**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**NOTE 1 – THE COMPANY**

The Company is engaged in the infectious medical waste disposal business. During the first quarter ended December 2002, we acquired a majority interest in M.C.M. Environmental Technologies, Inc. (“MCM”) which developed, markets and sells the SteriMed and SteriMed Junior compact systems that simultaneously shred and disinfect Regulated Medical Waste. The SteriMed Systems are sold and leased in both the domestic and international markets.

**NOTE 2– BASIS OF PRESENTATION**

The condensed consolidated balance sheet of Caprius Inc., and subsidiaries (“Caprius”, the “Company”) as of June 30, 2007, the condensed consolidated statements of operations for the three month periods ended June 30, 2007 and 2006, and for the nine month periods ended June 30, 2007 and 2006, the condensed consolidated statement of stockholders’ equity for the nine month period ended June 30, 2007 and the condensed consolidated statements of cash flows for the nine months ended June 30, 2007 and 2006, have been prepared by the Company without audit. In the opinion of management, the information contained herein reflects all adjustments necessary to make the presentation of the Company’s condensed financial position, results of operations and cash flows not misleading. All such adjustments are of a normal recurring nature.

The accompanying condensed consolidated financial statements do not contain all of the information and disclosures required by accounting principles generally accepted in the United States of America and should be read in conjunction with the consolidated financial statements and related notes included in the Company’s annual report on Form 10-KSB for the fiscal year ended September 30, 2006, filed with the Securities and Exchange Commission on December 20, 2006.

The accompanying condensed consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and satisfaction of liabilities and commitments in the normal course of business. The Company has incurred substantial recurring losses. In addition, the Company is a defendant in an action seeking damages in excess of \$400,000. Although management believes the Company has a meritorious defense against such a lawsuit, an unfavorable outcome of such action would have a materially adverse impact on our business. During the nine months ended June 30, 2007 the Company used cash flows from operating activities of approximately \$2,053,000. In order to fund the future cash requirements of the Company, the Company continues to pursue efforts to identify additional funds through various funding options, including bank facilities and equity offerings. There can be no assurance that such funding initiatives will be successful and any equity placement could result in substantial dilution to current stockholders. The above factors raise substantial doubt about the Company’s ability to continue as a going concern.

**NOTE 3 – SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES**

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## Stock-Based Compensation

On October 1, 2006, the Company adopted Statement of Financial Accounting Standards (“SFAS”) No. 123 (revised 2004), "Share-Based Payment," ("SFAS 123R"), which is a revision of SFAS No. 123, “Accounting for Stock-Based Compensation” (“SFAS No. 123”). SFAS No. 123R supersedes APB No. 25, “Accounting for Stock Issued to Employees”, and amends SFAS No. 95, “Statement of Cash Flows.” SFAS No. 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based upon their fair values. As a result, the intrinsic value method of accounting for stock options with pro forma footnote disclosure, as allowed for under SFAS No. 123, is no longer permitted.

The Company adopted SFAS No. 123R using the modified prospective method, which requires the Company to record compensation expense for all awards granted after the date of adoption, and for the unvested portion of previously granted awards that remain outstanding at the date of adoption. Accordingly, prior period amounts have not been restated to reflect the adoption of SFAS No. 123R. After assessing alternative valuation models and amortization assumptions, the Company chose to continue using the Black-Scholes valuation model and recognition of compensation expense over the requisite service period of the grant.

The Company recorded total stock-based compensation of \$208,764 from October 1, 2006, through June 30, 2007 for options granted and vested. The \$208,764 has been included in selling, general and administrative expense. As of June 30, 2007 the fair value of the unvested stock options amounted to \$801,502 which is expected to be recognized over a weighted average period of approximately 3 years.

Transactions under the stock option plan during the nine month period ended June 30, 2007 are summarized as follows:

	Number of Options	Weighted Average Exercise Price
Outstanding at October 1, 2006	667,550	\$2.08
Granted	1,180,000	\$0.61
Forfeited / Expired	-	-
Outstanding at June 30, 2007	1,847,550	\$0.86

The following table summarizes information concerning currently outstanding and exercisable stock options:

Range of Exercise Prices	Outstanding Options			Options Exercisable	
	Number Outstanding at June 30, 2007	Weighted-Average Remaining Contractual Life (years)	Weighted-Average Exercise Price	Number Exercisable at June 30, 2007	Weighted-Average Exercise Price
\$0.52 – 0.80	1,280,000	8.80	\$ 0.61	272,045	\$0.64
1.10	458,000	8.58	1.10	162,179	1.10

3.00 – 5.00	79,550	4.28	3.24	79,550	3.24
\$0.52 - \$5.00	1,847,550	8.48	\$0.86	543,774	\$1.22

Prior to October 1, 2006, the Company's stock-based employee compensation plans were accounted for under the recognition and measurement provisions of Accounting Principles Board Opinion ("APB") No. 25, "Accounting for Stock Issued to Employees" ("APB 25"), and related Interpretations, as permitted by Financial Accounting Standards Board ("FASB") Statement No. 123, "Accounting for Stock-Based Compensation," ("SFAS 123").

For the three and nine months ended June 30, 2006, as was permitted under SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure," which amended SFAS No. 123, "Accounting for Stock-Based Compensation," the Company elected to continue to follow the intrinsic value method in accounting for its stock-based employee compensation arrangements as defined by APB No. 25, "Accounting for Stock Issued to Employees," and related interpretations including FASB Interpretation No. 44, "Accounting for Certain Transactions Involving Stock Compensation, an interpretation of APB No. 25." Under the intrinsic value method, no stock-based compensation expenses had been recognized as the exercise price of the grants equaled the fair market value of the underlying stock at the date of grant. For the three and nine months ended June 30, 2006, the Company recorded compensation expense in general and administrative

Table of Contents

expenses amounting to \$610 and \$1,830 respectively, related to stock options granted to employees. The following table illustrates the effect on net loss per share as if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation for the three and nine months ended June 30, 2006:

	Three months ended June 30, 2006	Nine months ended June 30, 2006
Net loss attributable to common stockholders as reported	\$ (687,424)	\$ (3,409,125)
Deduct: Stock-based employee compensation determined under fair value method for all awards, net of related tax effects	(610)	(1,830)
Pro forma net loss attributable to common stockholders	\$ (688,034)	\$ (3,410,955)
Pro forma net loss per share attributable to common stockholders (basic and diluted)	\$ (0.21)	\$ (1.03)

## Loss Per Share

The Company follows Statement of Financial Accounting Standards (SFAS) No. 128, "Earnings Per Share", which provides for the calculation of "basic" and "diluted" earnings (loss) per share. Basic loss per share is computed by dividing loss available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted loss per share reflects the potential dilution that could occur through the effect of common shares issuable upon the exercise of stock options and warrants and convertible securities. As of June 30, 2007 and 2006, potential issuable common shares amounted to 18,023,864 and 4,681,115 respectively, and have not been included in the computation of diluted loss per share since the effect would be antidilutive. The potential common shares issuable as of June 30, 2007 and 2006 are outlined below:

	June 30, 2007	June 30, 2006
Options Outstanding	1,847,550	544,650
Warrants Outstanding	6,498,039	1,659,146
Series B Preferred Stock	57,989	57,989
Series D Preferred Stock	3,370,286	2,419,330
Series E Preferred Stock	6,250,000	0
Total	18,023,864	4,681,115

## Revenue Recognition

The medical infectious waste business recognizes revenues from either the sale or rental of its SteriMed units. Revenues for sales are recognized at the time that the unit is shipped to the customer. Rental revenues are recognized based upon either when services are provided for each month of activity or evenly over the year in the event that a fixed rental agreement is in place.

**NOTE 4 – STOCK OPTIONS**

In May 2002, our Board of Directors adopted the 2002 Stock Option Plan ("2002 Plan") which was ratified at our stockholder meeting of June 26, 2002. At September 30, 2006, 700,000 shares of common stock

Table of Contents

were reserved for issuance under the 2002 Plan, of which options for an aggregate of 506,050 shares were granted and outstanding, and 193,950 shares were available for future grants. Between October 1, 2006 and February 23, 2007, options were granted under the 2002 Plan for an aggregate of 1,180,000 shares, of which 1,036,050 shares were granted subject to stockholder approval of an increase in the number of shares of common stock underlying the 2002 Plan. On December 1, 2006, the Board of Directors voted to amend the 2002 Plan by increasing to 1,500,000 the total number of shares of common stock reserved for issuance thereunder, subject to stockholder approval, and on February 23, 2007, the Board raised the number of shares to 2,500,000, subject to stockholder approval. Stockholder approval was obtained as of February 26, 2007 by the written consent of the holders of more than a majority of outstanding voting shares, and notice thereof was given to the other stockholders. Under the 2002 Plan, options may be awarded to employees, directors and consultants. These options may be qualified or not qualified pursuant to the regulations of the Internal Revenue Code.

On February 26, 2007, those options that were granted subject to stockholder approval were issued by the Company. These options which were granted to officers, directors and employees are at an exercise price ranging from \$0.52 to \$0.80 per share. They are for a 10 year term, vesting after six months as to one-eighth of the options granted, and the balance vesting in equal monthly installments over the next forty-two months. The vesting schedule of these options begins, on the date approved by the Company's Board of Directors. Using the Black Scholes Option pricing model the Company has determined that the fair value of these options range from \$0.32 to \$0.38 per share which equates to a fair value of approximately \$371,000.

On March 5, 2007, we re-priced options for the purchase of an aggregate of 458,000 shares which were originally granted on January 4, 2006. The options were originally issued at an exercise price of \$2.20 per share and were repriced at \$1.10 per share, representing 110% of the then market price of the common stock. Using the Black Scholes Option pricing model, the Company has determined that the additional fair value of these options due to the re-pricing is approximately \$53,700. The Company has taken an immediate charge of \$15,652 for those options which have previously vested and the balance will be expensed over the remaining vesting period of these options.

**NOTE 5 – ROYALTY AGREEMENT**

On June 19, 2007, the Company entered into an amendment to Royalty Agreement (the "Amendment") with Seradyn, Inc. ("Seradyn") with regard to the Royalty Agreement dated October 9, 2002. The Amendment provides for a lump sum payment of \$500,000 by Seradyn to the Company, plus payment of any royalties due for the period from April 1, 2007 to May 15, 2007, for termination by the Company of the Royalty Agreement. The payments were due within ten business days from the entry into the Amendment and were received by the Company on June 28, 2007

**NOTE 6 – EQUITY FINANCING**

On March 1, 2007, the Company closed on a \$2.5 million preferred stock equity financing before financing related fees and expenses of approximately \$106,000. As part of this financing transaction, the Company issued 10,000 shares of Series E convertible preferred stock at \$250 a share. Each share of the Series E preferred stock is convertible into 625 shares of common stock, subject to customary anti-dilution provisions, or an aggregate of 6,250,000 shares of common stock. The Company also issued warrants to purchase an aggregate of 3,125,000 shares of common stock at an exercise price of \$0.50 per share for a period of five years. The Company has determined that the preferred stock was issued with an effective beneficial conversion feature of approximately \$2,347,000 based upon the relative fair values of the preferred stock and warrants using the Black Scholes valuation model. As such, this beneficial conversion feature is recorded as a deemed preferred stock dividend. The Company has also issued warrants to purchase an aggregate of 70,000 shares of common stock at an exercise price of \$0.60 per share for a period of five years as part of the placement fee, to a placement agent and its designees, and warrants to purchase an aggregate of 112,500 shares of common stock at an exercise price of \$0.60 per share for a period of five years as part

of the placement fee to a financial advisor. Using the Black Scholes valuation model the Company has determined that the fair value of these warrants is \$0.33 per share which equates to a fair value of approximately \$61,000. The fair valuation of these warrants has been accounted for in the Company's additional paid-in-capital and has no impact on its statement of operations.

Table of Contents

Pursuant to the 2006 preferred stock placement, the Company issued 241,933 shares of Series D preferred stock, whereby each share was initially convertible into ten shares of common stock, subject to customary anti-dilution provisions. By reason of these anti-dilution provisions, after the Series E preferred stock placement, each non-converted share of Series D preferred stock is convertible into 17.29 shares of common stock or an aggregate of 3,370,286 shares of common stock. Accordingly, upon the conversion of the remaining shares of Series D preferred stock, the Company will issue an additional 1,420,956 shares of common stock

Pursuant to the anti-dilution provisions of the 2005 Series C Preferred Stock placement, the Company has issued an additional 1,280,193 Series A warrants and 251,200 Series B warrants. The original exercise price at the time of the placement for the Series A warrants was \$5.80 and for the Series B warrants was \$2.90. In accordance with these provisions, the exercise price of both the newly issued and originally issued warrants is now \$1.66 and \$1.11 for the Series A and Series B respectively. Also, in accordance with certain milestone provisions of the 2006 Series D Preferred Stock placement the Company has adjusted the exercise price of the warrants associated with this placement from a range of \$1.50 to \$2.00 to a range of \$0.90 to \$1.40.

**NOTE 7 – ECONOMIC DEPENDENCY**

In May 2006, Andre Sassoon and Andre Sassoon International, Inc. (the “Plaintiffs”), filed a complaint against us, our subsidiary, M.C.M. Environmental Technologies, Inc. (“MCM”), and George Aaron, who was then our

CEO(collectively, the “Company Defendants”) in the Supreme Court of the State of New York, New York County, claiming that the defendants had breached an agreement entered into as part of the December 2002 MCM acquisition to pay \$400,000 as settlement of a note previously issued by MCM. The complaint also names all persons who were stockholders of MCM at the time of our original investment in MCM in December 2002. counts, alleging certain misrepresentations by the Company Defendants related to the agreement with the Plaintiffs. The Plaintiffs are seeking damages in excess of \$400,000 or the stock interest of the MCM stockholders at the time of the Company's acquisition. Discovery has been undertaken and depositions have commenced. Based upon our review of the amended complaint, we continue to believe the Plaintiffs' claims have no merit, and the Company Defendants will vigorously defend this action. Accordingly, we have not recorded any accrual for this litigation as of June 30, 2007.

## Table of Contents

Net cash used in operations for the nine months ended June 30, 2007 amounted to \$2,052,661. Net cash used in investing activities amounted to \$36,374. Net cash provided by financing activities amounted to \$2,394,000.

On January 30, 2007, we borrowed the principal amount of \$100,000 through the issuance of a 10% promissory note, payable on April 30, 2007. This “bridge” loan was used for general working capital, until additional funding was secured. This note, plus interest, was repaid in March 2007 upon the placement of Series E Preferred Stock.

On March 1, 2007, we closed on a \$2.5 million Series E Preferred Stock equity financing before financing related fees and expenses of approximately \$106,000. This placement consisted of 10,000 shares of Series E Convertible Preferred Stock at \$250 a share. Each share of the Series E Preferred Stock is convertible into 625 shares of common stock, subject to customary anti-dilution provisions, or an aggregate of 6,250,000 shares of common stock. Commencing October 1, 2007, the holders of the Series E Preferred Stock are entitled to receive a cash dividend at a per share rate equal to \$13.50 per annum, and a liquidation preference of \$250 per share plus accrued and unpaid dividends, and ranking pari passu with the Series B and Series D Preferred Stock. The Series E Preferred Stock votes on an as-converted basis with the common stock, and has a separate vote with respect to matters directly affecting this Series. Neither we nor the holders of the Series E Preferred Stock have the right to cause the redemption thereof. The net proceeds will be used for general working capital purposes and the repayment of the January 30, 2007 10% Promissory Note as outlined above.

In June 2007, we received \$500,000 from Seradyn, Inc. as a lump sum payment upon the termination of the Royalty Agreement, plus an additional \$29,500 representing royalties due for prior periods.

### **Going Concern and Management’s Plan**

The Company continues to incur significant operating losses. In addition, we are a defendant in an action seeking damages in excess of \$400,000. Although we believe we have a meritorious defense against such a lawsuit, an unfavorable outcome of such action would have a materially adverse impact on our business. In order to fund the additional cash requirements of the Company, the Company continues to pursue efforts to identify additional funds through various funding options. Given the Company’s low share price and current volume of business, there is no assurance that we will be able to obtain such additional funding or on terms not highly dilutive to current stockholders, and the lack of additional capital could have a material adverse impact on our business. If we are unable to generate sufficient cash flows from our business operations or raise additional funding to continue our operations, we will have to implement a plan to drastically curtail operations to reduce operating costs until sufficient additional capital is raised. There can be no assurance that such a plan, if implemented, will be successful. The aforementioned factors raise substantial doubt about our ability to continue as a going concern.

### **Item 3. Controls & Procedures**

Our principal executive officer and principal financial officer, based on their evaluation of our disclosure controls and procedures (as defined in Rules 13a-14 (c) and 15d-14 (c) of the Securities Exchange Act of 1934) as of June 30, 2007, have concluded that our disclosure controls and procedures are effective to ensure that material information relating to us and our consolidated subsidiaries are recorded, processed, summarized and reported within the time periods specified by the SEC’s rules and forms, particularly during the period in which this quarterly report has been prepared.

Our principal executive officer and principal financial officer have concluded that there were no significant changes in our internal controls or in other factors that could significantly affect these controls for the quarter ended June 30, 2007, the date of their most recent evaluation of such controls, and that there were no significant deficiencies or material weaknesses in our internal controls.

**Item 1. Legal Proceedings**

In May 2006, Andre Sassoon and Andre Sassoon International, Inc. (the “Plaintiffs”), filed a complaint against us, our subsidiary, M.C.M. Environmental Technologies, Inc. (“MCM”), and George Aaron, who was then our CEO(collectively, the “Company Defendants”) in the Supreme Court of the State of New York, New York County, claiming that the defendants had breached an agreement entered into as part of the December 2002 MCM acquisition to pay \$400,000 as settlement of a note previously issued by MCM. The complaint also names all persons who were stockholders of MCM at the time of our original investment in MCM in December 2002. In June 2006, the Plaintiffs filed an amended complaint to include additional counts, alleging certain misrepresentations by the Company Defendants related to the agreement with the Plaintiffs. The Plaintiffs are seeking damages in excess of \$400,000 or the stock interest of the MCM stockholders at the time of the Company’s acquisition. Discovery has been undertaken and depositions have commenced. Based upon our review of the amended complaint, we continue to believe the Plaintiffs’ claims have no merit, and the Company Defendants will vigorously defend this action. Accordingly, we have not recorded any accrual for this litigation as of June 30, 2007.
