Item 2.02. Results of Operations and Financial Condition.

On January 26, 2010, Ventas, Inc. (the Company) issued a press release announcing its preliminary 2009 normalized Funds From Operations (FFO) results.

A copy of the press release is furnished herewith as Exhibit 99.1 and incorporated in this Item 2.02 by reference.

The press release states that the Company expects to report normalized FFO for the year ended December 31, 2009 in the range of \$2.67 to \$2.68 per diluted share. The Company expects to report 2009 net income attributable to common stockholders in the range of \$1.72 to \$1.74 per diluted share.

Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, many industry investors have considered presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. To overcome this problem, the Company considers FFO, normalized FFO and Funds Available for Distribution (FAD) appropriate measures of performance of an equity REIT. The Company uses the National Association of Real Estate Investment Trusts (NAREIT) definition of FFO. NAREIT defines FFO as net income, computed in accordance with U.S. generally accepted accounting principles (GAAP), excluding gains (or losses) from sales of property, plus real estate depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect FFO on the same basis. The Company defines normalized FFO as FFO excluding income and expense items that it considers to be non-routine to its core business. FAD represents normalized FFO excluding straight-line rental adjustments and routine capital expenditures.

FFO, normalized FFO and FAD presented by the Company are not necessarily comparable to FFO and FAD presented by other real estate companies due to the fact that not all real estate companies use the same definitions. FFO, normalized FFO and FAD should not be considered as alternatives to net income (determined in accordance with GAAP) as indicators of the Company's financial performance or as alternatives to cash flow from operating activities (determined in accordance with GAAP) as measures of the Company's liquidity, nor are FFO, normalized FFO or FAD necessarily indicative of sufficient cash flow to fund all of the Company's needs. The Company believes that in order to facilitate a clear understanding of the consolidated historical operating results of the Company, FFO and FAD should be examined in conjunction with net income as presented by the Company.

FORWARD-LOOKING STATEMENTS

This Current Report on Form 8-K includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements regarding the Company's or its tenants', operators', managers' or borrowers' expected future financial position, results of operations, cash flows, funds from operations, dividends and dividend plans, financing plans, business strategy, budgets, projected costs, capital expenditures, competitive positions, acquisitions, investment opportunities, merger integration, growth opportunities, dispositions, expected lease income, continued qualification as a real estate investment trust (REIT), plans and objectives of management for future operations and statements that include words such as anticipate, if, believe, plan, estimate, expect, intend, may, could, should, will and other forward-looking statements. These forward-looking statements are inherently uncertain, and security holders must recognize that actual results may differ from the Company's expectations. The Company does not undertake a duty to update these forward-looking statements, which speak only as of the date on which they are made.

The Company's actual future results and trends may differ materially from expectations depending on a variety of factors discussed in the Company's filings with the Securities and Exchange Commission. These factors include without limitation: (a) the ability and willingness of the Company's operators, tenants, borrowers, managers and other third parties to meet and/or perform their obligations under their respective contractual arrangements with the Company, including, in some cases, their obligations to indemnify, defend and hold the Company harmless from and against various claims, litigation and liabilities; (b) the ability of the Company's operators, tenants, borrowers and managers to maintain the financial strength and liquidity necessary to satisfy their respective obligations and liabilities to third parties, including without limitation obligations under their existing credit facilities and other indebtedness; (c) the Company's success in implementing its business strategy and its ability to identify, underwrite, consummate, finance and integrate diversifying acquisitions or investments, including those in different asset types and outside the

United States; (d) the nature and extent of future competition; (e) the extent of future or pending healthcare reform and regulation, including cost containment measures and changes in reimbursement policies, procedures and rates; (f) increases

in the Company's cost of borrowing as a result of changes in interest rates and other factors; (g) the ability of the Company's operators and managers, as applicable, to deliver high quality services, to attract and retain qualified personnel and to attract residents and patients; (h) the results of litigation affecting the Company; (i) changes in general economic conditions and/or economic conditions in the markets in which the Company may, from time to time, compete, and the effect of those changes on the Company's revenues and its ability to access the capital markets or other sources of funds; (j) the Company's ability to pay down, refinance, restructure and/or extend its indebtedness as it becomes due; (k) the Company's ability and willingness to maintain its qualification as a REIT due to economic, market, legal, tax or other considerations; (l) final determination of the Company's taxable net income for the year ended December 31, 2009 and for the year ending December 31, 2010; (m) the ability and willingness of the Company's tenants to renew their leases with the Company upon expiration of the leases and the Company's ability to reposition its properties on the same or better terms in the event such leases expire and are not renewed by the Company's tenants or in the event the Company exercises its right to replace an existing tenant upon default; (n) risks associated with the Company's senior living operating portfolio, such as factors causing volatility in the Company's operating income and earnings generated by its properties, including without limitation national and regional economic conditions, costs of materials, energy, labor and services, employee benefit costs and professional and general liability claims, and the timely delivery of accurate property-level financial results for those properties; (o) the movement of U.S. and Canadian exchange rates; (p) year-over-year changes in the Consumer Price Index and the effect of those changes on the rent escalators, including the rent escalator for Master Lease 2 with Kindred Healthcare, Inc., and the Company's earnings; (q) the Company's ability and the ability of its operators, tenants, borrowers and managers to obtain and maintain adequate liability and other insurance from reputable and financially stable providers; (r) the impact of increased operating costs and uninsured professional liability claims on the liquidity, financial condition and results of operations of the Company's operators, tenants, borrowers and managers, and the ability of the Company's operators, tenants, borrowers and managers to accurately estimate the magnitude of those claims; (s) the ability and willingness of the lenders under the Company's unsecured revolving credit facilities to fund, in whole or in part, borrowing requests made by the Company from time to time; (t) the impact of market or issuer events on the liquidity or value of the Company's investments in marketable securities; and (u) the impact of any financial, accounting, legal or regulatory issues that may affect the Company's major tenants, operators or managers. Many of these factors are beyond the control of the Company and its management.

Item 9.01. Financial Statements and Exhibits.

(a) *Financial Statements of Businesses Acquired.*
