Petrobras acquires 50% of biodiesel plant in Rio Grande do Sul

Rio de Janeiro, July 1, 2011 – Petróleo Brasileiro S.A. – Petrobras announces that it has acquired 50% of the capital stock of the company BSBIOS Indústria e Comércio de Biodiesel Sul Brasil S.A. through its wholly subsidiary Petrobras Biocombustível S.A. – Pbio.

The company, located in Passo Fundo (RS), operates a biodiesel plant integrated with a vegetable oil extraction unit and production of 160 million liters/year of biodiesel. It has a privileged logistic site regarding supply of grains and biodiesel marketing, located just beside a fuels distribution base and a railroad terminal for grains and products.

This acquisition consolidates the Company's leadership in the domestic biofuels sector. It also represents an expansion of the already existing partnership between the companies at the Biodiesel Plant of Marialva (PR), which associated with the partnership executed at present at the Biodiesel Plant of Passo Fundo (RS) results in a new robust and competitive company in the southern region of the country.

The transaction involves funds of approximately R\$ 200 million, which are subject to adjustments by virtue of the due diligence process.
