## The Gabelli Dividend & Income Trust and The Gabelli Global Small and Mid Cap Value Trust

### Notes to Financial Statements (Unaudited)

**1. Organization.** The Gabelli Dividend & Income Trust ( *Dividend Trust* ) currently operates as a diversified closed-end management investment company organized as a Delaware statutory trust on November 18, 2003 and registered under the Investment Company Act of 1940, as amended (the *1940 Act* ). Investment operations commenced on November 28, 2003.

*Dividend Trust*'s investment objective is to provide a high level of total return on its assets with an emphasis on dividends and income. *Dividend Trust* will attempt to achieve its investment objective by investing, under normal market conditions, at least 80% of its assets in dividend paying securities (such as common and preferred stock) or other income producing securities (such as fixed income debt securities and securities that are convertible into equity securities).

The Gabelli Global Small and Mid Cap Value Trust ( *Global Trust* ) is a diversified closed-end management investment company organized as a Delaware statutory trust on August 19, 2013 and registered under the 1940 Act. Investment operations commenced on June 23, 2014. *Global Trust* had no operations prior to June 23, 2014, other than matters relating to its organization and registration as a closed end management company under the 1940 Act, and the sale of 8,333 common shares for \$100,000 on January 22, 2014 to *Dividend Trust*. On June 23, 2014, *Dividend Trust* contributed \$99,229,373 in cash in exchange for 8,269,115 shares of *Global Trust*, and on the same date distributed such shares to the holders of record on June 16, 2014 at the rate of one common share of *Global Trust* for every ten common shares of *Dividend Trust*.

*Global Trust*'s investment objective is to seek long term growth of capital. *Global Trust* will attempt to achieve its investment objective by investing, under normal market conditions, at least 80% of its total assets in equity securities (such as common stock and preferred stock) of companies with small or medium sized market capitalizations ( *small cap* and *mid cap* companies, respectively) and at least 40% of its total assets in the equity securities of companies located outside the U.S. and in at least three countries.

**2. Significant Accounting Policies.** *Dividend Trust* and *Global Trust* (each a *Fund* , collectively, the *Funds* ) financial statements are prepared in accordance with U.S. Generally Accepted Accounting Principles ( *GAAP* ), which may require the use of management estimates and assumptions. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the *Funds* in the preparation of its financial statements.

**Security Valuation.** Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board of Trustees for *Dividend Trust* or the Board of Trustees for *Global Trust* (the *Board* or the *Boards* ) so determines, by such other method as the Board shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by Gabelli Funds, LLC (the *Adviser* ).

---

**The Gabelli Dividend & Income Trust and The Gabelli Global Small and Mid Cap Value Trust**

**Notes to Financial Statements (Unaudited) (Continued)**

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Board if market conditions change significantly after the close of the foreign market, but prior to the close of business on the day the securities are being valued. Debt instruments with remaining maturities of sixty days or less that are not credit impaired are valued at amortized cost, unless the Board determines such amount does not reflect the securities' fair value, in which case these securities will be fair valued as determined by the Board. Debt instruments having a maturity greater than sixty days for which market quotations are readily available are valued at the average of the latest bid and asked prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price. U.S. government obligations with maturities greater than sixty days are normally valued using a model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields, bids, offers, and reference data. Certain securities are valued principally using dealer quotations.

Securities and assets for which market quotations are not readily available are fair valued as determined by the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons with the valuation and changes in valuation of similar securities, including a comparison of foreign securities with the equivalent U.S. dollar value American Depositary Receipt securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

The inputs and valuation techniques used to measure fair value of the Funds' investments are summarized into three levels as described in the hierarchy below:

- Level 1 quoted prices in active markets for identical securities;
- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and
- Level 3 significant unobservable inputs (including the Board's determinations as to the fair value of investments).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input both individually and in the aggregate that is significant to the fair value measurement. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

**The Gabelli Dividend & Income Trust and The Gabelli Global Small and Mid Cap Value Trust**

**Notes to Financial Statements (Unaudited) (Continued)**

**Additional Information to Evaluate Qualitative Information.**

**General.** The Funds use recognized industry pricing services approved by the Boards and unaffiliated with the Adviser to value most of its securities, and uses broker quotes provided by market makers of securities not valued by these and other recognized pricing sources. Several different pricing feeds are received to value domestic equity securities, international equity securities, preferred equity securities, and fixed income securities. The data within these feeds is ultimately sourced from major stock exchanges and trading systems where these securities trade. The prices supplied by external sources are checked by obtaining quotations or actual transaction prices from market participants. If a price obtained from the pricing source is deemed unreliable, prices will be sought from another pricing service or from a broker/dealer that trades that security or similar securities.

**Fair Valuation.** Fair valued securities may be common and preferred equities, warrants, options, rights, and fixed income obligations. Where appropriate, Level 3 securities are those for which market quotations are not available, such as securities not traded for several days, or for which current bids are not available, or which are restricted as to transfer. Among the factors to be considered to fair value a security are recent prices of comparable securities that are publicly traded, reliable prices of securities not publicly traded, the use of valuation models, current analyst reports, valuing the income or cash flow of the issuer, or cost if the preceding factors do not apply. A significant change in the unobservable inputs could result in a lower or higher value in Level 3 securities. The circumstances of Level 3 securities are frequently monitored to determine if fair valuation measures continue to apply.

The Adviser reports quarterly to the Boards the results of the application of fair valuation policies and procedures. These include back testing the prices realized in subsequent trades of these fair valued securities to fair values previously recognized.

**Derivative Financial Instruments.** The Funds may engage in various portfolio investment strategies by investing in a number of derivative financial instruments for the purposes of achieving additional return or of hedging the value of a Fund's portfolio, increasing the income of a Fund, hedging or protecting its exposure to interest rate movements and movements in the securities markets, managing risks, protecting the value of its portfolio against uncertainty in the level of future currency exchange rates, or hedging a specific transaction with respect to either the currency in which the transaction is denominated or another currency. Investing in certain derivative financial instruments, including participation in the options, futures, or swap markets, entails certain execution, liquidity, hedging, tax, and securities, interest, credit, or currency market risks. Losses may arise if the Adviser's prediction of movements in the direction of the securities, foreign currency, and interest rate markets is inaccurate. Losses may also arise if the counterparty does not perform its duties under a contract, or that, in the event of default, a Fund may be delayed in or prevented from obtaining payments or other contractual remedies owed to it under derivative contracts. The creditworthiness of the counterparties is closely monitored in order to minimize these risks. Participation in derivative transactions involves investment risks, transaction costs, and potential losses to which a Fund would not be subject absent the use of these strategies. The consequences of these risks, transaction costs, and losses may have a negative impact on a Fund's ability to pay distributions.

The Funds' derivative contracts held at June 30, 2014, if any, are not accounted for as hedging instruments under GAAP and are disclosed in the Schedule of Investments together with the related counterparty.

**The Gabelli Dividend & Income Trust and The Gabelli Global Small and Mid Cap Value Trust****Notes to Financial Statements (Unaudited) (Continued)**

***Limitations on the Purchase and Sale of Futures Contracts, Certain Options, and Swaps.*** Subject to the guidelines of the Board, a Fund may engage in commodity interest transactions (generally, transactions in futures, certain options, certain currency transactions, and certain types of swaps) only for bona fide hedging or other permissible transactions in accordance with the rules and regulations of the Commodity Futures Trading Commission (CFTC). Pursuant to amendments by the CFTC to Rule 4.5 under the Commodity Exchange Act (CEA), the Adviser has filed a notice of exemption from registration as a commodity pool operator with respect to the Fund. A Fund and the Adviser are therefore not subject to registration or regulation as a commodity pool operator under the CEA. In addition, certain trading restrictions are now applicable to the Fund as of January 1, 2013. These trading restrictions permit a Fund to engage in commodity interest transactions that include (i) bona fide hedging transactions, as that term is defined and interpreted by the CFTC and its staff, without regard to the percentage of a Fund's assets committed to margin and options premiums and (ii) non-bona fide hedging transactions, provided that a Fund does not enter into such non-bona fide hedging transactions if, immediately thereafter, either (a) the sum of the amount of initial margin deposits on a Fund's existing futures positions or swaps positions and option or swaption premiums would exceed 5% of the market value of a Fund's liquidating value, after taking into account unrealized profits and unrealized losses on any such transactions, or (b) the aggregate net notional value of a Fund's commodity interest transactions would not exceed 100% of the market value of a Fund's liquidating value, after taking into account unrealized profits and unrealized losses on any such transactions. Therefore, in order to claim the Rule 4.5 exemption, a Fund is limited in its ability to invest in commodity futures, options, and certain types of swaps (including securities futures, broad based stock index futures, and financial futures contracts). As a result, in the future, a Fund will be more limited in its ability to use these instruments than in the past, and these limitations may have a negative impact on the ability of the Adviser to manage a Fund, and on a Fund's performance.

***Foreign Currency Translations.*** The books and records of each Fund are maintained in U.S. dollars. Foreign currencies, investments, and other assets and liabilities are translated into U.S. dollars at current exchange rates. Purchases and sales of investment securities, income, and expenses are translated at the exchange rate prevailing on the respective dates of such transactions. Unrealized gains and losses that result from changes in foreign exchange rates and/or changes in market prices of securities have been included in unrealized appreciation/depreciation on investments and foreign currency translations. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investment securities transactions, foreign currency transactions, and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial purchase trade date and subsequent sale trade date is included in realized gain/(loss) on investments.

***Foreign Securities.*** Each Fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the inability to repatriate funds, less complete financial information about companies, and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than securities of comparable U.S. issuers.

**The Gabelli Dividend & Income Trust and The Gabelli Global Small and Mid Cap Value Trust**

**Notes to Financial Statements (Unaudited) (Continued)**

**Foreign Taxes.** The Funds may be subject to foreign taxes on income, gains on investments, or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

**Restricted Securities.** The Funds are not subject to an independent limitation on the amount it may invest in securities for which the markets are restricted. Restricted securities include securities whose disposition is subject to substantial legal or contractual restrictions. The sale of restricted securities often requires more time and results in higher brokerage charges or dealer discounts and other selling expenses than does the sale of securities eligible for trading on national securities exchanges or in the over-the-counter markets. Restricted securities may sell at a price lower than similar securities that are not subject to restrictions on resale. Securities freely saleable among qualified institutional investors under special rules adopted by the SEC may be treated as liquid if they satisfy liquidity standards established by the Boards. The continued liquidity of such securities is not as well assured as that of publicly traded securities, and accordingly the Boards will monitor their liquidity. For the restricted securities the Funds held as of June 30, 2014, refer to the Schedules of Investments.

**Securities Transactions and Investment Income.** Securities transactions are accounted for on the trade date with realized gain/(loss) on investments determined by using the identified cost method. Interest income (including amortization of premium and accretion of discount) is recorded on the accrual basis. Premiums and discounts on debt securities are amortized using the effective yield to maturity method. Dividend income is recorded on the ex-dividend date, except for certain dividends from foreign securities that are recorded as soon after the ex-dividend date as a Fund becomes aware of such dividends.

**Custodian Fee Credits.** When cash balances are maintained in the custody account, the Funds receive credits which are used to offset custodian fees. The gross expenses paid under the custody arrangement are included in custodian fees in the Statement of Operations with the corresponding expense offset, if any, shown as Custodian fee credits.

**Distributions to Shareholders.** Distributions to common shareholders are recorded on the ex-dividend date. Distributions to shareholders are based on income and capital gains as determined in accordance with federal income tax regulations, which may differ from income and capital gains as determined under GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities and foreign currency transactions held by a Fund, timing differences, and differing characterizations of distributions made by a Fund. Distributions from net investment income for federal income tax purposes include net realized gains on foreign currency transactions. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, adjustments are made to the appropriate capital accounts in the period when the differences arise. These reclassifications have no impact on the NAV of the Funds.

Under Dividend Trust's current common share distribution policy, the Fund declares and pays monthly distributions from net investment income, capital gains, and paid-in capital. The actual source of the distribution is determined after the end of the calendar year. Pursuant to this policy, distributions during the year may be made in excess of required distributions. To the extent such distributions are made from current earnings and profits, they are considered ordinary income or long term capital gains. The Fund's current distribution policy may restrict the Fund's ability to pass through to shareholders all of its net realized long term capital gains as a Capital Gain Distribution, subject to the maximum

federal income tax rate and may cause such gains to be treated as ordinary income. Distributions sourced from paid-in capital should not be considered as dividend yield or the total return

from an investment in the Fund. The Board will continue to monitor the Fund's distribution level, taking into consideration the Fund's NAV and the financial market environment. The Fund's distribution policy is subject to modification by the Board at any time.

Distributions to shareholders of Dividend Trust's 5.875% Series A Preferred Shares, Series B Auction Market Preferred Shares, Series C Auction Market Preferred Shares, 6.000% Series D Preferred Shares, and Series E Auction Rate Preferred Shares ( Preferred Shares ) are recorded on a daily basis and are determined as described in Note 5.

The tax character of distributions paid during the year ended December 31, 2013 for Dividend Trust was as follows:

	<b>Common</b>	<b>Preferred</b>
<b>Distributions paid from:</b>		
Ordinary income	\$ 26,125,755	\$ 4,559,641
Net long term capital gains	59,169,429	10,326,644
 Total distributions paid	 \$ 85,295,184	 \$ 14,886,285

Global Trust expects to distribute its net investment income and net realized capital gains, if any, annually.

**Provision for Income Taxes.** Dividend Trust intends to continue to qualify as, and Global Trust intends to qualify as, regulated investment companies under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code ). It is the policy of each Fund to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of its net investment company taxable income and net capital gains. Therefore, no provision for federal income taxes is required.

As of December 31, 2013, the components of accumulated earnings/losses on a tax basis for Dividend Trust were net unrealized appreciation on investments and foreign currency translations of \$784,683,563.

Under the Regulated Investment Company Modernization Act of 2010, the Funds are permitted to carry forward for an unlimited period capital losses incurred. As a result of the rule, post enactment capital losses that are carried forward will retain their character as either short term or long term capital losses rather than being considered all short term as under previous law.

The following summarizes the tax cost of investments and the related net unrealized appreciation at June 30, 2014:

Cost	Dividend Trust		Net Unrealized Appreciation
	Gross Unrealized	Gross Unrealized	

Edgar Filing: GABELLI DIVIDEND & INCOME TRUST - Form N-CSRS

The Funds are required to evaluate tax positions taken or expected to be taken in the course of preparing the Funds tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the

**Notes to Financial Statements (Unaudited) (Continued)**

applicable tax authority. Income tax and related interest and penalties would be recognized by the Funds as tax expense in the Statement of Operations if the tax positions were deemed not to meet the more-likely-than-not threshold. During the six months ended June 30, 2014, Dividend Trust did not incur any income tax, interest, or penalty. As of June 30, 2014, the Adviser has reviewed all open tax years and concluded that there was no impact to Dividend Trust's net assets or results of operations. Dividend Trust's federal and state tax returns for the prior three fiscal years remain open, subject to examination by these taxing authorities. As of June 30, 2014, there were no open tax years for Global Trust. On an ongoing basis, the Adviser will monitor the Funds' tax positions to determine if adjustments to this conclusion are necessary.

**3. Agreements and Transactions with Affiliates.** Each Fund has entered into an investment advisory agreement (the Advisory Agreement) with the Adviser which provides that the Fund will pay the Adviser a fee, computed weekly and paid monthly, equal on an annual basis to 1.00% of the value of the Fund's average weekly net assets including the liquidation value of preferred shares. In accordance with the Advisory Agreements, the Adviser provides a continuous investment program for each Fund's portfolio and oversees the administration of all aspects of the Fund's business and affairs.

The Adviser has agreed to reduce the management fee on the incremental assets attributable to Dividend Trust's Preferred Shares if the total return of the NAV of the common shares of Dividend Trust, including distributions and advisory fee subject to reduction, does not exceed the stated dividend rate of each particular series of the Preferred Shares for the year. Dividend Trust's total return on the NAV of the common shares is monitored on a monthly basis to assess whether the total return on the NAV of the common shares exceeds the stated dividend rate of each particular series of Preferred Shares for the period. For the six months ended June 30, 2014, Dividend Trust's total return on the NAV of the common shares exceeded the stated dividend rate of the outstanding Preferred Shares. Thus, advisory fees were accrued on these assets.

During the six months ended June 30, 2014, Dividend Trust and Global Trust paid brokerage commissions on security trades of \$140,441 and \$3,317, respectively, to G.research, Inc., an affiliate of the Adviser.

The cost of calculating each Fund's NAV per share is a Fund expense pursuant to the Advisory Agreement. During the six months ended June 30, 2014, Dividend Trust and Global Trust paid or accrued \$22,500 and \$1,000, respectively, to the Adviser in connection with the cost of computing each Fund's NAV.

As per the approval of the Boards, Dividend Trust and Global Trust compensate officers of each Fund, who are employed by the Fund and are not employed by the Adviser (although the officers may receive incentive based variable compensation from affiliates of the Adviser). During the six months ended June 30, 2014, Dividend Trust and Global Trust paid or accrued \$96,487 and \$581 in payroll expenses in the Statement of Operations, respectively.

Dividend Trust pays each Trustee who is not considered an affiliated person an annual retainer of \$18,000 plus \$2,000 for each Board meeting attended. Each Trustee is reimbursed by the Fund for any out of pocket expenses incurred in attending meetings. All Board committee members receive \$1,000 per meeting attended, the Audit Committee Chairman receives an annual fee of \$3,000, the Proxy Voting Committee Chairman receives an annual fee of \$1,500, the Nominating Committee Chairman and the Lead Trustee each receive an annual fee of \$2,000. A Trustee may

receive a single meeting fee, allocated among the participating funds, for participation

in certain meetings held on behalf of multiple funds. Trustees who are directors or employees of the Adviser or an affiliated company receive no compensation or expense reimbursement from the Fund.

Global Trust pays each Trustee who is not considered an affiliated person an annual retainer of \$3,000 plus \$1,000 for each Board meeting attended. Each Trustee is reimbursed by the Fund for any out of pocket expenses incurred in attending meetings. All Board committee members receive \$500 per meeting attended, the Audit Committee Chairman receives an annual fee of \$2,000, the Proxy Voting Committee Chairman receives an annual fee of \$1,000, the Nominating Committee Chairman and the Lead Trustee each receive an annual fee of \$1,000. A Trustee may receive a single meeting fee, allocated among the participating funds, for participation in certain meetings held on behalf of multiple funds. Trustees who are directors or employees of the Adviser or an affiliated company receive no compensation or expense reimbursement from the Fund.

**4. Portfolio Securities.** Purchases and sales of securities during the six months ended June 30, 2014, other than short term securities and U.S. Government obligations, aggregated \$204,240,511 and \$226,720,980, respectively, for Dividend Trust and \$21,519,589 and \$0, respectively, for Global Trust.

**5. Capital.** Dividend Trust is authorized to issue an unlimited number of common shares of beneficial interest (par value \$0.001). The Board has authorized the repurchase and retirement of its shares on the open market when the shares are trading at a discount of 7.5% or more (or such other percentage as the Board may determine from time to time) from the NAV of the shares. During the six months ended June 30, 2014 and the year ended December 31, 2013, Dividend Trust did not repurchase common shares of beneficial interest in the open market.

Global Trust is authorized to issue an unlimited number of common shares of beneficial interest (par value \$0.001). The Board has authorized the repurchase and retirement of its shares on the open market when the shares are trading at a discount of 7.5% or more (or such other percentage as the Board may determine from time to time) from the NAV of the shares. During the period ended June 30, 2014, Global Trust repurchased and retired 6,400 of its common shares at a cost of \$69,621 and an average discount of 9.37% from its liquidation preference.

Transactions in common shares were as follows:

**Notes to Financial Statements (Unaudited) (Continued)**

A shelf registration for Dividend Trust authorizing the offering of an additional \$500 million of common or preferred shares or notes was declared effective by the SEC on July 11, 2013.

Dividend Trust's Declaration of Trust, as amended, authorizes the issuance of an unlimited number of shares of \$0.001 par value Preferred Shares. The Preferred Shares are senior to the common shares and result in the financial leveraging of the common shares. Such leveraging tends to magnify both the risks and opportunities to common shareholders. Dividends on the Preferred Shares are cumulative. The Fund is required by the 1940 Act and by the Statements of Preferences to meet certain asset coverage tests with respect to the Preferred Shares. If the Fund fails to meet these requirements and does not correct such failure, the Fund may be required to redeem, in part or in full, the Series A, Series B, Series C, Series D, and Series E Preferred Shares at redemption prices of \$25, \$25,000, \$25,000, \$25, and \$25,000, respectively, per share plus an amount equal to the accumulated and unpaid dividends whether or not declared on such shares in order to meet these requirements. Additionally, failure to meet the foregoing asset coverage requirements could restrict Dividend Trust's ability to pay dividends to common shareholders and could lead to sales of portfolio securities at inopportune times. The income received on Dividend Trust's assets may vary in a manner unrelated to the fixed and variable rates, which could have either a beneficial or detrimental impact on net investment income and gains available to common shareholders.

For Series B, Series C, and Series E Preferred Shares, the dividend rates, as set by the auction process that is generally held every seven days, are expected to vary with short term interest rates. Since February 2008, the number of Series B, Series C, and Series E Preferred Shares subject to bid orders by potential holders has been less than the number of shares of Series B, Series C, and Series E Preferred Shares subject to sell orders. Holders that have submitted sell orders have not been able to sell any or all of the Series B, Series C, and Series E Preferred Shares for which they have submitted sell orders. Therefore the weekly auctions have failed, and the dividend rate has been the maximum rate. The current maximum rate for Series B, Series C, and Series E Preferred Shares is 150%, 150%, and 250%, respectively, of the seven day Telerate/British Bankers Association LIBOR rate on the date of such auction. Existing Series B, Series C, and Series E Preferred shareholders may submit an order to hold, bid, or sell such shares on each auction date, or trade their shares in the secondary market. There were no redemptions of Series B, Series C, and Series E Preferred Shares during the six months ended June 30, 2014.

Dividend Trust may redeem in whole or in part the 5.875% Series A and 6.000% Series D Preferred Shares at the redemption price at any time. The Board has authorized the repurchase of Series A and Series D Preferred Shares in the open market at prices less than the \$25 liquidation value per share. During the six months ended June 30, 2014, Dividend Trust did not repurchase any shares of Series A or Series D Preferred Shares.

The holders of Dividend Trust Preferred Shares generally are entitled to one vote per share held on each matter submitted to a vote of shareholders of Dividend Trust and will vote together with holders of common shares as a single class. The holders of Preferred Shares voting together as a single class also have the right currently to elect two Trustees and under certain circumstances are entitled to elect a majority of the Board of Trustees. In addition, the affirmative vote of a majority of the votes entitled to be cast by holders of all outstanding shares of the Preferred Shares, voting as a single class, will be required to approve any plan of reorganization adversely affecting the Preferred Shares, and the approval of two-thirds of each class, voting separately, of the Dividend Trust's outstanding voting stock must approve the conversion of the Fund from a closed-end to an open-end investment company. The approval of a majority (as defined in the 1940 Act) of the outstanding Preferred Shares and a majority (as defined in the 1940 Act) of the Fund's outstanding voting securities are required to approve certain other actions, including changes in the Fund's investment objectives or fundamental investment policies.

**6. Indemnifications.** Each Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

**7. Other Matters.** On April 24, 2008, the Adviser entered into a settlement with the SEC to resolve an inquiry regarding prior frequent trading in shares of the GAMCO Global Growth Fund (the "Global Growth Fund") by one investor who was banned from the Global Growth Fund in August 2002. Under the terms of the settlement, the Adviser, without admitting or denying the SEC's findings and allegations, paid \$16 million (which included a \$5 million civil monetary penalty). On the same day, the SEC filed a civil action in the U.S. District Court for the Southern District of New York (the "Court") against the Executive Vice President and Chief Operating Officer (the

Officer ) of the Adviser, alleging violations of certain federal securities laws arising from the same matter. On May 2, 2014, the SEC filed with the Court a stipulation of voluntary dismissal of the civil action against the Officer, and on June 19, 2014, the Court approved the stipulation and entered an order of dismissal of the action against the Officer. The settlement by the Adviser and the disposition of the action against the Officer did not have a material adverse impact on the Adviser or its ability to fulfill its obligations under the Advisory Agreement.

### **Proxy Voting**

The Funds file Form N-PX with its complete proxy voting record for the twelve months ended June 30, no later than August 31 of each year. A description of the Fund's proxy voting policies, procedures, and how the Fund voted proxies relating to portfolio securities is available without charge, upon request, by (i) calling 800-GABELLI (800-422-3554); (ii) writing to The Gabelli Funds at One Corporate Center, Rye, NY 10580-1422; or (iii) visiting the SEC's website at [www.sec.gov](http://www.sec.gov).

### **Shareholder Meeting May 12, 2014 Final Results**

The Dividend Trust's Annual Meeting of Shareholders was held on May 12, 2014 at the Greenwich Library in Greenwich, Connecticut. At that meeting, common and preferred shareholders, voting together as a single class, elected Frank J. Fahrenkopf, Jr., Anthonie C. van Ekris, and Salvatore J. Zizza as Trustees of the Dividend Trust. A total of 76,740,653 votes, 76,752,362 votes, and 76,810,730 votes were cast in favor of these Trustees and a total of 1,115,889 votes, 1,104,180 votes, and 1,045,812 votes were withheld for these Trustees, respectively. In addition, preferred shareholders, voting as a separate class, elected Anthony J. Colavita as a Trustee of the Fund. A total of 4,694,463 votes were cast in favor of this Trustee and a total of 200,015 votes were withheld for this Trustee.

Mario J. Gabelli, CFA, James P. Conn, Mario d'Urso, Michael J. Melarkey, Salvatore M. Salibello CPA, and Edward T. Tokar continue to serve in their capacities as Trustees of the Fund.

We thank you for your participation and appreciate your continued support.

### **Certifications**

The Dividend Trust's Chief Executive Officer has certified to the New York Stock Exchange (NYSE) that, as of June 11, 2014, he was not aware of any violation by the Fund of applicable NYSE corporate governance listing standards. The Fund reports to the SEC on Form N-CSR which contains certifications by the Fund's principal executive officer and principal financial officer that relate to the Fund's disclosure in such reports and that are required by Rule 30a-2(a) under the 1940 Act.
