Description of Terms	

- Linked to the iShares® MSCI Emerging Markets ETF

Unlike ordinary debt securities, the securities do not pay interest, do not repay a fixed amount of principal at maturity and are subject to potential automatic call upon the terms described below. Any return you receive on the securities and whether they are automatically called will depend on the performance of the Fund

Automatic Call. If the fund closing price of the Fund on any call date is greater than or equal to the starting price, the securities will be automatically called, and on the related call settlement date, you will receive the original offering price plus the call premium applicable to that call date. The call premium applicable to each call date is a percentage of the original offering price that increases for each call date based on a simple (non-compounding) return of approximately 7.50% per annum

Call Date	Call Premium
May 7, 2020	7.50% of the original offering price
May 7, 2021	15.00% of the original offering price
May 9, 2022	22.50% of the original offering price
May 1, 2023	30.00% of the original offering price
(the “final calculation day”)	

Maturity Payment Amount. If the securities are not automatically called, you will receive a maturity payment amount that could be equal to or less than the original offering price per security depending on the fund closing price of the Fund on the final calculation day as follows:

- o **If the price of the Fund decreases but the decrease is not more than 10%:**

You will receive the original offering price of your securities at maturity

- o **If the price of the Fund decreases by more than 10%:**

You will receive less than the original offering price and have 1-to-1 downside exposure to the decrease in the price of the Fund in excess of 10%

- Investors may lose up to 90% of the original offering price
- Any positive return on the securities will be limited to the applicable call premium

All payments on the securities are subject to credit risk, and you will have no ability to pursue the shares of the Fund or any securities held by the Fund for payment; if Wells Fargo Finance LLC, as issuer, and Wells Fargo & Company, as guarantor, default on their obligations, you could lose some or all of your investment

- No periodic interest or dividends
- No exchange listing; designed to be held to maturity

On the date of the accompanying pricing supplement, the estimated value of the securities is \$948.86 per security. The estimated value of the securities was determined for the issuer by Wells Fargo Securities, LLC using its proprietary pricing models. It is not an indication of actual profit to the issuer or to Wells Fargo Securities, LLC or any of the issuer’s other affiliates, nor is it an indication of the price, if any, at which Wells Fargo Securities, LLC or any other person may be willing to buy the securities from you at any time after issuance. See “Estimated Value of the Securities” in the accompanying pricing supplement.

The securities have complex features and investing in the securities involves risks not associated with an investment in conventional debt securities. See “Selected Risk Considerations” in this term sheet and “Risk

Factors” in the accompanying pricing supplement.

This final term sheet should be read in conjunction with the accompanying pricing supplement, market measure supplement, prospectus supplement and prospectus.

Hypothetical Payout Profile

The profile to the right illustrates the potential payment on the securities for a range of hypothetical percentage changes in the fund closing price of the Fund from the pricing date to the applicable call date. The profile is based on a call premium of 7.50% for the first call date, 15.00% for the second call date, 22.50% for the third call date and 30.00% for the final call date and a threshold price equal to 90% of the starting price.

This profile has been prepared for purposes of illustration only. Your actual return will depend on (i) whether the securities are automatically called; (ii) if the securities are automatically called, the actual call date on which the securities are called; (iii) if the securities are not automatically called, the actual ending price of the Fund; and (iv) whether you hold your securities to maturity or earlier automatic call.

Hypothetical Returns

If the securities are automatically called:

Hypothetical call date on which securities are automatically called	Hypothetical payment per security on related call settlement date	Hypothetical pre-tax total rate of return
1st call date	\$1,075.00	7.50%
2nd call date	\$1,150.00	15.00%
3rd call date	\$1,225.00	22.50%
4th call date	\$1,300.00	30.00%

Each security has an original offering price of \$1,000.

If the securities are not automatically called:

Hypothetical ending price	Hypothetical percentage change from the hypothetical starting price to the hypothetical ending price	Hypothetical maturity payment amount per security	Hypothetical pre-tax total rate of return
\$95.00	-5.00%	\$1,000.00	0.00%
\$90.00	-10.00%	\$1,000.00	0.00%
\$89.00	-11.00%	\$990.00	-1.00%
\$80.00	-20.00%	\$900.00	-10.00%
\$75.00	-25.00%	\$850.00	-15.00%
\$50.00	-50.00%	\$600.00	-40.00%
\$25.00	-75.00%	\$350.00	-65.00%
\$0.00	-100.00%	\$100.00	-90.00%

Assumes a hypothetical starting price of \$100.00. The hypothetical starting price of \$100.00 has been chosen for illustrative purposes only and does not represent the actual starting price. The actual starting price is set forth under “Summary of Terms” above. For historical data regarding the actual closing prices of the Fund, see the historical information set forth under the section titled “The iShare® MSCI Emerging Markets ETF” in the accompanying pricing supplement. Each security has an original offering price of \$1,000.

The above figures are for purposes of illustration only and may have been rounded for ease of analysis. The actual payment per security upon automatic call or maturity payment amount and the resulting pre-tax rate of return will depend on (i) whether the securities are automatically called; (ii) if the securities are automatically called, the actual call date on which the securities are called; and (iii) if the securities are not automatically called, the actual starting price and actual ending price.

Call Dates and Call Premiums

The call premium applicable to each call date is a percentage of the original offering price that increases for each call date based on a simple (non-compounding) return of approximately 7.50% per annum. The last call date is the final calculation day, and payment upon an automatic call on the final calculation day, if applicable, will be made on the stated maturity date.

Call Date	Call Premium	Payment per Security upon an Automatic Call
May 7, 2020	7.50% of the original offering price	\$1,075.00
May 7, 2021	15.00% of the original offering price	\$1,150.00
May 9, 2022	22.50% of the original offering price	\$1,225.00
May 1, 2023 (the final calculation day)	30.00% of the original offering price	\$1,300.00

Any positive return on the securities will be limited to the applicable call premium, even if the fund closing price of the Fund significantly exceeds the starting price on the applicable call date. You will not participate in any appreciation of the Fund beyond the applicable call premium.

How The Maturity Payment Amount Is Calculated

If the securities are not automatically called, then on the stated maturity date you will receive a cash payment per security equal to the maturity payment amount. The maturity payment amount per security will equal:

- If the ending price is less than the starting price but greater than or equal to the threshold price: \$1,000; or
 - If the ending price is less than the threshold price: \$1,000 *minus*

If the securities are not automatically called and the ending price is less than the threshold price, you will receive less, and possibly 90% less, than the original offering price of your securities at maturity.

Selected Risk Considerations

The risks set forth below are discussed in detail in the “Risk Factors” section in the accompanying pricing supplement. Please review those risk disclosures carefully.

If The Securities Are Not Automatically Called And The Ending Price Is Less Than The Threshold Price, You Will Receive Less, And Possibly 90% Less, Than The Original Offering Price Of Your Securities At Maturity.

- **No Periodic Interest Will Be Paid On The Securities.**
- **The Potential Return On The Securities Is Limited To The Call Premium.**
 - **You Will Be Subject To Reinvestment Risk.**
 - **The Securities Are Subject To Credit Risk.**

As A Finance Subsidiary, The Issuer Has No Independent Operations And Will Have No Independent Assets.

- **Holders Of The Securities Have Limited Rights Of Acceleration.**

Holders Of The Securities Could Be At Greater Risk For Being Structurally Subordinated If Either The Issuer Or The Guarantor Conveys, Transfers Or Leases All Or Substantially All Of The Issuer’s Or The Guarantor’s Assets To One Or More Of The Guarantor’s Subsidiaries.

The Securities Will Not Have The Benefit Of Any Cross-Default Or Cross-Acceleration With Other Indebtedness Of The Guarantor; Events Of Bankruptcy, Insolvency, Receivership Or Liquidation Relating To The Guarantor And Failure By The Guarantor To Perform Any Of Its Covenants Or Warranties (Other Than A Payment Default Under The Guarantee) Will Not Constitute An Event Of Default With Respect To The Securities.

- **The Estimated Value Of The Securities On The Pricing Date, Based On Wells Fargo Securities, LLC’s Proprietary Pricing Models, Is Less Than The Original Offering Price.**

The Estimated Value Of The Securities Is Determined By The Issuer’s Affiliate’s Pricing Models, Which May Differ From Those Of Other Dealers.

The Estimated Value Of The Securities Is Not An Indication Of The Price, If Any, At Which Wells Fargo Securities, LLC Or Any Other Person May Be Willing To Buy The Securities From You In The Secondary Market.

The Value Of The Securities Prior To Stated Maturity Will Be Affected By Numerous Factors, Some Of Which Are Related In Complex Ways.

The Securities Will Not Be Listed On Any Securities Exchange And The Issuer Does Not Expect A Trading Market For The Securities To Develop.

Historical Prices Of The Fund Or The Securities Included In The Fund Should Not Be Taken As An Indication Of The Future Performance Of The Fund During The Term Of The Securities.

- **An Investment In The Securities Is Subject To Risks Associated With Foreign Securities Markets.**
 - **Exchange Rate Movements May Impact The Value Of The Securities.**

Changes That Affect The Fund Or The Underlying Index May Adversely Affect The Value Of The Securities And The Amount You Will Receive At Stated Maturity.

The Issuer Cannot Control Actions By Any Of The Unaffiliated Companies Whose Securities Are Included In The Fund Or The Underlying Index.

The Issuer And Its Affiliates Have No Affiliation With The Fund Sponsor Or The Underlying Index Sponsor And Have Not Independently Verified Their Public Disclosure Of Information.

An Investment Linked To The Shares Of The Fund Is Different From An Investment Linked To The Underlying Index.

- **There Are Risks Associated With The Fund.**
 - **You Will Not Have Any Shareholder Rights With Respect To The Shares Of The Fund.**

Anti-dilution Adjustments Relating To The Shares Of The Fund Do Not Address Every Event That Could Affect Such Shares.

A Call Settlement Date And The Stated Maturity Date May Be Postponed If A Calculation Day Is Postponed.

The Issuer's And The Guarantor's Economic Interests And Those Of Any Dealer Participating In The Offering Are Potentially Adverse To Your Interests.

- *The calculation agent is an affiliate of the Issuer and may be required to make discretionary judgments that affect the return you receive on the securities.*
- *The estimated value of the securities was calculated by an affiliate of the Issuer and is therefore not an independent third-party valuation.*
- *Research reports by affiliates of the Issuer or any participating dealer or its affiliates may be inconsistent with an investment in the securities and may adversely affect the price of the Fund.*
- *Business activities of affiliates of the Issuer or any participating dealer or its affiliates with the companies whose securities are included in the Fund may adversely affect the price of the Fund.*

◦ *Hedging activities by affiliates of the issuer or any participating dealer or its affiliates may adversely affect the price of the Fund.*

◦ *Trading activities by affiliates of the issuer or any participating dealer or its affiliates may adversely affect the price of the Fund.*

A participating dealer or its affiliates may realize hedging profits projected by its proprietary pricing models in addition to any selling concession and/or distribution expense fee, creating a further incentive for the participating dealer to sell the securities to you.

- **The U.S. Federal Tax Consequences Of An Investment In The Securities Are Unclear.**

Not suitable for all investors

Investment suitability must be determined individually for each investor. The securities described herein are not a suitable investment for all investors. In particular, no investor should purchase the securities unless they understand and are able to bear the associated market, liquidity and yield risks. Unless market conditions and other relevant factors change significantly in your favor, a sale of the securities prior to maturity is likely to result in sale proceeds that are substantially less than the original offering price per security. Wells Fargo Securities, LLC and its affiliates are not obligated to purchase the securities from you at any time prior to maturity.

The issuer and the guarantor have filed a registration statement (including a prospectus) with the SEC for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents that the issuer and the guarantor have filed with the SEC for more complete information about the issuer, the guarantor and this offering. You may get these documents for free by visiting EDGAR on the SEC website at www.sec.gov. Alternatively, the issuer, the guarantor, any underwriter or any dealer participating in the offering will arrange to send you the prospectus if you request it by calling your financial advisor or by calling Wells Fargo Securities at 866-346-7732.
