Item 8.01 Other Events.

On February 13, 2012, Kaman Corporation (NYSE: KAMN) issued a press release announcing a change to its policy for recognizing pension expense, which is provided as Exhibit 99.1 and incorporated herein by reference. Historically, for its non-contributory qualified defined benefit pension plan (“Qualified Pension Plan”), the Company used the market-related value of plan assets reflecting changes in the fair value of plan assets amortized over a four-year period. Under the new accounting method, the market-related value of plan assets reflects the actual change in the fair value of the plan assets for the year. While the historical policy of recognizing pension expense is acceptable under U.S. Generally Accepted Accounting Principles, the Company believes that the new policy is preferable as it eliminates the delay in recognition of the change in fair value of plan assets for the calculation of market-related value of plan assets. Kaman has applied this change retrospectively, adjusting prior periods.
