Item 1.01. Entry into a Material Definitive Agreement.

On September 14, 2016, U.S. Energy Corp. (the “Company”), and IronHorse Resources, LLC (“IronHorse”), entered into an Earnings & Participation Agreement dated effective September 2, 2016 (the “Agreement”), pursuant to which the Company has agreed to purchase 40% of IronHorse’s interest in five farmout agreements previously acquired by IronHorse (the “Farmout Agreements”). Thomas Bandy, a member of the Board of Directors of the Company, has an ownership interest in IronHorse. The Farmout Agreements cover oil and gas leases and interests in 21 horizontal oil and gas wells (the “Wells”) to be drilled in Weld County, Colorado, targeting the A, B, and C benches of the Niobrara and Codell formations.

The Company estimates that the aggregate drilling and completion costs for the Wells will be approximately \$9,600,000. Additionally, the terms of the Agreement provide for a finder’s fee payable to IronHorse which consists of an aggregate of 69,192 shares of the Company’s common stock with an estimated fair value of approximately \$132,000 based on the closing price on September 14, 2016 (to be issued in three tranches of 23,064 shares as certain property interests are assigned to the Company). The terms of the Agreement provide that on or before October 10, 2016, the Company must provide to IronHorse reasonable evidence that it has sufficient funding for its obligations under the Agreement; otherwise, the Agreement shall terminate immediately and the Company will have no further rights and obligations thereunder.

Under the Agreement, the Company will acquire before payout working interests averaging 11.6% in the Wells in exchange for payment of its share of the drilling and completion costs. The Company and IronHorse will be required to execute customary joint operating agreements with the operators of the Wells as designated in the Agreement.

The Agreement further provides for creation of an Area of Mutual Interest covering three prospect areas within Weld County, Colorado, as further described in the Agreement (the “AMI Areas”), whereby the Company and IronHorse will have the right to elect to share equally in any other oil and gas interests acquired in the AMI Areas.
