Table of Contents**ACUITY BRANDS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)***(Amounts in millions, except per-share data and as indicated)***1. Description of Business and Basis of Presentation**

Acuity Brands, Inc. (Acuity Brands) is the parent company of Acuity Brands Lighting, Inc. (ABL), and other subsidiaries (collectively referred to herein as the Company). The Company designs, produces, and distributes a broad array of indoor and outdoor lighting fixtures and related products, including lighting controls, and services for commercial and institutional, industrial, infrastructure, and residential applications for various markets throughout North America and select international markets. The Company has one operating segment.

On October 14, 2010, the Company acquired for cash all of the outstanding capital stock of Winona Lighting, Inc. (Winona Lighting), a premier provider of architectural and high-performance indoor and outdoor lighting products headquartered in Minnesota. Winona Lighting served the commercial, retail, and institutional markets with a product portfolio of high-quality and design-oriented luminaires suitable for decorative, custom, asymmetric, and landscape lighting applications. The operating results for Winona Lighting have been included in the Company s consolidated financial statements since the date of acquisition.

On July 26, 2010, the Company acquired the remaining outstanding capital stock of Renaissance Lighting, Inc. (Renaissance), a privately-held innovator of solid-state light-emitting diode (LED) architectural lighting. Renaissance, based in Herndon, Virginia, offered a full range of LED-based specification-grade downlighting luminaires and has developed an extensive intellectual property portfolio related to advanced LED optical solutions and technologies. Previously, the Company entered into a strategic partnership with Renaissance, which included a noncontrolling interest in Renaissance and a license to Renaissance s intellectual property estate. The operating results of Renaissance have been included in the Company s consolidated financial statements since the date of acquisition.

On April 20, 2009, the Company acquired all of the outstanding capital stock of Sensor Switch, Inc. (Sensor Switch), an industry-leading developer and manufacturer of lighting controls and energy management systems. Sensor Switch, based in Wallingford, Connecticut, offered a wide-breadth of products and solutions that substantially reduce energy consumption, including occupancy sensors, photocontrols, and distributed lighting control devices. The operating results of Sensor Switch have been included in the Company s consolidated financial statements since the date of acquisition.

On December 31, 2008, the Company acquired for cash and stock substantially all the assets and assumed certain liabilities of Lighting Controls & Design (LC&D). Located in Glendale, California, LC&D is a manufacturer of comprehensive digital lighting controls and software that offered a breadth of products, ranging from dimming and building interfaces to digital thermostats, all within a single, scalable system. The operating results of LC&D have been included in the Company s consolidated financial statements since the date of acquisition.

The *Consolidated Financial Statements* have been prepared by the Company in accordance with U.S. generally accepted accounting principles (U.S. GAAP) and present the financial position, results of operations, and cash flows of Acuity Brands and its wholly-owned subsidiaries. References made to years are for fiscal year periods.

The unaudited interim consolidated financial statements included herein have been prepared by the Company in accordance with U.S. GAAP and present the financial position, results of operations, and cash flows of the Company. These interim consolidated financial statements reflect all normal and recurring adjustments which are, in the opinion of management, necessary to present fairly the Company s consolidated financial position as of November 30, 2010, the consolidated results of operations for the three months ended November 30, 2010 and 2009, and the consolidated cash flows for the three months ended November 30, 2010 and 2009. Certain information and footnote disclosures normally included in the Company s annual financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. However, the Company believes that the disclosures included herein are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the audited consolidated financial statements of the Company as of and for the three years ended August 31, 2010 and notes thereto included in the Company s Annual Report on Form 10-K filed with the Securities and Exchange Commission (the SEC) on October 29, 2010 (File No. 001-16583) (Form 10-K).

The results of operations for the three months ended November 30, 2010 and 2009 are not necessarily indicative of the results to be expected for the full fiscal year because the net sales and net income of the Company historically have been higher in the second half of its fiscal year and because of the continued uncertainty of general economic conditions that may impact the key end markets of the Company for the remainder of fiscal 2011.

2. Significant Accounting Policies

Use of Estimates

The preparation of financial statements and related disclosures in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at

Table of Contents**ACUITY BRANDS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)***(Amounts in millions, except per-share data and as indicated)*

the date of the financial statements, and the reported amounts of revenue and expense during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The Company has evaluated for recognition and disclosure subsequent events for occurrences and transactions after the date of the condensed financial statements at November 30, 2010 and for the three months ended November 30, 2010.

Revenue Recognition

The Company records revenue when the following criteria are met: persuasive evidence of an arrangement exists, delivery has occurred, the Company's price to the customer is fixed and determinable, and collectability is reasonably assured. Delivery is not considered to have occurred until the customer assumes the risks and rewards of ownership. Customers take delivery at the time of shipment for terms designated free on board shipping point. For sales designated free on board destination, customers take delivery when the product is delivered to the customer's delivery site. Provisions for certain rebates, sales incentives, product returns, and discounts to customers are recorded in the same period the related revenue is recorded. The Company also maintains one-time or on-going marketing and trade-promotion programs with certain customers that require the Company to estimate and accrue the expected costs of such programs. These arrangements include cooperative marketing programs, merchandising of the Company's products, and introductory marketing funds for new products and other trade-promotion activities conducted by the customer. Costs associated with these programs are reflected within the Company's *Consolidated Statements of Income* in accordance with the Accounting Standards Codification (ASC) Topic 605, *Revenue Recognition* (ASC 605), which in most instances requires such costs be recorded as a reduction of revenue.

The Company provides for limited product return rights to certain distributors and customers, primarily for slow moving or damaged items subject to certain defined criteria. The Company monitors product returns and, at the time revenue is recognized, records a provision for the estimated amount of future returns based primarily on historical experience and specific notification of pending returns. Although historical product returns generally have been within expectations, there can be no assurance that future product returns will not exceed historical amounts. A significant increase in product returns could have a material impact on the Company's operating results in future periods.

Revenue is earned on services and the sale of products. Revenue is recognized for services rendered in the period of performance.

Revenue Recognition for Arrangements with Multiple Deliverables

A portion of the Company's revenues are derived from (i) the sale and license of its products, (ii) fees associated with training, installation, and technical support services, and (iii) monitoring and control services. Certain agreements, particularly related to lighting controls systems, represent multiple-element arrangements that include tangible products that contain software that is essential to the functionality of the systems and undelivered elements that primarily relate to installation and monitoring and control services. The undelivered elements associated with installations and monitoring and control services are reviewed and analyzed to determine separability in relation to the delivered elements and appropriate pricing treatment based on (a) vendor-specific objective evidence, (b) third-party evidence, or (c) estimates. If deemed separate units of accounting, the revenue and associated cost of sales related to the delivered elements are realized at the time of delivery, while those related to the undelivered elements are recognized appropriately based on the period of performance. As such, if the separation criterion for the undelivered elements is not met, the undelivered elements are considered essential to the functionality of the lighting controls systems; thus, all revenue and cost of sales attributable to the contract are deferred at the time of sale and are both generally recognized on a straight-line basis over the respective contract periods.

For a description of other significant accounting policies, see the *Summary of Significant Accounting Policies* footnote to the Financial Statements included in the Company's Form 10-K. There have been no material changes to the Company's significant accounting policies since the filing of the Company's 2010 Annual Report on Form 10-K, except as noted above and in the *New Accounting Pronouncements* footnote.

3. New Accounting Pronouncements

Accounting Standards Adopted in Fiscal 2011

In September 2009, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2009-13, *Revenue Recognition (Topic 605) Multiple-Deliverable Revenue Arrangements* (ASU 2009-13). ASU 2009-13 addresses the accounting for multiple-deliverable arrangements to enable vendors to account for products or services (deliverables) separately rather than as a combined unit. Specifically, this guidance amends the criteria in Subtopic 605-25, *Revenue Recognition-Multiple-Element Arrangements*, for separating consideration in multiple-deliverable arrangements. A selling price hierarchy is established for determining the selling price of a deliverable, which is based on: (a) vendor-specific objective evidence; (b) third-party evidence; or

7

Table of Contents**ACUITY BRANDS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)***(Amounts in millions, except per-share data and as indicated)*

(c) estimates. This guidance also eliminates the residual method of allocation and requires that arrangement consideration be allocated at the inception of the arrangement to all deliverables using the relative selling price method. Additional disclosures related to a vendor's multiple-deliverable revenue arrangements are also required by this update. ASU 2009-13 is effective prospectively for revenue arrangements entered into, or materially modified, in fiscal years beginning on or after June 15, 2010 with early adoption permitted. Therefore, ASU 2009-13 became effective on a prospective basis for the Company on September 1, 2010. The adoption of ASU 2009-13 had an immaterial impact on the Company's results of operations, financial condition, and cash flows.

In September 2009, the FASB issued ASU No. 2009-14, *Software (Topic 985) - Certain Revenue Arrangements That Include Software Elements* (ASU 2009-14). ASU 2009-14 changes the accounting model for revenue arrangements that include both tangible products and software elements to allow for alternatives when vendor-specific objective evidence does not exist. Under this guidance, tangible products containing software components and non-software components that function together to deliver the tangible product's essential functionality and hardware components of a tangible product containing software components are excluded from the software revenue guidance in Subtopic 985-605, *Software-Revenue Recognition*; thus, these arrangements are excluded from this update. ASU 2009-14 is effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010 with early adoption permitted. Therefore, ASU 2009-14 became effective on a prospective basis for the Company on September 1, 2010. The adoption of ASU 2009-14 had an immaterial impact on the Company's results of operations, financial condition, and cash flows.

Accounting Standards Yet to Be Adopted

In December 2010, the FASB issued ASU No. 2010-29, *Business Combinations (Topic 805) - Disclosure of Supplementary Pro Forma Information for Business Combinations* (ASU 2010-29). This standard update clarifies that, when presenting comparative financial statements, SEC registrants should disclose revenue and earnings of the combined entity as though the current period business combinations had occurred as of the beginning of the comparable prior annual reporting period only. The update also expands the supplemental pro forma disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. ASU 2010-29 is effective prospectively for material (either on an individual or aggregate basis) business combinations entered into in fiscal years beginning on or after December 15, 2010 with early adoption permitted. ASU 2010-29 is therefore effective for the Company for acquisitions made after the beginning of fiscal 2012. The Company is currently in the process of determining the impact, if any, of adoption of the provisions of ASU 2010-29.

4. Acquisitions***Winona Lighting Acquisition***

On October 14, 2010, the Company acquired for cash all of the outstanding capital stock of Winona Lighting, Inc. (Winona Lighting), a premier provider of architectural and high-performance indoor and outdoor lighting products headquartered in Minnesota. Recognized throughout the architectural design community, Winona Lighting served the commercial, retail, and institutional markets with a product portfolio of high-quality and design-oriented luminaires suitable for decorative, custom, asymmetric, and landscape lighting applications.

Due to the provisions of ASC 805, *Business Combinations* (ASC 805), the Company expensed an immaterial amount in acquisition costs in current quarter earnings.

The operating results of Winona Lighting have been included in the Company's consolidated financial statements since the date of acquisition and are not material to the Company's financial condition, results of operations, or cash flows. Preliminary amounts related to the acquisition are reflected in the *Consolidated Balance Sheets* as of November 30, 2010. These amounts are deemed to be provisional until disclosed otherwise as the Company continues to gather information related to the identification and valuation of intangible and other acquired assets and liabilities.

Renaissance Acquisition

On July 26, 2010, the Company acquired the remaining outstanding capital stock of Renaissance. Renaissance, based in Herndon, Virginia, offered a full range of LED-based specification-grade downlighting luminaires and had developed an extensive intellectual property portfolio related to advanced LED optical solutions and technologies.

The operating results of Renaissance have been included in the Company's consolidated financial statements since the date of acquisition and are not material to the Company's financial condition, results of operations, or cash flows. These amounts are deemed to be provisional until disclosed otherwise as the Company continues to gather information related to the identification and valuation of intangible and other acquired assets and liabilities. For a detailed discussion of the Renaissance acquisition, please refer to the Company's Form 10-K.

Table of Contents**ACUITY BRANDS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)***(Amounts in millions, except per-share data and as indicated)***5. Fair Value Measurements**

The Company determines a fair value measurement based on the assumptions a market participant would use in pricing an asset or liability. ASC 820, *Fair Value Measurements and Disclosures* (ASC 820), established a three level hierarchy making a distinction between market participant assumptions based on (i) unadjusted quoted prices for identical assets or liabilities in an active market (Level 1), (ii) quoted prices in markets that are not active or inputs that are observable either directly or indirectly for substantially the full term of the asset or liability (Level 2), and (iii) prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement (Level 3).

The following table presents information about assets and liabilities required to be carried at fair value and measured on a recurring basis as of November 30, 2010 and August 31, 2010:

	Fair Value Measurements as of:			
	November 30, 2010		August 31, 2010	
	Level 1	Total Fair Value	Level 1	Total Fair Value
Assets:				
Cash and cash equivalents	\$ 152.2	\$ 152.2	\$ 191.0	\$ 191.0
Long-term investments (1)	3.4	3.4	3.1	3.1
Liabilities:				
Deferred compensation plan (2)	\$ 3.4	\$ 3.4	\$ 3.1	\$ 3.1

- (1) The Company maintains certain investments that generate returns that offset changes in certain liabilities related to deferred compensation arrangements.
- (2) The Company maintains a self-directed, non-qualified deferred compensation plan structured as a rabbi trust primarily for certain retired executives and other highly compensated employees.

The Company utilizes valuation methodologies to determine the fair values of its financial assets and liabilities in conformity with the concepts of exit price and the fair value hierarchy as prescribed in ASC 820. All valuation methods and assumptions are validated at least quarterly to ensure the accuracy and relevance of the fair values. There were no material changes to the valuation methods or assumptions used to determine fair values during the current period.

The Company used the following valuation methods and assumptions in estimating the fair value of the following assets and liabilities:

Cash and cash equivalents are classified as Level 1 assets. The carrying amounts for cash reflect the assets' fair values, and the fair values for cash equivalents are determined based on quoted market prices.

Long-term investments are classified as Level 1 assets. These investments consist primarily of publicly traded marketable equity securities and fixed income securities, and the fair values are obtained through market observable pricing.

Deferred compensation plan liabilities are classified as Level 1 within the hierarchy. The fair values of the liabilities are directly related to the valuation of the long-term investments held in trust for the plan. Hence, the carrying value of the deferred compensation liability represents the fair value of the investment assets.

The Company does not have any assets or liabilities that are carried at fair value and measured on a recurring basis classified as Level 2 or Level 3 assets or liabilities. In addition, no transfers between the levels of the fair value hierarchy occurred during the current fiscal period. In the event of a transfer in or out of Level 1, the transfers would be recognized on the date of occurrence.

Disclosures of fair value information about financial instruments, whether or not recognized in the balance sheet, for which it is practicable to estimate that value are required each reporting period in addition to any financial instruments carried at fair value on a recurring basis as prescribed by ASC 825, *Financial Instruments*, (ASC 825). In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows.

Table of Contents**ACUITY BRANDS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)***(Amounts in millions, except per-share data and as indicated)*

The carrying values and estimated fair values of certain of the Company's financial instruments were as follows at November 30, 2010 and August 31, 2010:

	November 30, 2010		August 31, 2010	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Liabilities:				
Senior unsecured public notes, net of unamortized discount	\$ 349.4	\$ 375.4	\$ 349.3	\$ 384.5
Industrial revenue bond	4.0	4.0	4.0	4.0

Notes are carried at the outstanding balance, including bond discounts, as of the end of the reporting period. Fair value is estimated based on the discounted future cash flows using rates currently available for debt of similar terms and maturity.

The industrial revenue bond is carried at the outstanding balance as of the end of the reporting period. The industrial revenue bond is a tax-exempt, variable-rate instrument that resets on a weekly basis, and, therefore, the Company estimates that the face amount of the bond approximates fair value as of November 30, 2010.

ASC 825 excludes certain financial instruments and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented do not represent the underlying value of the Company. In many cases, the fair value estimates cannot be substantiated by comparison to independent markets, nor can the disclosed value be realized in immediate settlement of the instruments. In evaluating the Company's management of liquidity and other risks, the fair values of all assets and liabilities should be taken into consideration, not only those presented above.

6. Goodwill and Intangible Assets

Through multiple acquisitions, the Company acquired intangible assets consisting primarily of trademarks associated with specific products with finite lives, definite-lived distribution networks, patented technology, non-compete agreements, and customer relationships, which are amortized over their estimated useful lives. Indefinite lived intangible assets consist of trade names that are expected to generate cash flows indefinitely.

The Company recorded amortization expense of \$2.3 and \$1.9 related to intangible assets with finite lives during the three months ended November 30, 2010 and 2009, respectively. Amortization expense is expected to be approximately \$8.5 in fiscal 2011, \$7.3 in fiscal 2012, \$6.5 in fiscal 2013, \$6.4 in fiscal 2014, and \$6.2 in fiscal 2015. The decrease in expected amortization expense in fiscal 2012 is due to the completion of the amortization during fiscal 2011 of certain acquired patented technology assets. The decrease in fiscal 2013 is due to the completion of the amortization during fiscal 2012 of certain acquired customer relationships.

7. Inventories

Inventories include materials, direct labor, and related manufacturing overhead. Inventories are stated at the lower of cost (on a first-in, first-out or average cost basis) or market and consist of the following:

	November 30, 2010	August 31, 2010
Raw materials and supplies	\$ 93.6	\$ 76.4
Work in process	8.3	8.8
Finished goods	82.8	73.2
	184.7	158.4
Less: Reserves	(11.0)	(9.4)

Total Inventory	\$	173.7	\$	149.0
-----------------	----	-------	----	-------

8. Earnings per share

Basic earnings per share is computed by dividing net earnings available to common stockholders by the weighted average number of common shares outstanding, which has been modified to include the effects of all participating securities (unvested share-based

Table of Contents**ACUITY BRANDS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)***(Amounts in millions, except per-share data and as indicated)*

payment awards with a right to receive nonforfeitable dividends) as prescribed by the two-class method under ASC 260, *Earnings Per Share* (ASC 260), during the period. Diluted earnings per share is computed similarly but reflects the potential dilution that would occur if dilutive options were exercised and other distributions related to deferred stock agreements were incurred. Stock options of 21,740 shares and 483,752 shares (whole units) were excluded from the diluted earnings per share calculation for the three months ended November 30, 2010 and 2009, respectively, as the effect of inclusion would have been antidilutive. Further discussion of the Company's stock options and restricted stock awards are included within the *Common Stock and Related Matters* and *Share-Based Payments* footnotes of the *Notes to Consolidated Financial Statements* within the Company's Form 10-K.

The following table calculates basic and diluted earnings per common share for the three months ended November 30, 2010 and 2009:

	Three Months Ended November 30, 2010 2009	
Basic earnings per share:		
Net income	\$ 24.4	\$ 23.3
Basic weighted average shares outstanding	42.0	42.3
Basic earnings per share	\$ 0.57	\$ 0.54
Diluted earnings per share:		
Net income	\$ 24.4	\$ 23.3
Basic weighted average shares outstanding	42.0	42.3
Common stock equivalents	0.8	0.8
Diluted weighted average shares outstanding	42.8	43.1
Diluted earnings per share	\$ 0.56	\$ 0.53

9. Comprehensive Income

Comprehensive income represents the measures of all changes in equity that result from recognized transactions and other economic events other than transactions with owners in their capacity as owners. Other comprehensive income includes foreign currency translation adjustments. The calculation of comprehensive income is as follows:

	Three Months Ended November 30, 2010 2009	
Net income	\$ 24.4	\$ 23.3
Foreign currency translation adjustments	4.5	3.7
Comprehensive income	\$ 28.9	\$ 27.0

10. Debt

Lines of Credit

On October 19, 2007, the Company executed a \$250.0 revolving credit facility, which matures in October 2012 (the Revolving Credit Facility). At November 30, 2010, the Company had outstanding letters of credit totaling \$10.7, primarily for securing collateral requirements under the casualty insurance programs for Acuity Brands and for providing credit support for the Company s industrial revenue bond. At November 30, 2010, a total of \$6.5 of the letters of credit was issued under the Revolving Credit Facility, thereby reducing the total availability under the facility by such amount. At November 30, 2010, the Company had additional borrowing capacity of \$243.5 under the most restrictive covenant in effect at the time, and was compliant with all financial covenants under the Revolving Credit Facility.

Table of Contents**ACUITY BRANDS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)***(Amounts in millions, except per-share data and as indicated)*

Further details regarding the Company's lines of credit are included within the *Debt and Lines of Credit* footnote of the *Notes to Consolidated Financial Statements* within the Company's Form 10-K.

Notes

At November 30, 2010, the Company had \$350.0 of publicly traded notes outstanding at a 6.0% interest rate that are scheduled to mature in December 2019, and \$4.0 in a tax-exempt industrial revenue bond that is scheduled to mature in 2021. Further discussion of the Company's debt is included within the *Debt and Lines of Credit* footnote of the *Notes to Consolidated Financial Statements* within the Company's Form 10-K.

Interest Expense

Interest expense, net, is comprised primarily of interest expense on long-term debt, obligations in connection with non-qualified retirement plans, and Revolving Credit Facility borrowings, partially offset by interest income on cash and cash equivalents.

The following table summarizes the components of interest expense, net:

	Three Months Ended November 30,	
	2010	2009
Interest expense	\$ 7.6	\$ 6.8
Interest income	(0.1)	(0.1)
Interest expense, net	\$ 7.5	\$ 6.7

11. Commitments and Contingencies

In the normal course of business, the Company is subject to the effects of certain contractual stipulations, events, transactions, and laws and regulations that may, at times, require the recognition of liabilities, such as those related to self-insurance reserves and claims, legal and contractual issues, environmental laws and regulations, guarantees, and indemnities. The Company establishes reserves when the associated costs related to uncertainties or guarantees become probable and can be reasonably estimated. For the period ended November 30, 2010, no material changes have occurred in the Company's reserves for self-insurance, litigation, environmental matters, or guarantees and indemnities, or relevant events and circumstances, from those disclosed in the *Commitments and Contingencies* footnote within the Company's 10-K.

For more information on the Company's commitments and contingencies, please refer to the *Commitments and Contingencies* footnote within the Company's 10-K.

Product Warranty and Recall Costs

Acuity Brands records an allowance for the estimated amount of future warranty claims when the related revenue is recognized, primarily based on historical experience of identified warranty claims. However, there can be no assurance that future warranty costs will not exceed historical experience. If actual future warranty costs exceed historical amounts, additional allowances may be required, which could have a material adverse impact on the Company's results of operations and cash flows in future periods.

The changes in product warranty and recall reserves (included in *Other accrued liabilities* on the *Consolidated Balance Sheets*) during the three months ended November 30, 2010 are summarized as follows:

	FY2011
Balance at September 1	\$ 3.6
Adjustments to the warranty and recall reserve	1.8
Payments made during the period	(1.5)

Balance at November 30

\$ 3.9

12. Share-Based Payments

The Company accounts for share-based payments through the measurement and recognition of compensation expense for share-based payment awards made to employees and directors of the Company, including stock options and restricted shares (all part of the Long-Term Incentive Plan), and share units representing certain deferrals into the Director Deferred Compensation Plan or the Supplemental

12

Table of Contents**ACUITY BRANDS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)***(Amounts in millions, except per-share data and as indicated)*

Deferred Savings Plan. Each of these award programs are more fully discussed within the Company's Form 10-K. The Company recorded \$3.4 and \$2.3 of share-based expense for the three months ended November 30, 2010 and 2009, respectively. The total income tax benefit recognized in the income statement for share-based compensation arrangements was \$2.9 and \$0.1 for the three months ended November 30, 2010 and 2009, respectively.

13. Pension Plans

The Company has several pension plans, both qualified and non-qualified, covering certain hourly and salaried employees. Benefits paid under these plans are based generally on employees' years of service and/or compensation during the final years of employment. The Company makes annual contributions to the plans to the extent indicated by actuarial valuations and statutory requirements. Plan assets are invested primarily in equity and fixed income securities.

Net periodic pension cost for the Company's defined benefit pension plans during the three months ended November 30, 2010 and 2009 included the following components:

	Three Months Ended November 30,	
	2010	2009
Service cost	\$ 0.8	\$ 0.7
Interest cost	2.1	2.2
Expected return on plan assets	(1.9)	(1.9)
Recognized actuarial loss	1.2	0.9
Net periodic pension cost	\$ 2.2	\$ 1.9

14. Special Charges

During fiscal 2008, the Company commenced actions to streamline and simplify the Company's organizational structure and operations. The charges consisted of severance and related employee benefit costs associated with the elimination of certain positions worldwide, consolidation of certain manufacturing facilities, the estimated costs associated with the early termination of certain leases, and share-based expense due to the modification of the terms of agreements to accelerate vesting for certain terminated employees. These actions, including those taken in fiscal 2009 and 2010 as part of this program, are expected to allow the Company to better leverage efficiencies in its supply chain and support areas, while funding continued investments in other areas that support future growth opportunities.

Approximately \$49.7 of cumulative special charges related to these activities has been incurred through November 30, 2010.

The Company made payments of \$1.5 and \$0.1 related to severance and exit costs, respectively, for the period ended November 30, 2010. As of November 30, 2010, the Company had a remaining reserve of \$6.0 (included in *Accrued Compensation* on the *Consolidated Balance Sheets*) related to previous restructuring activities.

15. Supplemental Guarantor Condensed Consolidating Financial Statements

In fiscal 2010, ABL, the wholly-owned and principal operating subsidiary of Acuity Brands, refinanced its outstanding debt through a bond offering of a \$350.0 aggregate principal amount of senior unsecured notes due in fiscal 2020.

In accordance with the registration rights agreement by and between ABL, as issuer, and Acuity Brands and ABL IP Holding LLC, as guarantors (ABL IP Holding, and, together with Acuity Brands, the Guarantors) a wholly-owned subsidiary of Acuity Brands and the initial purchases of the Notes, ABL and the Guarantors to the Notes filed a registration statement with the SEC for an offer to exchange the Notes for an issue of SEC-registered notes with identical terms. Due to the filing of the registration statement and offer to exchange, the Company

determined the need for compliance with Rule 3-10 of SEC Regulation S-X (Rule 3-10). In lieu of providing separate audited financial statements for ABL and ABL IP Holding, the Company has included the accompanying Condensed Consolidating Financial Statements in accordance with Rule 3-10(d) of SEC Regulation S-X. The column marked Parent represents the financial condition, results of operations, and cash flows of Acuity Brands. The column marked Subsidiary Issuer represents the financial condition, results of operations, and cash flows of ABL. The column entitled Subsidiary Guarantor represents the financial condition, results of operations, and cash flows of ABL IP Holding. Lastly, the column listed as Non-Guarantors includes the financial condition, results of operations, and cash flows of the non-guarantor direct and indirect subsidiaries

Table of Contents**ACUITY BRANDS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)***(Amounts in millions, except per-share data and as indicated)*

of Acuity Brands, which consist primarily of foreign subsidiaries. Eliminations were necessary in order to arrive at consolidated amounts. In addition, the equity method of accounting was used to calculate investments in subsidiaries. Accordingly, this basis of presentation is not intended to present our financial condition, results of operations, or cash flows for any purpose other than to comply with the specific requirements for parent-subsiidiary guarantor reporting.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

(\$ in millions, except per-share data and as indicated)

The following discussion should be read in conjunction with the *Consolidated Financial Statements* and related notes. References made to years are for fiscal year periods.

The purpose of this discussion and analysis is to enhance the understanding and evaluation of the results of operations, financial position, cash flows, indebtedness, and other key financial information of Acuity Brands, Inc. (*Acuity Brands*), and its subsidiaries as of November 30, 2010 and for the three month periods ended November 30, 2010 and 2009. For a more complete understanding of this discussion, please read the *Notes to Consolidated Financial Statements* included in this report. Also, please refer to the Company's 2010 Annual Report on Form 10-K for the fiscal year ended August 31, 2010, filed with the Securities and Exchange Commission (the *SEC*) on October 29, 2010

(*Form 10-K*).

Overview*Company*

Acuity Brands is the parent company of Acuity Brands Lighting, Inc. (*ABL*), and other subsidiaries (collectively referred to herein as *the Company*). The Company, with its principal office in Atlanta, Georgia, employs approximately 6,000 people worldwide.

The Company designs, produces, and distributes a broad array of indoor and outdoor lighting fixtures, control devices, components, systems, and services for commercial and institutional, industrial, infrastructure, and residential applications for various markets throughout North America and select international markets. The Company is one of the world's leading producers and distributors of lighting fixtures, with a broad, highly configurable product offering, consisting of roughly 500,000 active products as part of over 2,000 product groups, as well as lighting controls and other products, that are sold to approximately 5,000 customers. As of November 30, 2010, the Company operates 19 manufacturing facilities and six distribution facilities along with four warehouses to serve its extensive customer base. On October 14, 2010, the Company acquired for cash all of the outstanding capital stock of Winona Lighting, Inc. (*Winona Lighting*), a premier provider of architectural and high-performance indoor and outdoor lighting products headquartered in Minnesota. Winona Lighting served the commercial, retail, and institutional markets with a product portfolio of high-quality and design-oriented luminaires suitable for decorative, custom, asymmetric, and landscape lighting applications. The operating results of Winona Lighting have been included in the Company's consolidated financial statements since the date of acquisition.

On July 26, 2010, the Company acquired the remaining outstanding capital stock of Renaissance Lighting, Inc. (*Renaissance*), a privately-held innovator of solid-state light-emitting diode (*LED*) architectural lighting. Renaissance, based in Herndon, Virginia, offered a full range of LED-based specification-grade downlighting luminaires and developed an extensive intellectual property portfolio related to advanced LED optical solutions and technologies. Previously, the Company entered into a strategic partnership with Renaissance, which included a noncontrolling interest in Renaissance and a license to Renaissance's intellectual property estate. The operating results of Renaissance have been included in the Company's consolidated financial statements since the date of acquisition.

On April 20, 2009, the Company acquired all of the outstanding capital stock of Sensor Switch, Inc. (*Sensor Switch*), an industry-leading developer and manufacturer of lighting controls and energy management systems. Sensor Switch, based in Wallingford, Connecticut, offered a wide-breadth of products and solutions that substantially reduce energy consumption, including occupancy sensors, photocontrols, and distributed lighting control devices. The operating results of Sensor Switch have been included in the Company's consolidated financial statements since the date of acquisition.

On December 31, 2008, the Company acquired for cash and stock substantially all the assets and assumed certain liabilities of Lighting Controls & Design (*LC&D*). Located in Glendale, California, LC&D is a manufacturer of comprehensive digital lighting controls and software that offered a breadth of products, ranging from dimming and building interfaces to digital thermostats, all within a single, scalable system. The operating results of LC&D have been included in the Company's consolidated financial statements since the date of acquisition.

Liquidity and Capital Resources

The Company's principle sources of liquidity are operating cash flows generated primarily from its business operations, cash on hand, and various sources of borrowings. The ability of the Company to generate sufficient cash flow from operations and to access certain capital markets, including banks, is necessary to fund its operations, to pay dividends, to meet its obligations as they become due, and to maintain compliance with covenants contained in its financing agreements.

In December 2009, the Company strengthened its liquidity position and extended its debt maturity profile following the issuance of \$350.0 of senior unsecured notes due in fiscal 2020.

Table of Contents

Based on its cash on hand, availability under existing financing arrangements and current projections of cash flow from operations, the Company believes that it will be able to meet its liquidity needs over the next 12 months. These needs are expected to include funding its operations as currently planned, making anticipated capital investments, funding certain potential acquisitions, funding foreseen improvement initiatives, paying quarterly stockholder dividends as currently anticipated, paying interest on borrowings as currently scheduled, and making required contributions into its employee benefit plans, as well as potentially repurchasing shares of its outstanding common stock as authorized by the Board of Directors. The Company currently expects to invest during fiscal 2011 up to \$40.0 primarily for equipment, tooling, and new and enhanced information technology capabilities. In addition, the Company expects to contribute approximately \$5.8 and \$1.0 to its domestic and international defined benefit plans, respectively, during fiscal 2011.

Cash Flow

The Company uses available cash and cash flow from operations, as well as proceeds from the exercise of stock options, to fund operations and capital expenditures, repurchase stock, fund acquisitions, and pay dividends. The Company's cash position at November 30, 2010 was \$152.2, a decrease of \$38.8 from August 31, 2010. During the three months ended November 30, 2010, the Company's change in cash consisted primarily of cash paid for acquisitions (net of cash assumed) of \$36.2, capital expenditures of \$6.7, dividends to stockholders of \$5.6, and \$2.9 in repurchases of common stock, which were partially offset by \$5.3 of net cash generated from operating activities and cash received from stock issuances in connection with stock option exercises of \$3.3.

The Company generated \$5.3 of net cash from operating activities during the first three months of fiscal 2011 compared with \$41.0 of cash generated in the prior-year period, a decrease of \$35.7. This decrease was due primarily to the cash flow impact of higher operating working capital (calculated by adding accounts receivable, net, plus inventories, and subtracting accounts payable) and a decrease in other current liabilities in the first three months of fiscal 2011 compared with the prior-year period. Operating working capital increased by approximately \$29.4 to \$238.5 at November 30, 2010 from \$209.1 at August 31, 2010, due primarily to increased raw materials and finished goods inventory, and lower accounts payable. The increase in raw materials was due primarily to strategic purchases of certain commodities and components to better support customer service and relocation of production. The Company expects to begin drawing down the raw material inventory in the second half of fiscal 2011 once the production moves are completed. Additionally, the reduction of accounts payable was attributable to the timing of payments in the current period. Net cash from operating activities was also negatively impacted by a decrease in other current liabilities due primarily to the payment of employee annual incentive compensation, which was attributable to fiscal 2010 performance.

Management believes that investing in assets and programs that, over time, will increase the overall return on its invested capital is a key factor in driving stockholder value. The Company invested \$6.7 and \$4.3 in the first three months of fiscal 2011 and 2010, respectively, primarily for new tooling, machinery, equipment, and information technology. As noted above, the Company expects to invest during fiscal 2011 up to \$40.0 for new plant, equipment, tooling, and new and enhanced information technology capabilities.

Capitalization

The current capital structure of the Company is comprised principally of senior notes and equity of its stockholders. As of November 30, 2010, total debt outstanding of \$353.4 remained substantially unchanged from August 31, 2010 and consisted primarily of fixed-rate obligations.

On October 19, 2007, the Company executed a \$250.0 revolving credit facility, which matures in October 2012 (the Revolving Credit Facility). As of November 30, 2010, the Company was compliant with all financial covenants under the Revolving Credit Facility. At November 30, 2010, the Company had additional borrowing capacity under the Revolving Credit Facility of \$243.5 under the most restrictive covenant in effect at the time, which represents the full amount of the Revolving Credit Facility less outstanding letters of credit of \$6.5. See the *Debt* footnote of the *Notes to Consolidated Financial Statements*.

During the first three months of fiscal 2011, the Company's consolidated stockholders' equity increased \$28.3 to \$722.7 from \$694.4 at August 31, 2010. The increase was due primarily to net income earned in the period, as well as amortization of stock-based compensation and stock issuances resulting primarily from the exercise of stock options,

partially offset by the payment of dividends. The Company's debt to total capitalization ratio (calculated by dividing total debt by the sum of total debt and total stockholders' equity) was 32.8% and 33.7% at November 30, 2010 and August 31, 2010, respectively. The ratio of debt, net of cash, to total capitalization, net of cash, was 21.8% at November 30, 2010 and 18.9% at August 31, 2010.

Dividends

The Company paid cash dividends on common stock of \$5.6 (\$0.13 per share) during the first three months of fiscal 2011 compared with \$5.6 (\$0.13 per share) during the first three months of fiscal 2010. The Company currently plans to continue to pay quarterly dividends at a rate of \$0.13 per share; however, each quarterly dividend must be approved by the Board of Directors, and the actual amount to be paid, if any, is subject to change.

Table of Contents**Results of Operations*****First Quarter of Fiscal 2011 Compared with First Quarter of Fiscal 2010***

The following table sets forth information comparing the components of net income for the three months ended November 30, 2010 and 2009:

	Three Months Ended		Increase (Decrease)	Percent Change
	2010	2009		
Net Sales	\$ 425.0	\$ 391.7	\$ 33.3	8.5%
Cost of Products Sold	248.9	230.4	18.5	8.0%
Gross Profit	176.1	161.3	14.8	9.2%
<i>Percent of net sales</i>	<i>41.4%</i>	<i>41.2%</i>	<i>20bps</i>	
Selling, Distribution, and Administrative Expenses	130.6	118.5	12.1	10.2%
Special Charge		0.1	(0.1)	(100.0)%
Operating Profit	45.5	42.7	2.8	6.6%
<i>Percent of net sales</i>	<i>10.7%</i>	<i>10.9%</i>	<i>(20)bps</i>	
Other Expense (Income)				
Interest Expense, net	7.5	6.7	0.8	11.9%
Miscellaneous Expense	1.2	0.5	0.7	140.0%
Total Other Expense	8.7	7.2	1.5	20.8%
Income before Provision for Income Taxes	36.8	35.5	1.3	3.7%
<i>Percent of net sales</i>	<i>8.7%</i>	<i>9.1%</i>	<i>(40)bps</i>	
Provision for Taxes	12.4	12.2	0.2	1.6%
<i>Effective tax rate</i>	<i>33.7%</i>	<i>34.4%</i>		
Net Income	\$ 24.4	\$ 23.3	\$ 1.1	4.7%
Diluted Earnings per Share	\$ 0.56	\$ 0.53	\$ 0.03	5.7%

Net sales were \$425.0 for the first quarter of fiscal 2011 compared with \$391.7 for the same period in fiscal 2010, an increase of \$33.3, or 8.5%. For the three months ended November 30, 2010, the Company reported net income of \$24.4 compared with \$23.3 earned in the prior-year period. Diluted earnings per share for the current fiscal quarter increased 5.7% to \$0.56 from \$0.53 for the prior-year period.

Net Sales

Net sales for the fiscal quarter ended November 30, 2010, increased 8.5% compared with the prior-year period. Excluding the impact from acquisitions, fiscal 2011 first quarter net sales rose approximately 7% year-over-year. The growth in net sales was due primarily to higher unit volumes driven largely by continued expansion in certain sales channels, such as renovation, distributor stock and flow, and home improvement. For the first three months of fiscal 2011, the impact of selling price and mix of products sold (price/mix) was negligible.

Gross Profit

Gross profit for the current period increased \$14.8, or 9.2%, to \$176.1 compared with \$161.3 for the prior-year period. Gross profit margin increased by 20 basis points to 41.4% for the three months ended November 30, 2010, from 41.2% in the year-ago period. The increase was due primarily to the rise in overall sales volumes, savings from

streamlining actions, and favorable contributions from acquired businesses. These benefits were partially offset by the impact of higher materials and components costs, which the Company estimates added approximately \$2.0 in incremental expense in the first quarter of fiscal 2011 compared with the prior-year period.

Operating Profit

Selling, Distribution, and Administrative (SD&A) expenses for the three months ended November 30, 2010 were \$130.6 compared with \$118.5 in the prior-year period, which represented a \$12.1, or 10.2%, year-over-year increase. Compared with the prior-year period, SD&A expenses as a percent of sales increased by 40 basis points to 30.7% for the fiscal first quarter of 2011. The increase in

Table of Contents

SD&A expenses was due primarily to higher commission and freight costs, selected investments in sales and marketing resources and new products and services, and structurally higher operating costs associated with the businesses acquired over the last two years.

During the first quarter of fiscal 2011, the Company realized total savings of approximately \$1.7 from the streamlining efforts taken during fiscal 2010 compared with approximately \$11.0 of savings realized in the year-ago period attributable to the streamlining actions initiated in fiscal 2009. See the *Outlook* section for total expected savings from these actions.

Operating profit for the first three months of fiscal 2011 was \$45.5 compared with \$42.7 reported for the prior-year period, an increase of \$2.8, or 6.6%. The increase in operating profit was due primarily to the higher sales volumes and savings from streamlining actions, partially offset by the increase in SD&A expenses discussed above. Operating profit margin decreased 20 basis points to 10.7% compared with 10.9% in the year-ago period.

Other Expense (Income)

Other expense (income) for the Company consists primarily of net interest expense and foreign exchange related gains and losses. Interest expense, net, was \$7.5 and \$6.7 for the three months ended November 30, 2010 and 2009, respectively. The increase in interest expense, net, was due primarily to higher average outstanding debt balances. The increase in miscellaneous expense to \$1.2 in the first quarter of fiscal 2011 compared with \$0.5 in the first quarter of fiscal 2010 was due primarily to the unfavorable impact of exchange rates on foreign currency items.

Provision for Income Taxes and Net Income

The effective income tax rate reported by the Company was 33.7% and 34.4% for the first three months of fiscal 2011 and 2010, respectively. The effective income tax rate for the three months ended November 30, 2010, was positively affected by deductions related to Company-owned life insurance policies, federal tax credits, and benefits from increased export of goods manufactured in the U.S. The Company estimates that the effective tax rate for fiscal 2011 will be approximately 34% if the rates in its taxing jurisdictions remain generally consistent throughout the year.

Net income for the first quarter of fiscal 2011 increased \$1.1, or 4.7%, to \$24.4 from \$23.3 for the year-ago period. The increase in net income resulted primarily from the above noted increase in operating profit, partially offset by higher miscellaneous and tax expenses.

Outlook

The performance of the Company, like most companies, is influenced by a multitude of factors, including the vitality of the economy, employment, credit availability and cost, consumer confidence, commodity costs, and government policy, particularly as it impacts capital formation and risk taking by businesses and commercial developers. As such, it is difficult at this time to precisely forecast the direction or intensity of future economic activity in general and more specifically with respect to overall construction demand in fiscal 2011. Key indicators suggest activity to be slightly down to flat during fiscal 2011 for the North American non-residential construction market, a key market for the Company, with growth in the second half of the year offsetting declines in the first half. However, the potential for energy savings and sustainability may buoy the demand for lighting fixtures and controls in relation to the renovation of commercial and institutional building and outdoor lighting markets.

The Company's backlog at the end of the first quarter of fiscal 2011 was \$145.9. Excluding the incremental backlog attributable to the recent acquisitions, the comparable backlog was up approximately 2% year-over-year, while comparable orders increased approximately 10% over the prior-year period.

Management anticipates a challenging second fiscal quarter for 2011 due primarily to continued weakness in non-residential construction and normal seasonal factors, including inconsistent customer demand, and higher input costs, as discussed in more detail below.

Additionally, there is a continuing industry-wide shortage of certain types of electronic ballasts and drivers due to a global shortage of certain common electronic components, and this has resulted in extended lead times and limited availability for some ballasts and drivers. This situation is expected to persist for the near future and may adversely impact shipments. The Company has taken steps to procure and maintain sufficient materials and components stocks in the near term, including incurring additional expediting costs to preserve customer service levels.

Prices for certain materials and components, including steel and petroleum, continue to rise, placing pressure on the Company's margins. The Company expects to respond to cost increases with higher selling prices where appropriate,

including, but not limited to, the announced price increases on many products that were effective at the end of May 2010 and further increases that will be effective at the end of February 2011, though at least a one quarter lag in realizing the full benefit of the price increase is expected. Management estimates the gap in recovering commodity cost increases will negatively impact second quarter of fiscal 2011 profitability by at least \$4.0 as compared with the prior-year period. Assuming no further significant rise in commodity costs, this shortfall is expected to be temporary as the benefits of the announced product price increases should begin to be realized in the second half of fiscal 2011. However, due to the competitive forces in the current market environment, there can be no assurance that the Company will be able to pass along all cost increases or adjust prices quickly enough to offset all or a portion of potentially higher material and component prices. Notwithstanding efforts to recoup potentially higher costs, management believes pricing will continue to be competitive in certain channels and geographies but expects to mitigate the negative impact through productivity improvements, cost reductions throughout the Company, and benefits from new product introductions.

The Company anticipates additional annualized savings during fiscal 2011 of approximately \$10.0 due to the streamlining efforts announced during the second quarter of fiscal 2010, of which approximately \$1.7 of benefits were realized during the quarter ended

Table of Contents

November 30, 2010. Additionally, the Company anticipates savings at the annualized rate by the second quarter of fiscal 2011. These actions related to the consolidation of certain manufacturing operations and a reduction in workforce. The Company initiated such actions in an effort to continue to redeploy and invest resources in other areas where the Company believes it can create greater value and accelerate profitable growth opportunities, including a continued focus on customer connectivity and industry-leading product innovation incorporating energy-efficiency and sustainable design.

In addition to the acquisitions of the last two years, which significantly increased the Company's presence in the growing lighting controls market and further positioned the Company for future growth, management believes the execution of the Company's strategies to accelerate investments in innovative and energy-efficient products and services, enhance service to its customers, and expand market presence in key geographies and sectors, such as home centers and the renovation market, will provide growth opportunities, which should enable the Company to continue to outperform the overall markets it serves. The Company believes it is strategically positioned to take advantage of opportunities within the market, as complete lighting systems will likely become an integral part of the development of smart building energy management. Additionally, management believes these actions and investments will position the Company to meet or exceed its financial goals over the longer term.

The Company expects cash flow from operations to remain strong for fiscal 2011 and intends to invest up to \$40.0 in capital expenditures during the year. In addition, the Company expects to contribute approximately \$5.8 and \$1.0 to its domestic and international defined benefit plans, respectively, during fiscal 2011. The Company estimates the annual tax rate to approximate 34% for fiscal 2011.

Although fiscal 2011 results may be negatively impacted by current economic conditions, management remains positive about the long-term potential of the Company and its ability to outperform the market. Although management anticipates short-term performance will likely continue to be negatively affected by further investments in the growing controls and renovation markets, the Company believes that these are necessary measures to further the Company's long-term profitable growth opportunities. Looking beyond the current environment, management believes the lighting and lighting-related industry will experience solid growth over the next decade, particularly as energy and environmental concerns come to the forefront, and that the Company is well-positioned to fully participate in the industry.

Critical Accounting Policies

Management's Discussion and Analysis of Financial Condition and Results of Operations addresses the financial condition and results of operations as reflected in the Company's *Consolidated Financial Statements*, which have been prepared in accordance with U.S. GAAP. As discussed in the *Description of Business and Basis of Presentation* footnote of the *Notes to Consolidated Financial Statements*, the preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expense during the reporting period. On an ongoing basis, management evaluates its estimates and judgments, including those related to inventory valuation; depreciation, amortization and the recoverability of long-lived assets, including goodwill and intangible assets; share-based compensation expense; medical, product warranty, and other reserves; litigation; and environmental matters. Management bases its estimates and judgments on its substantial historical experience and other relevant factors, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates. Management discusses the development of accounting estimates with the Company's Audit Committee.

For a detailed discussion of other significant accounting policies that may involve a higher degree of judgment, please refer to the Company's Form 10-K.

Cautionary Statement Regarding Forward-Looking Information

This filing contains forward-looking statements within the meaning of the federal securities laws. Statements made herein that may be considered forward-looking include statements incorporating terms such as *expects*, *believes*, *intends*, *anticipates* and similar terms that relate to future events, performance, or results of the Company. In addition, the Company, or the executive officers on the Company's behalf, may from time to time make forward-looking

statements in reports and other documents the Company files with the SEC or in connection with oral statements made to the press, potential investors, or others. Forward-looking statements include, without limitation: (a) the Company's projections regarding financial performance, liquidity, capital structure, capital expenditures, and dividends; (b) expectations about the impact of volatility and uncertainty in general economic conditions; (c) external forecasts projecting industry unit volumes; (d) expectations about the impact of volatility and uncertainty in component and commodity costs and availability, and the Company's ability to manage those challenges, as well as the Company's response with pricing of its products; (e) the Company's ability to execute and realize benefits from initiatives related to streamlining its operations, capitalizing on growth opportunities, expanding in key markets, enhancing service to the customer, and investing in product innovation; (f) the Company's estimate of its fiscal 2011 annual tax rate; and (g) the Company's ability to achieve its long-term financial goals and measures. You are cautioned not to place undue reliance on any forward-looking statements, which speak only as of the date of this quarterly report. Except as required by law, the Company undertakes no obligation to publicly update or release any revisions to these forward-looking statements to reflect any events or circumstances after the date of this quarterly report or to reflect the occurrence of

Table of Contents

unanticipated events. The Company's forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from the historical experience of the Company and management's present expectations or projections. These risks and uncertainties include, but are not limited to, customer and supplier relationships and prices; competition; ability to realize anticipated benefits from initiatives taken and timing of benefits; market demand; litigation and other contingent liabilities; and economic, political, governmental, and technological factors affecting the Company. Also, additional risks that could cause the Company's actual results to differ materially from those expressed in the Company's forward-looking statements are discussed in Part I, Item 1a, Risk Factors of the Company's Form 10-K, and are specifically incorporated herein by reference.

Item 3. *Quantitative and Qualitative Disclosures about Market Risk*

General. Acuity Brands is exposed to market risks that may impact the *Consolidated Balance Sheets, Consolidated Statements of Income, and Consolidated Statements of Cash Flows* due primarily to fluctuation in interest rates, foreign exchange rates, and commodity prices. There have been no material changes to the Company's exposure from market risks from those disclosed in Part II, Item 7a of the Company's Form 10-K.

Item 4. *Controls and Procedures*

Disclosure controls and procedures are controls and other procedures that are designed to reasonably ensure that information required to be disclosed in the reports filed or submitted by the Company under the Securities Exchange Act of 1934, as amended (the Exchange Act) is recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to reasonably ensure that information required to be disclosed by Acuity Brands in the reports filed under the Exchange Act is accumulated and communicated to management, including the principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As required by SEC rules, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures as of November 30, 2010. This evaluation was carried out under the supervision and with the participation of management, including the principal executive officer and principal financial officer. Based on this evaluation, these officers have concluded that the design and operation of the Company's disclosure controls and procedures were effective at a reasonable assurance level as of November 30, 2010. However, because all disclosure procedures must rely to a significant degree on actions or decisions made by employees throughout the organization, such as reporting of material events, the Company and its reporting officers believe that they cannot provide absolute assurance that all control issues and instances of fraud or errors and omissions, if any, within the Company will be detected. Limitations within any control system, including the Company's control system, include faulty judgments in decision-making or simple errors or mistakes. In addition, controls can be circumvented by an individual, by collusion between two or more people, or by management override of the control. Because of these limitations, misstatements due to error or fraud may occur and may not be detected.

There have been no changes in the Company's internal control over financial reporting that occurred during the Company's most recent completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****Item 1. Legal Proceedings**

Acuity Brands is subject to various legal claims arising in the normal course of business. The Company is self-insured up to specified limits for certain types of claims, including product liability, and is fully self-insured for certain other types of claims, including environmental, product recall, and patent infringement. Based on information currently available, it is the opinion of management that the ultimate resolution of pending and threatened legal proceedings will not have a material adverse effect on the results of operations, financial position, or cash flows of the Company. However, in the event of unexpected future developments, it is possible that the ultimate resolution of such matters, if unfavorable, could have a material adverse effect on the results of operations, financial position, or cash flows of the Company in future periods. The Company establishes reserves for legal claims when the costs associated with the claims become probable and can be reasonably estimated. The actual costs of resolving legal claims may be substantially higher or lower than the amounts reserved for such claims. However, the Company cannot make a meaningful estimate of actual costs to be incurred that could possibly be higher or lower than the amounts reserved. Information regarding reportable legal proceedings is contained in Part I, Item 3. Legal Proceedings in the Company's Form 10-K. Information set forth in this report's *Commitments and Contingencies* footnote of the *Notes to Consolidated Financial Statements* describes any legal proceedings that became reportable during the quarter ended November 30, 2010, and updates any descriptions of previously reported legal proceedings in which there have been material developments during such quarter. Discussion of legal proceedings included within the *Commitments and Contingencies* footnote of the *Notes to Consolidated Financial Statements* is incorporated into this Item 1 by reference.

Item 1a. Risk Factors

There have been no material changes in the Company's risk factors from those disclosed in Part I, Item 1a. Risk Factors of the Company's Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During fiscal 2010, the Company's Board of Directors authorized the repurchase of two million shares of the Company's outstanding common stock, of which approximately 535,500 shares had been repurchased as of November 30, 2010. No shares were repurchased during the Company's most recently completed fiscal quarter.

Item 5. Other Information*Results of Annual Shareholders Meeting*

At the Company's annual meeting of shareholders held on January 7, 2011, in Atlanta, Georgia, the shareholders elected the following nominees to the Board of Directors for various terms identified in the following table. Votes cast were as follows:

	Term Expiring at the Annual Meeting for	For	Withheld
Gordon D. Harnett	2013	32,549,190	783,193
Robert F. McCullough	2013	33,247,928	84,455
Norman H. Wesley	2011	32,661,253	671,130
Neil Williams	2013	33,242,248	90,135

In addition to the above elected directors, the directors whose term of office continued after the meeting are as follows: Peter C. Browning, George C. Guynn, Vernon J. Nagel, Julia B. North, and Ray M. Robinson.

Table of Contents

Votes cast for or against, and the number of abstentions and broker non-votes for the other proposal brought before the meeting are as follows:

Proposal	For	Against	Abstain	Broker Non-Votes
Ratification of the Audit Committee's appointment of Ernst & Young LLP as the Company's independent registered public accounting firm	37,311,961	179,168	13,354	

Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

Election of Directors

On January 7, 2011, Norman H. Wesley was elected to the class of directors whose term expires at the annual meeting for fiscal year 2011. He was appointed to the Governance Committee and Audit Committee, effective January 7, 2011. Mr. Wesley served as the Chairman of Fortune Brands, Inc. (Fortune), from December 1999 until September 2008; served as Chief Executive Officer from December 1999 to December 2007; and, also served in a series of senior executive positions with Fortune from 1984 to 1999. He will participate in the standard non-employee director compensation arrangements described in the Company's 2010 proxy statement, including a grant of restricted stock valued at \$20,000 in connection with his initial election to the Board.

Declaration of Dividend

On January 7, 2011, the Board of Directors of the Company declared a quarterly dividend of \$0.13 per share. The dividend is payable on February 1, 2011, to stockholders of record on January 18, 2011.

Lead Director

On January 7, 2011, the Board of Directors reelected Mr. Neil Williams to serve as independent lead director for the forthcoming year.

Item 6. Exhibits

Exhibits are listed on the Index to Exhibits (page 29).
