SIGN UP TODAY-- HERE'S ALL YOU NEED TO DO...

IF YOUR NUVEEN FUND DIVIDENDS AND STATEMENTS

COME FROM YOUR FINANCIAL ADVISOR OR BROKERAGE ACCOUNT,

FOLLOW THE STEPS OUTLINED BELOW:

- 1 Go to WWW.INVESTORDELIVERY.COM
- 2 Look at the address sheet that accompanied this report. Enter the personal 13-CHARACTER ENROLLMENT NUMBER imprinted near your name on the address sheet.
- 3 You'll be taken to a page with several options. Select the NEW ENROLLMENT-CREATE screen. Once there, enter your e-mail address (e.g. yourID@providerID.com), and a personal, 4-digit PIN of your choice. (Pick a number that's easy to remember.)
- 4 Click Submit. Confirm the information you just entered is correct, then click Submit again.
- 5 You should get a confirmation e-mail within 24 hours. If you do not, go back through these steps to make sure all the information is correct.
- 6 Use this same process if you need to change your registration information or cancel internet viewing.

IF YOUR NUVEEN FUND DIVIDENDS AND STATEMENTS

COME DIRECTLY TO YOU FROM NUVEEN,

FOLLOW THE STEPS OUTLINED BELOW:

- 1 Go to WWW.NUVEEN.COM
- 2 Select the Access Account tab. Select the E-REPORT ENROLLMENT section. Click on Enrollment Page.
- 3 You'll be taken to a screen that asks for your Social Security number and e-mail address. Fill in this information, then click Enroll.
- 4 You should get a confirmation e-mail within 24 hours. If you do not, go back through these steps to make sure all the information is correct.
- 5 Use this same process if you need to change your registration information or cancel internet viewing.

Sidebar text: "I URGE YOU TO CONSIDER RECEIVING FUTURE FUND REPORTS AND OTHER FUND INFORMATION THROUGH THE INTERNET AND BY E-MAIL... SEE THE INSIDE FRONT COVER OF THIS REPORT FOR STEP-BY-STEP INSTRUCTIONS."

Dear
SHAREHOLDER

Once again, I am pleased to write that during the period covered by this report your Nuveen Fund continued to meet its objective of providing attractive monthly income free from federal income taxes and, where applicable, state income taxes. Detailed information on your Fund's performance can be found in the Portfolio Managers' Comments and on the Performance Overview pages within this report. Please take the time to read them.

In addition to providing regular tax-free income, we believe that a municipal bond investment like your Nuveen Fund also may offer opportunities to reduce the risk of your overall investment portfolio. This is because the prices of municipal bonds may move differently than the prices of the common stocks, mutual funds or other investments you may own. Since one part of your portfolio may be going up when another is going down, portfolio diversification may reduce your overall risk. Your financial advisor can explain the advantages of portfolio diversification in more detail. I urge you to contact him or her soon for more information on this important investment strategy.

I also urge you to consider receiving future Fund reports and other Fund information through the Internet and by e-mail rather than in hard copy. Not only will you be able to receive the information faster, but this also may help lower your Fund expenses. Sign up is quick and easy - see the inside front cover of this report for step-by-step instructions.

For more than 100 years, Nuveen has specialized in offering quality investments such as your Nuveen Fund to those seeking to accumulate and preserve wealth. Our commitment to careful research, constant surveillance and judicious trading by our seasoned portfolio management team has never been stronger. Our mission continues to be to assist you and your financial advisor by offering the investment solutions and services that can help you meet your financial objectives. We thank you for choosing us as a partner as you work toward that goal.

Sincerely,

/s/ TIMOTHY R. SCHWERTFEGER

TIMOTHY R. SCHWERTFEGER
Chairman of the Board

Nuveen Municipal Closed-End Exchange-Traded Funds
(NTC, NFC, NGK, NGO, NMT, NMB, NOM)

Portfolio Managers'
COMMENTS

Portfolio managers Paul Brennan and Tom Futrell discuss U.S. and state economic conditions, key investment strategies, and the recent performance of the Funds. Paul, who has eleven years of investment experience, including five with Nuveen, assumed portfolio management responsibility for NTC in 1999, NFC in 2001, and NGK and NGO upon their inceptions in March and September 2002, respectively. A 19-year veteran of Nuveen, Tom has managed NMT since 1998 and NMB and NOM since 2001. (In January 2003, as part of a general realignment of portfolio management assignments, Paul Brennan assumed primary responsibility for NMT and NMB. Rick Huber, who has 17 years' investment management experience, took over NOM. There were no changes in the investment objectives or general investment strategies of these Funds.)

WHAT WERE THE MAJOR FACTORS AFFECTING THE U.S. ECONOMY AND THE MUNICIPAL MARKET DURING THIS REPORTING PERIOD?

In many ways, economic and market conditions did not significantly change since the last shareholder report dated May 2002. We believe the most influential factors affecting the U.S. economy and the municipal market continued to be the slow pace of economic growth and interest rates that remained at 40-year lows. The ongoing threat of terrorism and continued geopolitical uncertainty also had an economic impact during this reporting period.

In the municipal market, the sluggish economic recovery and lack of inflationary pressures helped many bonds perform well during much of 2002. However, during October and, to a lesser degree, November 2002, the market environment for all fixed income investments was negatively impacted by a rebound in the equity markets, which appeared to prompt some investors to sell fixed income products and purchase common stocks.

During the first eleven months of 2002, new municipal supply nationwide reached a record \$328 billion, a 27% increase over January-November 2001 levels. Demand for municipal bonds also remained strong over most of this period, as many individual investors continued to seek investments offering tax-free income and diversification for their portfolios. Institutional investors, especially traditional municipal bond purchasers such as property/casualty insurance companies, also were active buyers.

WHAT ABOUT ECONOMIC AND MARKET CONDITIONS IN THESE STATES?

Despite weaker employment trends and a heavy debt load, Connecticut remained a very affluent state, with the highest per capita income in the nation. While the main drivers of the state's diverse economy - manufacturing, financial services, and insurance - continued to be weak, biopharmaceutical firms exhibited some growth, and housing construction remained strong. As of November 2002, the state's unemployment rate was 4.4%, up from 3.9% a year ago, but still well below the national average of 6.0%. Due to a steep drop in tax collections based on personal income and capital gains, Connecticut experienced budgetary pressures, exhausted its reserves and employed a number of one-time sources to close the gap in its fiscal 2003 budget. As a result, the state has few remaining resources to resolve its current \$500 million shortfall or offset any continued revenue erosion. Reflecting the state's continued budgetary issues, Moody's and Standard & Poor's in August revised their outlooks for Connecticut to negative from

stable, while the state's credit ratings remained at Aa2/AA, respectively.

Edgar Filing: NUVEEN MASSACHUSETTS PREMIUM INCOME MUNICIPAL FUND - Form N-30D

During the first eleven months of 2002, Connecticut went against the general trend toward increased supply, issuing \$4.8 billion in new municipal bonds, down 7% from January–November 2001.

Both Massachusetts and Missouri maintained their Moody's and S&P credit ratings at Aa2/AA- and Aaa/AAA, respectively, although Moody's revised its outlook for Massachusetts to negative from stable in December 2001. As of November 30, 2002, Massachusetts had issued more than \$13 billion in municipal debt in 2002, up 50% over the first 11 months of 2001, while new supply in Missouri totaled \$5 billion, a decline of 22% from 2001 levels. Traditionally a small issuer, Missouri is expected to see increased supply over the next few years, with a \$2.3 billion highway issue and a number of general obligation issues on the municipal schedule.

Looking at the Massachusetts economy, the commonwealth continued to struggle with budget pressures brought on by a drop in tax revenues. The \$2.3 billion shortfall in the fiscal 2003 budget was addressed by freezing a scheduled tax cut, reinstating taxes on capital gains, drawing on rainy day reserves, and further cutting expenses. However, since the 2003 budget was passed, an additional \$99 million gap has emerged, and the projected deficit for fiscal 2004 is currently pegged at \$2 billion. In November 2002, unemployment in Massachusetts stood at 5.0%, as the manufacturing sector continued to shed jobs. Healthcare, education, financial services, and technology remained the commonwealth's primary economic drivers, while its defense contractors stand to gain from increased government spending over the next few years.

In Missouri, the state economy continued to slow, with job losses in construction and wholesale trade and a long-running decline in manufacturing, particularly in old-line sectors such as auto-making. Although the state offers diversity from an industrial perspective, the Missouri job market is expected to show continued weakness, with little new job creation in manufacturing over the short term. New job growth in the non-manufacturing sectors has also been relatively flat in past years. As of November 2002, Missouri's jobless rate remained relatively stable at 5.1%. On the plus side, the state's financial operations continued to be well managed, and debt levels remained relatively low. The combination of well-managed fiscal operations and a good reserve position has provided Missouri with some degree of financial flexibility and a potential cushion against further erosion in tax collections.

HOW DID THESE FUNDS PERFORM OVER THE TWELVE MONTHS ENDED NOVEMBER 30, 2002?

Individual results for the Funds are presented in the accompanying table.

	MARKET YIELD		TOTAL RETURN ON NAV	LEHMAN TOTAL RETURN1	LIPPER AVERAGE2
	11/30/02	TAXABLE- EQUIVALENT3	1 YEAR ENDED 11/30/02	1 YEAR ENDED 11/30/02	1 YEAR ENDED 11/30/02
NTC	5.37%	8.01%	7.68%	6.32%	7.80%
NFC	5.60%	8.36%	8.75%	6.32%	7.80%
NGK	5.48%	8.18%	NA	-	-
NGO	5.36%	8.00%	NA	-	-
NMT	5.68%	8.54%	6.92%	6.32%	7.80%
NMB	5.27%	7.92%	8.98%	6.32%	7.80%

NOM	5.51%	8.35%	7.08%	6.32%	7.80%
-----	-------	-------	-------	-------	-------

Past performance is not predictive of future results.

For additional information, see the individual Performance Overview for your Fund in this report.

- 1 The total annual returns on common share net asset value (NAV) for these Nuveen Funds are compared with the total annual return of the Lehman Brothers Municipal Bond Index, an unleveraged national index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.
- 2 The total returns of these Funds are compared with the average annualized return of the 31 funds in the Lipper Other States Municipal Debt Funds category. Fund and Lipper returns assume reinvestment of dividends.
- 3 The taxable-equivalent yield represents the yield that must be earned on a taxable investment in order to equal the yield of the Nuveen Fund on an after-tax basis. The taxable-equivalent yield is based on the Fund's market yield on the indicated date and a federal income tax rate of 30% plus the applicable state income tax rate. The combined federal and state tax rates used in this report are as follows: Connecticut 33%, Massachusetts 33.5%, and Missouri 34%.

3

For the twelve months ended November 30, 2002, each of the five Funds in this report having at least one year of performance history outperformed the unleveraged, unmanaged Lehman Brothers Municipal Bond Index. We believe that much of this outperformance can be attributed to the leveraged structure of these Funds, which provides the opportunity for additional income for common shareholders while adding volatility to the Fund's NAV and share price. We think it can also be attributed in some cases to the relatively long leverage-adjusted durations⁴ of these Funds, which should help the Funds to perform well during periods of declining interest rates.

It is difficult to compare the performance of these Funds with the Lipper Average shown in the table because Lipper combines the performance of many different funds from different states into one overall multi-state average. Looking specifically at the Connecticut and Massachusetts Funds, we believe that their respective durations were the primary reasons for the performance differences. The older Funds, NTC and NMT, had significantly shorter durations as of November 30, 2002, than NFC and NMB. In a falling interest rate environment, as was the case over most of the reporting period, longer-duration Funds generally would be expected to outperform shorter-duration Funds.

In addition, the performance of each of these Funds was also influenced by other factors, including call exposure, portfolio trading activity, and the price movement of specific sectors. For example, NMT also held \$2.5 million in resource recovery bonds issued for the Ogden Haverhill project in Massachusetts, which were negatively impacted when the parent company declared bankruptcy. While this event hurt the price performance of the bonds, the issue continues to make coupon payments.

HOW DID THE MARKET ENVIRONMENT AFFECT THE FUNDS' DIVIDENDS AND SHARE PRICES?

As the Federal Reserve continued to keep short-term interest rates relatively low, the dividend-paying capabilities of these Funds benefited from their use of leverage, a strategy that can potentially enhance the dividends paid to common shareholders. The amount of this benefit is tied in part to the short-term rates the Funds pay their MuniPreferred, shareholders. Low short-term rates, such as those currently in effect, can enable the Funds to reduce the amount of income they pay preferred shareholders, which can leave more earnings to support common share dividends.

During the year ended November 30, 2002, the relatively low level of short-term interest rates enabled us to implement three dividend increases in NOM and two in both NTC and NMT. NFC and NMB, which were introduced in 2001, and NGK, which debuted in March 2002, continued to pay attractive monthly dividends during this period, while NGO, which was introduced in September 2002, paid its first dividend in November 2002.

Over the course of the entire reporting period, the share prices of NTC, NGK, NMB, and NOM rose.

4 Duration is a measure of a Fund's NAV volatility in reaction to interest rate movements. Fund duration, also known as leverage-adjusted duration, takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund. References to duration in this commentary are intended to indicate Fund duration unless otherwise noted.

4

For NFC, NGO and NMT, however, the general weakening of bond prices during October and November 2002 resulted in share prices that ended the reporting period lower than where they were six months earlier. All of the Funds covered in this report were trading at premiums to their common share net asset values as of the end of this reporting period (see charts on individual Performance Overview pages).

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE YEAR ENDED NOVEMBER 30, 2002?

Over the period, our strategic focus continued to be on working to diversify Fund holdings, enhance call protection, and position the Funds more defensively in anticipation of potential changes in the interest rate environment. Specifically, that included purchasing a number of high-quality and insured bonds as well as bonds in the 15- to 20-year part of the yield curve. We believed bonds in this maturity range offered yields similar to those of longer bonds, but with less overall risk. We think the addition of these long-intermediate bonds should help to moderate the Funds' durations over time, making the portfolios less sensitive to interest rate changes while still allowing the Funds to provide competitive yields and returns.

The addition of bonds with 15- to 20-year maturities resulted in a shortening of the durations for all of the Funds except the older NTC and NMT, where the reinvestment of call proceeds into this part of the yield curve actually led to a modest lengthening of duration.

In addition to an emphasis on yield curve positioning and risk reduction, we also continued to look for individual issues that we believed could perform well regardless of the future direction of interest rates. As supply remained tight

in Connecticut, we took full advantage of new issues as they came to market, concentrating our trading activity on general obligation and higher education issues. In Massachusetts, where supply was more plentiful, our focus was on finding attractive bonds in sectors that we believed were undervalued, including general obligation bonds.

In Missouri, tight supply in both the primary and secondary markets kept trading activity relatively low. One transaction of note was the sale of bonds issued for privatized student housing at Mineral Area College, which at one time represented almost 5% of NOM's portfolio. Based on our assessment of the long-term prospects of this credit, we methodically sold more than 85% of our position over the past twelve months, and we anticipate completely eliminating this position in the near future.

In the current geopolitical and economic climate, we believe that maintaining strong credit quality remains a key requirement. As of November 30, 2002, each of these Funds continued to offer excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 75% to 91%.

In September 2002, we introduced the new Nuveen Connecticut Dividend Advantage Municipal Fund 3 (NGO). As of November 30, 2002, this Fund

5

had completed the initial investment phase and was in the process of investing proceeds from its MuniPreferred offering. As mentioned earlier, NGO paid its first dividend in November 2002.

WHAT IS YOUR OUTLOOK FOR THE MUNICIPAL MARKET IN GENERAL AND THESE FUNDS IN PARTICULAR?

In general, our outlook for the fixed income markets remains positive. We believe the U.S. economy is headed for an eventual recovery, but one that may be less robust and slower to arrive than some are predicting. We expect inflation and interest rates to remain relatively low over the near term, while new municipal volume nationally should continue to be strong, though probably below the record levels seen in 2002, as issuers take advantage of the low rate environment for both new issues and refinancings. Given the continued need for Connecticut and Massachusetts to address budgetary imbalances, issuance should remain strong in these states, while Missouri, as mentioned earlier, also is expected to see an increase in supply. Demand for tax-exempt municipal bonds should remain solid, as investors continue to look for ways to rebalance their portfolios and reduce overall investment risk.

Over the next two years, we believe that these Funds generally will offer good levels of call protection, with call exposure ranging from 1% in NGK and NGO to 26% in NMT during 2003 and 2004. During the past twelve months, we worked to mitigate the call risk and improve the positions of all the Funds, particularly NTC, NMT, and NOM, which mark their 10-year anniversaries in 2003. In Connecticut, in particular, this was an incremental process due to the sporadic nature of issuance in the state. While the number of actual calls in each Fund will depend largely on market interest rates over this time, we believe the short-term call exposure of these Funds is manageable.

In the months ahead, we will attempt to manage Fund durations through additional purchases of high-quality bonds in the 15- to 20-year part of the yield curve. While the projected budget deficits in Connecticut and Massachusetts could result in heavy issuance and increased trading opportunities for us, we will

continue to monitor the potential impact on the states' fiscal health and position our portfolios accordingly. If Missouri supply improves during 2003, our plans include looking for opportunities to sell bonds with call dates of 2005-2007 and reinvesting the proceeds further out on the yield curve. In general, we plan to remain focused on strategies that can add value for our shareholders and provide support for the Funds' long-term dividend-paying capabilities.

- 1 Taxable-equivalent yield represents the yield on a taxable investment necessary to equal the yield of the Nuveen Fund on an after-tax basis. It is calculated using the current market yield and a federal income tax rate of 30%. The rate shown for federal and state highlights the added value of owning shares that are also exempt from state income taxes. It is based on a combined federal and state income tax rate of 33%.

Notes to
FINANCIAL STATEMENTS (Unaudited)

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The state Funds (the "Funds") covered in this report and their corresponding Common share stock exchange symbols are Nuveen Connecticut Premium Income Municipal Fund (NTC), Nuveen Connecticut Dividend Advantage Municipal Fund (NFC), Nuveen Connecticut Dividend Advantage Municipal Fund 2 (NGK), Nuveen Connecticut Dividend Advantage Municipal Fund 3 (NGO), Nuveen Massachusetts Premium Income Municipal Fund (NMT), Nuveen Massachusetts Dividend Advantage Municipal Fund (NMB) and Nuveen Missouri Premium Income Municipal Fund (NOM). Connecticut Premium Income (NTC) and Massachusetts Premium Income (NMT) are traded on the New York Stock Exchange while Connecticut Dividend Advantage (NFC), Connecticut Dividend Advantage 2 (NGK), Connecticut Dividend Advantage 3 (NGO), Massachusetts Dividend Advantage (NMB) and Missouri Premium Income (NOM) are traded on the American Stock Exchange.

Prior to the commencement of operations of Connecticut Dividend Advantage 2 (NGK) and Connecticut Dividend Advantage 3 (NGO) each Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 by Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of The John Nuveen Company, and the recording of the organization expenses (\$11,500 per Fund) and their reimbursement by Nuveen Investments, also a wholly owned subsidiary of The John Nuveen Company.

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within a single state. The Funds are registered under the Investment Company Act of

1940 as closed-end management investment companies.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States.

Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Trustees of the Funds or its designee may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets in a separate account with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At November 30, 2002, Connecticut Premium Income (NTC) and Connecticut Dividend Advantage 3 (NGO) had outstanding when-issued purchase commitments of \$2,091,947 and \$8,565,858, respectively. There were no such outstanding purchase commitments in any of the other Funds.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

Notes to

FINANCIAL STATEMENTS (Unaudited) (continued)

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its net investment income to its shareholders. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds.

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared and paid monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Edgar Filing: NUVEEN MASSACHUSETTS PREMIUM INCOME MUNICIPAL FUND - Form N-30D

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States. Accordingly, temporary over-distributions as a result of these differences may occur and will be classified as either distributions in excess of net investment income, distributions in excess of net realized gains and/or distributions in excess of net ordinary taxable income from investment transactions, where applicable.

Preferred Shares

The Funds have issued and outstanding \$25,000 stated value Preferred shares. Each Fund's Preferred shares are issued in one Series. The dividend rate on each Series may change every seven days, as set pursuant to a dutch auction process by the auction agent, and is payable at or near the end of each rate period. The number of Preferred shares outstanding for each Fund is as follows:

	CONNECTICUT PREMIUM INCOME (NTC)	CONNECTICUT DIVIDEND ADVANTAGE (NFC)	CONNECTICUT DIVIDEND ADVANTAGE 2 (NGK)	CON ADV

Number of shares:				
Series T	--	780	--	
Series W	--	--	700	
Series TH	1,532	--	--	
Series F	--	--	--	

	MASSACHUSETTS PREMIUM INCOME (NMT)	MASSACHUSETTS DIVIDEND ADVANTAGE (NMB)

Number of shares:		
Series T	--	600
Series W	--	--
Series TH	1,360	--
Series F	--	--

Effective November 15, 2002, Connecticut Dividend Advantage 3 (NGO) issued 1,280 Series F \$25,000 stated value Preferred shares.

Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the period ended November 30, 2002.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian

Edgar Filing: NUVEEN MASSACHUSETTS PREMIUM INCOME MUNICIPAL FUND - Form N-30D

fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Offering Costs

Nuveen Investments has agreed to pay all offering costs (other than the sales load) that exceed \$.03 per Common share for Connecticut Dividend Advantage 2 (NGK) and Connecticut Dividend Advantage 3 (NGO). Connecticut Dividend Advantage 2's (NGK) and Connecticut Dividend Advantage 3's (NGO) share of offering costs (\$69,000 and \$129,330, respectively) were recorded as a reduction of the proceeds from the sale of Common shares.

Costs incurred by Connecticut Dividend Advantage 2 (NGK) and Connecticut Dividend Advantage 3 (NGO) in connection with their offering of Preferred shares (\$280,610 and \$761,500, respectively) were recorded as a reduction to paid-in surplus.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

2. FUND SHARES

Transactions in Common and Preferred shares were as follows:

Total	\$2,299,620	\$99,269	\$2,112,227	\$57
=====				

The following Funds have elected to defer net realized losses from investments incurred from November 1, 2001 through May 31, 2002 ("post-October losses") in accordance with Federal income tax regulations. The following post-October losses are treated as having arisen in the following year:

CONNECTICUT DIVIDEND ADVANTAGE (NFC)	MASSACHUSETTS DIVIDEND ADVANTAGE (NMB)	MISSOURI PREMIUM INCOME (NOM)
\$2,886	\$36,824	\$22,638

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Under Connecticut Premium Income's (NTC), Massachusetts Premium Income's (NMB) and Missouri Premium Income's (NOM) investment management agreements with the Adviser, each Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)	MANAGEMENT FEE
For the first \$125 million	.6500%
For the next \$125 million	.6375
For the next \$250 million	.6250
For the next \$500 million	.6125
For the next \$1 billion	.6000
For the next \$3 billion	.5875
For net assets over \$5 billion	.5750

Under Connecticut Dividend Advantage's (NFC), Connecticut Dividend Advantage 2's (NGK), Connecticut Dividend Advantage 3's (NGO) and Massachusetts Dividend Advantage's (NMB) investment management agreements with the Adviser, each Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)	MANAGEMENT FEE
For the first \$125 million	.6500%

Edgar Filing: NUVEEN MASSACHUSETTS PREMIUM INCOME MUNICIPAL FUND - Form N-30D

For the next \$125 million	.6375
For the next \$250 million	.6250
For the next \$500 million	.6125
For the next \$1 billion	.6000
For net assets over \$2 billion	.5750

=====

For the first ten years of Connecticut Dividend Advantage's (NFC) and Massachusetts Dividend Advantage's (NMB) operations, the Adviser has agreed to reimburse the Funds, as a percentage of average daily net assets (including net assets attributable to Preferred shares), for fees and expenses in the amounts, and for the time periods set forth below:

YEAR ENDING JANUARY 31,		YEAR ENDING JANUARY 31,	
2001*	.30%	2007	.25%
2002	.30	2008	.20
2003	.30	2009	.15
2004	.30	2010	.10

* From the commencement of operations.

The Adviser has not agreed to reimburse Connecticut Dividend Advantage 3 (NGO) for any portion of its fees and expenses beyond September 30, 2010.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser.

6. SUBSEQUENT EVENT - DISTRIBUTIONS TO COMMON SHAREHOLDERS

The Funds declared Common share dividend distributions from their tax-exempt net investment income which were paid on December 30, 2002, to shareholders of record on December 15, 2002, as follows:

	CONNECTICUT PREMIUM INCOME (NTC)	CONNECTICUT DIVIDEND ADVANTAGE (NFC)	CONNECTICUT DIVIDEND ADVANTAGE 2 (NGK)	CONNECTICUT DIVIDEND ADVANTAGE 3 (NGO)
Dividend per share	\$.0720	\$.0700	\$.0690	\$.0650

	MASSACHUSETTS PREMIUM INCOME (NMT)	MASSACHUSETTS DIVIDEND ADVANTAGE (NMB)	MISSOURI PREMIUM INCOME (NOM)
Dividend per share	\$.0735	\$.0730	\$.0725

At the same time, Connecticut Premium Income (NTC) declared an ordinary taxable income distribution of \$.0127 per share and Connecticut Dividend Advantage 2 (NGK) declared a capital gains distribution of \$.0124 per share.

Build Your Wealth
AUTOMATICALLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants

in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return (including change in NAV and reinvested dividends) that would have been necessary on an annual basis to equal the investment's actual performance over the time period being considered.

AVERAGE EFFECTIVE MATURITY: The average of all the maturities of the bonds in a

fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

LEVERAGE-ADJUSTED DURATION: Duration is a measure of a bond or bond fund's sensitivity to changes in interest rates. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund.

MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD): An investment's current annualized dividend divided by its current market price.

NET ASSET VALUE (NAV): A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

TAXABLE-EQUIVALENT YIELD: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

Each Fund intends to repurchase shares of its own common or preferred stock in the future at such times and in such amounts as is deemed advisable. No shares were repurchased during the period ended November 30, 2002. Any future repurchases will be reported to shareholders in the next annual or semiannual report.

Serving Investors
FOR GENERATIONS

Photo of: John Nuveen, Sr.

For over a century, generations of Americans have relied on Nuveen Investments to help them grow and keep the money they've earned. Financial advisors, investors and their families have associated Nuveen Investments with quality, expertise and dependability since 1898. That is why financial advisors have entrusted the assets of more than 1.3 million investors to Nuveen.

With the know-how that comes from a century of experience, Nuveen continues to build upon its reputation for quality. Now, financial advisors and investors can count on Nuveen Investments to help them design customized solutions that meet the far-reaching financial goals unique to family wealth strategies - solutions that can translate into legacies.

To find out more about how Nuveen Investments' products and services can help you preserve your financial security, talk with your financial advisor, or call us at (800) 257-8787 for more information, including a prospectus where applicable. Please read that information carefully before you invest.
