1. Summary of Significant Accounting Policies

Nature of Operations

Macy's, Inc. and subsidiaries (the "Company") is an omnichannel retail organization operating stores, websites and mobile applications under three brands (Macy's, Bloomingdale's and Bluemercury) that sell a wide range of merchandise, including apparel and accessories (men's, women's and children's), cosmetics, home furnishings and other consumer goods. The Company's operations include approximately 880 Macy's, Macy's Backstage, Bloomingdale's, Bloomingdales Outlet and Bluemercury stores in 45 states, the District of Columbia, Guam and Puerto Rico, as well as macys.com, bloomingdales.com and bluemercury.com. In addition, Bloomingdale's in Dubai, United Arab Emirates is operated under a license agreement with Al Tayer Insignia, a company of Al Tayer Group, LLC.

A description of the Company's significant accounting policies is included in the Company's Annual Report on Form 10-K for the fiscal year ended January 30, 2016 (the "2015 10-K"). The accompanying Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto in the 2015 10-K.

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Such estimates and assumptions are subject to inherent uncertainties, which may result in actual amounts differing from reported amounts.

The Consolidated Financial Statements for the 13 and 26 weeks ended July 30, 2016 and August 1, 2015, in the opinion of management, include all adjustments (consisting only of normal recurring adjustments) considered necessary to present fairly, in all material respects, the consolidated financial position and results of operations of the Company.

Seasonality

Because of the seasonal nature of the retail business, the results of operations for the 13 and 26 weeks ended July 30, 2016 and August 1, 2015 (which do not include the Christmas season) are not necessarily indicative of such results for the full fiscal year.

Reclassifications

Certain reclassifications were made to prior years' amounts to conform with the classifications of such amounts for the most recent fiscal period.

Comprehensive Income

Total comprehensive income represents the change in equity during a period from sources other than transactions with shareholders and, as such, includes net income. For the Company, the only other components of total comprehensive income for the 13 and 26 weeks ended July 30, 2016 and August 1, 2015 relate to post employment and postretirement plan items. The settlement charges incurred are included as a separate component of operating expenses in the Consolidated Statements of Income. The amortization reclassifications out of accumulated other comprehensive loss are included in the computation of net periodic benefit cost (income) and are included in selling, general and administrative expenses on the Consolidated Statements of Income. See Note 4, "Benefit Plans," for further information.

In addition to the stock options, restricted stock and restricted stock units reflected in the foregoing tables, stock options to purchase 15.7 million shares of common stock and restricted stock units relating to 1.1 million shares of common stock were outstanding at July 30, 2016, but were not included in the computation of diluted earnings per share for the 13 and 26 weeks ended July 30, 2016 because their inclusion would have been antidilutive or they were subject to performance conditions that had not been met.

In addition to the stock options, restricted stock and restricted stock units reflected in the foregoing tables, stock options to purchase 3.4 million shares of common stock and restricted stock units relating to 1.1 million shares of common stock were outstanding at August 1, 2015, but were not included in the computation of diluted earnings per share for the 13 and 26 weeks ended August 1, 2015 because their inclusion would have been antidilutive or they were subject to performance conditions that had not been met.

3. Financing Activities

The following table shows the detail of debt repayments:

	26 Weeks Ended July 30, 2016	August 1, 2015
	(millions)	
7.5% Senior debentures due 2015	\$ —	\$ 69
9.5% amortizing debentures due 2021	2	2
9.75% amortizing debentures due 2021	1	1
	\$ 3	\$ 72

The Company entered into a credit agreement with certain financial institutions on May 6, 2016 providing for revolving credit borrowings and letters of credit in an aggregate amount not to exceed \$1,500 million (which may be increased to \$1,750 million at the option of the Company, subject to the willingness of existing or new lenders to provide commitments for such additional financing) outstanding at any particular time. This agreement is set to expire May 6, 2021 and replaces the prior agreement which was set to expire May 10, 2018.

On August 15, 2016, the Company redeemed at par the principal amount of \$108 million of 7.875% senior debentures due 2036, pursuant to the terms of the debentures. Interest expense in the third quarter of 2016 will be lower due to the recognition of unamortized debt premium associated with this debt.

During the 26 weeks ended July 30, 2016, the Company repurchased approximately 3.0 million shares of its common stock pursuant to existing stock purchase authorizations for a total of approximately \$129 million, and no shares of its common stock were repurchased during the 13 weeks ended July 30, 2015. As of July 30, 2016, the Company had \$1,903 million of authorization remaining under its share repurchase program. The Company may repurchase shares under its share repurchase program, depending on prevailing market conditions, alternate uses of capital and other factors.

4. Benefit Plans

The Company has defined contribution plans which cover substantially all employees who work 1,000 hours or more in a year. In addition, the Company has a funded defined benefit plan ("Pension Plan") and an unfunded defined benefit supplementary retirement plan ("SERP"), which provides benefits, for certain employees, in excess of qualified plan limitations. Effective January 1, 2012, the Pension Plan was closed to new participants, with limited exceptions, and effective January 2, 2012, the SERP was closed to new participants.

In February 2013, the Company announced changes to the Pension Plan and SERP whereby eligible employees no longer earn future pension service credits after December 31, 2013, with limited exceptions. All retirement benefits attributable to service in subsequent periods are provided through defined contribution plans.

In addition, certain retired employees currently are provided with specified health care and life insurance benefits ("Postretirement Obligations"). Eligibility requirements for such benefits vary, but generally state that benefits are available to eligible employees who were hired prior to a certain date and retire after a certain age with specified years of service. Certain employees are subject to having such benefits modified or terminated.

During the 13 and 26 weeks ended July 30, 2016, the Company also incurred \$6 million and \$19 million, respectively, of non-cash settlement charges relating to the Company's defined benefit plans. These charges resulted from an increase in lump sum distributions associated with store closings, a voluntary separation program and organizational restructuring, in addition to periodic distribution activity.

5. Fair Value Measurements

The following table shows the Company's financial assets that are required to be measured at fair value on a recurring basis, by level within the hierarchy as defined by applicable accounting standards:

	July 30, 2016			August 1, 2015		
	Total	Significant Observable Inputs (Level 1 & 2)	Significant Unobservable Inputs (Level 3)	Total	Significant Observable Inputs (Level 1 & 2)	Significant Unobservable Inputs (Level 3)
Marketable equity and debt securities	\$ 141	\$ —	\$ 141	\$ —	\$ 101	\$ —

Other financial instruments not measured at fair value on a recurring basis include cash and cash equivalents, receivables, short-term debt, merchandise accounts payable, accounts payable and accrued liabilities and long-term debt. With the exception of long-term debt, the carrying amount of these financial instruments approximates fair value because of the short maturity of these instruments. The fair values of long-term debt, excluding capitalized leases, are generally estimated based on quoted market prices for identical or similar instruments, and are classified as Level 2 measurements within the hierarchy as defined by applicable accounting standards.

The following table shows the estimated fair value of the Company's long-term debt:

	July 30, 2016		August 1, 2015	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Long-term debt	\$6,461	\$6,540	\$7,012	\$7,123

The Company reviews the carrying value of its goodwill and other intangible assets with indefinite lives at least annually for possible impairment in accordance with ASC Topic 350, "Intangibles - Goodwill and Other." Goodwill has been assigned to reporting units for purposes of impairment testing. The reporting units are the Company's retail operations. Goodwill and other intangible assets with indefinite lives are tested for impairment annually at the end of the fiscal month of May.

During the second quarter of fiscal 2016, the Company completed its annual impairment test of goodwill and other intangible assets with indefinite lives. In connection with the preparation of these consolidated financial statements, management concluded that goodwill was not impaired as of May 30, 2016 and approximately \$7 million of asset impairment charges for the 13 and 26 weeks ended July 30, 2016 were recognized in relation to indefinite lived tradenames. The fair values of these tradenames were calculated based on the projected cash flows and an estimated risk-adjusted rate of return that would be used by market participants in valuing these assets or prices of similar assets and are classified as Level 3 measurements within the hierarchy as defined by applicable accounting standards.

The use of different assumptions, estimates or judgments in the testing process, including with respect to the analysis of macroeconomic conditions, industry, market and other economic considerations and actual and expected financial

performance, the estimated future cash flows and the discount rates used to discount such estimated cash flows to their net present values, could materially increase or decrease the estimated fair values and, accordingly, could impact the results of the annual impairment tests.

The carrying value of long-lived assets is periodically reviewed by the Company whenever events or changes in circumstances indicate that a potential impairment has occurred. For long-lived assets held for use, a potential impairment has occurred if projected future undiscounted cash flows are less than the carrying value of the assets. The estimate of cash flows includes management's assumptions of cash inflows and outflows directly resulting from the use of those assets in operations. When a potential impairment has occurred, an impairment write-down is recorded if the carrying value of the long-lived asset exceeds its fair value.

MACY'S, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

The Company has announced a plan to dispose of approximately 100 Macy's stores before the end of their previously estimated useful lives as the Company works to optimize its omnichannel approach to customers. As a result, an impairment review of the Company's long-lived assets was required and estimated cash flows have been revised accordingly. As part of this impairment review during the 13 weeks ended July 30, 2016, long-lived assets held and used with a carrying value of \$326 million were written down to their fair value of \$106 million, resulting in asset impairment charges of \$220 million. The fair values of these locations were calculated based on the projected cash flows and an estimated risk-adjusted rate of return that would be used by market participants in valuing these assets or prices of similar assets and are classified as Level 3 measurements within the hierarchy as defined by applicable accounting standards. Additionally, related liabilities will arise such as severance, contractual obligations and other accruals associated with store closings when the final determination is made regarding which Macy's stores will be closed. The Company estimates these liabilities based on the facts and circumstances in existence for each restructuring decision. The amounts the Company will ultimately realize or disburse could differ from the amounts assumed in arriving at the asset impairment charges recorded and any restructuring charge recorded in the future. The Company believes its estimated cash flows are sufficient to support the carrying value of its long-lived assets. If estimated cash flows significantly differ in the future, the Company may be required to record additional asset impairment write-downs.

6. Condensed Consolidating Financial Information

Certain debt obligations of the Company, which constitute debt obligations of Macy's Retail Holdings, Inc. ("Subsidiary Issuer"), a 100%-owned subsidiary of Macy's, Inc. ("Parent"), are fully and unconditionally guaranteed by Parent. In the following condensed consolidating financial statements, "Other Subsidiaries" includes all other direct subsidiaries of Parent, including Bluemercury, Inc., FDS Bank, West 34th Street Insurance Company and its subsidiary West 34th Street Insurance Company New York, Macy's Merchandising Corporation, Macy's Merchandising Group, Inc. and its subsidiaries Macy's Merchandising Group (Hong Kong) Limited, Macy's Merchandising Group Procurement, LLC, Macy's Merchandising Group International, LLC, Macy's Merchandising Group International (Hong Kong) Limited, and its majority-owned subsidiary Macy's China Limited. "Subsidiary Issuer" includes operating divisions and non-guarantor subsidiaries of the Subsidiary Issuer on an equity basis. The assets and liabilities and results of operations of the non-guarantor subsidiaries of the Subsidiary Issuer are also reflected in "Other Subsidiaries."

Condensed Consolidating Statements of Comprehensive Income for the 13 and 26 weeks ended July 30, 2016 and August 1, 2015, Condensed Consolidating Balance Sheets as of July 30, 2016, August 1, 2015 and January 30, 2016, and the related Condensed Consolidating Statements of Cash Flows for the 26 weeks ended July 30, 2016 and August 1, 2015 are presented on the following pages.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

For purposes of the following discussion, all references to "second quarter of 2016" and "second quarter of 2015" are to the Company's 13-week fiscal periods ended July 30, 2016 and August 1, 2015, respectively, and all references to "2016" and "2015" are to the Company's 26-week fiscal periods ended July 30, 2016 and August 1, 2015, respectively. The following discussion should be read in conjunction with the Consolidated Financial Statements and the related notes included elsewhere in this report, as well as the financial and other information included in the 2015 10-K. The following discussion contains forward-looking statements that reflect the Company's plans, estimates and beliefs. The Company's actual results could materially differ from those discussed in these forward-looking statements. Factors that could cause or contribute to those differences include, but are not limited to, those discussed below and elsewhere in this report (particularly in "Forward-Looking Statements") and in the 2015 10-K (particularly in "Risk Factors" and in "Forward-Looking Statements"). This discussion includes non-GAAP financial measures. For information about these measures, see the disclosure under the caption "Important Information Regarding Non-GAAP Financial Measures" on pages 28 and 29.

Overview

The Company is an omnichannel retail organization operating stores, websites and mobile applications under three brands (Macy's, Bloomingdale's and Bluemercury) that sell a wide range of merchandise, including apparel and accessories (men's, women's and children's), cosmetics, home furnishings and other consumer goods. The Company's operations include approximately 880 Macy's, Macy's Backstage, Bloomingdale's, Bloomingdales Outlet and Bluemercury stores in 45 states, the District of Columbia, Guam and Puerto Rico, as well as macys.com, bloomingdales.com and bluemercury.com. In addition, Bloomingdale's in Dubai, United Arab Emirates is operated under a license agreement with Al Tayer Insignia, a company of Al Tayer Group, LLC.

The Company continues to be focused on three key strategies for growth in sales, earnings and cash flow in the years ahead: (i) maximizing the My Macy's localization initiative; (ii) driving the omnichannel business; and (iii) embracing customer centricity, including engaging customers through building Magic connections. These strategies have evolved and the Company has developed specific initiatives to acquire new customers and strengthen loyalty, deliver distinctive merchandise, expand the digital frontier and new formats and to create signature customer experiences. Through the My Macy's localization initiative, the Company has invested in talent, technology and marketing which ensures that core customers surrounding each Macy's store find merchandise assortments, size ranges, marketing programs and shopping experiences that are custom-tailored to their needs. My Macy's has provided for more local decision-making in every Macy's community, and involves tailoring merchandise assortments, space allocations, service levels, visual merchandising and special events on a store-by-store basis. The focus on localization is now evolving to one of personalization.

The Company's omnichannel strategy allows customers to shop seamlessly in stores and online, via desktops, laptops or mobile devices. A pivotal part of the omnichannel strategy is the Company's ability to allow associates in any store to sell a product that may be unavailable locally by shipping merchandise from other stores or customer fulfillment centers to the customer's door. Likewise, the Company's customer fulfillment centers can draw on store inventories nationwide to fill orders that originate online. Nearly all Macy's and Bloomingdale's stores are fulfilling orders from other stores and/or online for shipment and fulfilling orders for store pick-up related to online purchases, and the Company operates same-day delivery in 17 markets.

Macy's Magic connections is an approach to customer engagement that helps Macy's better understand the needs of customers, as well as provide merchandise options and advice. Macy's engages its customers through building Magic connections on the selling floor, through mobile apps and all other customer interactions.

MACY'S, INC.

In August 2016, the Company announced a series of initiatives to drive profitable growth, enhance shareholder value and strengthen Macy's as the preferred omnichannel shopping destination. The company will heighten the Macy's brand with exclusive products and an improved shopping experience. Plans also include re-creating Macy's physical store presence as customer shopping preferences and patterns evolve by operating fewer stores and concentrating financial resources and talent on the better-performing locations. As part of this strategy, the Company intends to close approximately 100 Macy's full-line stores (out of a current portfolio of 728 Macy's stores). Most of these stores will close early in 2017, with the balance closing as leases and certain operating covenants expire or are amended and waived. Macy's will reallocate investments to higher-growth-potential store and digital businesses. These investments will include adding new vendor shops, additional licensing agreements, increasing the size and quality of store staffing, and investing in capacity-building on the Company's websites and mobile apps.

In addition, the Company continues to pursue selected real estate dispositions to monetize assets in instances where the business is simultaneously enhanced or where the value of real estate significantly outweighs the value of the retail business. The Company is also in early-stage joint venture/strategic alliance discussions with various potential partners.

In January 2016, the Company completed a \$270 million real estate transaction that will enable a re-creation of Macy's Brooklyn store. The Company will continue to own and operate the first four floors and lower level of its existing nine-story retail store, which will be reconfigured and remodeled. The remaining portion of the store and its nearby parking facility were sold to Tishman Speyer in a single sales transaction. As the sales agreement requires the Company to conduct certain redevelopment activities at Macy's Brooklyn store, the Company will recognize a gain of approximately \$250 million under the percentage of completion method of accounting. Accordingly, \$99 million has been recognized to-date and the remaining gain is anticipated to be recognized over the next two years, with \$36 million expected to be recognized in fiscal 2016.

In 2015, the Company launched the marketing of potential partnership and joint venture transactions for certain of its real estate. This includes the owned mall-based properties, as well as Macy's flagship real estate assets in Manhattan (Herald Square), San Francisco (Union Square), Chicago (State Street) and Minneapolis (downtown Nicollet Mall). The Company continues to analyze prospective transactions for its flagship real state assets and is currently in preliminary negotiations to sell the Macy's Men's store on Union Square in San Francisco.

In 2015, the Company opened the first six pilot stores in Macy's new off-price business, Macy's Backstage, in the New York City metro area. The Macy's Backstage locations average about 30,000 square feet and sell an assortment of women's, men's and children's apparel, shoes, fashion accessories, housewares, home textiles, intimate apparel and jewelry. As of July 30, 2016, the Company is operating 16 Macy's Backstage locations (six freestanding and ten inside Macy's stores).

In March 2015, the Company completed its acquisition of Bluemercury, Inc., a luxury beauty products and spa retailer. The Company is focused on accelerating the growth of sales in freestanding Bluemercury stores in urban and suburban markets, enhancing its online capabilities and adding Bluemercury products and boutiques to Macy's stores. As of July 30, 2016, the Company is operating 103 Bluemercury locations (91 freestanding and 12 inside Macy's stores). During 2016, the Company opened 14 new freestanding Bluemercury stores.

The Company is focused on improving the recent business trend through a series of organic and new business initiatives. The initiatives include a focus on fine jewelry and watches, expansion of Macy's Backstage (including freestanding locations and inside existing Macy's stores), "Last Act" - a simplified pricing approach to clearance merchandise in Macy's stores, a focus on the "Top 150" store locations (including product presentation, customer service and special events), a focus on the beauty business including the expansion of Bluemercury freestanding locations and inside existing Macy's stores and a focus on enhancements to mobile technology. The Company is planning to offer customers greater newness and more exclusive merchandise through an array of new and exclusive product launches. The Company is also pursuing additional opportunities to reduce expense, while still investing in key areas including digital and customer service.

During the final 26 weeks of fiscal 2016, the Company intends to open one new Macy's store, 17 additional Bluemercury locations (ten freestanding and seven inside Macy's), six Macy's Backstage locations (one freestanding

and five inside Macy's stores) and one new Bloomingdale's Outlet.

In August 2015, the Company established a joint venture, Macy's China Limited, of which the Company holds a sixty-five percent ownership interest and Hong Kong-based Fung Retailing Limited holds the remaining thirty-five percent ownership interest. Macy's China Limited began selling merchandise in China in the fourth quarter of 2015 through an e-commerce presence on Alibaba Group's Tmall Global. The Company's periodic reporting includes the financial operations of Macy's China Limited, with the thirty-five percent ownership reported as a noncontrolling interest.

MACY'S, INC.

In May 2015, in conjunction with American Express, the Company helped launch Plenti, the coalition loyalty program that brings powerful brands together to give customers the chance to earn and redeem points where they choose. The loyalty program is free to join and members earn points on virtually all purchases at Macy's and other businesses that have joined as Plenti partners.

The Company's operations are impacted by competitive pressures from department stores, specialty stores, mass merchandisers, online retailers and all other retail channels. The Company's operations are also impacted by general consumer spending levels, including the impact of general economic conditions, consumer disposable income levels, consumer confidence levels, the availability, cost and level of consumer debt, the costs of basic necessities and other goods and the effects of weather or natural disasters and other factors over which the Company has little or no control. In recent years, consumer spending levels have been affected to varying degrees by a number of factors, including modest economic growth, uncertainty regarding governmental spending and tax policies, unemployment levels, tightened consumer credit, an improving housing market and a fluctuating stock market. In addition, consumer spending levels of international customers are impacted by the strength of the U.S. dollar relative to foreign currencies. These factors have affected, to varying degrees, the amount of funds that consumers are willing and able to spend for discretionary purchases, including purchases of some of the merchandise offered by the Company. All economic conditions ultimately affect the Company's overall operations. However, the effects of economic conditions can be experienced differently and at different times, in the various geographic regions in which the Company operates, in relation to the different types of merchandise that the Company offers for sale, or in relation to each of the Company's branded operations.

Based on its assessment of current and anticipated market conditions and its recent performance, the Company expects comparable sales on an owned plus licensed basis for fiscal 2016 to decrease in the range of 3% to 4% from 2015 levels, with comparable sales on an owned basis approximately 50 basis points lower. The Company currently expects that its earnings per share attributable to Macy's, Inc. in fiscal 2016 will be in the range of \$3.15 to \$3.40, excluding the impact of non-cash settlement charges relating to the Company's defined benefit plans and the impact of asset impairment and other costs associated primarily with plans to close approximately 100 stores.

Diluted Earnings Per Share Attributable to Macy's, Inc. Shareholders

Diluted earnings per share for the second quarter of 2016 decreased \$0.61 or 95.3% compared to the second quarter of 2015, reflecting lower net income, partially offset by lower average diluted shares. Excluding the impact of impairments and other costs and settlement charges, diluted earnings per share for the second quarter of 2016 decreased \$0.10 or 15.6% compared to the second quarter of 2015.

Net Income Attributable to Macy's, Inc. Shareholders

Net income attributable to Macy's, Inc. shareholders for the second quarter of 2016 decreased \$206 million or 94.9% compared to the second quarter of 2015, reflecting lower net sales and gross margin, impairments and other costs, and settlement charges, partially offset by lower SG&A expenses and lower tax expense.

Net Sales

Net sales for the second quarter of 2016 decreased \$238 million or 3.9% compared to the second quarter of 2015 due to fiscal year-end 2015 store closures and the decline in comparable sales. The decrease in comparable sales on an owned basis for the second quarter of 2016 was 2.6% compared to the second quarter of 2015. The decrease in comparable sales on an owned plus licensed basis for the second quarter of 2016 was 2.0% compared to the second quarter of 2015. Sales at locations that are frequented by international tourists, such as New York City, Las Vegas, San Francisco, Chicago, and Florida, continued to be negatively impacted by lower levels of spending by these tourists, but with less of an impact than in recent quarters. Geographically, sales in the second quarter of 2016 were relatively stronger in the Southwest region. The families of business which performed well in the second quarter of

2016 included all of apparel (women's, men's and children's), fine jewelry, shoes, fragrances, textiles and housewares. Sales in the second quarter of 2016 were weaker in handbags and fashion jewelry and watches.

MACY'S, INC.

Cost of Sales

Cost of sales for the second quarter of 2016 decreased \$142 million and the cost of sales rate as a percent to net sales remained 59.1% for the second quarter of 2016. The application of the last-in, first-out (LIFO) retail inventory method did not result in the recognition of any LIFO charges or credits affecting cost of sales in either period.

Selling, General and Administrative Expenses

Selling, general and administrative ("SG&A") expenses for the second quarter of 2016 decreased \$32 million or 1.6% from the second quarter of 2015. Although SG&A expenses decreased on a dollar basis, the SG&A rate as a percent to net sales of 34.5% was 70 basis points higher in the second quarter of 2016, as compared to the second quarter of 2015 due to lower net sales in the second quarter of 2016. SG&A expenses in the second quarter of 2016 benefited from lower retirement expenses, expense savings from the restructuring initiatives announced in January 2016, and gains on the sales of office buildings, stores and surplus properties, partially offset by lower income from credit operations and continued investments in the Company's omnichannel operations, Bluemercury, Macy's Backstage and Macy's China Limited. The second quarter of 2016 included gains on the sale of office buildings, stores and surplus properties of \$21 million, \$11 million of which related to the Macy's Brooklyn transaction. Retirement expenses were \$12 million in the second quarter of 2016, compared to \$21 million in the second quarter of 2015. Income from credit operations was \$181 million in the second quarter of 2016, compared to \$195 million in the second quarter of 2015, reflecting lower credit sales.

Impairments and Other Costs

Impairments and other costs were \$249 million for the second quarter of 2016 and related primarily to the Company's plans to close approximately 100 Macy's full-line stores in early 2017.

Settlement Charges

The second quarter of 2016 included \$6 million of non-cash settlement charges relating to the Company's defined benefit plans. These charges resulted from an increase in lump sum distributions associated with store closings, a voluntary separation program and organizational restructuring, in addition to periodic distribution activity.

Net Interest Expense

Net interest expense for the second quarter of 2016 increased \$4 million from the second quarter of 2015.

Effective Tax Rate

The Company's effective tax rate of 55.0% for the second quarter of 2016 and 36.7% for the second quarter of 2015 differ from the federal income tax statutory rate of 35%, and on a comparative basis, principally because of the effect of state and local income taxes.

Diluted Earnings Per Share Attributable to Macy's, Inc. Shareholders

Diluted earnings per share for 2016 decreased \$.78 or 65.5% compared to 2015, reflecting lower net income, partially offset by lower average diluted shares. Excluding the impact of impairments and other costs and settlement charges, diluted earnings per share for 2016 decreased \$.25 or 21.0% compared to 2015.

Net Income Attributable to Macy's, Inc. Shareholders

Net income attributable to Macy's, Inc. shareholders for 2016 decreased \$283 million or 69.0% compared to 2015, reflecting lower net sales and gross margin, impairments and other costs, and settlement charges, partially offset by lower SG&A expenses and lower tax expense.

Net Sales

Net sales for 2016 decreased \$699 million or 5.7% compared to 2015 due to fiscal year-end 2015 store closures and the decline in comparable sales. The decrease in comparable sales on an owned basis for 2016 was 4.4% compared to 2015. The decrease in comparable sales on an owned plus licensed basis for 2016 was 3.8% compared to 2015. The weakness in consumer spending levels in apparel and related categories negatively impacted sales in 2016, although to a lesser extent in the second quarter as compared to the first quarter. Sales at locations that are frequented by international tourists, such as New York City, Las Vegas, San Francisco, Chicago, and Florida, continued to be negatively impacted by lower levels of spending by these tourists. Geographically, sales in 2016 were relatively stronger in the Southwest region. There were some families of business that performed relatively well in 2016 including: fine jewelry, fragrances and housewares. Sales in 2016 were weaker in handbags and fashion watches.

Cost of Sales

Cost of sales for 2016 decreased \$426 million and the cost of sales rate as a percent to net sales decreased 10 basis points from 2015 to 60.0% for 2016. The application of the LIFO retail inventory method did not result in the recognition of any LIFO charges or credits affecting cost of sales in either period.

MACY'S, INC.

Selling, General and Administrative Expenses

SG&A expenses for 2016 decreased \$89 million or 2.2% from 2015. Although SG&A expenses decreased on a dollar basis, the SG&A rate as a percent to net sales of 34.3% was 120 basis points higher in 2016, as compared to 2015 due to lower net sales in 2016. SG&A expenses in 2016 benefited from lower retirement expenses, expense savings from the restructuring initiatives announced in January 2016, and gains on the sales of office buildings, stores and surplus properties, partially offset by lower income from credit operations and continued investments in the Company's omnichannel operations, Bluemercury, Macy's Backstage and Macy's China Limited. SG&A expenses included gains on the sale of office buildings, stores and surplus properties of \$35 million, \$15 million of which related to the Macy's Brooklyn transaction. SG&A expenses for 2015 included gains on the sale of office buildings, stores and surplus properties of \$20 million. Retirement expenses were \$25 million in 2016, compared to \$42 million in 2015. Income from credit operations was \$363 million in 2016, compared to \$374 million in 2015, reflecting lower credit sales.

Impairments and Other Costs

Impairments and other costs were \$249 million for 2016 and related primarily to the Company's plans to close approximately 100 Macy's full-line stores in early 2017.

Settlement Charges

2016 included \$19 million of non-cash settlement charges relating to the Company's defined benefit plans. These charges resulted from an increase in lump sum distributions associated with store closings, a voluntary separation program and organizational restructuring, in addition to periodic distribution activity.

Net Interest Expense

Net interest expense for 2016 increased \$7 million from 2015, reflecting higher levels of outstanding borrowings.

Effective Tax Rate

The Company's effective tax rate of 37.4% for 2016 and 37.6% for 2015 differ from the federal income tax statutory rate of 35%, and on a comparative basis, principally because of the effect of state and local income taxes, including the settlement of various tax issues and tax examinations.

Important Information Regarding Non-GAAP Financial Measures

The Company reports its financial results in accordance with generally accepted accounting principles (GAAP). However, management believes that certain non-GAAP financial measures provide users of the Company's financial information with additional useful information in evaluating operating performance. Management believes that providing changes in comparable sales on an owned plus licensed basis, which includes the impact of growth in comparable sales of departments licensed to third parties, supplementally to its results of operations calculated in accordance with GAAP assists in evaluating the Company's ability to generate sales growth, whether through owned businesses or departments licensed to third parties, on a comparable basis, and in evaluating the impact of changes in the manner in which certain departments are operated. Management also believes that the combined measure is useful in assessing changes in total customer demand. Management believes that excluding certain items that may vary substantially in frequency and magnitude from diluted earnings per share attributable to Macy's, Inc. shareholders is a useful supplemental measure that assists in evaluating the Company's ability to generate earnings and to more readily compare these metrics between past and future periods.

Non-GAAP financial measures should be viewed as supplementing, and not as an alternative or substitute for, the Company's financial results prepared in accordance with GAAP. Certain of the items that may be excluded or included in non-GAAP financial measures may be significant items that could impact the Company's financial position, results of operations and cash flows and should therefore be considered in assessing the Company's actual financial condition and performance. Additionally, the amounts received by the Company on account of sales of departments licensed to third parties are limited to commissions received on such sales. The methods used by the Company to calculate its non-GAAP financial measures may differ significantly from methods used by other companies to compute similar measures. As a result, any non-GAAP financial measures presented herein may not be comparable to similar measures provided by other companies.

Change in Comparable Sales

The following is a tabular reconciliation of the non-GAAP financial measure of changes in comparable sales on an owned plus licensed basis, to GAAP comparable sales (i.e. on an owned basis), which the Company believes to be the most directly comparable GAAP financial measure.

	Second Quarter of 2016	Second Quarter of 2015
Decrease in comparable sales on an owned basis (note 1)	(2.6)%	(2.1)%
Impact of growth in comparable sales of departments licensed to third parties (note 2)	0.6 %	0.6 %
Decrease in comparable sales on an owned plus licensed basis	(2.0)%	(1.5)%
	2016	2015
Decrease in comparable sales on an owned basis (note 1)	(4.4)%	(1.4)%
Impact of growth in comparable sales of departments licensed to third parties (note 2)	0.6 %	0.6 %
Decrease in comparable sales on an owned plus licensed basis	(3.8)%	(0.8)%

Notes:

- Represents the period-to-period percentage change in net sales from stores in operation throughout the year presented and the immediately preceding year and all online sales, excluding commissions from departments
- (1) licensed to third parties. Stores undergoing remodeling, expansion or relocation remain in the comparable sales calculation unless the store is closed for a significant period of time. Definitions and calculations of comparable sales differ among companies in the retail industry.
 - (2) Represents the impact of including the sales of departments licensed to third parties occurring in stores in operation throughout the year presented and the immediately preceding year and via the Internet in the calculation of comparable sales. The Company licenses third parties to operate certain departments in its stores and online and

receives commissions from these third parties based on a percentage of their net sales. In its financial statements prepared in conformity with GAAP, the Company includes these commissions (rather than the sales of the departments licensed to third parties) in its net sales. The Company does not, however, include any amounts in respect of licensed department sales (or any commissions earned on such sales) in its comparable sales in accordance with GAAP (i.e., on an owned basis). The Company believes that the amounts of commissions earned on sales of departments licensed to third parties are not material to its results of operations for the periods presented.

MACY'S, INC.

Liquidity and Capital Resources

The Company's principal sources of liquidity are cash from operations, cash on hand and the credit facility described below.

Operating Activities

Net cash provided by operating activities in 2016 was \$560 million, compared to \$398 million provided in 2015, primarily due to a reduction in merchandise inventories.

Investing Activities

Net cash used by investing activities was \$338 million in 2016, compared to net cash used by investing activities of \$615 million in 2015. Investing activities for 2016 include purchases of property and equipment totaling \$293 million and capitalized software of \$151 million, compared to purchases of property and equipment totaling \$367 million and capitalized software of \$144 million for 2015. Investing activities for 2015 also included the acquisition of Bluemercury, Inc., net of cash acquired, for \$212 million.

Financing Activities

Net cash used by the Company for financing activities was \$331 million for 2016, including \$130 million for the acquisition of the Company's common stock, which includes stock repurchased under the share repurchase program and to cover employee tax liabilities related to stock plan activity, the payment of \$228 million of cash dividends, and \$3 million of debt repayments, partially offset by \$27 million from the issuance of common stock, primarily related to the exercise of stock options.

During 2016, the Company repurchased approximately 3.0 million shares of its common stock pursuant to existing stock purchase authorizations for a total of approximately \$129 million. As of July 30, 2016, the Company had \$1,903 million of authorization remaining under its share repurchase program. The Company may repurchase shares under its share repurchase program, depending on prevailing market conditions, alternate uses of capital and other factors.

Net cash used by the Company for financing activities was \$1,186 million for 2015, including \$909 million for the acquisition of the Company's common stock, primarily under its share repurchase program, the payment of \$227 million of cash dividends, a decrease in outstanding checks of \$136 million, and the repayment of \$72 million of debt, partially offset by \$158 million from the issuance of common stock, primarily related to the exercise of stock options. The Company entered into a new credit agreement with certain financial institutions on May 6, 2016 providing for revolving credit borrowings and letters of credit in an aggregate amount not to exceed \$1,500 million (which may be increased to \$1,750 million at the option of the Company, subject to the willingness of existing or new lenders to provide commitments for such additional financing) outstanding at any particular time. This agreement is set to expire May 6, 2021 and replaces the prior agreement, with similar terms, which was set to expire May 10, 2018.

As of July 30, 2016, the Company was required to maintain a specified interest coverage ratio for the latest four quarters of no less than 3.25 and a specified leverage ratio as of and for the latest four quarters of no more than 3.75 under the credit agreement. The Company's interest coverage ratio for the second quarter of 2016 was 8.19 and its leverage ratio at July 30, 2016 was 2.35, in each case as calculated in accordance with the credit agreement.

On August 15, 2016, the Company redeemed at par the principal amount of \$108 million of 7.875% senior debentures due 2036, pursuant to the terms of the debentures. Interest expense in the third quarter of 2016 will be lower due to the recognition of unamortized debt premium associated with this debt.

On August 26, 2016, the Company announced that the Board of Directors declared a quarterly dividend of 37.75 cents per share on its common stock, payable October 3, 2016 to Macy's shareholders of record at the close of business on September 15, 2016.

MACY'S, INC.

Outlook

Management believes that, with respect to the Company's current operations, cash on hand and funds from operations, together with its credit facility and other capital resources, will be sufficient to cover the Company's reasonably foreseeable working capital, capital expenditure and debt service requirements and other cash requirements in both the near term and over the longer term. The Company's ability to generate funds from operations may be affected by numerous factors, including general economic conditions and levels of consumer confidence and demand; however, the Company expects to be able to manage its working capital levels and capital expenditure amounts so as to maintain sufficient levels of liquidity. To the extent that the Company's cash balances from time to time exceed amounts that are needed to fund its immediate liquidity requirements, the Company will consider alternative uses of some or all of such excess cash. Such alternative uses may include, among others, the redemption or repurchase of debt, equity or other securities through open market purchases, privately negotiated transactions or otherwise, and the funding of pension related obligations. Depending upon its actual and anticipated sources and uses of liquidity, conditions in the capital markets and other factors, the Company will from time to time consider the issuance of debt or other securities, or other possible capital markets transactions, for the purpose of raising capital which could be used to refinance current indebtedness or for other corporate purposes, including the redemption or repurchase of debt, equity or other securities through open market purchases, privately negotiated transactions or otherwise, and the funding of pension related obligations.

The Company intends from time to time to consider additional acquisitions of, and investments in, retail businesses and other complementary assets and companies. Acquisition transactions, if any, are expected to be financed from one or more of the following sources: cash on hand, cash from operations, borrowings under existing or new credit facilities and the issuance of long-term debt or other securities, including common stock.

New Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers (Topic 606), which clarifies the principles for recognizing revenue. The guidance is applicable to all contracts with customers regardless of industry-specific or transaction-specific fact patterns. Further, the guidance requires improved and additional disclosures to help users of financial statements better understand the nature, amount, timing, and uncertainty of revenue that is recognized. The standard was originally effective for the annual reporting periods beginning after December 15, 2016, including interim periods within that year. However, in August 2015, the FASB issued ASU No. 2015-14, which defers the effective date of ASU No. 2014-09 by one year. The guidance is now effective for the Company beginning in the first quarter of 2018, and early adoption is only permitted for the Company beginning in 2017. Upon becoming effective, the Company will apply the amendments in the updated standard either retrospectively to each prior reporting period presented, or retrospectively with the cumulative effect of initially applying the guidance recognized at the date of initial application. The Company is currently evaluating the impact, and the method of adoption, that this standard will have on its consolidated financial position, results of operations, and cash flows.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which establishes a right-of-use (ROU) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for substantially all leases. Leases will be classified as either financing or operating, with classification affecting the pattern of expense recognition in the statement of income. The new standard is effective for years beginning after December 15, 2018, including interim periods within those years. The Company is currently evaluating the impact that this standard will have on its consolidated financial position, results of operations, and cash flows.

In March 2016, the FASB issued ASU No. 2016-09, Compensation - Stock Compensation (Topic 718) Improvements to Employee Share-Based Payment Accounting. The new guidance includes multiple provisions intended to simplify various aspects of the accounting for share-based payments, including accounting for income taxes, earnings per share and forfeitures. This guidance requires all excess tax benefits and tax deficiencies to be recorded in income tax expense when the awards vest or are settled, with prospective application required. The new standard is effective for public companies in annual periods beginning after December 15, 2016, and interim periods within those years. Early

adoption is permitted in any interim period, with all adjustments applied as of the beginning of the fiscal year of adoption. The Company is currently evaluating the impact that this standard will have on its consolidated financial position, results of operations and cash flows.

The Company does not anticipate that the adoption of any other recent accounting pronouncements will have a material impact on the Company's consolidated financial position, results of operations or cash flows.

MACY'S, INC.

Item 4. Controls and Procedures.

The Company's Chief Executive Officer and Chief Financial Officer have carried out, as of July 30, 2016, with the participation of the Company's management, an evaluation of the effectiveness of the Company's disclosure controls and procedures, as defined in Rule 13a-15(e) under the Exchange Act. Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by the Company in reports the Company files under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission (the "SEC") rules and forms, and that information required to be disclosed by the Company in the reports the Company files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in the Company's internal control over financial reporting that occurred during the Company's most recently completed fiscal quarter that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

MACY'S, INC.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

The Company and its subsidiaries are involved in various proceedings that are incidental to the normal course of their businesses. As of the date of this report, the Company does not expect that any of such proceedings will have a material adverse effect on the Company's financial position or results of operations.

Item 1A. Risk Factors.

There have been no material changes to the Risk Factors described in Part I, "Item 1A. Risk Factors" in the Company's Annual Report of Form 10-K for the fiscal year ended January 30, 2016 as filed with the SEC.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table provides information regarding the Company's purchases of Common Stock during the second quarter of 2016.

	Total Number of Shares Purchased	Average Price Paid per Share (\$)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Maximum Dollar Value of Shares that may yet be Purchased Under the Plans or Programs (1)(\$) (millions)
	(thousands)		(thousands)

Item 5. Other Information.

Forward-Looking Statements

This report and other reports, statements and information previously or subsequently filed by the Company with the SEC contain or may contain forward-looking statements. Such statements are based upon the beliefs and assumptions of, and on information available to, the management of the Company at the time such statements are made. The following are or may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995: (i) statements preceded by, followed by or that include the words "may," "will," "could," "should," "believe," "expect," "future," "potential," "anticipate," "intend," "plan," "think," "estimate" or "continue" or the negative or other variations thereof, and (ii) statements regarding matters that are not historical facts. Such forward-looking statements are subject to various risks and uncertainties, including risks and uncertainties relating to:

- the possible invalidity of the underlying beliefs and assumptions;
- competitive pressures from department and specialty stores, general merchandise stores, manufacturers' outlets, off-price and discount stores, and all other retail channels, including the Internet, catalogs and television;
- general consumer-spending levels, including the impact of general economic conditions, consumer disposable income levels, consumer confidence levels, the availability, cost and level of consumer debt, the costs of basic necessities and other goods and the effects of the weather or natural disasters;
- conditions to, or changes in the timing of, proposed transactions, including planned store closings, and changes in expected synergies, cost savings and non-recurring charges;
- transactions involving our real estate portfolio;
- possible changes or developments in social, economic, business, industry, market, legal and regulatory circumstances and conditions;
- possible actions taken or omitted to be taken by third parties, including customers, suppliers, business partners, competitors and legislative, regulatory, judicial and other governmental authorities and officials;
- changes in relationships with vendors and other product and service providers;
- currency, interest and exchange rates and other capital market, economic and geo-political conditions;
- severe or unseasonable weather, possible outbreaks of epidemic or pandemic diseases and natural disasters;
- unstable political conditions, civil unrest, terrorist activities and armed conflicts;
- the possible inability of the Company's manufacturers or transporters to deliver products in a timely manner or meet the Company's quality standards;
- the Company's reliance on foreign sources of production, including risks related to the disruption of imports by labor disputes, regional health pandemics, and regional political and economic conditions;
- duties, taxes, other charges and quotas on imports; and
 - possible systems failures and/or security breaches, including, any security breach that results in the theft, transfer or unauthorized disclosure of customer, employee or company information, or the failure to comply with various laws applicable to the Company in the event of such a breach.

In addition to any risks and uncertainties specifically identified in the text surrounding such forward-looking statements, the statements in the immediately preceding sentence and the statements under captions such as "Risk Factors" in reports, statements and information filed by the Company with the SEC from time to time constitute cautionary statements identifying important factors that could cause actual amounts, results, events and circumstances to differ materially from those expressed in or implied by such forward-looking statements.
