Market Information

There is a limited public market for our common shares. Our common shares are quoted on the OTC Bulletin Board under the symbol *AMZZ*. Trading in stocks quoted on the OTC Bulletin Board is often thin and is characterized by wide fluctuations in trading prices due to many factors that may be unrelated to a company's operations or business prospects. We cannot assure you that there will be a market in the future for our common stock.

OTC Bulletin Board securities are not listed or traded on the floor of an organized national or regional stock exchange. Instead, OTC Bulletin Board securities transactions are conducted through a telephone and computer network connecting dealers in stocks. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our financial statements, including the notes thereto, appearing elsewhere in this annual report. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward looking statements. Our audited financial statements are stated in United States Dollars and are prepared in accordance with United States Generally Accepted Accounting Principles.

RESULTS OF OPERATIONS

We have incurred recurring losses to date. Our financial statements have been prepared assuming that we will continue as a going concern and, accordingly, do not include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should we be unable to continue in operation.

We expect we will require additional capital to meet our long term operating requirements. We expect to raise additional capital through, among other things, the sale of equity or debt securities.

FISCAL YEAR ENDED APRIL 30, 2012 COMPARED TO FISCAL YEAR ENDED APRIL 30, 2011.

Our net loss for the fiscal year ended April 31 2011 was \$19,331 compared to a net loss of \$2,010 during the fiscal year ended April 30, 2011. During fiscal year ended April 30, 2012, the Company did not generate any revenue.

During the fiscal year ended April 30, 2012, we incurred general and administrative expenses of \$19,331 compared to \$2,010 incurred during fiscal year ended April 30, 2011. These expenses incurred during the fiscal year ended April 30, 2012 consisted of: bank charges of \$344 (2011: \$11); professional fees of \$4,250 (2011: \$1,500) and miscellaneous charges of \$14,737 (2011: \$499).

Expenses incurred during fiscal year ended April 30, 2012 compared to fiscal year ended April 30, 2011 increased primarily due to the increased scale and scope of business operations. General and administrative expenses generally include corporate overhead, financial and administrative contracted services, marketing, and consulting costs.

The weighted average number of shares outstanding was 3,238,702 for the fiscal year ended April 30, 2012 compared to 234,234 for the fiscal year ended April 30, 2011.

LIQUIDITY AND CAPITAL RESOURCES

FISCAL YEAR ENDED APRIL 30, 2012

As of April 30, 2012, our current assets were \$7,583 and our total liabilities were \$5,124. As of April 30, 2012, current assets were comprised of \$83 in cash and \$7,500 in prepaid. As of April 30, 2012, total liabilities were comprised of \$4,924 in loan from Director and \$200 in accounts payable.

As of April 30, 2012, our total assets were \$7,583 comprised entirely of current assets. Stockholders equity increased from \$990 as of April 30, 2011 to \$2,459 as of April 30, 2012.

Cash Flows from Operating Activities

We have not generated positive cash flows from operating activities. For the fiscal year ended April 30, 2012, net cash flows used in operating activities was \$28,131 consisting of a net loss of \$19,331, accounts payable of \$100, increase in prepaid expenses of \$7,500 and accounts payable of \$1,300. Net cash flows used in operating activities was \$28,641 for the period from inception (June 2, 2010) to April 30, 2012.

Cash Flows from Financing Activities

We have financed our operations primarily from either advancements or the issuance of equity and debt instruments. For the fiscal year ended April 30, 2012 net cash provided by financing activities was \$25,225, received from proceeds from issuance of common stock and contributed capital from related party. For the period from inception (June 2, 2010) to April 30, 2012, net cash provided by financing activities was \$28,724 received from proceeds from issuance of common stock, loan from Director and contributed capital from related party.

PLAN OF OPERATION AND FUNDING

We expect that working capital requirements will continue to be funded through a combination of our existing funds and further issuances of securities. Our working capital requirements are expected to increase in line with the growth of our business.

Existing working capital, further advances and debt instruments, and anticipated cash flow are expected to be adequate to fund our operations over the next six months. We have no lines of credit or other bank financing arrangements. Generally, we have financed operations to date through the proceeds of the private placement of equity and debt instruments. In connection with our business plan, management anticipates additional increases in operating expenses and capital expenditures relating to: (i) acquisition of inventory; (ii) developmental expenses associated with a start-up business; and (iii) marketing expenses. We intend to finance these expenses with further issuances of securities, and debt issuances. Thereafter, we expect we will need to raise additional capital and generate revenues to meet long-term operating requirements. Additional issuances of equity or convertible debt securities will result in dilution to our current shareholders. Further, such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations.

MATERIAL COMMITMENTS

As of the date of this Annual Report, we do not have any material commitments.

PURCHASE OF SIGNIFICANT EQUIPMENT

We do not intend to purchase any significant equipment during the next twelve months.

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this Annual Report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

GOING CONCERN

The independent auditors' report accompanying our April 30, 2012 and April 30, 2011 financial statements contains an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors

AMAZONICA CORP.

Henderson, Nevada

We have audited the balance sheets of AMAZONICA CORP. a development stage company, as at April 30, 2012 and 2011, the statements of earnings and deficit, stockholders' deficiency and cash flows the years then ended and for the period from inception June 2, 2010 to April 30, 2012. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of AMAZONICA CORP. a development stage company, as of April 30, 2012 and the results of its operations and its cash flows for the years then ended and for the period from inception June 2, 2010 to April 30, 2012 in conformity with generally accepted accounting principles accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the company will continue as a going concern. As discussed in Note 2, the company's significant operating losses, working capital deficiency and need for new capital raise substantial doubt about its ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Notes To The Financial Statements

April 30, 2012

NOTE 1 - ORGANIZATION AND NATURE OF BUSINESS

Amazonica, Corp. (the Company) was incorporated under the laws of the State of Nevada, U.S. on June 2, 2010. We are a development-stage company in the field of marketing and distributing hardwood flooring. The Company is in the development stage as defined under Statement on Financial Accounting Standards Accounting Standards Codification FASB ASC 915-205 "Development-Stage Entities . Amazonica, Corp. is in the business of distributing of Brazilian hardwood flooring. The Company has not generated any revenue to date and consequently its operations are subject to all risks inherent in the establishment of a new business enterprise. For the period from inception, June 2, 2010 through April 30, 2012 the Company has accumulated losses of \$21,341.

NOTE 2 - GOING CONCERN

The financial statements have been prepared on a going concern basis, which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since inception resulting in an accumulated deficit of \$21,341 as of April 30, 2012 and further losses are anticipated in the development of its business raising substantial doubt about the Company s ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to finance operating costs over the next twelve months with existing cash on hand and loans from directors and/or private placement of common stock.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Foreign Currency Translation

The Company's functional currency and its reporting currency is the United States dollar.

Stock-based Compensation

The Company records stock based compensation in accordance with the guidance in ASC Topic 718 which requires the Company to recognize expenses related to the fair value of its employee stock option awards. This eliminates accounting for share-based compensation transactions using the intrinsic value and requires instead that such transactions be accounted for using a fair-value-based method. The Company recognizes the cost of all share-based awards on a graded vesting basis over the vesting period of the award.

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the estimated tax consequences attributable to differences between the financial statement carrying values and their respective income tax basis (temporary differences). The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Basic and Diluted Loss Per Share

The Company computes loss per share in accordance with ASC-260 , Earnings per Share which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive. The Company has no potential dilutive instruments and accordingly basic loss and diluted loss per share are equal.

Fiscal Periods

The Company's fiscal year end is April 30.

NOTE 4 - COMMON STOCK

The authorized capital of the Company is 75,000,000 common shares with a par value of \$ 0.001 per share.
