(1) Includes intersegment sales and profit in inventory eliminations and unallocated corporate expenses. The three months ended June 26, 2011, and the nine months ended September 25, 2011, include a \$68 million gain (\$37 million after-tax) related to the sale of our exhaust business from the Components segment. The gain has been excluded from segment results as it was not considered by management in its evaluation of operating results for the three months ended June 26, 2011, and the nine months ended September 25, 2011. For the three and nine months ended September 26, 2010, unallocated corporate expenses included \$32 million of Brazil tax recoveries (\$21 million after-tax) and \$2 million in flood damage expenses. In the third quarter of 2010, it was determined that we overpaid a Brazilian revenue based tax during 2004-2008. Our 2010 results include a pre-tax recovery related to tax credits on imported products arising from this overpayment. The recovery has been excluded from segment results as it was not considered by management in its evaluation of operating results for the quarter. There were no other significant unallocated corporate expenses for the three and nine months ended September 25, 2011 and September 26, 2010.

(2)

Depreciation and amortization as shown on a segment basis excludes the amortization of debt discount that is included in the Condensed Consolidated Statements of Income as Interest expense.

**NOTE 2. SALE OF EXHAUST BUSINESS**

In January 2011, we reached an agreement to sell certain assets and liabilities of our exhaust business which manufactures exhaust products and select components for emission systems for a variety of applications not core to our other product offerings. The transaction closed in the second quarter of 2011. This business was historically included in our Components segment. The sales price was \$123 million. We recognized a pre-tax gain on the sale of \$68 million, which included an allocation of goodwill of \$19 million. The transaction had a working capital adjustment mechanism that was determined in the third quarter. There was not a significant change to the measurement of the gain. The gain was excluded from segment results as it was not considered by management in its evaluation of operating results for the nine months ended September 25, 2011.

Sales for this business were \$171 million, \$126 million and \$169 million in 2010, 2009 and 2008, respectively. Income before income taxes for this business was approximately \$22 million, \$11 million and \$19 million in 2010, 2009 and 2008, respectively.

We will enter into supply and other agreements with the operations that will represent ongoing involvement and as such, the results of these operations will not be presented as discontinued operations.

**SELECTED FOOTNOTE DATA**

**(Unaudited)**

**NOTE 3. INCOME TAXES**

Our effective tax rate for the year is expected to approximate 29.5 percent, absent any discrete period activity. Our tax rate is generally less than the 35 percent U.S. income tax rate primarily due to lower income tax rates on foreign income and research tax credits. The tax rates for the three and nine month periods ended September 25, 2011, were 25.0 percent and 28.2 percent, respectively. The tax rate for the third quarter includes discrete items that total a benefit of \$29 million (or \$0.15 per share) related primarily to amended tax returns for prior periods. The tax rate for the nine months ended September 25, 2011, includes total discrete tax benefits of \$25 million.

Our effective tax rates for the comparable prior year periods were 29.5 percent and 31.1 percent, respectively. In July 2010, the U.K. passed legislation which reduced our U.K. tax rate from 28 percent to 27 percent in 2011. We had an additional charge to our third quarter tax provision of approximately \$2 million to reduce the value of our U.K. deferred tax assets. The tax rate for the nine month period included a discrete income tax charge of \$7 million related to the enactment of the Patient Protection and Affordable Care Act. The lower rate in 2011 compared to 2010 is a result of the geographic mix of earnings.

We define EBIT as earnings before interest expense, income tax expense and noncontrolling interests in income of consolidated subsidiaries (EBIT). We use EBIT to assess and measure the performance of our operating segments and also as a component in measuring our variable compensation programs. Below is a reconciliation of EBIT, a non-GAAP financial measure, to Net income attributable to Cummins Inc., for each of the applicable periods:

**Net income and diluted earnings per share (EPS) attributable to Cummins Inc. excluding gain on sale of business and discrete income tax items**

We believe this is a useful measure of our operating performance for the periods presented as it illustrates our underlying operating performance and trends without regard to discrete income tax items and the gain related to the sale of our exhaust business. This measure is not in accordance with, or an alternative for, accounting principles generally accepted in the United States of America and may not be consistent with measures used by other companies. It should be considered supplemental data.
