump sum. Payment of benefits prior to termination of service may be made under certain circumstances as defined by the Plan.

Administration Expenses Plan assets are held in trust by the Plan Trustee. The Plan's third-party recordkeeper is Aon Hewitt. Effective January 1, 2012, administrative expenses are paid by the Plan and participant accounts are allocated fees on a per capita basis, except for expenses related to distributions and other participant-initiated transactions, which are charged to the account of the participant.

Investments All investments are participant directed. The participants invest in all investments on a unitized basis. The Plan is invested in mutual funds, common collective trust funds, separately managed funds, and the Dell Stock Fund.

The following investments represent separately managed funds which are comprised of investments in mutual funds and common stocks: Dell Inc. Short Duration Bond Fund, Dell Inc. 401(k) Dodge & Cox Large Cap Value Fund, Dell Inc. 401(k) Dodge & Cox Balanced Fund and Dell Inc. 401(k) Times Square Small/Mid Cap Growth Fund. Effective September 2012, upon the liquidation of the Plan's investment in the American Growth Fund, the Dell Inc. 401(k) Large Cap Growth Fund was established. It is a separately managed fund that is comprised of two underlying separately managed funds and a mutual fund. The Plan's separately managed funds represent a portion of the Plan's core funds.

In addition to the core funds, participants may elect to contribute to a mix of the Plan's separately managed funds, common collective trust funds, and mutual funds, based on target retirement dates. These investment options are called Pre-Mixed Portfolios. The Pre-Mixed Portfolios provide for diversification of investments based on the participants' expected retirement dates.

Table of Contents

DELL INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

Participants are not permitted to make an elective transfer that will increase their position in the Dell Stock Fund or the Acadian Emerging Market Equity Fund above 20% of their total account balance. Effective October 19, 2012, the Plan was amended to require that if a participant's holdings in the Dell Stock Fund exceeded 20% of the participant's total account balance, the Employer would sell shares of the Dell Stock Fund to reduce the participant's holdings to less than 20% of the total account balance. Proceeds from the sale were allocated to a pre-mixed portfolio based on the participant's expected retirement date.

Notes Receivable from Participants Participants may withdraw as loans a maximum loan amount equal to the lesser of (i) \$50,000 less the highest outstanding loan balance during the past 12 months or (ii) 50% of the available vested portion of their account balance less any current outstanding loan balance (minimum loan amount of \$500). Each participant's loan is collateralized by the participant's vested account balance and is charged an interest rate equal to the prime rate on the date of loan origination plus 1.0% and a one-time fee of \$75. The loan repayment period may not exceed four and a half years except when the proceeds of the loan are used to acquire the participant's primary residence, when the repayment period may not exceed 20 years. At December 31, 2012, loans bore interest at rates ranging between 3.25% and 10.50% and are due at various dates through December 27, 2032.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Plan Termination Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of any Plan termination, Plan assets will be distributed in accordance with the Plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates The preparation of financial statements in conformity with GAAP requires the use of management estimates. These estimates are subjective in nature and involve assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of investment income and deductions during the Plan year. Actual results could differ from those estimates.

Risks and Uncertainties The Plan provides for various investments in the Dell Stock Fund, mutual funds, common collective trust funds, and separately managed funds. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, and the overall volatility in the financial markets, it is at least reasonably possible that changes will occur in the near term that could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Contributions Participant and Employer contributions are recorded in the period the Employer makes the payroll deduction or upon approval by the Company for discretionary Employer contributions, if any.

Table of Contents

DELL INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

Investment Valuation and Income Recognition The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investments in registered investment companies, also called mutual funds, are valued at their net asset value and can be market corroborated. The mutual funds held by the Plan are actively traded; however, participants do not directly own the shares of the funds, but own an interest in the funds and therefore participant transactions are on a unitized basis, as noted below.

The investments in the common collective trust funds and the separately managed funds are stated at estimated fair value based on the fair value of the underlying investments and allocated to participant accounts based on the unit value of the fund. The net asset value (NAV), as provided by the Plan Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of investments, which consist of realized gains and losses and the unrealized appreciation (depreciation) on investments held.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Unit Values Individual participant accounts invested in the common collective trust funds, separately managed funds, and mutual funds are maintained for participant balances and activity on a unit value basis. Participants do not have beneficial ownership in specific underlying securities or other assets in the mutual funds, common collective trust funds, or the separately managed funds, but have an interest therein represented by units valued as of the last business day of the period. The mutual funds, common collective trust funds, and the separately managed funds earn dividends and interest, which are automatically reinvested in additional units. Generally, contributions to and withdrawal payments from the mutual funds, common collective trust funds, and the separately managed funds are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Payment of Benefits Benefits are recorded when paid. There were approximately \$557,000 in amounts allocated to participants who had elected to withdraw their balances from the Plan, but who had not yet been paid, as of December 31, 2012. There were no benefits payable as of December 31, 2011.

Accounting Pronouncements The Financial Accounting Standards Board (FASB) is the authoritative body for financial accounting and reporting in the United States. The following is a list of recent pronouncements issued by the FASB:

In May 2011, the FASB issued guidance on fair value measurements, which clarifies how a principal market is determined, how and when the valuation premise of highest and best use applies, and how premiums and discounts are applied, as well as requiring new disclosures. This new guidance is effective for reporting periods beginning after December 15, 2011. The Plan adopted these disclosure requirements as of the beginning of the calendar year ended December 31, 2012, and its adoption did not have any effect on the Plan's statement of net assets available for benefits and statement of changes in net assets available for benefits.

Table of Contents

DELL INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities based on the lowest level of significant unobservable inputs.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The Plan's policy is to recognize significant transfers between levels at the Plan's year-end.

Edgar Filing: DELL INC - Form 11-K

participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

For the years ended December 31, 2012 and 2011, there were no significant transfers in or out of Level 1, 2 or 3.

- 10 -

Table of Contents**DELL INC. 401(k) PLAN****NOTES TO FINANCIAL STATEMENTS (Continued)**

On the following page is a description of the valuation methodologies, redemption, and other restrictions for the Plan's investments at December 31, 2012 and 2011:

Mutual funds	<p>Consist of a Level 1 money market fund that is based on quoted prices in active markets for identical assets. The Level 2 mutual funds consist of investments in registered investment companies, which are valued at their net asset value, and can be market corroborated.</p> <p>The American Euro Pacific Growth Fund and, through September 2012, the American Growth Fund contain a trading restriction that requires shareholders who sell more than \$5,000 from either fund to wait at least 30 days before repurchasing into the fund. The restriction applies to transfers and reallocations of current account balances. The restriction does not apply to sales/purchases of \$5,000 or less, rollovers, and retirement plan contributions and distributions. The restriction also excludes activity in any of the Pre-Mixed Portfolios that contain either the American Growth Fund or the American Euro Pacific Growth Fund.</p>
Separately managed funds	<p>Consists of several separately managed funds, including (1) the Dell Inc. Short Duration Bond Fund, which invests primarily in bonds and other fixed income securities, including government obligations, corporate bonds, mortgages and asset-backed securities, and seeks to preserve capital and generate moderate income; (2) the Dell Inc. 401(k) Dodge & Cox Balanced Fund, which seeks to provide regular income, conservation of principal and an opportunity for long-term growth of principal and income, by investing in a diversified portfolio of stocks and bonds; and (3) the Dell Inc. 401(k) Dodge & Cox Large Cap Value Fund and Dell Inc. 401(k) Times Square Small/Mid Cap Growth Fund, which invest in U.S. common stocks, and seek long-term capital appreciation, and (4) the Dell Inc. 401(k) Large Cap Growth Fund, which was added in 2012 and which consists of mutual funds holding investments in large capitalization U.S. common stocks, and seeks to provide long-term capital appreciation by directly held U.S. common stocks with the same objective.</p> <p>The values of the separately managed funds are determined based on underlying investments as follows: Level 1, common stocks, which are valued at the closing prices reported on the active market on which the security is traded, and money market mutual funds, which are based on quoted prices in active markets for identical assets; and Level 2, mutual funds, which are valued at their net asset value, and the common collective trust fund, which is stated at estimated fair value based on the fair value of its underlying investments.</p>
Dell Stock Fund	<p>Dell common stock is valued on a unitized basis using the closing price reported on the active market. There is a 14 day trading restriction that prevents participants from reallocating or transferring money back into the Dell Stock Fund for 14 days from the date of the last transfer.</p>
Common collective trust funds	<p>The Plan's investments in the common collective trust funds consist of the BlackRock Equity Index Fund and the Wellington Balanced Real Assets Fund, which are stated at estimated fair value as determined by the issuer, which is based on the value of the underlying investments, and can be market corroborated. The BlackRock Equity Index Fund seeks to match the performance of the S&P 500 Index. The Wellington Balanced Real Assets Fund seeks to provide long-term returns consistent with inflation with strong relative performance in rising inflation environments.</p>

There were no unfunded commitments or other redemption restrictions on the Plan's investments in these funds at December 31, 2012 or 2011.

Table of Contents**DELL INC. 401(k) PLAN****NOTES TO FINANCIAL STATEMENTS (Continued)****4. INVESTMENTS**

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, 2012 and 2011:

	2012	2011
	(in thousands)	
Mutual funds:		
Neuberger Berman Genesis Fund	\$ 218,832	\$ 249,669
American Euro Pacific Growth Fund	370,129	322,425

DELL INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

5. TAX STATUS

The Plan obtained its latest determination letter dated April 15, 2011, from the Internal Revenue Service (IRS) informing the Company that the Plan and related trust are designed in compliance with Section 401(a) of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The Company believes that the related trust is exempt from federal income tax under Section 501(a) of the IRC. Therefore, the financial statements contain no provision for income taxes. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Administrative expenses on the statement of changes in net assets available for benefits include amounts paid to the Plan Trustee as well as to other exempt parties-in-interest. Plan investments in the separately managed funds include shares of The Bank of New York Mellon, the trustee of the Plan; therefore, these transactions qualify as exempt party-in-interest transactions.

Transactions in shares of the Company s common stock qualify as party-in-interest transactions under the provisions of ERISA. During 2012, the Plan made purchases of approximately \$8,115,000 and sales of approximately \$24,552,000 of the Company s common stock. During the year ended December 31, 2012, the Plan recorded dividend income on the Company s common stock of approximately \$1,069,000.

The Plan is a claimant in a class action matter with the Company that was settled during 2010. The Plan hired an independent fiduciary to approve the calculations that were performed to determine how many shares of Company common stock were held by the Plan at the measurement date. The number of shares determined the settlement amount that the Plan received. Proceeds from the settlement of approximately \$579,000 were received and distributed in 2013.

7. SUBSEQUENT EVENTS

Effective January 1, 2013, the Plan changed its recordkeeper and trustee to Fidelity Management Trust Company. Also effective January 1, 2013, the Plan was amended and restated.

On February 5, 2013, Dell announced that it had signed a definitive agreement and plan of merger pursuant to which it will be acquired in a merger by Denali Holding Inc., a Delaware corporation owned by Michael S. Dell, the Chairman, Chief Executive Officer and founder of Dell, and investment funds affiliated with Silver Lake Partners, a global private equity firm. At the effective time of the merger, each share of Dell s common stock issued and outstanding immediately before the effective time, other than certain excluded shares, will be converted into the right to receive \$13.65 in cash, without interest. Subject to the satisfaction or permitted waiver of closing conditions set forth in the merger agreement, the merger is expected to be consummated before the end of the third quarter of the Company s fiscal year ending January 31, 2014. The terms of the merger agreement did not impact the Plan s financial statements as of and for the year ended December 31, 2012. Plan management is in the process of determining the impact, if any, to the Plan or Plan participants.
