EXTERRAN CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

1. Description of Business, Spin-Off and Basis of Presentation

Description of Business

Exterran Corporation (together with its subsidiaries, “Exterran Corporation,” “our,” “we” or “us”), a Delaware corporation formed in March 2015, is a market leader in the provision of compression, production and processing products and services that support the production and transportation of oil and natural gas throughout the world. We provide these products and services to a global customer base consisting of companies engaged in all aspects of the oil and natural gas industry, including large integrated oil and natural gas companies, national oil and natural gas companies, independent oil and natural gas producers and oil and natural gas processors, gatherers and pipeline operators. We operate in three primary business lines: contract operations, aftermarket services and product sales.

Spin-off

On November 3, 2015, Archrock, Inc. (named Exterran Holdings, Inc. prior to November 3, 2015) (“Archrock”) completed the spin-off (the “Spin-off”) of its international contract operations, international aftermarket services (the international contract operations and international aftermarket services businesses combined are referred to as the “international services businesses” and include such activities conducted outside of the United States of America (“U.S.”)) and global fabrication businesses into an independent, publicly traded company named Exterran Corporation. We refer to the global fabrication business previously operated by Archrock as our product sales business. To effect the Spin-off, on November 3, 2015, Archrock distributed, on a pro rata basis, all of our shares of common stock to its stockholders of record as of October 27, 2015 (the “Record Date”). Archrock shareholders received one share of Exterran Corporation common stock for every two shares of Archrock common stock held at the close of business on the Record Date. Pursuant to the separation and distribution agreement with Archrock and certain of our and Archrock’s respective affiliates, on November 3, 2015, we transferred cash of \$532.6 million to Archrock. On November 4, 2015, Exterran Corporation common stock began “regular-way” trading on the New York Stock Exchange under the stock symbol “EXTN.” Following the completion of the Spin-off, we and Archrock are independent, publicly traded companies with separate boards of directors and management.

Basis of Presentation

The accompanying unaudited condensed consolidated and combined financial statements of Exterran Corporation included herein have been prepared in accordance with accounting principles generally accepted in the U.S. (“GAAP”) for interim financial information and the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP are not required in these interim financial statements and have been condensed or omitted. Management believes that the information furnished includes all adjustments, consisting only of normal recurring adjustments, that are necessary to present fairly our consolidated and combined financial position, results of operations and cash flows for the periods indicated. All financial information presented for periods after the Spin-off represents our consolidated results of operations, financial position and cash flows (referred to as the “condensed consolidated financial statements”) and all financial information for periods prior to the Spin-off represents our combined results of operations, financial position and cash flows (referred to as the “condensed combined financial statements”). Accordingly:

Edgar Filing: Exterran Corp - Form 10-Q

Our condensed consolidated statements of operations and comprehensive income (loss) for the three and six months ended June 30, 2016 and our condensed consolidated statements of cash flows and stockholders' equity for the six months ended June 30, 2016 consist entirely of our consolidated results. Our condensed combined statements of operations and comprehensive income (loss) for the three and six months ended June 30, 2015 and our condensed combined statements of cash flows and stockholders' equity for the six months ended June 30, 2015 consist entirely of the combined results of Archrock's international services and product sales businesses.

Our condensed consolidated balance sheets at June 30, 2016 and December 31, 2015 consist entirely of our consolidated balances.

Table of Contents

The condensed combined financial statements were derived from the accounting records of Archrock and reflect the combined historical results of operations, financial position and cash flows of Archrock's international services and product sales businesses. The condensed combined financial statements were presented as if such businesses had been combined for periods prior to November 4, 2015. All intercompany transactions and accounts within these statements have been eliminated. Affiliate transactions between the international services and product sales businesses of Archrock and the other businesses of Archrock have been included in the condensed combined financial statements, with the exception of product sales within our wholly owned subsidiary, Exterran Energy Solutions, L.P. ("EESLP"). Prior to the closing of the Spin-off, EESLP also had a fleet of compression units used to provide compression services in the U.S. services business of Archrock. Revenue has not been recognized in the condensed combined statements of operations for the sale of compressor units by us that were used by EESLP to provide compression services to customers of the U.S. services business of Archrock. See Note 14 for further discussion on transactions with affiliates.

The condensed combined statements of operations include expense allocations for certain functions historically performed by Archrock and not allocated to its operating segments, including allocations of expenses related to executive oversight, accounting, treasury, tax, legal, human resources, procurement and information technology. See Note 14 for further discussion regarding the allocation of corporate expenses.

The accompanying unaudited condensed consolidated and combined financial statements should be read in conjunction with the consolidated and combined financial statements presented in Amendment No. 1 to the Company's Annual Report on Form 10-K/A for the year ended December 31, 2015 (the "2015 Form 10-K/A"). That report contains a comprehensive summary of our accounting policies. The interim results reported herein are not necessarily indicative of results for a full year.

We refer to the condensed consolidated and combined financial statements collectively as "financial statements," and individually as "balance sheets," "statements of operations," "statements of comprehensive income (loss)," "statements of stockholders' equity" and "statements of cash flows" herein.

Recent Accounting Developments

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, Revenue from Contracts with Customers (Topic 606). The update outlines a single comprehensive model for companies to use in accounting for revenue arising from contracts with customers and supersedes the most current revenue recognition guidance, including industry-specific guidance. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The update also requires disclosures enabling users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In March 2016, the FASB issued ASU 2016-08, Principal versus Agent Considerations (Reporting Revenue Gross versus Net), which clarifies the guidance in determining revenue recognition as principal versus agent. In April 2016, the FASB issued ASU 2016-10, Identifying Performance Obligations and Licensing, which provides guidance in accounting for immaterial performance obligations and shipping and handling activities. In May 2016, the FASB issued ASU 2016-12, Narrow-Scope Improvements and Practical Expedients, which provides clarification on assessing the collectibility criterion, presentation of sales taxes, measurement date for noncash consideration and completed contracts at transition. The updates will be effective for reporting periods beginning after December 15, 2017, including interim periods within the reporting period. Early adoption is permitted for reporting periods beginning after December 15, 2016. Companies may use either a full retrospective or a modified retrospective approach to adopt the updates. We are currently evaluating the potential impact of the updates on our financial statements.

In July 2015, the FASB issued ASU No. 2015-11, Simplifying the Measurement of Inventory, which will require an entity to measure inventory at the lower of cost and net realizable value. Net realizable value is defined as the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. This update will be effective on a prospective basis for interim and annual periods beginning after December 15, 2016, with early adoption permitted. We do not believe the adoption of this update will have a material impact on our financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The update requires lessees to recognize assets and liabilities on the balance sheet for the rights and obligations created by long-term leases. The update also requires certain qualitative and quantitative disclosures about the amount, timing and uncertainty of cash flows arising from leases. Accounting by lessors will remain largely unchanged. This update is effective for annual and interim periods beginning after December 15, 2018, with early adoption permitted. Adoption will require a modified retrospective approach beginning with the earliest period presented. We are currently evaluating the potential impact of the update on our financial statements.

Table of Contents

In March 2016, the FASB issued ASU 2016-09, Compensation - Stock Compensation (Topic 718). The update covers such areas as the recognition of excess tax benefits and deficiencies, the classification of those excess tax benefits on the statement of cash flows, an accounting policy election for forfeitures, the amount an employer can withhold to cover income taxes and still qualify for equity classification and the classification of those taxes paid on the statement of cash flows. This update will be effective for reporting periods beginning after December 15, 2016, including interim periods within the reporting period. Early adoption is permitted. We are currently evaluating the potential impact of the update on our financial statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230). The update addresses eight specific cash flow issues and is intended to reduce diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. This update will be effective for reporting periods beginning after December 15, 2017, including interim periods within the reporting period. Early adoption is permitted. We are currently evaluating the potential impact of the update on our financial statements.

2. Restatement of Previously Reported Consolidated and Combined Financial Statements

Subsequent to the filing of our Annual Report on Form 10-K for the year ended December 31, 2015, originally filed with the SEC on February 26, 2016, our senior management identified errors relating to the application of percentage-of-completion accounting principles to certain business lines of our subsidiary, Belleli Energy S.r.l. (subsequently renamed Exterran Italy S.r.l.). Such business lines comprise engineering, procurement and construction for the manufacture of tanks for tank farms and the manufacture of evaporators and brine heaters for desalination plants in the Middle East (referred to as “Belleli EPC” or the “Belleli EPC business” herein). Belleli Energy S.r.l. is headquartered in Mantova, Italy, and its operations are based in Dubai, United Arab Emirates. Management promptly reported the matter to the Audit Committee of the Company’s Board of Directors, which immediately retained counsel, who in turn retained a forensic accounting firm, to initiate an internal investigation.

As a result of the internal investigation, management identified inaccuracies related to Belleli EPC projects within our product sales segment in estimating the total costs required to complete projects impacting the years ended December 31, 2015, 2014, 2013, 2012 and 2011 (including the unaudited quarterly periods within 2015 and 2014). The application of percentage-of-completion accounting principles on Belleli EPC projects is estimated using the cost to total cost basis, which requires an estimate of total costs (labor and materials) required to complete each project. The cost-to-complete estimates for Belleli EPC projects were incorrectly estimated and at times manipulated by or at the direction of certain former members of Belleli EPC local senior management, resulting in a misstatement of product sales revenue. The inaccurate cost-to-complete estimates for some Belleli EPC projects also resulted in the need to establish and/or increase contract loss provisions for certain projects, and as a result, product sales cost of sales was misstated. Additionally, penalties for liquidated damages on certain projects were not correctly estimated. Furthermore, other errors within product sales cost of sales on Belleli EPC projects were identified, primarily relating to vendor claims, customer warranties and costs being charged to incorrect projects. As a result of the errors and conduct identified, our product sales revenue was overstated by \$5.3 million and \$12.3 million during the three and six months ended June 30, 2015, respectively, and our product sales cost of sales was understated by \$16.6 million and \$10.5 million during the three and six months ended June 30, 2015, respectively. These errors and inaccuracies also resulted in the misstatement of accounts receivable, costs and estimated earnings in excess of billings on uncompleted contracts, billings on uncompleted contracts in excess of costs and estimated earnings, accrued liabilities and related income tax effects for each of the periods impacted.

We separately identified prior period errors related to the miscalculation and recovery of non-income-based tax receivables owed to us from the Brazilian government as of December 31, 2011. As a result of these errors and since relevant prior periods were being restated, we recorded adjustments to decrease intangible and other assets, net,

beginning parent equity and other income by approximately \$26.1 million, \$17.5 million and \$10.7 million, respectively, as of and for the year ended December 31, 2011 and increase other comprehensive income by approximately \$2.1 million as of December 31, 2011. These errors also resulted in the misstatement of intangible and other assets, net, other (income) expense, net, and accumulated other comprehensive income in periods subsequent to December 31, 2011.

Along with restating our financial statements to correct the errors discussed above, we recorded adjustments for certain immaterial accounting errors as of December 31, 2015 and for the three and six months ended June 30, 2015.

We delayed the filing of this Quarterly Report on Form 10-Q pending the completion of the internal investigation, including the completion of the restatement. As a result of that investigation, the historical financial statements included in this Form 10-Q have been restated to reflect the adjustments described above. The restatement has been set forth below for the periods presented and in its entirety in the 2015 Form 10-K/A which the Company has filed with the SEC concurrently with this Form 10-Q. The Company is also concurrently filing a Quarterly Report on Form 10-Q for the quarter ended March 31, 2016.

Table of Contents

Contemporaneously with filing the Form 8-K on April 26, 2016, we self-reported the errors and possible irregularities at Belleli EPC to the SEC. Since then, we have been cooperating with the SEC in its investigation of this matter, including responding to a subpoena for documents related to the restatement and compliance with the U.S. Foreign Corrupt Practices Act (“FCPA”), which are also being provided to the Department of Justice at its request. The FCPA related requests in the SEC subpoena pertain to our policies and procedures, information about our third-party sales agents, and documents related to historical internal investigations completed prior to November 2015.

The tables below summarize the effects of the restatement on our (i) balance sheet at December 31, 2015, (ii) statements of operations for the three and six months ended June 30, 2015, (iii) statements of comprehensive income (loss) for the three and six months ended June 30, 2015, (iv) statement of stockholders’ equity for the six months ended June 30, 2015 and (v) statement of cash flows for the six months ended June 30, 2015.

(1) As discussed in Note 3, in the first quarter of 2016, we committed to a plan to exit the critical process equipment business, which provides engineering, procurement and manufacturing services related to the manufacture of critical process equipment for refinery and petrochemical facilities (referred to as “Belleli CPE” or the “Belleli CPE business” herein). We completed the sale of our Belleli CPE business in August 2016. The results of our Belleli CPE business have been reclassified to discontinued operations in our financial statements for all periods presented.

As discussed in Note 3, in the first quarter of 2016, we committed to a plan to exit our Belleli CPE business, which provides engineering, procurement and manufacturing services related to the manufacture of critical process (1) equipment for refinery and petrochemical facilities. We completed the sale of our Belleli CPE business in August 2016. The results of our Belleli CPE business have been reclassified to discontinued operations in our financial statements for all periods presented.

Table of Contents

3. Discontinued Operations

In August 2012, our Venezuelan subsidiary sold its previously nationalized assets to PDVSA Gas, S.A. (“PDVSA Gas”) for a purchase price of approximately \$441.7 million. We received an installment payment, including an annual charge, totaling \$19.3 million during the three and six months ended June 30, 2016, and \$18.7 million during the six months ended June 30, 2015. The remaining principal amount due to us of approximately \$50 million as of June 30, 2016, is payable in cash installments through the third quarter of 2016. We have not recognized amounts payable to us by PDVSA Gas as a receivable and will therefore recognize payments received in the future as income from discontinued operations in the periods such payments are received. The proceeds from the sale of the assets are not subject to Venezuelan national taxes due to an exemption allowed under the Venezuelan Reserve Law applicable to expropriation settlements. In addition, and in connection with the sale, we and the Venezuelan government agreed to waive rights to assert certain claims against each other.

In connection with the sale of these assets, we have agreed to suspend the arbitration proceeding previously filed by our Spanish subsidiary against Venezuela pending payment in full by PDVSA Gas of the purchase price for these nationalized assets.

In accordance with the separation and distribution agreement, a subsidiary of Archrock has the right to receive payments from EESLP based on a notional amount corresponding to payments received by our subsidiaries from PDVSA Gas in respect of the sale of our previously nationalized assets promptly after such amounts are collected by our subsidiaries. Pursuant to the separation and distribution agreement, we transferred cash of \$19.3 million to Archrock during the six months ended June 30, 2016. The transfer of cash was recognized as a reduction to additional paid-in capital in our financial statements. See Note 18 for further discussion related to our contingent liability to Archrock.

In the first quarter of 2016, we committed to a plan to exit our Belleli CPE and Belleli EPC businesses (collectively, “Belleli businesses”) to focus on our core oil and gas businesses. Belleli CPE provides engineering, procurement and manufacturing services related to the manufacture of critical process equipment for refinery and petrochemical facilities. Belleli EPC provides engineering, procurement and construction for the manufacture of tanks for tank farms and the manufacture of evaporators and brine heaters for desalination plants. Belleli CPE met the held for sale criteria and is reflected as discontinued operations in our financial statements for all periods presented. As discussed in Note 20, we completed the sale of our Belleli CPE business in August 2016. Belleli CPE was previously included in our product sales segment. In conjunction with the planned disposition of Belleli CPE, we recorded impairments of long-lived assets and current assets, that totaled \$7.1 million and \$68.8 million during the three and six months ended June 30, 2016, respectively. The impairment charges are reflected in income (loss) from discontinued operations, net of tax. In accordance with GAAP, Belleli EPC will not be reflected as discontinued operations until the substantial cessation of the remaining non-oil and gas business. During the first quarter of 2016, we ceased the booking of new orders for our Belleli EPC business. Belleli EPC is included in our product sales segment. Our plan to exit our Belleli EPC business resulted in a reduction in the remaining useful lives of the assets that are currently used in the Belleli EPC business and a long-lived asset impairment charge of \$0.7 million impacting results from continuing operations during the six months ended June 30, 2016.

The following tables summarize the operating results of discontinued operations (in thousands):

Accrued liabilities	1,006	2,645	3,651	1,249	2,556	3,805
Billings on uncompleted contracts in excess of costs and estimated earnings	—	6,957	6,957	—	2,001	2,001
Total current liabilities associated with discontinued operations	1,006	17,585	18,591	1,249	12,396	13,645
Other long-term liabilities	—	6,491	6,491	158	5,917	6,075
Total liabilities associated with discontinued operations	\$1,006	\$24,076	\$25,082	\$1,407	\$18,313	\$19,720

4. Inventory

Inventory consisted of the following amounts (in thousands):

	June 30, 2016	December 31, 2015
		As Restated
Parts and supplies	\$114,051	\$133,558
Work in progress	27,733	41,184

Finished goods	30,401	33,339
Inventory	\$172,185	\$ 208,081

Table of Contents

5. Product Sales Contracts

Costs, estimated earnings and billings on uncompleted contracts that are recognized using the percentage-of-completion method consisted of the following (in thousands):

	June 30, 2016	December 31, 2015 As Restated
Costs incurred on uncompleted contracts	\$589,737	\$ 664,229
Estimated earnings	17,271	44,915
	607,008	709,144
Less — billings to date	(583,214)	(681,741)
	\$23,794	\$ 27,403

Costs, estimated earnings and billings on uncompleted contracts are presented in the accompanying financial statements as follows (in thousands):

	June 30, 2016	December 31, 2015 As Restated
Costs and estimated earnings in excess of billings on uncompleted contracts	\$49,870	\$ 65,311
Billings on uncompleted contracts in excess of costs and estimated earnings	(26,076)	(37,908)
	\$23,794	\$ 27,403

6. Property, Plant and Equipment, net

Property, plant and equipment, net, consisted of the following (in thousands):

	June 30, 2016	December 31, 2015 As Restated
Compression equipment, facilities and other fleet assets (1)	\$1,469,316	\$1,527,328
Land and buildings	111,503	117,247
Transportation and shop equipment	146,517	144,413
Other	101,241	99,035
	1,828,577	1,888,023
Accumulated depreciation (1)	(1,011,980)	(1,029,835)
Property, plant and equipment, net	\$816,597	\$ 858,188

During the six months ended June 30, 2016, we retired \$81.9 million of fully depreciated capitalized installation (1) costs relating to a contract operations project in the Eastern Hemisphere that early terminated operations in January 2016.

7. Investments in Non-Consolidated Affiliates

Investments in affiliates that are not controlled by us where we have the ability to exercise significant influence over the operations are accounted for using the equity method.

We own a 30.0% interest in WilPro Energy Services (PIGAP II) Limited and 33.3% interest in WilPro Energy Services (El Furrial) Limited, which are joint ventures that provided natural gas compression and injection services in Venezuela. In May 2009, Petroleos de Venezuela S.A. (“PDVSA”) assumed control over the assets of our Venezuelan joint ventures and transitioned the operations, including the hiring of their employees, to PDVSA. In March 2011, our Venezuelan joint ventures, together with the Netherlands’ parent company of our joint venture partners, filed a request for the institution of an arbitration proceeding against Venezuela with the International Centre for Settlement of Investment Disputes related to the seized assets and investments.

Table of Contents

In March 2012, our Venezuelan joint ventures sold their assets to PDVSA Gas. We received installment payments, including an annual charge, totaling \$5.2 million and \$5.1 million during the three months ended June 30, 2016 and 2015, respectively, and \$10.4 million and \$10.1 million during the six months ended June 30, 2016 and 2015, respectively. As of June 30, 2016, the remaining principal amount due to us was approximately \$4 million. We have not recognized amounts payable to us by PDVSA Gas as a receivable and will therefore recognize payments received in the future as equity in income of non-consolidated affiliates in our statements of operations in the periods such payments are received. In connection with the sale of our Venezuelan joint ventures' assets, the joint ventures and our joint venture partners have agreed to suspend their previously filed arbitration proceeding against Venezuela pending payment in full by PDVSA Gas of the purchase price for the assets.

In accordance with the separation and distribution agreement, a subsidiary of Archrock has the right to receive payments from EESLP based on a notional amount corresponding to payments received by our subsidiaries from PDVSA Gas in respect of the sale of our joint ventures' previously nationalized assets promptly after such amounts are collected by our subsidiaries. Pursuant to the separation and distribution agreement, we transferred cash of \$10.4 million to Archrock during the six months ended June 30, 2016. The transfer of cash was recognized as a reduction to additional paid-in capital in our financial statements. See Note 18 for further discussion related to our contingent liability to Archrock.

8. Long-Term Debt

Long-term debt consisted of the following (in thousands):

	June 30, 2016	December 31, 2015
Revolving credit facility due November 2020	\$157,000	\$285,000
Term loan facility due November 2017	245,000	245,000
Other, interest at various rates, collateralized by equipment and other assets	710	836
Unamortized deferred financing costs	(3,781)	(5,243)
Long-term debt	\$398,929	\$525,593

Revolving Credit Facility and Term Loan

On July 10, 2015, we and our wholly owned subsidiary, EESLP, entered into a \$750.0 million credit agreement (the "Credit Agreement") with Wells Fargo, as the administrative agent, and various financial institutions as lenders. On October 5, 2015, the parties amended and restated the Credit Agreement to provide for a \$925.0 million credit facility, consisting of a \$680.0 million revolving credit facility and a \$245.0 million term loan facility (collectively, the "Credit Facility"). Availability under the Credit Facility was subject to the satisfaction of certain conditions precedent, including the consummation of the Spin-off on or before January 4, 2016 (the date on which those conditions were satisfied, November 3, 2015, is referred to as the "Initial Availability Date"). In accordance with the Credit Agreement, we are required to repay borrowings outstanding under the term loan facility on each anniversary of the Initial Availability Date in an amount equal to the lesser of (i) \$12.3 million and (ii) the outstanding principal balance of the term loan facility. The principal amount of \$12.3 million due in November 2016 under the term loan facility is classified as long-term in our balance sheet at June 30, 2016 because we have the intent and ability to refinance the current principal amount due with borrowings under our existing revolving credit facility.

As a result of the events described in Note 2 related to Belleli EPC (including, without limitation, the need to restate previously issued financial statements), on April 22, 2016, June 17, 2016, August 24, 2016 and November 22, 2016,

we and our wholly owned subsidiary, EESLP, entered into amendments to the Credit Agreement (as amended, the “Amended Credit Agreement”) with Wells Fargo, as the administrative agent, and various financial institutions as lenders. During the second quarter of 2016, we incurred transaction costs of approximately \$0.8 million related to the Amended Credit Agreement. These costs were included in intangible and other assets, net, and are being amortized over the term of the revolving credit facility.

Table of Contents

Under the Amended Credit Agreement, the lenders waived, among other things, (1) any potential event of default arising under the Credit Agreement as a result of the potential inaccuracy of certain representations and warranties regarding our prior period financial information and previously delivered compliance certificate for the 2015 fiscal year and (2) any requirement that EESLP or we make any representations and warranties as to our prior period financial statements and other prior period financial information. The Amended Credit Agreement extended the deadline to no later than February 28, 2017 by which we are required to deliver to the lenders our quarterly reports for the fiscal quarters ended March 31, 2016, June 30, 2016 and September 30, 2016 and the related compliance certificates demonstrating compliance with the financial covenants set forth in the Credit Agreement.

The Amended Credit Agreement also, among other things:

provides that LIBOR loans will bear interest at LIBOR plus 2.75% and base rate loans will bear interest at the Base Rate plus 1.75% until February 28, 2017 (or, if earlier, the date we deliver replacement financial information for our 2015 audited financial statements, together with a replacement compliance certificate);

adds a condition precedent to the borrowing of loans that, after giving effect to the application of the proceeds of each borrowing, our consolidated cash balance (as defined in the Amended Credit Agreement) will not exceed \$30,000,000 plus certain other amounts; and

amends the definition of EBITDA to allow adjustments for certain Restructuring Costs and Restatement Costs (in each case as defined in the Amended Credit Agreement) to the extent such costs were incurred during the years ending December 31, 2016 and 2017.

As of June 30, 2016, we had \$157.0 million in outstanding borrowings and \$75.4 million in outstanding letters of credit under our revolving credit facility. At June 30, 2016, taking into account guarantees through letters of credit, we had undrawn capacity of \$447.6 million under our revolving credit facility. Our Credit Agreement limits our Total Debt (as defined in the Credit Agreement) to EBITDA ratio (as defined in the Credit Agreement) to not greater than 3.75 to 1.0 (which will increase to 4.50 to 1.0 following the completion of a qualified capital raise). As a result of this limitation, \$353.2 million of the \$447.6 million of undrawn capacity under our revolving credit facility was available for additional borrowings as of June 30, 2016.

9. Fair Value Measurements

The accounting standard for fair value measurements and disclosures establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into the following three broad categories:

Level 1 — Quoted unadjusted prices for identical instruments in active markets to which we have access at the date of measurement.

Level 2 — Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or prices vary substantially over time or among brokered market makers.

Level 3 — Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect our own assumptions regarding how market participants would price the asset or liability based on the best available information.

The following table presents our assets and liabilities measured at fair value on a recurring basis as of June 30, 2016 and December 31, 2015, with pricing levels as of the date of valuation (in thousands):

	June 30, 2016		December 31, 2015	
	(Level 1)	(Level 2)	(Level 1)	(Level 2)
Foreign currency derivatives liability	\$ 493	\$ —	\$ —	\$ —

Table of Contents

We are exposed to market risks associated with changes in foreign currency exchange rates, including foreign currency exchange rate changes recorded on intercompany obligations. From time to time we may enter into foreign currency hedges to reduce our foreign exchange risk associated with cash flows we expect to receive. During the three months ended June 30, 2016, we entered into forward currency exchange contracts with a total notional value of \$11.3 million that expire over varying dates through October 31, 2016. We entered into these foreign currency derivatives to offset exchange rate exposure related to intercompany loans to a subsidiary whose functional currency is the Brazilian Real. We did not designate these forward currency exchange contracts as hedge transactions. Changes in fair value and gains and losses on settlement on these forward currency exchange contracts are recognized in other (income) expense, net, in our statements of operations. During the three and six months ended June 30, 2016, we recognized a loss of \$0.5 million on forward currency exchange contracts. Our estimate of the fair value of foreign currency derivatives as of June 30, 2016 was determined using quoted forward exchange rates in active markets at June 30, 2016. Foreign currency derivative liabilities are included in accrued liabilities in our balance sheets.

The following table presents our assets and liabilities measured at fair value on a nonrecurring basis during the six months ended June 30, 2016 and 2015, with pricing levels as of the date of valuation (in thousands):

	Six Months Ended June 30, 2016		Six Months Ended June 30, 2015	
	(Level 1)	(Level 2)	(Level 1)	(Level 2)
Impaired long-lived assets	\$ —	\$ —	\$ —	\$ 280
Impaired assets—Discontinued operations	—	13,859	—	—
Note receivable from the sale of a plant	—	7,037	—	—
Liability to exit the use of a corporate operating lease—restructuring and other charges	—	3,580	—	—
Long-term receivable from the sale of our Canadian Operations	—	—	—	5,100

Our estimate of the fair value of the impaired assets of Belleli CPE, which are classified as discontinued operations, during the six months ended June 30, 2016 was based on our expected proceeds from the sale of Belleli CPE, net of selling costs. Our estimate of the fair value of the note receivable from the sale of our plant in Argentina during the six months ended June 30, 2016 was discounted based on a settlement period, with annual payments, of 2.6 years and a discount rate of 5%. The fair value of our liability to exit the use of a corporate operating lease relating to restructuring activities during the second quarter of 2016 was estimated based on an incremental borrowing rate of 3% and remaining lease payments, net of estimated sublease rentals, through February 2018. Our estimate of the impaired long-lived assets' fair value for the six months ended June 30, 2015 was primarily based on the estimated component value of the equipment on each compressor unit that we plan to use. In April 2015, we accepted an offer to early settle the outstanding note receivable due to us relating to the previous sale of our Canadian contract operations and aftermarket services businesses ("Canadian Operations") for \$5.1 million.

Financial Instruments

Our financial instruments consist of cash, restricted cash, receivables, payables, foreign currency derivatives and debt. At June 30, 2016 and December 31, 2015, the estimated fair values of these financial instruments approximated their carrying amounts as reflected in our balance sheets. Due to the variable rate nature of our long-term debt, the carrying values approximate their fair values as the rates on our long-term debt are comparable to current market rates at which debt with similar terms could be obtained.

10. Long-Lived Asset Impairment

We review long-lived assets, including property, plant and equipment and identifiable intangibles that are being amortized, for impairment whenever events or changes in circumstances, including the removal of compressor units from our active fleet, indicate that the carrying amount of an asset may not be recoverable.

Table of Contents

As discussed in Note 3, in the first quarter of 2016, we committed to a plan to exit our Belleli EPC business to focus on our core oil and gas businesses. Because we ceased the booking of new orders for the manufacture of tanks for tank farms and the manufacture of evaporators and brine heaters for desalination plants, customer relationship intangible assets related to our Belleli EPC business were assessed to have no future benefit to us. As a result, we recorded a long-lived asset impairment charge of \$0.7 million during the six months ended June 30, 2016. In addition, the property, plant and equipment of our Belleli EPC business was reviewed for recoverability. As a result, the remaining useful lives of Belleli EPC non-oil and gas property, plant and equipment were reduced to reflect their estimated date of the cessation.

We regularly review the future deployment of our idle compression assets used in our contract operations segment for units that are not of the type, configuration, condition, make or model that are cost efficient to maintain and operate. During the three and six months ended June 30, 2015, we determined that 23 idle compressor units and 29 idle compressor units, respectively, totaling approximately 17,000 horsepower and 24,000 horsepower, respectively, would be retired from the active fleet. The retirement of these units from the active fleet triggered a review of these assets for impairment. As a result, we recorded a \$5.9 million and \$9.1 million asset impairment to reduce the book value of each unit to its estimated fair value during the three and six months ended June 30, 2015, respectively. The fair value of each unit was estimated based on the estimated component value of the equipment on each compressor unit that we plan to use.

During the first quarter of 2015, we evaluated a long-term note receivable from the purchaser of our Canadian Operations for impairment. This review was triggered by an offer from the purchaser of our Canadian Operations to prepay the note receivable at a discount to its then current book value. The fair value of the note receivable as of March 31, 2015 was based on the amount offered by the purchaser of our Canadian Operations to prepay the note receivable. The difference between the book value of the note receivable at March 31, 2015 and its fair value resulted in the recording of an impairment of long-lived assets of \$1.4 million during the six months ended June 30, 2015. In April 2015, we accepted the offer to early settle this note receivable.

11. Restatement Charges

As discussed in Note 2, during the first quarter of 2016, our senior management identified errors relating to the application of percentage-of-completion accounting principles to specific product sales projects within our Belleli EPC business in the Middle East. As a result, the Audit Committee of the Company's Board of Directors initiated an internal investigation, including the use of services of a forensic accounting firm. Management also engaged a consulting firm to assist in accounting analysis and compilation of restatement adjustments. During the three and six months ended June 30, 2016, we incurred \$7.9 million of costs associated with the restatement of our financial statements, which were primarily related to \$4.8 million of external accounting costs and \$2.7 million of external legal costs. We currently estimate that we will incur additional cash expenditures, including estimated external legal counsel costs related to the pending SEC investigation, of approximately \$23 million associated with the restatement of our financial statements in subsequent periods, some portion of which might be recoverable from Archrock.

The following table summarizes the changes to our accrued liability balance related to restatement charges for the six months ended June 30, 2016 (in thousands):

	Restatement Charges
Beginning balance at January 1, 2016	\$ —
Additions for costs expensed	7,851
Reductions for payments	(275)

Ending balance at June 30, 2016 \$ 7,576

The following table summarizes the components of charges included in restatement charges in our statements of operations for the three and six months ended June 30, 2016 (in thousands):

22

Table of Contents

	Three and Six Months Ended June 30, 2016
External accounting costs	\$ 4,781
External legal costs	2,722
Other	348
Total restatement charges	\$ 7,851

12. Restructuring and Other Charges

We incurred restructuring and other charges associated with the Spin-off of \$1.2 million and \$4.7 million during the three months ended June 30, 2016 and 2015, respectively, and \$2.8 million and \$4.7 million during the six months ended June 30, 2016 and 2015, respectively. Costs incurred during the three and six months ended June 30, 2016 were primarily related to retention awards to certain employees of \$0.6 million and \$1.9 million, respectively. Retention awards are being amortized over the required service period of each applicable employee. During the three and six months ended June 30, 2015, we incurred charges of \$4.7 million related to non-cash inventory write-downs associated with the Spin-off, of which approximately \$4.2 million related to our contract operations segment and \$0.5 million related to our product sales segment. Non-cash inventory write-downs primarily related to the decentralization of shared inventory components between Archrock's North America contract operations business and our international contract operations business. The charges incurred in conjunction with the Spin-off are included in restructuring and other charges in our statements of operations. We currently estimate that we will incur additional one-time expenditures of approximately \$2.0 million related to retention awards to certain employees in the form of cash and stock-based compensation through November 2017.

As a result of unfavorable market conditions in North America, combined with the impact of lower international activity due to customer budget cuts driven by lower oil prices, in the second quarter of 2015, we announced a cost reduction plan primarily focused on workforce reductions and the reorganization of certain facilities. We incurred restructuring and other charges associated with the cost reduction plan of \$9.5 million and \$5.8 million during the three months ended June 30, 2016 and 2015, respectively, and \$23.2 million and \$5.8 million during the six months ended June 30, 2016 and 2015, respectively. Restructuring and other charges incurred during the three and six months ended June 30, 2016 were primarily related to employee termination benefits and the exit from a leased corporate building. Costs incurred for employee termination benefits during the three and six months ended June 30, 2016 were \$6.7 million and \$17.5 million, respectively, of which \$4.6 million and \$12.7 million, respectively, related to our product sales business. We ceased the use of a corporate building under an operating lease in the second quarter of 2016, and as a result, recorded net charges of \$2.7 million during the three and six months ended June 30, 2016. During the three and six months ended June 30, 2015, we incurred \$5.8 million of restructuring and other charges as a result of this plan, of which \$4.0 million related to non-cash write-downs of inventory and \$1.8 million related to employee termination benefits. The non-cash inventory write-downs were the result of our decision to exit the manufacturing of cold weather packages, which had historically been performed at a product sales facility in North America we decided to close in 2015. The charges incurred in conjunction with the cost reduction plan are included in restructuring and other charges in our statements of operations. We currently estimate that we will incur additional charges with respect to this cost reduction plan of approximately \$1.5 million. We expect the majority of the estimated additional charges will result in cash expenditures. Accrued liabilities related to the cost reduction plan are based on estimates that may vary significantly from actual costs depending, in part, upon factors that may be beyond our control. We will continue to review the status of our restructuring obligations on a quarterly basis and, if appropriate,

record changes to these obligations in current operations based on management's most current estimates.

Table of Contents

The following table summarizes the changes to our accrued liability balance related to restructuring and other charges for the six months ended June 30, 2015 and 2016 (in thousands):

	Spin-off	Cost Reduction Plan	Total
Beginning balance at January 1, 2015	\$—	\$ —	\$—
Additions for costs expensed	4,700	5,847	10,547
Less non-cash expense	(4,700)	(4,007)	(8,707)
Reductions for payments	—	(1,738)	(1,738)
Ending balance at June 30, 2015	\$—	\$ 102	\$102
Beginning balance at January 1, 2016	\$1,083	\$ 565	\$1,648
Additions for costs expensed	2,778	21,297	24,075
Deductions for gains realized	—	(872)	(872)
Less non-cash expense	(700)	(437)	(1,137)
Less non-cash income	—	872	872
Reductions for payments	(1,488)	(13,453)	(14,941)
Ending balance at June 30, 2016	\$1,673	\$ 7,972	\$9,645

The following table summarizes the components of charges included in restructuring and other charges in our statements of operations for the three and six months ended June 30, 2016 and 2015 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Consulting fees	\$—	\$—	\$22	\$—
Start-up of stand-alone functions	610	—	887	—
Retention awards to certain employees	566	—	1,891	—
Non-cash inventory write-downs	—	8,707	—	8,707
Employee termination benefits	6,732	1,840	17,453	1,840
Net charges to exit the use of a corporate operating lease	2,708	—	2,708	—
Other	20	—	242	—
Total restructuring and other charges	\$10,636	\$10,547	\$23,203	\$10,547

Additionally, in the first quarter of 2016, we committed to a plan to exit our Belleli EPC business to focus on our core oil and gas businesses. Our plan to exit our Belleli EPC business resulted in a reduction in the remaining useful lives of the assets that are currently used in the Belleli EPC business and a long-lived asset impairment charge of \$0.7 million impacting results from continuing operations during the six months ended June 30, 2016. See Note 10 for further discussion relating to this impairment charge and Note 3 for further discussion related to our plan to exit our Belleli businesses.

13. Deferred Income Taxes

As of December 31, 2015, we had approximately \$152.0 million of U.S. deferred tax assets. These deferred tax assets primarily related to U.S. federal net operating loss carryforwards of \$65.9 million that can be used to offset future U.S. federal taxable income, and carryforwards for foreign tax credits of \$72.0 million, research and development credits of \$31.3 million and alternative minimum tax credits of \$5.1 million that can reduce our U.S. federal income taxes payable in future periods. Most of these carryforwards will expire if they are not used within certain periods. At

December 31, 2015, we considered it more-likely-than-not that we will have sufficient taxable income of the appropriate character in the future that will allow us to realize these U.S. deferred tax assets, other than in cases where valuation allowances were previously recorded. As of December 31, 2015, approximately \$49.7 million of valuation allowances were recorded against our U.S. deferred tax assets.

Table of Contents

Management assesses all available positive and negative evidence to estimate our ability to generate sufficient future taxable income of the appropriate character, and in the appropriate taxing jurisdictions, to permit use of our existing deferred tax assets. A significant piece of objective negative evidence is a cumulative loss incurred over a three-year period in a taxing jurisdiction. Prevailing accounting practice is that such objective evidence would limit the ability to consider other subjective evidence, such as our projections for future growth.

Based on information available at June 30, 2016, we expect to incur a three-year cumulative loss in the U.S. by the end of 2016. Due to this significant negative evidence of cumulative losses, which outweighs the positive evidence of firm sales backlog and projected further taxable income, we are no longer able to support that it is more-likely-than-not that we will have sufficient taxable income of the appropriate character in the future that will allow us to realize our U.S. deferred tax assets. During the three and six months ended June 30, 2016, we recorded additional valuation allowances against our U.S. deferred tax assets of \$88.0 million, of which \$65.5 million related to U.S. deferred tax assets that existed at December 31, 2015.

14. Related Party Transactions

Spin Agreements

In connection with the completion of the Spin-off, on November 3, 2015, we entered into several agreements with Archrock and certain subsidiaries of Archrock and, with respect to certain agreements, a subsidiary of Archrock Partners (named Exterran Partners, L.P. prior to November 3, 2015) (“Archrock Partners”), that govern the Spin-off and the relationship among the parties following the Spin-off, including the following agreements (collectively, the “Spin Agreements”): separation and distribution agreement, tax matters agreement, employee matters agreement, transition services agreement, supply agreement, storage agreements and services agreements. Pursuant to the transition services agreement, during the three and six months ended June 30, 2016 we recorded selling, general and administrative expense of \$0.3 million and \$0.6 million, respectively, and other income of \$0.4 million and \$1.1 million, respectively.

Transactions with Affiliates

All intercompany transactions and accounts within these financial statements have been eliminated. All affiliate transactions occurring prior to the Spin-off between the international services and product sales businesses of Archrock and the other businesses of Archrock have been included in these financial statements. Prior to the Spin-off sales of newly-manufactured compression equipment from the product sales business of EESLP to Archrock Partners were used in the U.S. services business of Archrock and were made pursuant to an omnibus agreement between the parties and other affiliates of both entities. Through November 3, 2015, per the omnibus agreement, revenue was determined by the cost to manufacture such equipment plus a fixed margin. During the three months ended June 30, 2015, we recorded product sales revenue from affiliates of \$53.9 million and cost of sales of \$49.6 million from the sale of newly-manufactured compression equipment to Archrock Partners. During the six months ended June 30, 2015, we recorded product sales revenue from affiliates of \$109.7 million and cost of sales of \$100.9 million from the sale of newly-manufactured compression equipment to Archrock Partners. Subsequent to November 3, 2015, sales to Archrock Partners are considered sales to third parties.

Prior to the closing of the Spin-off, EESLP also had a fleet of compression units used to provide compression services in the U.S. services business of Archrock. Revenue prior to the Spin-off was not recognized in our statements of operations for the sale of compressor units by us that were used by EESLP to provide compression services to customers of the U.S. services business of Archrock. The costs of these units were treated as a reduction of parent equity in the balance sheets and a distribution to parent in the statements of cash flows and totaled \$25.9 million

during the six months ended June 30, 2015. Subsequent to November 3, 2015, sales to Archrock are considered sales to third parties.

Table of Contents

Allocation of Expenses

For the periods prior to the Spin-off, the statements of operations also includes expense allocations for certain functions performed by Archrock which have not been historically allocated to its operating segments, including allocations of expenses related to executive oversight, accounting, treasury, tax, legal, human resources, procurement and information technology. Included in our selling, general and administrative expense during the three and six months ended June 30, 2015 were \$13.2 million and \$28.1 million, respectively, of allocated corporate expenses incurred by Archrock prior to the Spin-off. These costs were allocated to us systematically based on specific department function and revenue. Management believes the assumptions underlying the financial statements, including the assumptions regarding allocating expenses from Archrock, are reasonable. Nevertheless, the financial statements may not be representative of the actual expenses that would have been incurred had we been a stand-alone public company during the periods presented and, consequently, may not reflect our combined results of operations, financial position and cash flows had we been a stand-alone public company during the periods presented. Actual costs that would have been incurred if we had been a stand-alone public company would depend on multiple factors, including organizational structure and strategic decisions made in various areas, including information technology and infrastructure.

Cash Management

Prior to the closing of the Spin-off, EESLP provided centralized treasury functions for Archrock's U.S. operations, whereby EESLP regularly transferred cash both to and from U.S. subsidiaries of Archrock, as necessary. In conjunction therewith, the intercompany transactions between our U.S. subsidiaries and the other U.S. subsidiaries of Archrock were considered to be effectively settled in cash in these financial statements for the periods prior to the Spin-off. Intercompany receivables/payables from/to related parties arising from transactions with affiliates and expenses allocated from Archrock described above were included in net contributions from parent in the financial statements.

Net Contributions from (Distributions to) Parent

Parent equity, which included retained earnings prior to the Spin-off, represents Archrock's interest in our recorded net assets. Prior to the Spin-off, all transactions between us and Archrock were presented in the accompanying statements of stockholders' equity as net contributions from parent. A reconciliation of net contributions from parent in the statements of stockholders' equity to the corresponding amount presented in the statements of cash flows for the six months ended June 30, 2015 as follows (in thousands):

	Six Months Ended June 30, 2015 As Restated
Net contributions from parent per the statements of stockholders' equity	\$1,963
Stock-based compensation expenses prior to the Spin-off	(3,756)
Stock-based compensation excess tax benefit prior to the Spin-off	799
Net transfers of property, plant and equipment from parent prior to the Spin-off	(16,589)
Net distributions to parent per statements of cash flows	\$(17,583)

15. Stockholders' Equity

Comprehensive Income (Loss)

Components of comprehensive income (loss) are net income (loss) and all changes in stockholders' equity during a period except those resulting from transactions with owners. Our accumulated other comprehensive income consists of foreign currency translation adjustments.

Table of Contents

The following table presents the changes in accumulated other comprehensive income, net of tax, during the six months ended June 30, 2015 and 2016 (in thousands):

	Foreign Currency Translation Adjustment
Accumulated other comprehensive income, January 1, 2015 (As Restated)	\$ 26,745
Loss recognized in other comprehensive income (loss) (As Restated)	(4,420)
Accumulated other comprehensive income, June 30, 2015 (As Restated)	\$ 22,325
Accumulated other comprehensive income, January 1, 2016	\$ 29,198
Income recognized in other comprehensive income (loss)	4,199
Accumulated other comprehensive income, June 30, 2016	\$ 33,397

16. Stock-Based Compensation

2015 Stock Incentive Plan

On October 30, 2015, our compensation committee and board of directors each approved the Exterran Corporation 2015 Stock Incentive Plan (the “2015 Plan”) to provide for the granting of stock options, stock appreciation rights, restricted stock, restricted stock units, performance awards, other stock-based awards and dividend equivalents rights to employees, directors and consultants of Exterran Corporation. The 2015 Plan became effective on November 1, 2015. The 2015 Plan will also govern awards granted under the Archrock, Inc. 2013 Stock Incentive Plan and the Archrock, Inc. 2007 Amended and Restated Stock Incentive Plan which were adjusted into awards denominated in our common stock in accordance with the terms of the employee matters agreement and/or actions taken by our board of directors or the Archrock board of directors.

Stock-based compensation expense prior to the Spin-off only related to employees directly involved in our operations, and therefore, excluded stock-based compensation expense related to Archrock employees that supported both the international services and product sales businesses and the other businesses of Archrock that it retained after the Spin-off. Stock-based compensation expense subsequent to the Spin-off relates to employees, directors and consultants of Exterran Corporation, and such awards may consist of awards for either our common stock or Archrock’s common stock.

Stock Options

Stock options are granted at fair market value at the grant date, are exercisable according to the vesting schedule established and generally expire no later than ten years after the grant date. Stock options generally vest one-third per year on each of the first three anniversaries of the grant date.

The table below presents the changes in stock option awards for our common stock during the six months ended June 30, 2016. Options outstanding relate to employees, directors and consultants of us and Archrock.

Stock Options (in thousands)	Weighted Average Exercise Price Per Share	Weighted Average Remaining Life	Aggregate Intrinsic Value (in thousands)
------------------------------------	--	--	---

Edgar Filing: Exterran Corp - Form 10-Q

(in years)

Options outstanding, January 1, 2016	434		\$	18.53		
Granted	—		—			
Exercised	(56)	12.40			
Cancelled	(25)	38.00			
Options outstanding, June 30, 2016	353		18.12	2.3	\$	553
Options exercisable, June 30, 2016	341		17.61	2.2		553

Table of Contents

Intrinsic value is the difference between the market value of our common stock and the exercise price of each stock option multiplied by the number of stock options outstanding for those stock options where the market value exceeds their exercise price. The total intrinsic value of stock options exercised to purchase our common stock during the six months ended June 30, 2016 was \$0.1 million. As of June 30, 2016, we expect to recognize less than \$0.1 million of additional compensation cost related to unvested stock options issued to our employees, directors and consultants, related to options to purchase either our common stock or Archrock's common stock.

Restricted Stock, Restricted Stock Units, Performance Units, Cash Settled Restricted Stock Units and Cash Settled Performance Units

For grants of restricted stock, restricted stock units and performance units, we recognize compensation expense over the vesting period equal to the fair value of our common stock at the grant date. We remeasure the fair value of cash settled restricted stock units and cash settled performance units and record a cumulative adjustment of the expense previously recognized. Our obligation related to the cash settled restricted stock units and cash settled performance units is reflected as a liability in our balance sheets. Grants of restricted stock, restricted stock units, performance units, cash settled restricted stock units and cash settled performance units generally vest one-third per year on each of the first three anniversaries of the grant date.

The table below presents the changes in restricted stock, restricted stock unit, performance unit, cash settled restricted stock unit and cash settled performance unit for our common stock during the six months ended June 30, 2016.

Non-vested awards relate to employees, directors and consultants of us and Archrock. Awards granted subsequent to November 3, 2015 only relate to our employees, directors and consultants.

	Shares (in thousands)	Weighted Average Grant-Date Fair Value Per Share
Non-vested awards, January 1, 2016	1,004	\$ 22.17
Granted	773	15.46
Vested	(401)) 23.04
Change in expected vesting of performance units	172	15.46
Cancelled	(69)) 22.67
Non-vested awards, June 30, 2016 (1)	1,479	17.62

(1) Non-vested awards as of June 30, 2016 are comprised of 25,000 cash settled restricted stock units and cash settled performance units and 1,454,000 restricted shares, restricted stock units and performance units.

As of June 30, 2016, we expect \$22.2 million of unrecognized compensation cost related to unvested restricted stock, restricted stock units, performance units, cash settled restricted stock units and cash settled performance units issued to our employees, in the form of either our common stock or Archrock's common stock, to be recognized over the weighted-average vesting period of 2.2 years.

17. Net Income (Loss) Per Common Share

Basic net income (loss) per common share is computed using the two-class method, which is an earnings allocation formula that determines net income (loss) per share for each class of common stock and participating security according to dividends declared and participation rights in undistributed earnings. Under the two-class method, basic

net income (loss) per common share is determined by dividing net income (loss) after deducting amounts allocated to participating securities, by the weighted average number of common shares outstanding for the period. Participating securities include our unvested restricted stock and certain stock settled restricted stock units that have nonforfeitable rights to receive dividends or dividend equivalents, whether paid or unpaid. During periods of net loss from continuing operations, no effect is given to participating securities because they do not have a contractual obligation to participate in our losses.

Diluted net income (loss) per common share is computed using the weighted average number of common shares outstanding adjusted for the incremental common stock equivalents attributed to outstanding options to purchase common stock and non-participating restricted stock units, unless their effect would be anti-dilutive.

Table of Contents

To effect the Spin-off, on November 3, 2015, Archrock distributed 34,286,267 shares of our common stock to its stockholders. For the periods prior to November 3, 2015, the average number of common shares outstanding used to calculate basic and diluted net income per common share was based on the shares of our common stock that were distributed on November 3, 2015. The same number of shares was used to calculate basic and diluted net income per common share for these periods since we had no equity awards outstanding prior to November 3, 2015 and we were a wholly owned subsidiary of Archrock prior to the Spin-off date.

The following table presents a reconciliation of basic and diluted net income (loss) per common share for the three and six months ended June 30, 2016 and 2015 (in thousands, except per share data):

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2016	
	2015 As Restated		2015 As Restated	
Numerator for basic and diluted net income (loss) per common share:				
Income (loss) from continuing operations	\$(106,582)	\$(14,630)	\$(135,412)	\$ 3,915
Income (loss) from discontinued operations, net of tax	11,036	207	(53,091)) 18,139
Less: Net income attributable to participating securities	—	—	—	—
Net income (loss) — used in basic and diluted net income (loss) per common share	\$(95,546)) \$(14,423)	\$(188,503)) \$ 22,054
Weighted average common shares outstanding including participating securities	35,567	34,286	35,476	34,286
Less: Weighted average participating securities outstanding	(949)) —	(947)) —
Weighted average common shares outstanding — used in basic net income (loss) per common share	34,618	34,286	34,529	34,286
Net dilutive potential common shares issuable:				
On exercise of options and vesting of restricted stock units	*	—	*	—
Weighted average common shares outstanding — used in diluted net income (loss) per common share	34,618	34,286	34,529	34,286
Net income (loss) per common share:				
Basic	\$(2.76)) \$(0.42)	\$(5.46)) \$ 0.64
Diluted	\$(2.76)) \$(0.42)	\$(5.46)) \$ 0.64

* Excluded from diluted net income (loss) per common share as their inclusion would have been anti-dilutive.

The following table shows the potential shares of common stock issuable that were excluded from computing diluted net income (loss) per common share as their inclusion would have been anti-dilutive (in thousands):

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2015	
Net dilutive potential common shares issuable:				
On exercise of options where exercise price is greater than average market value for the period	236	*	240	*

Edgar Filing: Exterran Corp - Form 10-Q

On exercise of options and vesting of restricted stock units	49	*	53	*
Net dilutive potential common shares issuable	285	—	293	—

*Not applicable for the period.

Table of Contents

18. Commitments and Contingencies

Guarantees

We have issued the following guarantees that are not recorded on our accompanying balance sheet (dollars in thousands):

	Term	Maximum Potential Undiscounted Payments as of June 30, 2016
Performance guarantees through letters of credit (1)	2016 - 2021	\$ 171,781
Standby letters of credit	2016 - 2017	1,288
Bid bonds and performance bonds (1)	2016 - 2023	84,633
Maximum potential undiscounted payments		\$ 257,702

(1) We have issued guarantees to third parties to ensure performance of our obligations, some of which may be fulfilled by third parties.

Contingencies

See Note 3 and Note 7 for a discussion of our gain contingencies related to assets that were expropriated in Venezuela.

Pursuant to the separation and distribution agreement, EESLP contributed to a subsidiary of Archrock the right to receive payments based on a notional amount corresponding to payments received by our subsidiaries from PDVSA Gas in respect of the sale of our and our joint ventures' previously nationalized assets promptly after such amounts are collected by our subsidiaries until Archrock's subsidiary has received an aggregate amount of such payments up to the lesser of (i) \$125.8 million, plus the aggregate amount of all reimbursable expenses incurred by Archrock and its subsidiaries in connection with recovering any PDVSA Gas default installment payments following the completion of the Spin-off or (ii) \$150.0 million. Our balance sheets do not reflect this contingent liability to Archrock or the amount payable to us by PDVSA Gas as a receivable. Pursuant to the separation and distribution agreement, we transferred cash of \$29.7 million to Archrock during the six months ended June 30, 2016. The transfer of cash was recognized as a reduction to additional paid-in capital in our financial statements. As of June 30, 2016, the remaining principal amount due to us from PDVSA Gas in respect of the sale of our and our joint ventures' previously nationalized assets was approximately \$54 million. In subsequent periods, the recognition of a liability, if applicable, resulting from this contingency to Archrock is expected to impact equity, and as such, is not expected to have an impact on our statements of operations.

Pursuant to the separation and distribution agreement, EESLP (in the case of debt offerings) or Exterran Corporation (in the case of equity issuances) will use its commercially reasonable efforts to complete one or more unsecured debt offerings or equity issuances resulting in aggregate gross cash proceeds of at least \$250.0 million on the terms described in the Credit Agreement (such transaction, a "qualified capital raise") on or before the maturity date of our \$245.0 million term loan facility. In connection with the Spin-off, EESLP contributed to a subsidiary of Archrock the right to receive, promptly following the occurrence of a qualified capital raise, a \$25.0 million cash payment. Our balance sheets do not reflect this contingent liability to Archrock. In subsequent periods, the recognition of a liability, if applicable, resulting from this contingency to Archrock is expected to impact equity, and as such, is not expected to

have an impact on our statements of operations.

In addition to U.S. federal, state and local and foreign income taxes, we are subject to a number of taxes that are not income-based. As many of these taxes are subject to audit by the taxing authorities, it is possible that an audit could result in additional taxes due. We accrue for such additional taxes when we determine that it is probable that we have incurred a liability and we can reasonably estimate the amount of the liability. As of June 30, 2016 and December 31, 2015, we had accrued \$2.4 million and \$3.1 million, respectively, for the outcomes of non-income-based tax audits. We do not expect that the ultimate resolutions of these audits will result in a material variance from the amounts accrued. We do not accrue for unasserted claims for tax audits unless we believe the assertion of a claim is probable, it is probable that it will be determined that the claim is owed and we can reasonably estimate the claim or range of the claim. We do not have any unasserted claims from non-income-based tax audits that we have determined are probable of assertion. We also believe the likelihood is remote that the impact of potential unasserted claims from non-income based tax audits could be material to our financial position, but it is possible that the resolution of future audits could be material to our results of operations or cash flows for the period in which the resolution occurs.

Table of Contents

Our business can be hazardous, involving unforeseen circumstances such as uncontrollable flows of natural gas or well fluids and fires or explosions. As is customary in our industry, we review our safety equipment and procedures and carry insurance against some, but not all, risks of our business. Our insurance coverage includes property damage, general liability and commercial automobile liability and other coverage we believe is appropriate. In addition, we have a minimal amount of insurance on our offshore assets. We believe that our insurance coverage is customary for the industry and adequate for our business; however, losses and liabilities not covered by insurance would increase our costs.

Additionally, we are substantially self-insured for workers' compensation and employee group health claims in view of the relatively high per-incident deductibles we absorb under our insurance arrangements for these risks. Losses up to the deductible amounts are estimated and accrued based upon known facts, historical trends and industry averages.

Contracts Containing Liquidated Damages Provisions

Some of our product sales contracts have schedule dates and performance obligations that if not met could subject us to penalties for liquidated damages. These generally relate to specified activities that must be completed by a set contractual date or by achievement of a specified level of output or throughput. Each contract defines the conditions under which a customer may make a claim for liquidated damages. However, in some instances, liquidated damages are not asserted by the customer, but the potential to do so is used in negotiating or settling claims and closing out the contract. As of June 30, 2016, estimated penalties for liquidated damages of \$20.9 million have been recorded in our financial statements, based on our actual or projected failure to meet certain specified contractual milestone dates. We believe that we will be successful in obtaining schedule extensions or other customer-agreed changes that should resolve the potential for additional liquidated damages. Accordingly, we believe that no amounts for these potential liquidated damages in excess of the amounts currently reflected in our financial statements are probable of being incurred by us. However, we may not achieve relief on some or all of the issues involved and, as a result, could be subject to higher liquidated damages amounts. Additionally, we have asserted claims, or intend to assert claims, against certain customers that, if settled, could result in a release of such claims in exchange for release of certain liquidated damages currently recorded in our financial statements. We recognize claims for recovery of incurred cost when it is probable that the claim will result in additional contract revenue and when the amount of the claim can be reliably estimated. These requirements are satisfied when the contract or other evidence provides a legal basis for the claim, additional costs were caused by circumstances that were unforeseen at the contract date and not the result of deficiencies in our performance, claim-related costs are identifiable and considered reasonable in view of the work performed, evidence supporting the claim is objective and verifiable and collection is probable. These assessments require judgments concerning matters such as litigation developments and outcomes, the anticipated outcome of negotiations, the number of future claims and the cost of both pending and future claims.

Litigation and Claims

In the ordinary course of business, we are involved in various pending or threatened legal actions. While management is unable to predict the ultimate outcome of these actions, it believes that any ultimate liability arising from any of these actions will not have a material adverse effect on our financial position, results of operations or cash flows. However, because of the inherent uncertainty of litigation and arbitration proceedings, we cannot provide assurance that the resolution of any particular claim or proceeding to which we are a party will not have a material adverse effect on our financial position, results of operations or cash flows.

Contemporaneously with filing the Form 8-K on April 26, 2016, we self-reported the errors and possible irregularities at Belleli EPC to the SEC. Since then, we have been cooperating with the SEC in its investigation of this matter,

including responding to a subpoena for documents related to the restatement and compliance with the FCPA, which are also being provided to the Department of Justice at its request. The FCPA related requests in the SEC subpoena pertain to our policies and procedures, information about our third-party sales agents, and documents related to historical internal investigations completed prior to November 2015.

Table of Contents

Indemnifications

In conjunction with, and effective as of the completion of, the Spin-off, we entered into the separation and distribution agreement with Archrock, which governs, among other things, the treatment between Archrock and us of aspects relating to indemnification, insurance, confidentiality and cooperation. Generally, the separation and distribution agreement provides for cross-indemnities principally designed to place financial responsibility for the obligations and liabilities of our business with us and financial responsibility for the obligations and liabilities of Archrock's business with Archrock. Pursuant to the agreement, we and Archrock will generally release the other party from all claims arising prior to the Spin-off that relate to the other party's business. Additionally, in conjunction with, and effective as of the completion of, the Spin-off, we entered into the tax matters agreement with Archrock. Under the tax matters agreement and subject to certain exceptions, we are generally liable for, and indemnify Archrock against, taxes attributable to our business, and Archrock is generally liable for, and indemnify us against, all taxes attributable to its business. We are generally liable for, and indemnify Archrock against, 50% of certain taxes that are not clearly attributable to our business or Archrock's business.

19. Reportable Segments

We manage our business segments primarily based upon the type of product or service provided. We have three reportable segments: contract operations, aftermarket services and product sales. The contract operations segment primarily provides natural gas compression services, production and processing equipment services and maintenance services to meet specific customer requirements on assets owned by us. The aftermarket services segment provides a full range of services to support the surface production, compression and processing needs of customers, from parts sales and normal maintenance services to full operation of a customer's owned assets. The product sales segment provides design, engineering, manufacturing, installation and sale of natural gas compression units and accessories and equipment used in the production, treating and processing of crude oil and natural gas.

We evaluate the performance of our segments based on gross margin for each segment. Revenue includes sales to external customers and affiliates. We do not include intersegment sales when we evaluate our segments' performance.

The following table presents revenues and other financial information by reportable segment during the three and six months ended June 30, 2016 and 2015 (in thousands):

Three Months Ended	Contract Operations	Aftermarket Services	Product Sales (1)	Reportable Segments Total (1)(2)
June 30, 2016:				
Revenue	\$ 94,689	\$ 34,668	\$ 132,790	\$ 262,147
Gross margin (3)	58,288	10,531	9,742	78,561
June 30, 2015:				
Revenue	\$ 115,250	\$ 34,031	\$ 311,500	\$ 460,781
Gross margin (3)	70,505	9,704	19,989	100,198

Six Months Ended	Contract Operations	Aftermarket Services	Product Sales (1)	Reportable Segments Total (1)(2)
June 30, 2016:				

Edgar Filing: Exterran Corp - Form 10-Q

Revenue	\$ 199,448	\$ 64,909	\$ 304,420	\$ 568,777
Gross margin (3)	124,549	18,472	19,480	162,501
June 30, 2015:				
Revenue	\$ 235,941	\$ 70,275	\$ 674,385	\$ 980,601
Gross margin (3)	146,857	20,791	75,249	242,897

Financial information for the product sales segment for the three and six months ended June 30, 2015 has been (1)restated. Refer to Note 2 for further information regarding the restatement of previously reported financial information.

Table of Contents

Consolidated and combined gross margin, a non-GAAP financial measure, is reconciled, in total, to income (loss) (2) before income taxes, its most directly comparable measure calculated and presented in accordance with GAAP, below.

(3) Gross margin is defined as total revenue less cost of sales (excluding depreciation and amortization expense).

Consolidated and combined gross margin is included as a supplemental disclosure because it is a primary measure used by our management to evaluate the results of revenue and cost of sales (excluding depreciation and amortization expense), which are key components of our operations. As an indicator of our operating performance, consolidated and combined gross margin should not be considered an alternative to, or more meaningful than, income (loss) before income taxes as determined in accordance with GAAP. Our gross margin may not be comparable to a similarly titled measure of another company because other entities may not calculate gross margin in the same manner.

The following table reconciles income (loss) before income taxes to total gross margin (in thousands):

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2016	
	2015	As Restated	2015	As Restated
Income (loss) before income taxes	\$(6,247)	\$(6,393)	\$(31,068)	\$32,607
Selling, general and administrative	40,648	55,434	86,386	113,250
Depreciation and amortization	27,417	36,053	78,350	74,068
Long-lived asset impairment	—	5,910	651	10,489
Restatement charges	7,851	—	7,851	—
Restructuring and other charges	10,636	10,547	23,203	10,547
Interest expense	8,879	319	17,342	826
Equity in income of non-consolidated affiliates	(5,229)	(5,062)	(10,403)	(10,068)
Other (income) expense, net	(5,394)	3,390	(9,811)	11,178
Consolidated and combined gross margin	\$78,561	\$100,198	\$162,501	\$242,897

20. Subsequent Events

In July 2016, we received an additional installment payment, including an annual charge, from PDVSA Gas relating to the 2012 sale of our previously nationalized assets of \$19.5 million. As we have not recognized amounts payable to us by PDVSA Gas relating to the 2012 sale of our previously nationalized assets as a receivable but rather as income in the periods such payments are received, the installment payments received in July 2016 relating to our previously nationalized assets will be recognized as income from discontinued operations in the third quarter of 2016. Pursuant to the separation and distribution agreement, a notional amount corresponding to the cash we received from the PDVSA Gas installment payments were transferred to Archrock in July 2016. The transfer of cash will be recognized as a reduction to stockholders' equity in the third quarter of 2016.

In August 2016, we completed the sale of our Belleli CPE business to Tosto S.r.l. for cash proceeds of approximately \$5.5 million. Our Belleli CPE business is reflected as discontinued operations in our financial statements.

On August 24, 2016 and November 22, 2016, we and our wholly owned subsidiary, EESLP, entered into amendments to the Credit Agreement with Wells Fargo, as the administrative agent, and various financial institutions as lenders. Under these amendments, the lenders extended the waivers previously granted under the previous amendments to

February 28, 2017 unless on or prior to that date, we deliver the replacement financial information, and further extended the deadline to no later than February 28, 2017 by which we are required to deliver to the lenders our quarterly reports for the fiscal quarters ended March 31, 2016, June 30, 2016 and September 30, 2016 and the related compliance certificates demonstrating compliance with the financial covenants set forth in the Credit Agreement.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited financial statements and the notes thereto included in the Condensed Consolidated and Combined Financial Statements in Part I, Item 1 ("Financial Statements") of this report and in conjunction with our Annual Report on Form 10-K/A for the year ended December 31, 2015 (the "2015 Form 10-K/A"). As described in Note 2 to the Financial Statements, we restated our previously reported financial statements as of December 31, 2015 and for the three and six months ended June 30, 2015. The impact of the restatement is reflected in Management's Discussion and Analysis of Financial Condition and Results of Operations below.

Disclosure Regarding Forward-Looking Statements

This report contains "forward-looking statements" intended to qualify for the safe harbors from liability established by the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact contained in this report are forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), including, without limitation, statements regarding our business growth strategy and projected costs; future financial position; the sufficiency of available cash flows to fund continuing operations; the expected amount of our capital expenditures; expenditures related to the restatement of our financial statements and pending governmental investigation; anticipated cost savings, future revenue, gross margin and other financial or operational measures related to our business and our primary business segments; the future value of our equipment and non-consolidated affiliates; and plans and objectives of our management for our future operations. You can identify many of these statements by looking for words such as "believe," "expect," "intend," "project," "anticipate," "estimate," "will continue" or similar words or the negative thereof.

Such forward-looking statements are subject to various risks and uncertainties that could cause actual results to differ materially from those anticipated as of the date of this report. Although we believe that the expectations reflected in these forward-looking statements are based on reasonable assumptions, no assurance can be given that these expectations will prove to be correct. Known material factors that could cause our actual results to differ materially from the expectations reflected in these forward-looking statements include the risk factors described in our Annual Report on Form 10-K/A for the year ended December 31, 2015, and those set forth from time to time in our filings with the Securities and Exchange Commission ("SEC"), which are available through our website at www.exterran.com and through the SEC's website at www.sec.gov, as well as the following risks and uncertainties:

conditions in the oil and natural gas industry, including a sustained imbalance in the level of supply or demand for oil or natural gas or a sustained low price of oil or natural gas, which could continue to depress or further decrease the demand or pricing for our natural gas compression and oil and natural gas production and processing equipment and services;

our reduced profit margins or the loss of market share resulting from competition or the introduction of competing technologies by other companies;

- our reliance on Archrock, Inc. (named Exterran Holdings, Inc. prior to November 3, 2015) ("Archrock") and Archrock Partners, L.P. (named Exterran Partners, L.P. prior to November 3, 2015) ("Archrock Partners") for a significant amount of our product sales revenues and our ability to secure new product sales customers;

changes in economic or political conditions in the countries in which we do business, including civil uprisings, riots, terrorism, kidnappings, violence associated with drug cartels, legislative changes and the expropriation, confiscation or nationalization of property without fair compensation;

- changes in currency exchange rates, including the risk of currency devaluations by foreign governments, and restrictions on currency repatriation;

- the inherent risks associated with our operations, such as equipment defects, malfunctions and natural disasters;

- the risk that counterparties will not perform their obligations under our financial instruments;

- the financial condition of our customers;

- our ability to timely and cost-effectively obtain components necessary to conduct our business;

Table of Contents

- employment and workforce factors, including our ability to hire, train and retain key employees;
- our ability to implement certain business and financial objectives, such as:
 - winning profitable new business;
 - timely and cost-effective execution of projects;
 - enhancing our asset utilization, particularly with respect to our fleet of compressors;
 - integrating acquired businesses;
 - generating sufficient cash; and
 - accessing the capital markets at an acceptable cost;
 - liability related to the use of our products and services;
 - changes in governmental safety, health, environmental or other regulations, which could require us to make significant expenditures;
- our ability to successfully remediate each of the material weaknesses in our internal control environment disclosed in this report within the time periods and in the manner currently anticipated;
- the effectiveness of our internal control environment, including the identification of additional control deficiencies;
- the results of governmental actions relating to pending investigations;
- the results of shareholder actions relating to the restatement of our financial statements;
- the agreements related to the spin-off (see “Spin-off” below) thereto and the anticipated effects of restructuring our business; and
- our level of indebtedness and ability to fund our business.

All forward-looking statements included in this report are based on information available to us on the date of this report. Except as required by law, we undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained throughout this report.

General

Exterran Corporation (together with its subsidiaries, “Exterran Corporation,” “our,” “we” or “us”), a Delaware corporation formed in March 2015, is a market leader in the provision of compression, production and processing products and services that support the production and transportation of oil and natural gas throughout the world. We provide these products and services to a global customer base consisting of companies engaged in all aspects of the oil and natural gas industry, including large integrated oil and natural gas companies, national oil and natural gas companies,

independent oil and natural gas producers and oil and natural gas processors, gatherers and pipeline operators. We operate in three primary business lines: contract operations, aftermarket services and product sales. In our contract operations business line, we have operations outside of the U.S. where we own and operate natural gas compression equipment and crude oil and natural gas production and processing equipment on behalf of our customers. In our aftermarket services business line, we primarily have operations outside of the U.S. where we provide operations, maintenance, overhaul and reconfiguration services to customers who own their own compression, production, processing, treating and related equipment. In our product sales business line, we manufacture natural gas compression packages and oil and natural gas production and processing equipment for sale to our customers throughout the world and for use in our contract operations business line. We also offer our customers, on either a contract operations basis or a sale basis, the engineering, design, project management, procurement and construction services necessary to incorporate our products into production, processing and compression facilities, which we refer to as integrated projects.

Table of Contents

Spin-off

On November 3, 2015, Archrock, Inc. (named Exterran Holdings, Inc. prior to November 3, 2015) (“Archrock”) completed the spin-off (the “Spin-off”) of its international contract operations, international aftermarket services (the international contract operations and international aftermarket services businesses combined are referred to as the “international services businesses” and include such activities conducted outside of the United States of America (“U.S.”)) and global fabrication businesses into an independent, publicly traded company named Exterran Corporation. We refer to the global fabrication business previously operated by Archrock as our product sales business. To effect the Spin-off, on November 3, 2015, Archrock distributed, on a pro rata basis, all of our shares of common stock to its stockholders of record as of October 27, 2015 (the “Record Date”). Archrock shareholders received one share of Exterran Corporation common stock for every two shares of Archrock common stock held at the close of business on the Record Date. Pursuant to the separation and distribution agreement with Archrock and certain of our and Archrock’s respective affiliates, on November 3, 2015, we transferred cash of \$532.6 million to Archrock. Following the completion of the Spin-off, we and Archrock are independent, publicly traded companies with separate boards of directors and management.

Restatement of Previously Reported Consolidated and Combined Financial Statements

The impact of the restatement is reflected in this Management’s Discussion and Analysis of Financial Condition and Results of Operations. For a summary of the effect of the restatement as of December 31, 2015 and for the three and six months ended June 30, 2015 see Note 2 to the Financial Statements.

As a result of the internal investigation discussed in Note 2 to the Financial Statements, we incurred in \$7.9 million of costs associated with the restatement of our financial statements during the three and six months ended June 30, 2016, which were primarily related to \$4.8 million of external accounting costs and \$2.7 million of external legal costs. We currently estimate that we will incur additional cash expenditures, including estimated external legal counsel costs related to the pending SEC investigation, of approximately \$23 million associated with the restatement of our financial statements in subsequent periods, some portion of which might be recoverable from Archrock.

Exit of our Belleli Businesses

In the first quarter of 2016, we committed to a plan to exit certain Belleli businesses to focus on our core oil and gas businesses. Specifically we planned to exit the Belleli CPE business comprising of engineering, procurement and manufacturing services related to the manufacture of critical process equipment for refinery and petrochemical facilities (referred to as “Belleli CPE” or the “Belleli CPE business” herein). In addition, we planned to exit the Belleli EPC business comprising of engineering, procurement and construction for the manufacture of tanks for tank farms and the manufacture of evaporators and brine heaters for desalination plants in the Middle East (referred to as “Belleli EPC” or the “Belleli EPC business” herein). Belleli CPE met the held for sale criteria and is reflected as discontinued operations in our financial statements for all periods presented. As discussed in Note 20 to the Financial Statements, we completed the sale of our Belleli CPE business in August 2016. Belleli CPE was previously included in our product sales segment. In conjunction with the planned disposition of Belleli CPE, we recorded impairments of long-lived assets and current assets that totaled \$7.1 million and \$68.8 million during the three and six months ended June 30, 2016, respectively. The impairment charges are reflected in income (loss) from discontinued operations, net of tax. In accordance with accounting principles generally accepted in the U.S. (“GAAP”), Belleli EPC will not be reflected as discontinued operations until the substantial cessation of the remaining non-oil and gas business. During the first quarter of 2016, we ceased the booking of new orders for our Belleli EPC business. Belleli EPC is included in our product sales segment. Our plan to exit our Belleli EPC business resulted in a reduction in the remaining useful lives of the assets that are currently used in the Belleli EPC business and a long-lived asset impairment charge of \$0.7

million impacting results from continuing operations during the six months ended June 30, 2016.

Table of Contents

The following tables summarize the operating results of our Belleli businesses and our core oil and gas businesses (in thousands):

	Exterran Corporation Excluding Belleli	Belleli		Exterran Corporation Consolidated and Combined	
		CPE	EPC		
Three Months Ended June 30, 2016					
Revenue	\$ 228,689	\$—	\$33,458	\$ 262,147	
Cost of sales (excluding depreciation and amortization expense)	150,324	—	33,262	183,586

Product sales backlog (at period end)	418,666	— (2)	138,311	556,977
Third party bookings	165,239	— (2)	6,211	171,450

(1) See Note 3 to the Financial Statements for further discussion regarding discontinued operations.

As of June 30, 2016 and 2015 product sales backlog for Belleli CPE was \$38.3 million and \$73.7 million, respectively. Third party bookings for Belleli CPE were \$1.4 million and \$43.2 million during the three months ended June 30, 2016 and 2015, respectively, and \$4.3 million and \$72.0 million during the six months ended June 30, 2016 and 2015, respectively. As Belleli CPE is no longer a part of our continuing operations, Belleli CPE's product sales backlog and third party bookings have been excluded from all periods presented.

During the first quarter of 2016, we ceased the booking of new orders for our Belleli EPC business. Changes in our Belleli EPC backlog since March 31, 2016 reflect revenue recognized and change orders booked on existing contracts.

Basis of Presentation

All financial information presented for periods after the Spin-off represents our consolidated results of operations, financial position and cash flows (referred to as the “condensed consolidated financial statements”) and all financial information for periods prior to the Spin-off represents our combined results of operations, financial position and cash flows (referred to as the “condensed combined financial statements”). Accordingly:

Our condensed consolidated statements of operations and comprehensive income (loss) for the three and six months ended June 30, 2016 and our condensed consolidated statements of cash flows and stockholders' equity for the six months ended June 30, 2016 consist entirely of our consolidated results. Our condensed combined statements of operations and comprehensive income (loss) for the three and six months ended June 30, 2015 and our condensed

combined statements of cash flows and stockholders' equity for the six months ended June 30, 2015 consist entirely of the combined results of Archrock's international services and product sales businesses.

Our condensed consolidated balance sheets at June 30, 2016 and December 31, 2015 consist entirely of our consolidated balances.

Table of Contents

The condensed combined financial statements were derived from the accounting records of Archrock and reflect the combined historical results of operations, financial position and cash flows of Archrock's international services and product sales businesses. The condensed combined financial statements were presented as if such businesses had been combined for periods prior to November 4, 2015. All intercompany transactions and accounts within these statements have been eliminated. Affiliate transactions between the international services and product sales businesses of Archrock and the other businesses of Archrock have been included in the condensed combined financial statements, with the exception of product sales within our wholly owned subsidiary, Exterran Energy Solutions, L.P. ("EESLP"). Prior to the closing of the Spin-off, EESLP also had a fleet of compression units used to provide compression services in the U.S. services business of Archrock. Revenue has not been recognized in the condensed combined statements of operations for the sale of compressor units by us that were used by EESLP to provide compression services to customers of the U.S. services business of Archrock. See Note 14 to the Financial Statements for further discussion on transactions with affiliates.

The condensed combined statements of operations include expense allocations for certain functions historically performed by Archrock and not allocated to its operating segments, including allocations of expenses related to executive oversight, accounting, treasury, tax, legal, human resources, procurement and information technology. See Note 14 to the Financial Statements for further discussion regarding the allocation of corporate expenses.

We refer to the condensed consolidated and combined financial statements collectively as "financial statements," and individually as "balance sheets," "statements of operations," "statements of comprehensive income (loss)," "statements of stockholders' equity" and "statements of cash flows" herein.

Overview

Industry Conditions and Trends

Our business environment and corresponding operating results are affected by the level of energy industry spending for the exploration, development and production of oil and natural gas reserves. Spending by oil and natural gas exploration and production companies is dependent upon these companies' forecasts regarding the expected future supply, demand and pricing of oil and natural gas products as well as their estimates of risk-adjusted costs to find, develop and produce reserves. Although we believe our contract operations business is typically less impacted by commodity prices than certain other energy products and service providers, changes in oil and natural gas exploration and production spending normally result in changes in demand for our products and services.

Natural gas consumption in the U.S. for the twelve months ended September 30, 2016 remained relatively flat compared to the twelve months ended September 30, 2015. The U.S. Energy Information Administration ("EIA") forecasts that total U.S. natural gas consumption will increase by 0.8% in 2016 compared to 2015. As reported by the BP Energy Outlook 2035, February 2016 edition ("BP Energy Outlook 2035"), North American natural gas consumption and worldwide natural gas consumption is expected to grow annually by an average of approximately 1.5% and 2.0%, respectively, per year between 2015 and 2035.

Natural gas marketed production in the U.S. for the twelve months ended September 30, 2016 decreased by approximately 0.4% compared to the twelve months ended September 30, 2015. The EIA forecasts that total U.S. natural gas marketed production will decrease by 1.6% in 2016 compared to 2015. In addition, according to the BP Energy Outlook 2035, North American natural gas production and worldwide natural gas production is expected to grow annually by an average of approximately 2.4% and 1.9%, respectively, per year between 2015 and 2035.

Global oil and natural gas prices have declined significantly since the third quarter of 2014, which led to declines in U.S. and worldwide capital spending for drilling activity in 2015. In 2016, given the current market environment, we expect continued declines in worldwide capital spending for drilling activity.

Our Performance Trends and Outlook

Our revenue, earnings and financial position are affected by, among other things, market conditions that impact demand and pricing for natural gas compression and oil and natural gas production and processing and our customers' decisions among using our products and services, using our competitors' products and services or owning and operating the equipment themselves.

Table of Contents

Overall market activity in North America remains at depressed levels due to the significant decrease in oil and natural gas prices since the third quarter of 2014. The Henry Hub spot price for natural gas was \$2.94 per MMBtu at June 30, 2016, which was approximately 5% higher than prices at June 30, 2015 but 29% lower than prices at September 30, 2014, respectively, and the U.S. natural gas liquid composite price was approximately \$5.25 per MMBtu for the month of June 2016, which was approximately 10% higher than the price for the month of June 2015 but 47% lower than the price for the month of September 2014, respectively. These lower prices have led to reduced drilling of gas wells in North America. In addition, the West Texas Intermediate crude oil spot price as of June 30, 2016 was approximately 19% and 47% lower than prices at June 30, 2015 and September 30, 2014, respectively, which has led to reduced drilling of oil wells. More recently, West Texas Intermediate crude oil prices have slightly declined since the first half of 2016, represented by a spot price decrease of 3% at October 31, 2016 compared to June 30, 2016. During periods of lower oil or natural gas prices, our customers typically decrease their capital expenditures, which generally results in lower activity levels. As a result of the low oil and natural gas price environment in North America, our customers have sought to significantly reduce their capital and operating expenditure requirements, and as a result, the demand and pricing for the equipment we manufacture in North America have been adversely impacted. Third party booking activity levels for our manufactured products in North America during the three months ended June 30, 2016 were \$47.8 million, which represents a decline of approximately 71% and 38% compared to the three months ended December 31, 2015 and June 30, 2015, respectively, and our North America product sales backlog as of June 30, 2016 was \$64.2 million, which represents a decline of approximately 71% and 78% compared to December 31, 2015 and June 30, 2015, respectively. We believe these booking levels reflect both our customers' reduced activity levels in response to the decline in commodity prices and caution on the part of our customers as they seek to reduce costs.

Similarly, in international markets, lower oil and natural gas prices have had a negative impact on the amount of capital investment by our customers in new projects. Our customers have sought to reduce their capital and operating expenditure requirements due to lower oil and natural gas prices. As a result, the demand and pricing for our services and products in international markets have been adversely impacted. However, we believe the impact of lower oil and natural gas prices in international markets will generally be less than we expect to experience in North America for two reasons: first, the longer-term fundamentals influencing our international customers' demand and, second, the long-term contracts we have in place with some of those international customers, including for our contract operations services. Growth in our international markets depends in part on international infrastructure projects, many of which are based on longer-term plans of our customers that can be driven by their local market demand and local pricing for natural gas. As a result, we believe our international customers make decisions based on longer-term fundamentals that can be less tied to near term commodity prices than our North American customers. Therefore, we believe the demand for our services and products in international markets will continue, and we expect to have opportunities to grow our international businesses over the long term. Third party booking activity levels for our manufactured products in international markets during the three months ended June 30, 2016 were \$1.9 million, which represents a decline of approximately 92% compared to each of the three month periods ended December 31, 2015 and June 30, 2015, and our international market product sales backlog as of June 30, 2016 was \$135.8 million, which represents a decline of approximately 34% and 49% compared to December 31, 2015 and June 30, 2015, respectively. The fluctuations in the size of our bid proposals for new contracts tend to create variability in booking activity levels in international markets from period to period.

Aggregate third party booking activity levels for our manufactured products in North America and international markets during the three months ended June 30, 2016 were \$49.7 million, which represents a decline of approximately 74% and 51% compared to the three months ended December 31, 2015 and June 30, 2015, respectively. The aggregate product sales backlog for our manufactured products in North America and international markets as of June 30, 2016 was \$200.0 million, which represents a decline of approximately 53% and 64% compared to December 31, 2015 and June 30, 2015, respectively.

The timing of any change in activity levels by our customers is difficult to predict. As a result, our ability to project the anticipated activity level for our business, and particularly our product sales segment, is limited. If capital spending by our customers remains low, we expect bookings in our product sales business in 2016 to be lower than our bookings in 2015. If these reduced booking levels persist for a sustained period, we could experience a material adverse effect on our business, financial condition, results of operations and cash flows.

Our level of capital spending depends on our forecast for the demand for our products and services and the equipment required to provide services to our customers. We anticipate investing less capital in our contract operations business in 2016 than we did in 2015.

Table of Contents

Operating Highlights

The following tables summarize our total available horsepower, total operating horsepower, average operating horsepower, horsepower utilization percentages and product sales backlog (in thousands, except percentages):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Total Available Horsepower (at period end)	1,188	1,216	1,188	1,216
Total Operating Horsepower (at period end)	957	938	957	938
Average Operating Horsepower	961	948	962	959
Horsepower Utilization (at period end)	81	% 77	% 81	% 77

	June 30, 2016	December 31, 2015	June 30, 2015
		As Restated	As Restated
Product Sales Backlog (1):			
Compressor and Accessory Backlog	\$47,834	\$ 141,059	\$150,981
Production and Processing Equipment Backlog	148,012	281,338	345,517
Installation Backlog	4,127	7,445	60,479
Total Product Sales Backlog	\$199,973	\$ 429,842	\$556,977

Our product sales backlog consists of unfilled orders based on signed contracts and does not include potential (1) product sales pursuant to letters of intent received from customers. As Belleli CPE is no longer a part of our continuing operations, Belleli CPE's product sales backlog has been excluded from all periods presented.

Financial Results of Operations

Summary of Results

As discussed in Note 3 to the Financial Statements, the results from continuing operations for all periods presented exclude the results of our Venezuelan contract operations business and our Belleli CPE business. Those results are reflected in discontinued operations for all periods presented.

Revenue. Revenue during the three months ended June 30, 2016 was \$262.1 million compared to \$460.8 million during the three months ended June 30, 2015. Revenue during the six months ended June 30, 2016 was \$568.8 million compared to \$980.6 million during the six months ended June 30, 2015. The decrease in revenue during the three and six months ended June 30, 2016 compared to the three and six months ended June 30, 2015 was primarily caused by revenue decreases in our product sales and contract operations segments, as discussed further below.

Table of Contents

Net income (loss). We generated net loss of \$95.5 million and \$14.4 million during the three months ended June 30, 2016 and 2015, respectively, and net loss of \$188.5 million and net income of \$22.1 million during the six months ended June 30, 2016 and 2015, respectively. The increase in net loss during the three months ended June 30, 2016 compared to the three months ended June 30, 2015 was primarily due to non-cash valuation allowances of \$88.0 million recorded against U.S. net deferred tax assets during the current year period and a decrease in gross margin in our contract operations and product sales segments. These activities were partially offset by a \$19.3 million increase in proceeds received from the sale of our Venezuelan subsidiary's assets to PDVSA Gas S.A. ("PDVSA Gas") and a decrease in selling, general and administrative ("SG&A") expense. Net loss during the three months ended June 30, 2016 included income from discontinued operations, net of tax, of \$11.0 million. The increase in net loss during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 was primarily due to a non-cash valuation allowances of \$88.0 million recorded against U.S. net deferred tax assets during the current year period, a decrease in gross margin in our product sales and contract operations segments, impairment charges reflected in loss from discontinued operations, net of tax, of \$68.8 million related to Belleli CPE during the current year period and an increase in interest expense. These activities were partially offset by a decrease in SG&A expense and foreign currency gains of \$5.5 million in the current year period compared to foreign currency losses of \$10.5 million in the prior year period. Net loss during the six months ended June 30, 2016 included loss from discontinued operations, net of tax, of \$53.1 million and net loss during the six months ended June 30, 2015 included income from discontinued operations, net of tax, of \$18.1 million.

EBITDA, as adjusted. Our EBITDA, as adjusted, was \$40.9 million and \$41.9 million during the three months ended June 30, 2016 and 2015, respectively, and \$78.9 million and \$126.5 million during the six months ended June 30, 2016 and 2015, respectively. EBITDA, as adjusted, during the three ended June 30, 2016 compared to the three months ended June 30, 2015 decreased primarily due to a decrease in gross margin in our contract operations and product sales segments, partially offset by a decrease in SG&A expense, a \$3.9 million loss recognized during the prior year period on short-term investments related to the purchase of Argentine government issued U.S. dollar denominated bonds and a \$2.2 million gain on the sale of a plant in Argentina during the current year period. EBITDA, as adjusted, during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 decreased primarily due to a decrease in gross margin in our product sales and contract operations segments, partially offset by a decrease in SG&A expense, a \$3.9 million loss recognized during the prior year period on short-term investments related to the purchase of Argentine government issued U.S. dollar denominated bonds and a \$2.2 million gain on the sale of a plant in Argentina during the current year period. EBITDA, as adjusted, is a non-GAAP financial measure. For a reconciliation of EBITDA, as adjusted, to net income (loss), its most directly comparable financial measure calculated and presented in accordance with GAAP, please read "— Non-GAAP Financial Measures."

Table of Contents

The Three Months Ended June 30, 2016 Compared to the Three Months Ended June 30, 2015

Contract Operations
(dollars in thousands)

	Three Months Ended June 30,		Increase	
	2016	2015	(Decrease)	
Revenue	\$94,689	\$115,250	(18)%
Cost of sales (excluding depreciation and amortization expense)	36,401	44,745	(19)%
Gross margin	\$58,288	\$70,505	(17)%
Gross margin percentage (1)	62	% 61	% 1	%

(1) Defined as gross margin divided by revenue.

The decrease in revenue during the three months ended June 30, 2016 compared to the three months ended June 30, 2015 was primarily due to a decrease in revenue of \$9.9 million resulting from an early termination of a project in the Eastern Hemisphere in January 2016 that had been operating since the third quarter of 2009, a \$9.2 million decrease in revenue in Mexico primarily driven by projects that terminated operations in 2015 and a reduction of recognized deferred revenue resulting from contract extensions, a \$6.4 million decrease in revenue in Argentina primarily due to a devaluation of the Argentine peso since the prior year period and a \$3.1 million decrease in revenue in Nigeria primarily driven by two projects that terminated operations in late 2015 and early 2016. These decreases were partially offset by a \$6.2 million increase in revenue in Brazil primarily driven by the start-up of a project during the second half of 2015 and a \$3.3 million increase in revenue in Bolivia primarily driven by the start-up of a project during the first quarter of 2016. Gross margin decreased during the three months ended June 30, 2016 compared to the three months ended June 30, 2015 primarily due to the revenue decrease explained above, excluding the devaluation of the Argentine peso as the impact on gross margin was insignificant. Gross margin percentage during the three months ended June 30, 2016 compared to the three months ended June 30, 2015 increased primarily due to the start-up of a project in Brazil during the second half of 2015 and the start-up of a project in Bolivia during the first quarter of 2016, partially offset by the impact of an early termination of a project in the Eastern Hemisphere including demobilization expenses of \$1.5 million incurred during the three months ended June 30, 2016. Additionally, excluded from cost of sales and recorded to restructuring and other charges in our statements of operations during the three months ended June 30, 2015 were non-cash inventory write-downs of \$4.2 million associated with the Spin-off primarily related to the decentralization of shared inventory components between Archrock's North America contract operations business and our international contract operations business.

Aftermarket Services
(dollars in thousands)

	Three Months Ended June 30,		Increase	
	2016	2015	(Decrease)	
Revenue	\$34,668	\$34,031	2	%
Cost of sales (excluding depreciation and amortization expense)	24,137	24,327	(1)%
Gross margin	\$10,531	\$9,704	9	%
Gross margin percentage	30	% 29	% 1	%

The increase in revenue during the three months ended June 30, 2016 compared to the three months ended June 30, 2015 was primarily due to increased activity in Latin America driven by an increase of \$1.5 million in parts sales in Argentina. Gross margin and gross margin percentage during the three months ended June 30, 2016 compared to the three months ended June 30, 2015 increased primarily as a result of an increase in gross margin in Latin America of \$1.9 million, partially offset by a decrease in gross margin in the Eastern Hemisphere of \$1.3 million.

Table of Contents

Product Sales

(dollars in thousands)

	Three Months Ended June 30,		Increase	
	2016	2015 As Restated	(Decrease)	
Revenue	\$ 132,790	\$ 311,500	(57)	%
Cost of sales (excluding depreciation and amortization expense)	123,048	291,511	(58)	%
Gross margin	\$ 9,742	\$ 19,989	(51)	%
Gross margin percentage	7	% 6	% 1	%

Overall, the recent declines in our product sales bookings and backlog driven by the market downturn have resulted in revenue decreases in each of the regions where we operate. During the three months ended June 30, 2016 compared to the three months ended June 30, 2015, revenue decreased by \$143.9 million, \$20.2 million and \$14.6 million in revenue in North America, Latin America and the Eastern Hemisphere, respectively. The decrease in revenue in North America was due to decreases of \$64.8 million, \$61.8 million and \$17.3 million in compression equipment revenue, production and processing equipment revenue and installation revenue, respectively. The decrease in Latin America revenue was primarily due to a decrease of \$17.5 million in compression equipment revenue. The decrease in the Eastern Hemisphere revenue was due to decreases of \$6.4 million, \$5.0 million and \$3.2 million in installation revenue, compression equipment revenue and production and processing equipment revenue, respectively. The decrease in gross margin was primarily caused by the revenue decrease explained above and continued weakening market conditions resulting in an increasingly aggressive competitive bidding environment, partially offset by estimated loss contract provisions of \$23.0 million recorded on significant Belleli EPC projects in the Eastern Hemisphere during the prior year period driven by project execution delays. The increase in gross margin percentage was primarily due to the previously mentioned estimated loss contract provisions recorded during the prior year period, partially offset by weakening market conditions discussed above. See “—Exit of our Belleli Businesses” for further discussion regarding Belleli. Excluded from cost of sales and recorded to restructuring and other charges in our statements of operations during the three months ended June 30, 2015 were non-cash inventory write-downs of \$4.5 million primarily related to our decision to exit the manufacturing of cold weather packages, which had historically been performed at a product sales facility in North America we decided to close.

Table of ContentsCosts and Expenses
(dollars in thousands)

	Three Months Ended June 30,		Increase	
	2016	2015 As Restated	(Decrease)	
Selling, general and administrative	\$40,648	\$55,434	(27)%
Depreciation and amortization	27,417	36,053	(24)%
Long-lived asset impairment	—	5,910	(100)%
Restatement charges	7,851	—	n/a	
Restructuring and other charges	10,636	10,547	1	%
Interest expense	8,879	319	2,683	%
Equity in income of non-consolidated affiliates	(5,229)	(5,062)	3	%
Other (income) expense, net	(5,394)	3,390	(259)%

The decrease in SG&A expense during the three months ended June 30, 2016 compared to the three months ended June 30, 2015 was primarily due to our cost reduction plan and included a \$4.9 million decrease in compensation and benefits costs in the Eastern Hemisphere and Latin America and a \$3.3 million decrease in corporate expenses. SG&A expense as a percentage of revenue was 16% and 12% during the three months ended June 30, 2016 and 2015, respectively. The increase in SG&A expense as a percentage of revenue was primarily due to a significant decrease in product sales revenue during the three months ended June 30, 2016 compared to the three months ended June 30, 2015. For the periods prior to the Spin-off, SG&A expense includes expense allocations for certain functions, including allocations of expenses related to executive oversight, accounting, treasury, tax, legal, human resources, procurement and information technology services performed by Archrock on a centralized basis that historically have not been recorded at the segment level. These costs were allocated to us systematically based on specific department function and revenue. Included in SG&A expense during the three months ended June 30, 2015 was \$13.2 million of allocated corporate expenses incurred by Archrock. The actual costs we would have incurred if we had been a stand-alone public company would depend on multiple factors, including organizational structure and strategic decisions made in various areas, including information technology and infrastructure.

The decrease in depreciation and amortization expense during the three months ended June 30, 2016 compared to the three months ended June 30, 2015 was primarily due to a decrease of \$4.6 million in depreciation expense on certain contract operations projects in Latin America primarily related to capitalized installation costs that were fully depreciated. Capitalized installation costs, included, among other things, civil engineering, piping, electrical instrumentation and project management costs. Additionally, depreciation expense decreased by \$1.1 million during the three months ended June 30, 2016 compared to the three months ended June 30, 2015 as a result of a contract operations project in the Eastern Hemisphere that early terminated operations in January 2016.

We regularly review the future deployment of our idle compression assets used in our contract operations segment for units that are not of the type, configuration, condition, make or model that are cost efficient to maintain and operate. During the three months ended June 30, 2015, we determined that 23 idle compressor units totaling approximately 17,000 horsepower would be retired from the active fleet. The retirement of these units from the active fleet triggered a review of these assets for impairment. As a result, we recorded a \$5.9 million asset impairment to reduce the book value of each unit to its estimated fair value. The fair value of each unit was estimated based on the estimated component value of the equipment on each compressor unit that we plan to use.

As discussed in Note 2 to the Financial Statements, during the first quarter of 2016, our senior management identified errors relating to the application of percentage-of-completion accounting principles to specific product sales projects within our Belleli EPC business in the Middle East. As a result, the Audit Committee of the Company's Board of Directors initiated an internal investigation, including the use of services of a forensic accounting firm. Management also engaged a consulting firm to assist in accounting analysis and compilation of restatement adjustments. During the three months ended June 30, 2016, we incurred in \$7.9 million of costs associated with the restatement of our financial statements, which were primarily related to \$4.8 million of external accounting costs and \$2.7 million of external legal costs. We currently estimate that we will incur additional cash expenditures, including estimated external legal counsel costs related to the pending SEC investigation, of approximately \$23 million associated with the restatement of our financial statements in subsequent periods.

Table of Contents

In the second quarter of 2015, we announced a cost reduction plan, primarily focused on workforce reductions and the reorganization of certain facilities. These actions were in response to unfavorable market conditions in North America combined with the impact of lower international activity due to customer budget cuts driven by lower oil prices. During the three months ended June 30, 2016, we incurred \$9.5 million of restructuring and other charges as a result of this plan, which were primarily related to \$6.7 million of employee termination benefits and a \$2.7 million charge for the exit of a corporate building under an operating lease. During the three months ended June 30, 2015, we incurred \$5.8 million of restructuring and other charges as a result of this plan, of which \$4.0 million related to non-cash write-downs of inventory and \$1.8 million related to employee termination benefits. The non-cash inventory write-downs were the result of our decision to exit the manufacturing of cold weather packages, which had historically been performed at a product sales facility in North America we decided to close in 2015. Additionally, we incurred restructuring and other charges associated with the Spin-off. During the three months ended June 30, 2016, we incurred \$1.2 million of costs associated with the Spin-off, of which \$0.6 million related to retention awards to certain employees. During the three months ended June 30, 2015, we incurred charges of \$4.7 million related to non-cash inventory write-downs associated with the Spin-off. Non-cash inventory write-downs primarily related to the decentralization of shared inventory components between Archrock's North America contract operations business and our international contract operations business. The charges incurred in conjunction with the cost reduction plan and Spin-off are included in restructuring and other charges in our statements of operations. See Note 12 to the Financial Statements for further discussion of these charges.

The increase in interest expense during the three months ended June 30, 2016 compared to the three months ended June 30, 2015 was primarily due to borrowings under our revolving credit facility and term loan facility (collectively, the "Credit Facility") that became available on November 3, 2015. During the three months ended June 30, 2016, the average daily outstanding borrowings under the Credit Facility were \$436.4 million. Prior to the Spin-off, third party debt of Archrock, other than debt attributable to capital leases, was not allocated to us as we were not the legal obligor of the debt and Archrock's borrowings were not directly attributable to our business.

In March 2012, our Venezuelan joint ventures sold their assets to PDVSA Gas. We received an installment payment, including an annual charge, of \$5.2 million and \$5.1 million during the three months ended June 30, 2016 and 2015, respectively. As of June 30, 2016, the remaining principal amount due to us was approximately \$4 million. Payments we receive from the sale will be recognized as equity in income of non-consolidated affiliates in our statements of operations in the periods such payments are received.

The change in other (income) expense, net, during the three months ended June 30, 2016 compared to the three months ended June 30, 2015 was primarily due to a \$3.9 million loss recognized during the prior year period on short-term investments related to the purchase of \$15.3 million of Argentine government issued U.S. dollar denominated bonds using Argentine pesos and a \$2.2 million gain on the sale of a plant in Argentina during the current year period. The change in other (income) expense, net, was also due to foreign currency gains, net of foreign currency derivatives, of \$1.4 million during the three months ended June 30, 2016 compared to foreign currency losses of \$1.1 million during the three months ended June 30, 2015.

Income Taxes

(dollars in thousands)

Three Months Ended June 30,		Increase
2016	2015	(Decrease)
	As	
	Restated	

Edgar Filing: Exterran Corp - Form 10-Q

Provision for income taxes	\$100,335	\$8,237	1,118	%
Effective tax rate	(1,606.1)%	(128.8)%	(1,477.3)%	

The increase in our income tax expense (and reduction in our effective tax rate) during the three months ended June 30, 2016 compared to the three months ended June 30, 2015 was primarily attributable to an \$88.0 million charge for valuation allowances recorded against our U.S. deferred tax assets and a \$12.7 million charge incurred by one of our subsidiaries in Nigeria for settlement of a foreign tax audit (\$7.4 million) and valuation allowances recorded against its remaining deferred tax assets (\$5.3 million) during the three months ended June 30, 2016. The valuation allowances recorded against our U.S. deferred tax assets related to carryforwards for U.S. federal net operating losses, foreign tax credits, research and development credits and alternative minimum tax credits. See Note 13 to the Financial Statements for further discussion of the valuation allowances recorded against our U.S. deferred tax assets in the current year period.

Table of ContentsDiscontinued Operations
(dollars in thousands)

	Three Months		
	Ended		Increase
	June 30,		
	2016	2015	(Decrease)
Income from discontinued operations, net of tax	\$ 11,036	\$ 207	5,231 %

Income from discontinued operations, net of tax, during the three months ended June 30, 2016 and 2015 includes our Venezuelan subsidiary's operations that were expropriated in June 2009, including compensation for expropriation and costs associated with our arbitration proceeding, and our Belleli CPE business.

As discussed in Note 3 to the Financial Statements, in August 2012, our Venezuelan subsidiary sold its previously nationalized assets to PDVSA Gas. We received an installment payment, including an annual charge, of and \$19.3 million during the three months ended June 30, 2016. The remaining principal amount due to us of approximately \$50 million as of June 30, 2016, is payable in cash installments through the third quarter of 2016. We have not recognized amounts payable to us by PDVSA Gas as a receivable and will therefore recognize quarterly payments received in the future as income from discontinued operations in the periods such payments are received. The proceeds from the sale of the assets are not subject to Venezuelan national taxes due to an exemption allowed under the Venezuelan Reserve Law applicable to expropriation settlements. In addition, and in connection with the sale, we and the Venezuelan government agreed to waive rights to assert certain claims against each other.

As discussed in Note 3 to the Financial Statements, in the first quarter of 2016, we committed to a plan to exit our Belleli CPE business, which provides engineering, procurement and manufacturing services related to the manufacture of critical process equipment for refinery and petrochemical facilities. As discussed in Note 20 to the Financial Statements, we completed the sale of Belleli CPE in August 2016. Our Belleli CPE business was previously included in our product sales segment. In conjunction with the planned disposition, we recorded impairments of current assets that totaled \$7.1 million during the three months ended June 30, 2016. The impairment charges are reflected in income (loss) from discontinued operations, net of tax.

Table of Contents

The Six Months Ended June 30, 2016 Compared to the Six Months Ended June 30, 2015

Contract Operations
(dollars in thousands)

	Six Months Ended June 30,		Increase	
	2016	2015	(Decrease)	
Revenue	\$ 199,448	\$ 235,941	(15)%	
Cost of sales (excluding depreciation and amortization expense)	74,899	89,084	(16)%	
Gross margin	\$ 124,549	\$ 146,857	(15)%	
Gross margin percentage (1)	62	% 62	% —	%

(1) Defined as gross margin divided by revenue.

The decrease in revenue during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 was primarily due to a \$19.2 million decrease in revenue in Mexico primarily driven by projects that terminated operations in 2015 and a reduction of recognized deferred revenue resulting from contract extensions, a decrease in revenue of \$14.4 million resulting from an early termination of a project in the Eastern Hemisphere in January 2016 that had been operating since the third quarter of 2009, a \$13.0 million decrease in revenue in Argentina primarily due to a devaluation of the Argentine peso since the prior year period and a \$4.8 million decrease in revenue in Nigeria primarily driven by two projects that terminated operations in late 2015 and early 2016. These decreases were partially offset by a \$10.6 million increase in revenue in Brazil primarily driven by the start-up of a project during the second half of 2015 and a \$5.1 million increase in revenue in Bolivia primarily driven by the start-up of a project during the first quarter of 2016. Gross margin decreased during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 primarily due to the revenue decrease explained above, excluding the devaluation of the Argentine peso as the impact on gross margin was insignificant. Gross margin percentage during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 remained flat. The early termination of a project in the Eastern Hemisphere resulted in additional costs during the six months ended June 30, 2016 in the form of depreciation expense, which is excluded from gross margin. Additionally, excluded from cost of sales and recorded to restructuring and other charges in our statements of operations during the six months ended June 30, 2015 were non-cash inventory write-downs of \$4.2 million associated with the Spin-off primarily related to the decentralization of shared inventory components between Archrock's North America contract operations business and our international contract operations business.

Aftermarket Services
(dollars in thousands)

	Six Months Ended June 30,		Increase	
	2016	2015	(Decrease)	
Revenue	\$ 64,909	\$ 70,275	(8)%	
Cost of sales (excluding depreciation and amortization expense)	46,437	49,484	(6)%	
Gross margin	\$ 18,472	\$ 20,791	(11)%	
Gross margin percentage	28	% 30	% (2)%	

The decrease in revenue during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 was primarily due to a \$7.1 million decrease in revenue in Gabon driven by our cessation of activities in the Gabon

market in the first quarter of 2015. Gross margin and gross margin percentage decreased during the six months ended June 30, 2016 primarily due to the revenue decrease explained above, including the receipt of a settlement from a customer in Gabon during the six months ended June 30, 2015, which positively impacted revenue and gross margin by \$3.7 million and \$2.2 million, respectively.

Table of Contents

Product Sales

(dollars in thousands)

	Six Months Ended June 30,		Increase
	2016	2015 As Restated	(Decrease)
Revenue	\$304,420	\$674,385	(55)%
Cost of sales (excluding depreciation and amortization expense)	284,940	599,136	(52)%
Gross margin	\$19,480	\$75,249	(74)%
Gross margin percentage	6	% 11	% (5)%

Overall, the recent declines in our product sales bookings and backlog driven by the market downturn have resulted in revenue decreases in each of the regions where we operate. During the six months ended June 30, 2016 compared to the six months ended June 30, 2015, revenue decreased by \$279.2 million, \$55.0 million and \$35.8 million in North America, the Eastern Hemisphere and Latin America, respectively. The decrease in revenue in North America was due to decreases of \$134.1 million, \$113.3 million and \$31.8 million in production and processing equipment revenue, compression equipment revenue and installation revenue, respectively. The decrease in the Eastern Hemisphere revenue was due to decreases of \$20.8 million, \$19.2 million and \$15.0 million in installation revenue, production and processing equipment revenue and compression equipment revenue, respectively. The decrease in Latin America revenue was primarily due to a decrease of \$30.5 million in compression equipment revenue. The decreases in gross margin and gross margin percentage were primarily caused by the revenue decrease explained above and continued weakening market conditions resulting in an increasingly aggressive competitive bidding environment, partially offset by estimated loss contract provisions of \$24.5 million recorded on significant Belleli EPC projects in the Eastern Hemisphere during the prior year period driven by project execution delays. See “—Exit of our Belleli Businesses” for further discussion regarding Belleli. Excluded from cost of sales and recorded to restructuring and other charges in our statements of operations during the six months ended June 30, 2015 were non-cash inventory write-downs of \$4.5 million primarily related to our decision to exit the manufacturing of cold weather packages, which had historically been performed at a product sales facility in North America we decided to close.

Table of ContentsCosts and Expenses
(dollars in thousands)

	Six Months Ended June 30,		Increase	
	2016	2015	(Decrease)	
		As Restated		
Selling, general and administrative	\$86,386	\$113,250	(24)%
Depreciation and amortization	78,350	74,068	6	%
Long-lived asset impairment	651	10,489	(94)%
Restatement charges	7,851	—	n/a	
Restructuring and other charges	23,203	10,547	120	%
Interest expense	17,342	826	2,000	%
Equity in income of non-consolidated affiliates	(10,403)	(10,068)	3	%
Other (income) expense, net	(9,811)	11,178	(188)%

The decrease in SG&A expense during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 was primarily due to our cost reduction plan and included a \$10.6 million decrease in compensation and benefits costs in the Eastern Hemisphere and Latin America and a \$4.7 million decrease in corporate expenses. SG&A expense as a percentage of revenue was 15% and 12% during the six months ended June 30, 2016 and 2015, respectively. The increase in SG&A expense as a percentage of revenue was primarily due to a significant decrease in product sales revenue during the six months ended June 30, 2016 compared to the six months ended June 30, 2015. For the periods prior to the Spin-off, SG&A expense includes expense allocations for certain functions, including allocations of expenses related to executive oversight, accounting, treasury, tax, legal, human resources, procurement and information technology services performed by Archrock on a centralized basis that historically have not been recorded at the segment level. These costs were allocated to us systematically based on specific department function and revenue. Included in SG&A expense during the six months ended June 30, 2015 was \$28.1 million of allocated corporate expenses incurred by Archrock. The actual costs we would have incurred if we had been a stand-alone public company would depend on multiple factors, including organizational structure and strategic decisions made in various areas, including information technology and infrastructure.

Depreciation and amortization expense during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 increased primarily due to an increase in depreciation expense of \$20.0 million on a contract operations project in the Eastern Hemisphere that early terminated operations in January 2016. The depreciation expense recognized in the current year period primarily related to capitalized installation costs. The project had been operating since the third quarter of 2009. This increase in depreciation expense was partially offset by a decrease of \$10.0 million in depreciation expense on certain contract operations projects in Latin America primarily related to capitalized installation costs that were fully depreciated. Capitalized installation costs, included, among other things, civil engineering, piping, electrical instrumentation and project management costs.

As discussed in Note 3 to the Financial Statements, in the first quarter of 2016, we committed to a plan to exit our Belleli EPC business to focus on our core oil and gas businesses. Because we ceased the booking of new orders for the manufacture of tanks for tank farms and the manufacture of evaporators and brine heaters for desalination plants, customer relationship intangible assets related to our Belleli EPC business were assessed to have no future benefit to us. As a result, we recorded a long-lived asset impairment charge of \$0.7 million during the six months ended June 30, 2016.

We regularly review the future deployment of our idle compression assets used in our contract operations segment for units that are not of the type, configuration, condition, make or model that are cost efficient to maintain and operate. During the six months ended June 30, 2015, we determined that 29 idle compressor units totaling approximately 24,000 horsepower would be retired from the active fleet. The retirement of these units from the active fleet triggered a review of these assets for impairment. As a result, we recorded a \$9.1 million asset impairment to reduce the book value of each unit to its estimated fair value. The fair value of each unit was estimated based on the estimated component value of the equipment on each compressor unit that we plan to use.

Table of Contents

During the first quarter of 2015, we evaluated a long-term note receivable from the purchaser of our Canadian contract operations and aftermarket services businesses (“Canadian Operations”) for impairment. This review was triggered by an offer from the purchaser of our Canadian Operations to prepay the note receivable at a discount to its then current book value. The fair value of the note receivable as of March 31, 2015 was based on the amount offered by the purchaser of our Canadian Operations to prepay the note receivable. The difference between the book value of the note receivable at March 31, 2015 and its fair value resulted in the recording of an impairment of long-lived assets of \$1.4 million during the six months ended June 30, 2015. In April 2015, we accepted the offer to early settle this note receivable.

As discussed in Note 2 to the Financial Statements, during the first quarter of 2016, our senior management identified errors relating to the application of percentage-of-completion accounting principles to specific product sales projects within our Belleli EPC business in the Middle East. As a result, the Audit Committee of the Company’s Board of Directors initiated an internal investigation, including the use of services of a forensic accounting firm. Management also engaged a consulting firm to assist in accounting analysis and compilation of restatement adjustments. During the six months ended June 30, 2016, we incurred in \$7.9 million of costs associated with the restatement of our financial statements, which were primarily related to \$4.8 million of external accounting costs and \$2.7 million of external legal costs. We currently estimate that we will incur additional cash expenditures, including estimated external legal counsel costs related to the pending SEC investigation, of approximately \$23 million associated with the restatement of our financial statements in subsequent periods.

In the second quarter of 2015, we announced a cost reduction plan, primarily focused on workforce reductions and the reorganization of certain facilities. These actions were in response to unfavorable market conditions in North America combined with the impact of lower international activity due to customer budget cuts driven by lower oil prices. During the six months ended June 30, 2016, we incurred \$23.2 million of restructuring and other charges as a result of this plan, which were primarily related to \$17.5 million for employee termination benefits and a \$2.7 million charge for the exit of a corporate building under an operating lease. During the six months ended June 30, 2015, we incurred \$5.8 million of restructuring and other charges as a result of this plan, of which \$4.0 million related to non-cash write-downs of inventory and \$1.8 million related to employee termination benefits. The non-cash inventory write-downs were the result of our decision to exit the manufacturing of cold weather packages, which had historically been performed at a product sales facility in North America we decided to close in 2015. Additionally, we incurred restructuring and other charges associated with the Spin-off. During the six months ended June 30, 2016, we incurred \$2.8 million of costs associated with the Spin-off, of which \$1.9 million related to retention awards to certain employees and \$0.9 million related to the start-up of certain stand-alone functions. During the six months ended June 30, 2015, we incurred charges of \$4.7 million related to non-cash inventory write-downs associated with the Spin-off. Non-cash inventory write-downs primarily related to the decentralization of shared inventory components between Archrock’s North America contract operations business and our international contract operations business. The charges incurred in conjunction with the cost reduction plan and Spin-off are included in restructuring and other charges in our statements of operations. See Note 12 to the Financial Statements for further discussion of these charges.

The increase in interest expense during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 was primarily due to borrowings under our revolving credit facility and term loan facility (collectively, the “Credit Facility”) that became available on November 3, 2015. During the six months ended June 30, 2016, the average daily outstanding borrowings under the Credit Facility were \$469.8 million. Prior to the Spin-off, third party debt of Archrock, other than debt attributable to capital leases, was not allocated to us as we were not the legal obligor of the debt and Archrock’s borrowings were not directly attributable to our business.

In March 2012, our Venezuelan joint ventures sold their assets to PDVSA Gas. We received installment payments, including an annual charge, of \$10.4 million and \$10.1 million during the six months ended June 30, 2016 and 2015, respectively. As of June 30, 2016, the remaining principal amount due to us was approximately \$4 million. Payments we receive from the sale will be recognized as equity in income of non-consolidated affiliates in our statements of operations in the periods such payments are received.

The change in other (income) expense, net, during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 was primarily due to foreign currency gains, net of foreign currency derivatives, of \$5.0 million during the six months ended June 30, 2016 compared to foreign currency losses of \$10.5 million during the six months ended June 30, 2015. Our foreign currency gains and losses included translation gains, net of foreign currency derivatives, of \$7.0 million during the six months ended June 30, 2016 compared to translation losses of \$8.0 million during the six months ended June 30, 2015 related to the currency remeasurement of our foreign subsidiaries' non-functional currency denominated intercompany obligations. The change in other (income) expense, net, was also due to a \$3.9 million loss recognized during the prior year period on short-term investments related to the purchase of \$15.3 million of Argentine government issued U.S. dollar denominated bonds using Argentine pesos and a \$2.2 million gain on the sale of a plant in Argentina during the current year period.

Table of Contents

Income Taxes

(dollars in thousands)

	Six Months Ended June 30,		Increase (Decrease)	
	2016	2015 As Restated		
Provision for income taxes	\$ 104,344	\$ 28,692	264	%
Effective tax rate	(335.9)%	88.0	%	(423.9)%

The increase in our income tax expense (and reduction in our effective tax rate) during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 was primarily attributable to an \$88.0 million charge for valuation allowances recorded against our U.S. deferred tax assets and a \$12.7 million charge incurred by one of our subsidiaries in Nigeria for settlement of a foreign tax audit (\$7.4 million) and valuation allowances recorded against its remaining deferred tax assets (\$5.3 million) during the six months ended June 30, 2016. These increases were partially offset by lower income tax expense due to a \$63.7 million decrease in income before income taxes in the current year period. The valuation allowances recorded against our U.S. deferred tax assets related to carryforwards for U.S. federal net operating losses, foreign tax credits, research and development credits and alternative minimum tax credits. See Note 13 to the Financial Statements for further discussion of the valuation allowances recorded against our U.S. deferred tax assets in the current year period.

Discontinued Operations

(dollars in thousands)

	Six Months Ended June 30,		Increase (Decrease)	
	2016	2015		
Income (loss) from discontinued operations, net of tax	\$(53,091)	\$ 18,139	(393)%	

Income (loss) from discontinued operations, net of tax, during the six months ended June 30, 2016 and 2015 includes our Venezuelan subsidiary's operations that were expropriated in June 2009, including compensation for expropriation and costs associated with our arbitration proceeding, and our Belleli CPE business.

As discussed in Note 3 to the Financial Statements, in August 2012, our Venezuelan subsidiary sold its previously nationalized assets to PDVSA Gas. We received an installment payment, including an annual charge, of \$19.3 million and \$18.7 million during the six months ended June 30, 2016 and 2015, respectively. The remaining principal amount due to us of approximately \$50 million as of June 30, 2016, is payable in cash installments through the third quarter of 2016. We have not recognized amounts payable to us by PDVSA Gas as a receivable and will therefore recognize quarterly payments received in the future as income from discontinued operations in the periods such payments are received. The proceeds from the sale of the assets are not subject to Venezuelan national taxes due to an exemption allowed under the Venezuelan Reserve Law applicable to expropriation settlements. In addition, and in connection with the sale, we and the Venezuelan government agreed to waive rights to assert certain claims against each other.

As discussed in Note 3 to the Financial Statements, in the first quarter of 2016, we committed to a plan to exit our Belleli CPE business, which provides engineering, procurement and manufacturing services related to the manufacture of critical process equipment for refinery and petrochemical facilities. As discussed in Note 20 to the Financial

Statements, we completed the sale of Belleli CPE in August 2016. Our Belleli CPE business was previously included in our product sales segment. In conjunction with the planned disposition, we recorded impairments of long-lived assets and current assets that totaled \$68.8 million during the six months ended June 30, 2016. The impairment charges are reflected in income (loss) from discontinued operations, net of tax.

Table of Contents

Liquidity and Capital Resources

Our unrestricted cash balance was \$33.4 million at June 30, 2016, compared to \$29.0 million at December 31, 2015. Working capital decreased to \$254.5 million at June 30, 2016 from \$408.5 million at December 31, 2015. The decrease in working capital was primarily due to decreases in accounts receivable, inventory, current assets associated with discontinued operations and costs and estimated earnings in excess of billings on uncompleted contracts, partially offset by decreases in accounts payable and accrued liabilities. The decrease in accounts receivable was primarily driven by lower product sales activity in North America and the timing of payments received from customers during the current year period. The decrease in inventory was primarily driven by a decrease in raw materials largely resulting from lower product sales activity in North America. The decrease in current assets associated with discontinued operations was primarily related to impairment charges of \$27.7 million recorded against current assets during the six months ended June 30, 2016. The decrease in costs and estimated earnings in excess of billings on uncompleted contracts was primarily driven by lower product sales activity in North America. The decrease in accounts payable was primarily due to a decrease in purchasing activities in North America and Latin America during the current year period. The decrease in accrued liabilities was primarily due to a decrease of \$8.4 million in loss contract provisions relating to Belleli EPC projects in the Eastern Hemisphere and a decrease in accrued compensation benefits in North America and the Eastern Hemisphere.

Our cash flows from operating, investing and financing activities, as reflected in the statements of cash flows, are summarized in the following table (in thousands):

	Six Months Ended June 30,	
	2016	2015 As Restated
Net cash provided by (used in) continuing operations:		
Operating activities	\$174,281	\$42,580
Investing activities	(19,538)	(60,948)
Financing activities	(159,285)	(17,583)
Effect of exchange rate changes on cash and cash equivalents	(2,544)	(783)
Discontinued operations	11,474	20,422
Net change in cash and cash equivalents	\$4,388	\$(16,312)

Operating Activities. The increase in net cash provided by operating activities during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 was primarily attributable to working capital decreases in the current year period compared to working capital increases in the prior year period and lower SG&A expense during the current year period, partially offset by a decrease in gross margin in our product sales and contract operations segments. Working capital changes during the six months ended June 30, 2016 included a decrease of \$124.9 million in accounts receivable, a decrease of \$36.7 million in inventory, a decrease of \$36.4 million in accounts payable and other liabilities and an increase of \$23.6 million in deferred revenue. Working capital changes during the six months ended June 30, 2015 included a decrease of \$55.7 million in accounts receivable, a decrease of \$60.5 million in accounts payable and other liabilities and an increase of \$22.8 million in costs and estimated earnings versus billings on uncompleted contracts.

Investing Activities. The decrease in net cash used in investing activities during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 was primarily attributable to a \$50.7 million decrease in capital expenditures, partially offset by \$5.4 million of net proceeds received from the settlement of our outstanding note

receivable for the sale of our Canadian Operations in the prior year period and a \$4.2 million decrease in proceeds from the sale of property, plant and equipment. The decrease in capital expenditures was primarily driven by installation costs incurred during the six months ended June 30, 2015 on a contract operations project in Brazil that began operations during the second half of 2015 and a decrease in maintenance capital expenditures.

Financing Activities. The increase in net cash used in financing activities during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 was primarily attributable to net repayments of \$128.1 million on our revolving credit facility during the current year period, a transfer of cash during the current year period of \$29.7 million to Archrock pursuant to the separation and distribution agreement, partially offset by net distributions to parent of \$17.6 million during the prior year period. The transfer of cash to Archrock during the six months ended June 30, 2016 was triggered by our receipt of payments from PDVSA Gas in respect of the sale of our and our joint ventures' previously nationalized assets.

Table of Contents

Discontinued Operations. The decrease in net cash provided by discontinued operations during the six months ended June 30, 2016 compared to the six months ended June 30, 2015 was primarily attributable to working capital changes related to our Belleli CPE business, partially offset by a \$0.6 million increase in proceeds received from the sale of our Venezuelan subsidiary's assets to PDVSA Gas.

Capital Requirements. Our contract operations business is capital intensive, requiring significant investment to maintain and upgrade existing operations. Our capital spending is primarily dependent on the demand for our contract operations services and the availability of the type of equipment required for us to render those contract operations services to our customers. Our capital requirements have consisted primarily of, and we anticipate will continue to consist of, the following:

growth capital expenditures, which are made to expand or to replace partially or fully depreciated assets or to expand the operating capacity or revenue generating capabilities of existing or new assets, whether through construction, acquisition or modification; and

maintenance capital expenditures, which are made to maintain the existing operating capacity of our assets and related cash flows further extending the useful lives of the assets.

The majority of our growth capital expenditures are related to the acquisition cost of new compressor units and processing and treating equipment that we add to our fleet and installation costs on integrated projects. In addition, growth capital expenditures can include the upgrading of major components on an existing compressor unit where the current configuration of the compressor unit is no longer in demand and the compressor unit is not likely to return to an operating status without the capital expenditures. These latter expenditures substantially modify the operating parameters of the compressor unit such that it can be used in applications for which it previously was not suited. Maintenance capital expenditures are related to major overhauls of significant components of a compressor unit, such as the engine, compressor and cooler, that return the components to a "like new" condition, but do not modify the applications for which the compressor unit was designed.

We generally invest funds necessary to manufacture contract operations fleet additions when our idle equipment cannot be reconfigured to economically fulfill a project's requirements and the new equipment expenditure is expected to generate economic returns over its expected useful life that exceeds our targeted return on capital. We currently plan to spend approximately \$75 million to \$85 million in capital expenditures during 2016, including (1) approximately \$50 million to \$60 million on contract operations growth capital expenditures and (2) approximately \$10 million to \$15 million on equipment maintenance capital related to our contract operations business.

On July 10, 2015, we and our wholly owned subsidiary, EESLP, entered into a \$750.0 million credit agreement (the "Credit Agreement") with Wells Fargo, as the administrative agent, and various financial institutions as lenders. On October 5, 2015, the parties amended and restated the Credit Agreement to provide for a \$925.0 million credit facility, consisting of a \$680.0 million revolving credit facility and a \$245.0 million term loan facility (collectively, the "Credit Facility"). Availability under the Credit Facility was subject to the satisfaction of certain conditions precedent, including the consummation of the Spin-off on or before January 4, 2016 (the date on which those conditions were satisfied, November 3, 2015, is referred to as the "Initial Availability Date"). The revolving credit facility will mature in November 2020 and the term loan facility will mature in November 2017. In accordance with the Credit Agreement, we are required to repay borrowings outstanding under the term loan facility on each anniversary of the Initial Availability Date in an amount equal to the lesser of (i) \$12.3 million and (ii) the outstanding principal balance of the term loan facility. The principal amount of \$12.3 million due in November 2016 under the term loan facility is classified as long-term in our balance sheet at June 30, 2016 because we have the intent and ability to refinance the

current principal amount due with borrowings under our existing revolving credit facility.

As a result of the events described in Note 2 to the Financial Statements related to Belleli EPC (including, without limitation, the need to restate previously issued financial statements), on April 22, 2016, June 17, 2016, August 24, 2016 and November 22, 2016, we and our wholly owned subsidiary, EESLP, entered into amendments to the Credit Agreement (as amended, the “Amended Credit Agreement”) with Wells Fargo, as the administrative agent, and various financial institutions as lenders.

Table of Contents

Under the Amended Credit Agreement, the lenders waived, among other things, (1) any potential event of default arising under the Credit Agreement as a result of the potential inaccuracy of certain representations and warranties regarding our prior period financial information and previously delivered compliance certificate for the 2015 fiscal year and (2) any requirement that EESLP or we make any representations and warranties as to our prior period financial statements and other prior period financial information. The Amended Credit Agreement extended the deadline to no later than February 28, 2017 by which we are required to deliver to the lenders our quarterly reports for the fiscal quarters ended March 31, 2016, June 30, 2016 and September 30, 2016 and the related compliance certificates demonstrating compliance with the financial covenants set forth in the Credit Agreement.

The Amended Credit Agreement also, among other things:

provides that LIBOR loans will bear interest at LIBOR plus 2.75% and base rate loans will bear interest at the Base Rate plus 1.75% until February 28, 2017 (or, if earlier, the date we deliver replacement financial information for our 2015 audited financial statements, together with a replacement compliance certificate);

adds a condition precedent to the borrowing of loans that, after giving effect to the application of the proceeds of each borrowing, our consolidated cash balance (as defined in the Amended Credit Agreement) will not exceed \$30,000,000 plus certain other amounts; and

amends the definition of EBITDA to allow adjustments for certain Restructuring Costs and Restatement Costs (in each case as defined in the Amended Credit Agreement) to the extent such costs were incurred during the years ending December 31, 2016 and 2017.

As of June 30, 2016, we had \$157.0 million in outstanding borrowings and \$75.4 million in outstanding letters of credit under our revolving credit facility. At June 30, 2016, taking into account guarantees through letters of credit, we had undrawn capacity of \$447.6 million under our revolving credit facility. Our Credit Agreement limits our Total Debt (as defined in the Credit Agreement) to EBITDA ratio (as defined in the Credit Agreement) to not greater than 3.75 to 1.0 (which will increase to 4.50 to 1.0 following the completion of a qualified capital raise). As a result of this limitation, \$353.2 million of the \$447.6 million of undrawn capacity under our revolving credit facility was available for additional borrowings as of June 30, 2016.

Revolving borrowings under the Credit Facility bear interest at a rate equal to, at our option, either the Base Rate or LIBOR (or EURIBOR, in the case of Euro-denominated borrowings) plus the applicable margin. The applicable margin for revolving borrowings varies (i) in the case of LIBOR loans, from 1.50% to 2.75% and (ii) in the case of Base Rate loans, from 0.50% to 1.75%, and will be determined based on our total leverage ratio pricing grid. "Base Rate" means the highest of the prime rate, the federal funds effective rate plus 0.50% and one-month LIBOR plus 1.00%. Until the term loan facility is refinanced in full with the proceeds of a qualified capital raise (as defined in the Credit Agreement), the applicable margin for borrowings under the revolving credit facility will be increased by 1.00% until the first anniversary of the Initial Availability Date and by 1.50% following the first anniversary of the Initial Availability Date. Term loan borrowings under the Credit Facility will bear interest at a rate equal to, at our option, either (1) the Base Rate plus 4.75%, or (2) the greater of LIBOR or 1.00%, plus 5.75%. The weighted average annual interest rate on outstanding borrowings under the revolving credit facility at June 30, 2016 was 4.3%. The annual interest rate on the outstanding balance of the term loan facility at June 30, 2016 was 6.8%. During the six months ended June 30, 2016, the average daily borrowings under the Credit Facility were \$469.8 million.

We and all of our Significant Domestic Subsidiaries (as defined in the Credit Agreement) guarantee EESLP's obligations under the Credit Facility. In addition, EESLP's obligations under the Credit Facility are secured by (1) substantially all of our assets and the assets of EESLP and our Significant Domestic Subsidiaries located in the U.S.,

including certain real property, and (2) all of the equity interests of our U.S. restricted subsidiaries (other than certain excluded subsidiaries) (as defined in the Credit Agreement) and 65% of the voting equity interests in certain of our first-tier foreign subsidiaries.

We are required to prepay borrowings outstanding under the term loan facility with the net proceeds of certain asset sales, equity issuances, debt incurrences and other events (subject to, in certain circumstances, our right to reinvest the proceeds within a specified period). In addition, if the total leverage ratio as of the last day in any fiscal year is greater than 2.50 to 1.00, we are required to prepay borrowings outstanding under the term loan facility with a portion of Excess Cash Flow (as defined in the Credit Agreement) for that fiscal year equal to (a) 50% of Excess Cash Flow if the total leverage ratio is greater than 3.00 to 1.00 or (b) 25% of Excess Cash Flow if the total leverage ratio is greater than 2.50 to 1.00 but less than or equal to 3.00 to 1.00.

Table of Contents

The Credit Agreement contains various covenants with which we, EESLP and our respective restricted subsidiaries must comply, including, but not limited to, limitations on the incurrence of indebtedness, investments, liens on assets, repurchasing equity, making distributions, transactions with affiliates, mergers, consolidations, dispositions of assets and other provisions customary in similar types of agreements. We are required to maintain, on a consolidated basis, a minimum interest coverage ratio of 2.25 to 1.00; a maximum total leverage ratio of 3.75 to 1.00 prior to the completion of a qualified capital raise (as defined in the Credit Agreement) and 4.50 to 1.00 thereafter; and, following the completion of a qualified capital raise, a maximum senior secured leverage ratio of 2.75 to 1.00. As of June 30, 2016, we maintained a 7.1 to 1.0 interest coverage ratio, a 2.0 to 1.0 total leverage ratio and a 2.0 to 1.0 senior secured leverage ratio. As of June 30, 2016, we were in compliance with all financial covenants under the Credit Agreement.

We may from time to time seek to retire or purchase our outstanding debt through cash purchases and/or exchanges for equity securities, in open market purchases, privately negotiated transactions or otherwise. Such repurchases or exchanges, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

Historically, we have financed capital expenditures primarily with net cash provided by operating activities. Our ability to access the capital markets may be restricted at a time when we would like, or need, to do so, which could have an adverse impact on our ability to maintain our operations and to grow. If any of our lenders become unable to perform their obligations under our Credit Facility, our borrowing capacity under our revolving credit facility could be reduced. Inability to borrow additional amounts under our revolving credit facility could limit our ability to fund our future growth and operations. Based on current market conditions, we expect that net cash provided by operating activities and borrowings under our revolving credit facility will be sufficient to finance our operating expenditures, capital expenditures and scheduled interest and debt repayments through December 31, 2016; however, to the extent they are not, we may seek additional debt or equity financing. Additionally, our term loan facility matures in November 2017. At or prior to the time the term loan matures, we will be required to refinance it and may enter into one or more new facilities, which could result in higher borrowing costs, issue equity, which would dilute our existing shareholders, or otherwise raise the funds necessary to repay the outstanding principal amount under the term loan.

Pursuant to the separation and distribution agreement, EESLP contributed to a subsidiary of Archrock the right to receive payments based on a notional amount corresponding to payments received by our subsidiaries from PDVSA Gas in respect of the sale of our and our joint ventures' previously nationalized assets promptly after such amounts are collected by our subsidiaries until Archrock's subsidiary has received an aggregate amount of such payments up to the lesser of (i) \$125.8 million, plus the aggregate amount of all reimbursable expenses incurred by Archrock and its subsidiaries in connection with recovering any PDVSA Gas default installment payments following the completion of the Spin-off or (ii) \$150.0 million. Our balance sheets do not reflect this contingent liability to Archrock or the amount payable to us by PDVSA Gas as a receivable. Pursuant to the separation and distribution agreement, we transferred cash of \$29.7 million to Archrock during the six months ended June 30, 2016. The transfer of cash was recognized as a reduction to additional paid-in capital in our financial statements. As of June 30, 2016, the remaining principal amount due to us from PDVSA Gas in respect of the sale of our and our joint ventures' previously nationalized assets was approximately \$54 million.

Pursuant to the separation and distribution agreement, EESLP (in the case of debt offerings) or Exterran Corporation (in the case of equity issuances) will use its commercially reasonable efforts to complete one or more unsecured debt offerings or equity issuances resulting in aggregate gross cash proceeds of at least \$250.0 million on the terms described in the Credit Agreement (such transaction, a "qualified capital raise") on or before the maturity date of our \$245.0 million term loan facility. In connection with the Spin-off, EESLP contributed to a subsidiary of Archrock the right to receive, promptly following the occurrence of a qualified capital raise, a \$25.0 million cash payment. Our balance sheets do not reflect this contingent liability to Archrock.

Of our \$33.4 million unrestricted cash balance at June 30, 2016, \$21.6 million was held by our non-U.S. subsidiaries. We have not provided for U.S. federal income taxes on indefinitely (or permanently) reinvested cumulative earnings generated by our non-U.S. subsidiaries. In the event of a distribution of earnings to the U.S. in the form of dividends, we may be subject to both foreign withholding taxes and U.S. federal income taxes net of allowable foreign tax credits. We do not believe that the cash held by our non-U.S. subsidiaries has an adverse impact on our liquidity because we expect that the cash we generate in the U.S. and the available borrowing capacity under our revolving credit facility, as well as the repayment of intercompany liabilities from our non-U.S. subsidiaries, will be sufficient to fund the cash needs of our U.S. operations for the foreseeable future.

Table of Contents

Dividends. We do not currently anticipate paying cash dividends on our common stock. We currently intend to retain our future earnings to support the growth and development of our business. The declaration of any future cash dividends and, if declared, the amount of any such dividends, will be subject to our financial condition, earnings, capital requirements, financial covenants, applicable law and other factors our board of directors deems relevant.

Indemnifications. In conjunction with, and effective as of the completion of, the Spin-off, we entered into the separation and distribution agreement with Archrock, which governs, among other things, the treatment between Archrock and us of aspects relating to indemnification, insurance, confidentiality and cooperation. Generally, the separation and distribution agreement provides for cross-indemnities principally designed to place financial responsibility for the obligations and liabilities of our business with us and financial responsibility for the obligations and liabilities of Archrock's business with Archrock. Pursuant to the agreement, we and Archrock will generally release the other party from all claims arising prior to the Spin-off that relate to the other party's business. Additionally, in conjunction with, and effective as of the completion of, the Spin-off, we entered into the tax matters agreement with Archrock. Under the tax matters agreement and subject to certain exceptions, we are generally liable for, and indemnify Archrock against, taxes attributable to our business, and Archrock is generally liable for, and indemnify us against, all taxes attributable to its business. We are generally liable for, and indemnify Archrock against, 50% of certain taxes that are not clearly attributable to our business or Archrock's business.

Non-GAAP Financial Measures

We define EBITDA, as adjusted, as net income (loss) excluding income (loss) from discontinued operations (net of tax), cumulative effect of accounting changes (net of tax), income taxes, interest expense (including debt extinguishment costs), depreciation and amortization expense, impairment charges, restructuring and other charges, non-cash gains or losses from foreign currency exchange rate changes recorded on intercompany obligations, expensed acquisition costs and other items. We believe EBITDA, as adjusted, is an important measure of operating performance because it allows management, investors and others to evaluate and compare our core operating results from period to period by removing the impact of our capital structure (interest expense from our outstanding debt), asset base (depreciation and amortization), our subsidiaries' capital structure (non-cash gains or losses from foreign currency exchange rate changes on intercompany obligations), tax consequences, impairment charges, restructuring and other charges, expensed acquisition costs and other items. Management uses EBITDA, as adjusted, as a supplemental measure to review current period operating performance, comparability measures and performance measures for period to period comparisons. In addition, the compensation committee has used EBITDA, as adjusted, in evaluating the performance of the Company and management and in evaluating certain components of executive compensation, including performance-based annual incentive programs. Our EBITDA, as adjusted, may not be comparable to a similarly titled measure of another company because other entities may not calculate EBITDA in the same manner.

EBITDA, as adjusted, is not a measure of financial performance under GAAP, and should not be considered in isolation or as an alternative to net income (loss), cash flows from operating activities and other measures determined in accordance with GAAP. Items excluded from EBITDA, as adjusted, are significant and necessary components to the operation of our business, and, therefore, EBITDA, as adjusted, should only be used as a supplemental measure of our operating performance.

Table of Contents

The following table reconciles our net income (loss) to EBITDA, as adjusted (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
		As Restated		As Restated
Net income (loss)	\$(95,546)	\$(14,423)	\$(188,503)	\$22,054
(Income) loss from discontinued operations, net of tax	(11,036)	(207)	53,091	(18,139)
Depreciation and amortization	27,417	36,053	78,350	74,068
Long-lived asset impairment	—	5,910	651	10,489
Restatement charges	7,851	—	7,851	—
Restructuring and other charges	10,636	10,547	23,203	10,547
Proceeds from sale of joint venture assets	(5,229)	(5,062)	(10,403)	(10,068)
Interest expense	8,879	319	17,342	826
(Gain) loss on currency exchange rate remeasurement of intercompany balances	(2,390)	491	(7,000)	7,999
Provision for income taxes	100,335	8,237	104,344	28,692
EBITDA, as adjusted	\$40,917	\$41,865	\$78,926	\$126,468

Off-Balance Sheet Arrangements

We have no material off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risks primarily associated with changes in foreign currency exchange rates. We have significant international operations. The net assets and liabilities of these operations are exposed to changes in currency exchange rates. These operations may also have net assets and liabilities not denominated in their functional currency, which exposes us to changes in foreign currency exchange rates that impact income. We recorded foreign currency gains of \$5.5 million and foreign currency losses of \$10.5 million in our statements of operations during the six months ended June 30, 2016 and 2015, respectively. Our foreign currency gains and losses are primarily due to exchange rate fluctuations related to monetary asset balances denominated in currencies other than the functional currency, including foreign currency exchange rate changes recorded on intercompany obligations. Our material exchange rate exposure relates to intercompany loans to a subsidiary whose functional currency is the Brazilian Real, which loans carried balances of \$33.4 million U.S. dollars as of June 30, 2016. Our foreign currency gains and losses included translation gains of \$7.5 million and translation losses of \$8.0 million during the six months ended June 30, 2016 and 2015, respectively, related to the functional currency remeasurement of our foreign subsidiaries' non-functional currency denominated intercompany obligations. Additionally, during the six months ended June 30, 2016, we recognized a loss of \$0.5 million on forward currency exchange contracts that offset exchange rate exposure related to intercompany loans to a subsidiary whose functional currency is the Brazilian Real. Changes in exchange rates may create gains or losses in future periods to the extent we maintain net assets and liabilities not denominated in the functional currency.

As of June 30, 2016, we had \$402.0 million of outstanding borrowings that are subject to floating interest rates. Changes in economic conditions outside of our control could result in higher interest rates, thereby increasing our interest expense and reducing the funds available for capital investment, operations or other purposes. A 1% increase in the effective interest rate on our outstanding debt subject to floating interest rates at June 30, 2016 would result in

an annual increase in our interest expense of approximately \$4.0 million.

Item 4. Controls and Procedures

This Item 4 includes information concerning the controls and controls evaluation referred to in the certifications of our Chief Executive Officer and Chief Financial Officer required by Rule 13a-14 of the Exchange Act included in this Quarterly Report as Exhibits 31.1 and 31.2.

Management's Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to management to allow timely decisions regarding required disclosures.

In connection with the preparation of this Quarterly Report on Form 10-Q, our management, with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures. As described below, management previously identified and reported material weaknesses in internal control over financial reporting in our December 31, 2015 Annual Report on Form 10-K/A. As a result of those material weaknesses, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) were not effective as of June 30, 2016. Notwithstanding the existence of the material weaknesses described below, we believe that the consolidated and combined financial statements in this Quarterly Report fairly present, in all material respects, our financial position, results of operations and cash flows as of the dates, and for the periods, presented, in conformity with GAAP.

Material Weaknesses in Internal Control Over Financial Reporting

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. We have identified the following material weaknesses:

Control Environment, Risk Assessment, Control Activities, Information and Communication and Monitoring

We did not maintain effective internal control over financial reporting related to the following areas: control environment, risk assessment, control activities, information and communication and monitoring. In particular, controls related to the following were not designed or operating effectively:

There was not adequate integration, emphasis of local senior management accountability and management oversight of accounting and financial reporting activities in implementing and maintaining certain accounting practices at Belleli EPC to conform to the Company's policies and GAAP.

The Company did not modify its controls and testing procedures to sufficiently address its assessment of risks related to Belleli EPC that could significantly impact internal control over financial reporting by modifying its approach to how those risks should be addressed.

The Company did not implement and maintain the same accounting controls at Belleli EPC, including information and communication controls, as those maintained in the Company's other operating locations, resulting in internal controls that were not adequate to prevent or detect instances of intentional override of controls, intentional misconduct, or manipulation of cost-to-complete estimates by, or at the direction of, certain former members of Belleli EPC local senior management.

The Company did not maintain a sufficient complement of personnel with appropriate levels of accounting knowledge, experience and training commensurate with the nature and complexity of Belleli EPC's business.

Corporate monitoring controls over certain foreign operations were not adequate to detect inappropriate accounting practices and were not designed to operate at a sufficient level of precision to detect material misstatements.

The above material weaknesses contributed to material weaknesses at the control-activity level.

Table of Contents

Revenue Recognition of Belleli EPC Percentage-of-Completion Projects

We did not design and maintain effective procedures or controls over accurate recording, presentation and disclosure of revenue and related costs in the application of percentage-of-completion accounting principles to our engineering, procurement and construction projects by Belleli EPC. Various deficiencies were identified in the process that aggregated to a material weakness. Controls relating to the following areas were not designed or operating effectively:

- Controls over the determination of estimated cost-to-complete, including the assessment of contingencies and impact of project uncertainties; and

- Controls to address the accuracy and completeness of information used to estimate revenue and related costs in the application of percentage-of-completion accounting principles.

The Company also identified material weaknesses in the control environment relating to risk assessment, control activities, information and communication and monitoring controls which contributed to this material weakness.

Existence and Recovery of Brazil Non-Income-Based Tax Receivables

The Company's controls and procedures around the existence and recovery of Brazilian non-income-based tax receivables were not designed to review the Brazilian non-income-based tax receivables on a regular basis by personnel with appropriate expertise.

The Company also identified material weaknesses in the control environment and corporate monitoring controls, which contributed to this material weakness.

All of the material weaknesses identified by the Company resulted in misstatements to product sales, product sales cost of sales, accounts receivable, costs and estimated earnings in excess of billings on uncompleted contracts, billings on uncompleted contracts in excess of costs and estimated earnings, accrued liabilities, intangibles and other assets, net, and other income.

Remediation of Material Weakness in Internal Control Over Financial Reporting

Our management is committed to the planning and implementation of remediation efforts to address all material weaknesses, as well as to foster continuous improvement in the Company's internal controls. These remediation efforts, summarized below, are implemented, in the process of being implemented or are planned for implementation, and are intended to address the identified material weaknesses and enhance our overall financial control environment.

In the first quarter of 2016, our management made a decision to exit the Belleli EPC business, which includes Belleli EPC's engineering, procurement and construction for the manufacture of tanks for tank farms and the manufacture of evaporators and brine heaters for desalination plants. Accordingly, Belleli EPC will not enter into any new contracts or orders from any new or existing customers relating to the Belleli EPC business. This departure decision is considered in determining the nature and extent of our Belleli EPC remediation efforts. In addition, Belleli EPC's prior local senior management responsible for the intentional override of controls and misconduct are no longer employees of Belleli EPC or its affiliates.

During 2016, we made numerous changes throughout our organization and took significant actions to reinforce the importance of a strong control environment, including training and other steps designed to strengthen and enhance our control culture.

To remediate the deficiencies identified herein, our leadership team, including the principal executive officer and current principal financial officer, has reaffirmed and reemphasized the importance of internal control, control consciousness and a strong control environment.

To date we have implemented the following remediation efforts at Belleli EPC:

Restructured the Company's Executive Leadership Team (ELT), including designating responsibility of overseeing Belleli EPC projects to an ELT member who then reports directly to the Exterran Corporation principal executive officer;

Appointed experienced professionals to key finance and operational leadership positions within Belleli EPC, including the hiring of a new Finance Manager and assigning a Managing Director to lead the operations organization;

Table of Contents

Integrated oversight of Belleli EPC operating, finance and manufacturing personnel by certain members of the Exterran Corporation ELT and the Exterran Corporation chief financial officer's leadership team, including implementing regular meetings, to ensure sufficient oversight of project performance;

Established a direct functional reporting structure between Belleli EPC and Exterran Corporation with more clearly defined responsibilities;

Provided enhanced training on our policies and ethical requirements in English, and in Italian where necessary, including the emphasis of our hotline, the importance of reporting unethical actions and the Company's zero tolerance for retaliation of any kind;

Engaged a third-party consultant to accelerate redesigning the Belleli EPC project and contract management processes and controls; and

Enhanced the accuracy and visibility of Belleli EPC financial results by improving the integrity of the monthly data interface.

Our management believes that meaningful progress has been made against remaining remediation efforts; although timetables vary, management regards successful completion as an important priority. Remaining remediation activities include:

Instituting enhanced review of estimated costs at completion as part of the quarterly close process;

Reviewing and redesigning internal controls, including spreadsheet controls, to ensure that the control objectives mitigate the identified risks;

Assessing and redesigning, as necessary, systems and related processes at Belleli EPC to ensure information technology oversight matches the operations of the business;

Integrating accounting, manufacturing and operations functions and revising organizational structures to enhance accurate reporting and ensure appropriate review and accountability;

- Assessing current staffing levels and competencies to ensure the optimal complement of personnel with appropriate backgrounds and skill sets;

Enhancing our Sarbanes-Oxley (SOX) compliance procedures, including designing controls to respond to our risk assessment processes, implementing walkthroughs and performing risk responsive testing on our internal controls; and

Implementing a corporate review of non-income-based tax receivables globally.

Management believes the measures, when fully implemented and operational, will remediate the control deficiencies we have identified and strengthen our internal control over financial reporting. We are committed to improving our internal control processes and intend to continue to review and improve our financial reporting controls and procedures. As we continue to evaluate and work to improve our internal control over financial reporting, we may take additional measures to address control deficiencies or determine to modify, or in appropriate circumstances not to complete, certain of the remediation measures described above.

Changes in Internal Control over Financial Reporting

Prior to the Spin-off, we relied on certain financial information and resources of Archrock to manage specific aspects of our business and report results. These included investor relations, corporate communications, accounting, tax, legal, human resources, benefit plan administration, benefit plan reporting, general management, real estate, treasury, insurance and risk management, and oversight functions, such as board of directors and internal audit, which includes Sarbanes-Oxley compliance. In conjunction with the Spin-off, we revised and adopted policies, as needed, to meet all regulatory requirements applicable to us as a stand-alone public company. We continue to review and document our internal controls over financial reporting, and may from time to time make changes aimed at enhancing their effectiveness. These efforts may lead to additional changes in our internal control over financial reporting.

Table of Contents

Other than those noted above, there were no changes in our internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) during the last fiscal quarter that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In the ordinary course of business, we are involved in various pending or threatened legal actions. While management is unable to predict the ultimate outcome of these actions, it believes that any ultimate liability arising from any of these actions will not have a material adverse effect on our financial position, results of operations or cash flows. However, because of the inherent uncertainty of litigation and arbitration proceedings, we cannot provide assurance that the resolution of any particular claim or proceeding to which we are a party will not have a material adverse effect on our financial position, results of operations or cash flows.

Contemporaneously with filing the Form 8-K on April 26, 2016, we self-reported the errors and possible irregularities at Belleli EPC to the SEC. Since then, we have been cooperating with the SEC in its investigation of this matter, including responding to a subpoena for documents related to the restatement and compliance with the U.S. Foreign Corrupt Practices Act (“FCPA”), which are also being provided to the Department of Justice at its request. The FCPA related requests in the SEC subpoena pertain to our policies and procedures, information about our third-party sales agents, and documents related to historical internal investigations completed prior to November 2015.

Item 1A. Risk Factors

There have been no material changes or updates to our risk factors that were previously disclosed in our Annual Report on Form 10-K/A for the year ended December 31, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) Not applicable.

(b) Not applicable.

(c) The following table summarizes our repurchases of equity securities during the three months ended June 30, 2016:

Period	Total Number of Shares Repurchased (1)	Average Price Paid Per Unit	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares yet to be Purchased Under the Publicly Announced Plans or Programs
April 1, 2016 - April 30, 2016	424	\$ 15.30	N/A	N/A
May 1, 2016 - May 31, 2016	—	—	N/A	N/A
June 1, 2016 - June 30, 2016	543	12.63	N/A	N/A
Total	967	\$ 13.80	N/A	N/A

(1) Represents shares withheld to satisfy employees’ tax withholding obligations in connection with vesting of restricted stock awards during the period.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.
