### Note 2: General Information

The Plan provides for the purchase of up to 275,625 shares of the Corporation's common stock by eligible employees through a maximum of five offerings of twelve month durations. Prior to each offering period, eligible employees elect to have up to 20 percent of their compensation deducted from their pay and accumulated with interest until the end of that offering period, but not to exceed \$25,000 per offering period.

At the end of each offering period, the balance of each participant's payroll deduction account is applied to the purchase of the largest number of full shares of the Corporation's common stock possible. The price at which the shares are deemed to have been purchased is determined by the Compensation Committee of the Corporation and is equal to 85 percent of the lesser of the fair market value of the Corporation's common stock at the beginning or at the end of that offering period. Shares to be purchased under the Plan may be obtained by the Corporation from its authorized but previously unissued shares, from open market transactions or from private sources.

In July 2002 and 2001, the Corporation issued 35,613 and 28,466 shares of its common stock for the offering period ended June 30, 2002 and 2001, at \$18.49 and \$17.69 per share.

At June 30, 2002, the Plan had 355 participants.
