Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

Test in the Tupi area proves high productivity

Rio de Janeiro, November 18 2009 PETRÓLEO BRASILEIRO S/A - PETROBRAS, announces that the two formation tests for well 4-RJS-647 (4-BRSA-711-RJS), located in the Tupi Assessment Area, in ultra-deep Santos Basin waters and informally known as Iracema, have been completed and proved the high productivity of the pre-salt carbonate reservoirs.

In each of the two tests that were carried out, the flow that was measured was 5,500 barrels per day of light oil (approximately 32° API), limited to the capacity of the equipment used in the testing phase. The well's initial production is being estimated at up to 50,000 barrels of oil per day, proving the Tupi area's high light oil production capacity.

The well that was tested, the drilling of which was completed in September 2009, is located in an assessment area in block BM-S-11, at a depth of 2,210 meters from the waterline, nearly 250 km off the coast of the State of Rio de Janeiro (figure below) and 33 km Northeast of well 1-RJS-628A (1-BRSA-369A), known as Tupi.

The Consortium, formed by Petrobras (65% - Operator), BG Group (25%), and Galp (10%), will continue with the activities and investments that are required to assess the fields in Tupi, with the drilling of new wells until the Declaration of Commerciality, expected for December 2010.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
