Item 11. Executive Compensation

Compensation Committee

The Compensation Committee is responsible for establishing and administering our policies governing the compensation of our executive officers and directors. The responsibilities of the Compensation Committee include the following:

- Develop guidelines and review and approve corporate goals relevant to the compensation of the Chief Executive Officer, evaluate the Chief Executive Officer's performance in light of these goals and objectives, and set the Chief Executive Officer's compensation based on this evaluation;

- Produce an annual report on executive compensation for inclusion in our proxy statement, in accordance with applicable rules and regulations;

- Develop guidelines and review the performance of executive officers of the Company, make recommendations to the Board with respect to the compensation of our executive officers (other than the Chief Executive Officer) and incentive-compensation plans and equity-based plans, and establish criteria for the granting of stock-based compensation to our officers and other employees, and review and approve the granting of stock-based compensation in accordance with such criteria;

- Review director compensation levels and practices, and recommend from time to time changes in such compensation levels and practices to the Board, with equity ownership in the Company encouraged;

- Annually review and reassess the adequacy of the charter of the Compensation Committee and recommend any proposed changes to the Board for approval; and

Compensation Discussion & Analysis

Overview

This Compensation Discussion and Analysis explains our compensation philosophy, policies and practices with respect to our Chief Executive Officer, Chief Financial Officer, and the other Named Executive Officers. The information contained in the following tables and related footnotes and narrative discussions focuses primarily on the last completed fiscal year, but we also describe compensation actions taken before or after the last completed fiscal year to the extent they enhance the understanding of our executive compensation disclosure.

Results of 2018 Stockholder Say on Pay Vote

At our 2018 annual meeting of stockholders our stockholders overwhelmingly approved the compensation of our Named Executive Officers, with 13,834,817 shares voting in favor (representing over 99% of shares voted and approximately 84% of shares outstanding), 104,533 shares voting against, 18,515 shares abstaining and 921,602 shares held by brokers not voting. These results are similar to the stockholder votes on executive compensation at our 2017 annual meeting of stockholders, so we believe that our stockholders are generally supportive of the amounts and the manner in which Named Executive Officers have been compensated. The Compensation Committee did not consider the results of the 2018 stockholder advisory vote on executive compensation when making decisions regarding executive compensation in 2018.

Compensation Philosophy and Objectives

The Compensation Committee seeks to provide compensation programs designed to:

- Attract and retain talented and dedicated executives;
- Motivate and reward executives whose knowledge, skills, potential and performance are critical to our success; and

5

Align the interests of our executive officers and stockholders by motivating executive officers to increase stockholder value and rewarding executive officers when stockholder value increases.

The Compensation Committee believes that the most effective compensation program is one that provides competitive base pay, rewards the achievement of goals and objectives, and provides an incentive for retention. The principal elements of our executive compensation program are base salary, annual cash incentives, long-term equity incentives (the vesting of which may accelerate upon termination of employment and/or a change in control), other benefits and perquisites and post-termination severance compensation. Base salary, benefits, and limited perquisites are designed to attract and retain highly qualified individuals. Also, in order to avoid excessive risk taking, it is important that not all cash compensation be variable. Annual cash incentive compensation awards are designed to focus the entire senior executive team, including the Named Executive Officers, toward achieving our goals while recognizing their individual contributions. Long-term equity incentives are designed to align the interests of our Named Executive Officers with our stockholders, reward overall enterprise performance, and encourage the retention of the Named Executive Officers by providing additional opportunities for them to participate in the ownership of the Company and its future growth.

Setting Executive Compensation

We typically evaluate annually whether the elements of our executive compensation program are aligned with our compensation philosophy and objectives, while also promoting the interests of our stockholders. As part of this evaluation, we subscribe annually to a number of compensation data resources to evaluate the compensation of our executive officers compared to similar positions in the marketplace, including resources published by Kenexa, Mercer and Western Management Group which provide base salary and bonus compensation data. In general, our objective is to compensate our executive officers at levels between the 50th and 75th percentiles for executives in similar positions at similarly sized companies, which we believe usually allows us to satisfy the objectives described above. The Compensation Committee has sometimes deemed it appropriate to compensate certain executives at levels outside the 50th to 75th percentile for executives in similar positions due to the executives' experience and the market for executives with similar experience, scope of responsibility, accountability and impact on our operations, and the impact their departure could potentially have on our performance.

In addition, to assist management and the Compensation Committee in assessing and determining competitive compensation packages, at times we have engaged an independent compensation consultant to evaluate the compensation of certain executive officers and other key employees. In 2015, we engaged Frederic W. Cook and Co., Inc. to assess the competitiveness of compensation levels for certain of our officers, including our named executive officers, relative to peer group and survey market data. We have not engaged a compensation consultant to evaluate our compensation structure since then.

Elements of Compensation

Base Salary

General

The Compensation Committee, with input from the Chief Executive Officer, considers competitive, individual and company performance data in order to make or recommend compensation decisions that will incentivize, retain and maintain a competitive standing for each executive officer. The Compensation Committee considers several factors when adjusting an executive's salary, including individual and Company performance, the executive's market value and prospective value to us, the knowledge, experience and accomplishments of the executive, the executive's level of responsibility, the recommendation of the Chief Executive Officer as to officers other than the Chief Executive Officer, and the compensation levels for individuals with similar credentials. Our executive officers' salaries are set

based on survey market data with salaries being at levels between the 50th and 75th percentiles for executives in similar positions at similarly sized companies.

Cash-Based Incentive Compensation (Bonus)

Bonuses to our Chief Executive Officer

The employment agreement with our Chief Executive Officer contains a formula for determining his annual cash bonus. The formula ties the bonus payable to him to increases in our earnings before income taxes, depreciation and amortization (“EBITDA”) compared to the prior year, as adjusted for acquisitions and dispositions and other extraordinary or unusual nonrecurring items as defined in his employment agreement. EBITDA is a widely used non-GAAP financial measure of operating performance. EBITDA is calculated from our audited financial statements by adding back interest expense, income tax expense, depreciation and

6

amortization to net income, and adjusting for certain non-recurring items such as gains or losses on the change in fair value of contingent consideration. Under his employment agreement, the Chief Executive Officer's bonus is (a) 1% of base salary for each 1% increase in EBITDA, up to a 10% increase; (b) then 2% of base salary for each 1% increase in EBITDA, up to a 15% increase; (c) then 3% of base salary for each 1% increase in EBITDA, up to a 25% increase; subject to a maximum bonus for any calendar year of 50% of his base salary for that year. In calculating the bonus for Mr. Greenberg, for any year in which we acquire any business, the formula set forth in his employment agreement requires that EBITDA for the prior year be adjusted to reflect the budgeted EBITDA of the acquired business (as set forth in the budget numbers on which the acquisition was based) for the period from the date of the acquisition to the end of the calendar year in which the acquisition takes place.

For 2018, our Adjusted EBITDA, as defined in the earnings press release dated March 18, 2019, decreased 23%. As a result, no bonus was paid to Mr. Greenberg with respect to the year ended December 31, 2018 pursuant to his employment agreement or otherwise.

Bonuses to our other Named Executive Officers

Our Short-Term Incentive Program (the "STIP") provides for the payment of cash bonuses to eligible employees of the Company and its subsidiaries, including all of the Named Executive Officers except for Scott Greenberg. Mr. Greenberg, the Company's Chief Executive Officer, is not eligible to participate in the STIP as his cash bonus is determined under his individual employment agreement as described above.

A new STIP was adopted in 2018. The STIP divides eligible employees into three categories based on their levels of responsibility. Category 1 consists of the members of the Executive Council of the Company, other than the Chief Executive Officer, currently the President, Chief Financial Officer, Chief Sales Officer, General Counsel, and the Executive Vice Presidents in charge of the Workforce Excellence and Business Transformation Services Segments. This category includes all of the Company's Named Executive Officers. Category 2 consists of any Executive Vice President or Senior Vice President of the Company who is not included in Category 1. Category 3 consists of the other Vice Presidents of the Company. The STIP also establishes a general pool for paying short-term incentives to all other eligible employees of the Company.

For each category of participants (other than those in the general pool), the STIP establishes the target level of short-term incentive opportunity, types of performance objectives, and allocation of incentives among those types of performance objectives. The specific performance objectives to be used and the thresholds for earning part or all of the short-term incentive opportunity allocated to each of those objectives are established each year in accordance with the terms of the STIP applicable for the category.

Employees in Category 1 (which includes the participating Named Executive Officers) have a target short-term incentive opportunity of 75% of annual base salary, which is earned based on achievement against a mix of Company-level objectives. Participants in the STIP will generally have the opportunity to earn 20% (Minimum Level), 60% (Medium Level), 100% (Target Level) or 150% (Maximum Level) of their target compensation based on their levels of achievement on various performance measures. However, for 2018, the Board of Directors set the Minimum, Medium, Target and Maximum levels at 15%, 50%, 75% and 100% of the target short-term incentive opportunity. For the Category 1 employees, 20% of the target short-term incentive opportunity is allocated to an organic revenue growth objective, 30% to an adjusted EBITDA growth objective, 20% to an acquired revenue growth objective, and 30% to an acquired EBITDA growth objective. Under the STIP, the Company will make short-term incentive awards in respect of achievement of acquisition-related objectives in the form of restricted stock units vesting one year after the grant date.

Regardless of the level of achievement on Company or individual performance measures, the Company will not make any awards under the STIP unless the Company achieves the minimum Adjusted EBITDA objective (or other minimum threshold) set by the Compensation Committee for the STIP year. For 2018, the Compensation Committee

set a minimum Adjusted EBITDA of \$42.0 million. For the year ended December 31, 2018, we reported Adjusted EBITDA of \$37.9 million. Therefore, no awards were made under the STIP with respect to 2018.

The STIP may change at any time at the discretion of the Compensation Committee of the Board of Directors. Awards under the Plan require the authorization and approval by the Compensation Committee of the Board of Directors.

The table below summarizes the allocation of the bonus opportunity among each applicable annual performance goal set for the year ended December 31, 2018, the maximum potential bonus, performance goals at minimum (threshold) and target values and the actual percentage of bonus earned for each target for our Named Executive Officers that participate in the STIP.

2018 Bonus Targets by Performance Goal					
	% of Bonus Target	Maximum Potential Bonus (% of salary)	Performance Goal at Minimum (15% Payout)	Performance Goal at Maximum (100% Payout)	Actual Bonus % Earned
Organic revenue	20%	20%	\$537.4 million	\$558.9 million	—%
Adjusted EBITDA	30%	30%	\$51.1 million	\$54.8 million	—%
Acquired revenue	20%	20%	\$43.0 million	\$75.2 million	20.0%
Acquired EBITDA	30%	30%	\$4.0 million	\$7.5 million	22.5%
Total	100%	100%			42.5%

(1) No bonuses were payable under the STIP as the Company did not achieve the minimum Adjusted EBITDA of \$42.0 million for the year ended December 31, 2018 despite certain of the performance measures being achieved.

Long-term Equity Incentive Compensation

Our Compensation Committee also grants to the Named Executive Officers equity compensation under our incentive stock plan. Equity compensation for the Named Executive Officers, which has historically taken the form of stock options and restricted stock units, is designed to align the interests of our executives with our stockholders as well as to retain the executives. Equity grants are also intended to drive long term performance, in that the value ultimately realized is linked to stock price appreciation. Option grants have no value without stock price appreciation, and restricted stock has value at grant that can increase with stock price appreciation and decrease with stock price declines. Thus, the Compensation Committee believes that equity grants should motivate management to enhance the value of our common stock.

The Compensation Committee awards equity compensation to supplement our executive officers' compensation to ensure that total compensation is competitive in the marketplace and to align compensation with our long term goals and objectives. Our long-term incentive program provides for the issuance to certain key executives of performance-vesting and time-vesting restricted stock units under the Company's 2011 Stock Incentive Plan (the "2011 Plan").

On April 20, 2018 the Compensation Committee approved certain changes to our Long-Term Incentive Program ("LTIP") and also approved grants of performance-based restricted stock units to certain officers, including the Named Executive Officers, under the 2011 Plan. The new LTIP provides a target level of equity compensation for each participant, which is determined by multiplying the officer's annual base salary by a number. The Committee revised the plan to change the multiplier for Scott Greenberg, our Chief Executive Officer, from 1.4 to 1.3, for Adam Stedham, President to 1.1, for Executive Vice Presidents to 0.8 (including named executive officers Michael R. Dugan, Russell Becker and Donald R. Duquette), and Senior Vice Presidents who participate in the plan to 0.6. The Committee also revised the LTIP to provide that all new grants of restricted stock units under the LTIP will have performance-based vesting.

The Committee also changed the performance measure that the Company will use to determine vesting of the restricted stock units. As amended, the LTIP now provides that performance-based grants will vest based on percentage compound annual growth rate ("CAGR") in "Equity Value per Share" over a three year measurement period.

The LTIP defines Equity Value per Share as Adjusted EBITDA times a multiplier determined by the Committee, minus debt and cash, then divided by basic shares outstanding on the measurement date. The Committee believes that use of this measurement better provides management with incentives based on factors within their control that align with the creation of value for the Company's stockholders - the rate of EBITDA growth and capital efficiency in achieving that growth. The use of a fixed multiplier insulates the vesting mechanism from volatility in market prices of the Company's shares.

Pursuant to the authority granted to it under the 2011 Plan, on April 20, 2018 the Compensation Committee granted performance-vesting restricted stock units to certain officers, including all of the Named Executive Officers, and established the performance-vesting measures and targets for the performance period applicable to the grants. Employees will not be entitled to the performance-based restricted stock units unless they are an employee through the end of a three-year performance period running through December 31, 2020, except in case of the recipient's death or disability, retirement, or upon a change in control, which will result in pro rata vesting to the extent that the Compensation Committee determines that the targets it established have been achieved.

For the 2018-2020 performance period, the Compensation Committee authorized the following performance metrics and vesting schedule for the LTIP grants:

Equity Value per Share

Metric	% Vesting	3 Year CAGR of Share Value
<\$24.89	0%	0%
24.89	10%	0%
31.35	25%	8%
33.13	50%	10%
34.97	75%	12%
37.85	100%	15%
40.89	125%	18%

Up to 177,314 shares of our common stock could be issued in respect of the performance-vesting restricted stock units granted in 2018 if the target performance levels established by the Compensation Committee for both corporate objectives are achieved or exceeded during the 2018-2020 performance period.

Under the prior LTIP, the performance measures for the 2017 and 2016 grants were based on average annual return on capital ("ROIC") and average annual growth in EBITDA (adjusted to exclude the effect of acquisitions, dispositions, and certain other nonrecurring or extraordinary items) ("Adjusted EBITDA"). For both of the three-year performance periods ended December 31, 2019 and 2018, the vesting terms for each grant were based 50% based on a target level of ROIC and 50% based on a target level of Adjusted EBITDA. For the three year performance period ended December 31, 2018, we did not meet the minimum ROIC or Adjusted EBITDA targets and, therefore, no awards from the 2016 grant of performance-based stock units vested.

Other Benefits

We also provide our Named Executive Officers with the following other benefits as part of our overall compensation program and which we believe are consistent with the types of benefits offered by competitors:

Retirement Savings Plan: We maintain a defined contribution 401(k) plan in which all eligible employees may participate. The company may make matching contributions under the 401(k) Plan at its discretion equal to a uniform percentage of the first 7% of base compensation for eligible employees.

Health and Welfare Benefits: All full-time employees, including our Named Executive Officers, may participate in our health and welfare benefit programs, including medical, dental and vision care coverage, disability insurance and life insurance.

Life Insurance Premiums: Life insurance policies, in excess of the standard life insurance plans offered to full-time employees, are offered to the Named Executive Officers. During 2018, the executive life insurance policies provided coverage up to five times the executive's annual base salary. The premiums are fully paid by us. A policy may, at the executive's election, be transferred to the executive upon termination of employment.

Automobile Allowances: During 2018, each of the Named Executive Officers either used a vehicle leased or owned by us for both business and personal use or received a monthly car allowance in lieu of using a vehicle leased or owned by us.

Employment Agreements, Severance Benefits and Change in Control Provisions

Messrs. Greenberg, Stedham, Duquette and Becker have written employment agreements which provide for separation payments and benefits upon termination of employment under certain circumstances. Post-termination payments with respect to these executives are set forth in their respective employment agreements. The termination provisions for these executives are summarized in the "Potential Payments upon Termination or Change in Control" section later in this report. Mr. Dugan does not have a written employment agreement.

Tax Deductibility of Executive Compensation

Limitations on deductibility of compensation may occur under Section 162(m) of the Internal Revenue Code, which generally limits the tax deductibility of compensation paid by a public company to its chief executive officer and certain other highly compensated executive officers to \$1 million in the year the compensation becomes taxable to the executive officer. The “Tax Cuts and Jobs Act” eliminates the “qualified performance-based compensation” exception under Section 162(m) of the Code for taxable years beginning on or after January 1, 2018, but provides transition relief for compensation paid under binding written contracts that were in effect as of November 2, 2017, so long as the contract is not materially modified after such date. We intend that performance-based compensation paid under our incentive plans pursuant to grants made before November 2, 2017 be generally fully deductible for federal income tax purposes. However, no assurance can be given that compensation intended to qualify for

the performance-based exception in fact will so qualify and may exceed the \$1 million limitation in order to ensure competitive levels of total compensation for our executive officers.

Grants of Plan-Based Awards

The following table sets forth certain information with respect to non-equity incentive plan awards granted during the year ended December 31, 2018 to our named executive officers:

For Mr. Greenberg, the maximum potential bonus is capped at 50% of his base salary. For the other Named Executive Officers, the target bonus opportunity is 75% of the executive's annual base salary. For 2018, the (1) maximum potential bonus may not exceed 75% of the executive's annual base salary. No bonuses were earned by any of the Named Executive Officers in respect of the year ended December 31, 2018 pursuant to the terms of the STIP or employment agreement, as applicable (see Compensation Discussion & Analysis).

The amounts reported in these columns show the threshold, target and maximum award opportunities for the performance-based restricted stock units granted to the Named Executive Officers. These restricted stock units vest on December 31, 2020, subject to the executive's continued employment with the Company, if and only to the (2) extent that specific performance goals with respect to the Company's Equity Value per Share are met during a three-year performance period. The threshold amounts represent the minimum number of shares payable for a certain level of performance, the target amount represents 100% payout and the maximum amount represents 125% of the target payout possible under the plan.

The amounts reported in this column represent the time-based restricted stock units granted to the Named (3) Executive Officers. These restricted stock units vest subject to the executive's continued employment with the Company over a future period as specified in the executive's restricted stock unit agreement.

(4) The amounts reported in this column represent the grant date fair value of each equity award computed for financial statement reporting. In the case of the performance-based restricted stock units, the amounts reported are based upon the probable outcome of the applicable performance-based vesting conditions at the time of grant at the target payout level. Assumptions made in computing the grant date fair value of these awards are described in Note

11 to the Consolidated Financial Statements in Item 8 of our Annual Report on Form 10-K filed with the SEC on April 1, 2019.

(1) The amounts in these columns are calculated by multiplying the number of shares by the closing market price of our Common Stock on December 31, 2018 of \$12.61 per share.

(2) Represents the maximum number of shares that can be earned pursuant to the grant of performance-based restricted stock units. These restricted stock units vest, subject to the executive's continued employment with the Company, if and only to the extent that specific performance goals with respect to certain financial measures established for each grant are met during a three-year performance period.

Option Exercises and Stock Vested

The table below sets forth the number of shares issued upon option exercises, the value realized on option exercises, the number of shares of restricted stock vested, and the realized value upon vesting of the restricted stock by our named executive officers during fiscal year 2018.

Potential Payments Upon Termination or Change in Control

Description of Termination Provisions in Employment Agreements

With the exception of Michael Dugan, we have written employment agreements with the four other named executive officers. The employment agreements for these Named Executive Officers provide for various payments and benefits to be made to them if their employment with us is terminated for certain reasons. The circumstances in which payments may be made and the potential amounts of those payments are described in this section. We believe that the payments provided for in these agreements are reasonable and appropriate as part of the total compensation packages available for our Named Executive Officers. The following description of certain terms of the employment agreements with our Named Executive Officers is a summary and is subject to, and qualified in its entirety by, the agreements, which have been filed as exhibits to our filings with the SEC. The employment agreement between us and Mr. Greenberg provide for termination by either party on two years' notice, unless sooner terminated:

- by the executive's death or disability;
- by the executive for "good reason," as defined below;
- by us for "cause," as defined below; or
- by mutual agreement between us and the executive.

The employment agreements between us and each of Messrs. Stedham, Duquette and Becker will continue in effect until terminated:

- by the executive's death or disability;
- by the executive for "cause," as defined below;
- by us for "cause," as defined below;
- by us or the executive by giving the other a period of "required notice," as defined below; or
- by mutual agreement between us and the executive.

The “required notice” period is 18 months for Mr. Stedham, 12 months for Mr. Duquette and six months for Mr. Becker.

The discussion and tables below reflect the estimated termination benefits that would be paid or accrue to each of the Named Executive Officers in the event of the following termination scenarios:

Termination by the Company for Cause – If we terminate the employment of one of the named executives for “cause,” as defined below, such executive would be entitled to unpaid base salary and continuation of benefits through the date of termination only.

“Cause” is defined under the employment agreements of Mr. Greenberg as follows:

- Willful and continued failure to substantially perform his duties or obligations under the employment agreement (after notice and failure to cure); or
- Willful engaging in misconduct which is materially monetarily injurious to us.

“Cause” as defined under the employment agreements of Messrs. Stedham, Duquette and Becker exists if such executive shall:

- Be convicted, plead guilty, or enter a plea of nolo contendere to a felony or a crime involving moral turpitude (for Mr. Duquette); be convicted, plead guilty, or enter a plea of nolo contendere to a felony or a crime which could reasonably be expected to have a significant detrimental impact on the Company’s reputation (for Mr. Stedham); or be indicted for, charged with, convicted of, plead guilty or plead nolo contendere to a felony or other crime which could reasonably be expected to have a significant detrimental impact on the Company’s reputation (for Mr. Becker); or
- Be the subject of a civil or administrative action for an illegal act which could reasonably be expected to have a significant detrimental impact on the Company’s reputation and not deny the act or be found by the relevant authority to have committed the act (for Mr. Stedham only); or
- Commit any act or omit to take any action in bad faith and to our detriment; or
- Willfully and continually fail to perform his or her duties or obligations under any provision of the employment agreement in any material respect, and shall not correct such failure within ten days after receipt of written notice thereof; or
- Fail to perform his or her duties or obligations pursuant to the non-compete and confidential information provisions of his or her employment agreement in any material respect.

Termination upon disability – We may terminate the employment of a Named Executive Officer in the event of such executive’s incapacity due to extended physical or mental illness. In the case of disability, the affected executive would be entitled to his or her unpaid base salary and continuation of benefits through the date of termination only. If Mr. Greenberg has been absent from his duties on a full-time basis for the entire period of six consecutive months due to physical or mental illness, we may terminate his employment thirty days after giving him notice of termination if he has not returned to the performance of his duties on a full-time basis within those thirty days. If Messrs. Stedham, Duquette or Becker are unable to fully discharge his duties for a period of ninety consecutive days due to a serious health condition (as defined in the Family and Medical Leave Act of 1993) and after giving effect to any reasonable accommodation required by law, we may terminate his employment as of a date specified in a notice of termination given to such employee.

Termination upon death – In the event of death, each of the Named Executive Officers is entitled to his or her full salary through the date of death and we are required to pay his or her spouse or estate the following: for Mr. Greenberg – an amount equal to his full salary for one year after the date of death; and for Mr. Duquette – his full salary through the end of the calendar month within which termination occurred plus his full salary for the following two calendar months, and for purposes of the vesting of any stock units outstanding and unvested as of the date of termination of his employment, he shall be deemed to have been employed through the remaining period under the employment agreement.

Termination by the Company without cause or by the Executive for “good reason” or “just cause” – If we terminate a Named Executive Officer’s employment without cause or a Named Executive Officer terminates his or her employment for “good reason” or “cause,” as defined below, then the Named Executive Officer would be entitled to certain compensation discussed in detail below.

“Good reason” is defined under the employment agreements of Mr. Greenberg as follows:

- A change in control as defined in his employment agreement; or
- A management change in control as defined in his employment agreement; or
- A failure by us to comply with any material provision of the employment agreement which has not been cured within ten days after notice of such noncompliance has been given to us by the executive; or
- Any purported termination of the executive's employment by us which is not effected pursuant to a notice of termination satisfying the requirements of the employment agreement.

Mr. Duquette shall be deemed to have resigned for “just cause” under the terms of his employment agreement, in the event that he resigns within sixty days following either:

Our imposition, without express written consent of the executive, of any significant change in his function, duties, or responsibilities that is not consistent with him being an executive, unless we rescind or modify such change within ten business days after receipt of written notice from the executive; or

Our failure to make any material payment, or provide any material benefit to the executive pursuant to the employment agreement, unless we correct any such deficiency within ten business days after receipt of written notice from the executive; or

Our breach of any other term of the employment agreement, unless we correct such failure or breach within thirty days after written notice from the executive.

Mrs. Stedham and Becker may terminate their employment agreements for “good reason” if:

We reduce the executive’s base salary without his consent and fail to restore it to its previous level within 30 days after notice from the executive;

Our failure to make any material payment, or provide any material benefit to the executive pursuant to the employment agreement, unless we correct any such deficiency within ten business days after receipt of written notice from the executive; or

Our breach of any other term of the employment agreement, unless we correct such failure or breach within thirty days after written notice from the executive.

Mr. Stedham may also terminate his employment agreement for “good reason” if:

We change his title or job duties in any material respect which diminishes his position or damages his professional reputation; or

We eliminate (and not replace with a comparable alternative), reduce, or fail to make any material payment without his consent with respect to restricted stock granted to him under our Long-Term Incentive Program and fail to restore it within 30 days after notice from him; or

We relocate our headquarters more than 30 miles from Columbia, Maryland despite his written objection and we fail to provide reasonable accommodations which would enable him to maintain a work/life balance comparable to what exists prior to the relocation.

Termination Payments under Mr. Greenberg’s Employment Agreement

If we terminate Mr. Greenberg’s employment without cause, or if he terminates his employment for “good reason” other than as a result of a management change in control, we are obligated to pay him his full salary and provide his benefits through the date of termination, pay his full bonus for the calendar year in which the date of termination occurs, and pay as severance an amount equal to his average annual cash compensation received from us during the three full calendar years immediately preceding the termination date, multiplied by the greater of (i) the number of years that would have been remaining in the employment period if his employment had not been terminated and (ii) three. In addition, all options to purchase Common Stock granted to him shall become fully vested and we must provide him with continued benefits for three years under all employee benefit plans and programs in which he was entitled to participate prior to the termination.

If Mr. Greenberg terminates his employment as a result of a management change in control, we are obligated to pay him his full salary and provide his benefits through the date of termination, pay his full bonus for the calendar year in which the date of termination occurs, and pay as severance an amount equal to his average annual cash compensation received from us during the three full calendar years immediately preceding the termination date, multiplied by two. In addition, all options to purchase Common Stock granted to him shall become fully vested and we must provide him with continued benefits for two years under all employee benefit plans and programs in which he was entitled to

participate prior to the termination.

Termination Provisions of Employments Agreement with Messrs. Stedham, Duquette and Becker

If during the term of Messrs. Stedham, Duquette's or Becker's employment agreements we terminate his employment without "cause" or any of them terminates his employment for good reason or just cause and he is in full compliance with his obligations under the employment agreement, we are obligated to pay the executive his base annual salary at the rate in effect on the date of such termination, and the executive will continue to be eligible to receive such benefits as he would have been entitled to had his employment not terminated, for a period of time after termination equal to the length of the required notice.

The amounts shown in the table below assume that the noted triggering events occurred on December 31, 2018 with respect to the five Named Executive Officers. Other relevant assumptions and explanations are provided in the footnotes following the table. The amounts shown reflect only the additional payments or benefits that a Named Executive Officer would have received upon the occurrence of the respective triggering events listed below; they do not include the value of payments or benefits that would have been earned, or any amounts associated with equity awards that would have vested absent the triggering event. As discussed above, none of the Named Executive Officers receive additional compensation in the event of voluntary or involuntary termination for “cause” or in the event of disability.

Vesting of Restricted Stock Units

The performance-vesting and time-vesting restricted stock units granted to the Named Executive Officers under the long-term incentive program contain certain additional provisions relating to the effect of a change in control. If there is a change of control as defined in the 2011 Plan, performance-vesting restricted stock units will at the effective time of the change of control vest pro rata to the extent that the Compensation Committee determines that the targets it established for such units have been achieved. If there is a change of control as defined in the 2011 Plan and a Named Executive Officer’s employment is terminated other than for cause, retirement, death, or disability within twelve months after the change of control, time-vesting restricted stock units will fully vest.

CEO Pay Ratio

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 and Item 402(u) of Regulation S-K, we are providing disclosure regarding the total compensation of the CEO to the total compensation of our median employee. We selected October 1, 2017 as the date on which to determine our median employee. As of that date, we had 3,793 full time and part time employees. Our entire employee population, which consisted of 2,071 employees in the United States and 1,722 employees located outside of the United States, were considered for identifying the median employee. Salaries for all foreign employees were converted to U.S. dollars using year-to-date average exchange rates. For purposes of identifying the median employee from the employee population, we used base salary as of October 1, 2017.

We used the same median employee for the 2018 pay ratio disclosure as there were no changes that would significantly impact this disclosure. The 2018 annual total compensation as determined under Item 402 of Regulation S-K for our CEO was \$1,137,028 as reported in the Summary Compensation Table of this filing. The 2018 annual total compensation as determined under Item 402 of Regulation S-K and described above for our median employee was \$56,499. The ratio of our CEO's annual total compensation to our median employee's annual total compensation for the fiscal year 2018 was approximately 20 to 1.

The CEO Pay Ratio above represents our reasonable estimate calculated in a manner consistent with SEC rules and applicable guidance. SEC rules and guidance provide significant flexibility in how companies identify the median employee and each company may use a different methodology and make different assumptions particular to that company. As a result, and as explained by the SEC when it adopted these rules, in considering the pay ratio disclosure, shareholders should keep in mind that the rule was not designed to facilitate comparisons of pay ratios among different companies, even companies within the same industry, but rather to allow shareholders to better understand and assess each particular company's compensation practices and pay ratio disclosures.

Neither the Compensation Committee nor our management used our CEO Pay Ratio measure in making compensation decisions.

These annual fees are prorated and paid on a quarterly basis. At the option of the directors, up to one-half of the fees were paid in shares of our common stock. Beginning in 2019, directors may elect to be paid up to 100% of their annual fees in shares of our common stock. In addition to the annual retainers, each non-employee director received \$1,500 for each Board meeting attended and \$750 for each committee meeting attended, but only if the committee meeting was held on a different date than the Board meeting.

Item 13. Certain Relationships and Related Transactions, and Director Independence

Review & Approval Process for Related Person Transactions

Our Corporate Governance Guidelines require each director to avoid any action, position or interest that conflicts with an interest of the Company or gives the appearance of a conflict. Although there is no formal written procedure in those Guidelines for handling such situations when they arise, in practice our Board of Directors, or a committee thereof, is responsible for reviewing and approving, all related person transactions. A related person transaction is a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which the Company and any “related person” are participants. A related person is an executive officer, director, or more than 5% stockholder of the Company, including any of their immediate family members, and any entity owned or controlled by such persons.

Our Conduct of Business Policy governs related person transactions involving executive officers and the Company. It prohibits activities or relationships which are incompatible with employment by the Company or which places the executive in a position where there is a conflict between the executive’s private interests and the interests of the Company, its subsidiaries or affiliates. Executives are required to immediately disclose such situations to their supervisor, the Company’s Ethics Program Compliance Officer, or the Company’s General Counsel for a determination of appropriate action. The Company maintains a telephone hotline for employees to confidentially report questionable activities or seek advice in handling ethics-related issues.

Director Independence

The Board of Directors reviews the independence of its members on an annual basis. No Director will be deemed to be independent unless the Board affirmatively determines that the Director in question has no material relationship with the Company, directly or as an officer, stockholder, member or partner of an organization that has a material relationship with the Company. The Board has not adopted any categorical standards of Director independence, however, the Board of Directors employs the standards of independence of the New York Stock Exchange (“NYSE”) rules currently in effect in making its determination that a Director qualifies as independent. In its annual review of Director independence, the Board considers all commercial, banking, consulting, legal, accounting, charitable or other business relationships any Director may have with the Company. As a result of its annual review, the Board of Directors has determined that Tamar Elkeles, Marshall S. Geller, Steven E. Koonin, Richard C. Pfenniger, Jr. and Samuel D. Robinson are independent and that Scott N. Greenberg and Jacques Manardo are not deemed to be independent. The Company has Nominating/Corporate Governance, Government Security, Compensation and Audit Committees and based on these standards, all current members of such Committees are independent. The Company also has an Executive Committee, of which Mr. Greenberg is a member.
