GENERAL

This proxy statement and the accompanying materials are being sent to stockholders of Advanced Energy as part of a solicitation for proxies for use at the 2009 Annual Meeting of Stockholders. The Board of Directors of Advanced Energy (the Board of Directors or the Board) is making this solicitation for proxies. By delivering the enclosed proxy card by any of the methods described on the card, you will appoint each of Hans Georg Betz and Lawrence D. Firestone as your agent and proxy to vote your shares of common stock at the meeting. In this proxy statement, proxy holders refers to Dr. Betz and Mr. Firestone in their capacities as your agents and proxies.

Advanced Energy's principal executive offices are located at 1625 Sharp Point Drive, Fort Collins, Colorado 80525. The telephone number is (970) 221-4670.

Proposals

We intend to present two proposals to the stockholders at the meeting:

1. Election of eight directors.
2. Ratification of the appointment of Grant Thornton LLP as Advanced Energy's independent registered public accounting firm for 2009.

We do not know of any other matters to be submitted to the stockholders at the meeting. If any other matters properly come before the meeting, the proxy holders intend to vote the shares they represent as the Board of Directors may recommend.

Record Date and Share Ownership

If you owned shares of Advanced Energy common stock in your name as of the close of business on Monday, March 9, 2009, you are entitled to vote on the proposals that are presented at the meeting. On that date, which is referred to as the record date for the meeting, 41,911,985 shares of Advanced Energy common stock were issued and outstanding and were held by approximately 573 stockholders of record, according to the records of American Stock Transfer & Trust Company, Advanced Energy's transfer agent.

Voting Procedures

Each share of Advanced Energy common stock that you hold entitles you to one vote on each of the proposals that are presented at the annual meeting. The inspector of the election will determine whether or not a quorum is present at the annual meeting. A quorum will be present at the meeting if a majority of the shares of common stock entitled to vote at the meeting are represented at the meeting, either by proxy or by the person who owns the shares. Advanced Energy's transfer agent will deliver a report to the inspector of election in advance of the annual meeting, tabulating the votes cast by proxies returned to the transfer agent. The inspector of election will tabulate the final vote count, including the votes cast in person and by proxy at the meeting.

If a broker holds your shares, this proxy statement and a proxy card have been sent to the broker. You may have received this proxy statement directly from your broker, together with instructions as to how to direct the broker concerning how to vote your shares. Under the rules for Nasdaq-quoted companies, brokers cannot vote on certain matters without instructions from you. If you do not give your broker instructions or discretionary authority to vote your shares on such matters and your broker returns the proxy card without voting on a proposal, your shares will be

recorded as broker non-votes with respect to the proposals on which the broker does not vote.

Broker non-votes and abstentions will be counted as present for purposes of determining whether a quorum is present. If a quorum is present, directors will be elected by a plurality of the votes present and each of the other matters described in this proxy statement will be approved by a majority of the votes cast on the proposal. Broker non-votes and abstentions will have no effect on the outcome of any of the matters described in this proxy statement.

Table of Contents

The following table reflects the vote required for each proposal and the effect of broker non-votes and abstentions on the vote, assuming a quorum is present at the meeting:

Proposal	Vote Required	Effect of Broker Non-Votes and Abstentions
Election of directors	The eight nominees who receive the most votes will be elected	No effect
Ratification of the appointment of Grant Thornton LLP as Advanced Energy's independent registered public accounting firm for 2009	Majority of the shares present at the meeting (by proxy or in person) and voting For or Against the proposal	No effect

If any other proposals are properly presented to the stockholders at the meeting, the number of votes required for approval will depend on the nature of the proposal. Generally, under Delaware law and the by-laws of Advanced Energy, the number of votes that may be required to approve a proposal is either a majority of the shares of common stock represented at the meeting and entitled to vote, or a majority of the shares of common stock represented at the meeting and casting votes either for or against the matter being considered. The enclosed proxy card gives discretionary authority to the proxy holders to vote on any matter not included in this proxy statement that is properly presented to the stockholders at the annual meeting.

Costs of Solicitation

Advanced Energy will bear the costs of soliciting proxies in connection with the annual meeting. In addition to soliciting your proxy by this mailing, proxies may be solicited personally or by telephone or facsimile by some of Advanced Energy's directors, officers and employees, without additional compensation. We may reimburse our transfer agent, American Stock Transfer & Trust Company, our proxy agent, Mediant Communications, brokerage firms and other persons representing beneficial owners of Advanced Energy common stock for their expenses in sending proxies to the beneficial owners.

Delivery and Revocability of Proxies

You may vote your shares either by (i) marking the enclosed proxy card and mailing it in the enclosed postage prepaid envelope, (ii) voting online at www.proxypush.com/aeis, or (iii) voting by telephone at (866) 390-9955. If you mail your proxy, please allow sufficient time for it to be received in advance of the annual meeting.

If you deliver your proxy and change your mind before the meeting, you may revoke your proxy by delivering notice to our Corporate Secretary at Advanced Energy Industries, Inc., 1625 Sharp Point Drive, Fort Collins, Colorado 80525, stating that you wish to revoke your proxy or by delivering another proxy with a later date. You may vote your shares by attending the meeting in person but, if you have delivered a proxy before the meeting, you must revoke it before the meeting begins. Attending the meeting will not automatically revoke your previously-delivered proxy.

Delivery of Documents to Stockholders Sharing an Address

If two or more stockholders share an address, Advanced Energy may send a single copy of this proxy statement and other soliciting materials, as well as the 2008 Annual Report to Stockholders, to the shared address, unless Advanced Energy has received contrary instructions from one or more of the stockholders sharing the address. If a single copy

has been sent to multiple stockholders at a shared address, Advanced Energy will deliver a separate proxy card for each stockholder entitled to vote. The Board of Directors has determined that each of the nominees, other than Douglas S. To be considered independent, the Board must affirmatively determine that neither the director nor any immediate family member of the director had any direct or indirect material relationship with the Company within the last three years. The Board of Directors has made an affirmative determination that none of the independent directors has any relationship with Advanced Energy that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Compensation Philosophy and Objectives

Our Company's long-term success depends on our ability to fulfill the expectations of our customers in a competitive environment and deliver value to stockholders. To achieve these goals, it is critical that we be able to attract, motivate, and retain highly talented individuals at all levels of the organization who are committed to the Company's values and objectives.

The Company's executive compensation program is based on the same objectives that guide the Company in establishing all of its compensation programs:

Compensation should be based on the level of job responsibility, individual performance, and Company performance. As employees progress to higher levels in the organization, an increasing proportion of their pay should be linked to Company performance and stockholder returns because those employees are more able to affect the Company's results.

Compensation should reflect the value of the job in the marketplace. To attract and retain a highly skilled workforce, we must remain competitive with the pay of other premier employers who compete with us for talent.

Compensation should reward performance. Our programs should deliver top-tier compensation for top-tier individual performance and Company success, and should deliver correspondingly lower compensation where performance falls short of expectations. In addition, objectives of pay-for-performance and retention must be balanced.

Compensation should foster the long-term focus required for the Company's success. While many Company employees receive a mix of both annual and longer-term incentives, employees at higher levels have an increasing proportion of their compensation tied to longer-term performance because they are in a greater position to influence longer-term results.

To be effective, employees must be able to understand how performance-based compensation programs affect their pay, both directly through individual performance accomplishments and indirectly through the Company's achievement of its strategic and operational goals.

Compensation programs must align with the Company's business and financial models and support its mission, values and operating plans.

While compensation programs and individual pay levels will always reflect differences in job responsibilities, geographies, and marketplace considerations, the overall structure of the compensation and benefit programs should be broadly similar and egalitarian across the organization.

Overview of Executive Compensation Program

The Compensation Committee

The Compensation Committee of the Board has responsibility for establishing, implementing and monitoring adherence with the Company's compensation philosophy. Accordingly, the Compensation Committee strives to develop and maintain competitive, progressive programs that attract, retain and motivate high-caliber employees, foster teamwork, and maximize the long-term success of Advanced Energy by appropriately rewarding our employees for their achievements.

In 2008, the Compensation Committee consisted of Mr. Spedden (Chairman), Messrs. Rohrs and Doan, and Dr. Posner up to May 7, 2008, at which time Dr. Posner ceased to be a member of the committee because his term as a director of the Company expired. On July 29, 2008, Mr. Grady was appointed to the Compensation Committee. Each of the members of the Compensation Committee was and is a non-employee director within the meaning of Rule 16b-3 under the Securities Exchange Act of 1934, an outside director within the meaning of Section 162(m)

Table of Contents

under the Internal Revenue Code and an independent director within the meaning of Rule 4200(a)(15) of the Marketplace Rules of the Nasdaq Stock Market. The Compensation Committee met six times in 2008.

The Compensation Committee believes that the most effective executive compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals by the Company, and that aligns interests of our executive officers with those of the stockholders by rewarding performance that meets or exceeds established goals, with the ultimate objective of exceeding corporate expectations and improving stockholder value. The Compensation Committee evaluates each executive officer's performance and his compensation to ensure that the Company maintains its ability to attract and retain our executive officers and that each element of compensation provided to our executive officers remains competitive relative to the compensation paid to similarly situated executives of our peer companies.

The Compensation Committee has the authority to engage its own independent advisors to assist in making determinations with respect to the compensation of executives and other employees. The Compensation Committee engaged Compensation Strategies, Inc. in 2008 to provide updated market data regarding the compensation practices of Advanced Energy's peer companies along with comparisons of the Company's practices with respect to best practices within the industry. Compensation Strategies has not provided any other services to the Company and has received no compensation other than with respect to the services provided to the Compensation Committee.

Role of Executive Officers in Compensation Decisions

The Compensation Committee meets with the Company's Chief Executive Officer and other senior executives in order to obtain recommendations with respect to the Company's compensation programs and practices for executives and other employees. The Chief Executive Officer annually reviews the performance of each executive officer, other than himself. The Chief Executive Officer's performance is reviewed by the Compensation Committee in executive session. With support from market compensation data, management makes recommendations to the Compensation Committee on the base salaries, bonus targets and equity compensation for the executive officers and other employees. The Compensation Committee considers, but is not bound by, and does not always accept, management's recommendations with respect to executive compensation.

While management attends certain meetings of the Compensation Committee, the Compensation Committee also regularly holds executive sessions not attended by any members of management or by non-independent directors. The Compensation Committee makes all compensation decisions for the executive officers and approves recommendations regarding equity awards to all employees of the Company. The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual stock options or other equity award amounts, are presented to the Compensation Committee. The Compensation Committee can, and for 2008 did, exercise its discretion in modifying those recommended awards.

Benchmarking

One factor that the Compensation Committee considers when making compensation decisions is the compensation paid to executives of a peer group of companies. The Compensation Committee also considers data obtained from management's recruitment activities, as well as factors such as historical rates of compensation, individual performance, competitive positioning, shareholder value achieved, and alignment with the Company's overall compensation philosophy.

The peer group includes a range of companies with which the Compensation Committee believes the Company competes for talent or from which the Company is likely to recruit talent. In establishing compensation benchmarks for 2008, the Compensation Committee considered major high technology competitors for executive talent and

companies of a size and scope similar to that of Advanced Energy as measured by market capitalization, revenue,

Table of Contents

net income and total stockholder return, and data was appropriately size-adjusted. For 2008, the companies comprising this group of peer companies (the Compensation Peer Group) were:

Asyst Techs., Inc.	Credence Systems Corp.	Novellus Systems., Inc.
ATMI, Inc.	Cymer, Inc.	Photronics, Inc.
Axcelis Technologies, Inc.	Entegris, Inc.	PowerSecure International, Inc.
AZZ Inc.	KLA-Tencor Corp.	Rudolph Technologies., Inc.
Brooks Automation, Inc.	LAM Research Corp.	Varian Semiconductor Equipment Assoc.
Cognex Corp.	Mattson Technology, Inc.	Veeco Instruments, Inc.
Coherent, Inc.	MKS Instruments, Inc.	

To assist in the benchmarking process, the Compensation Committee in 2008 specifically requested that Compensation Strategies conduct reviews of the Company’s total compensation program for officers of the Company as well as for other senior managers and executives as compared to the Compensation Peer Group. Compensation Strategies provided the Compensation Committee with relevant market data, competitive assessments of the Company’s compensation practices compared to those of the Compensation Peer Group, and alternatives to consider when making compensation decisions for the executive officers of the Company.

Components of Executive Compensation

For 2008, the principal components of compensation for named executive officers were: (1) Base Salary, (2) Performance-Based Incentive Compensation, (3) Long-Term Equity Incentive Compensation, (4) Personal Benefits and Perquisites, and (5) Other Compensation. In determining the amount and relative allocation among each element of compensation for each named executive officer, the Compensation Committee considered the data of the Compensation Peer Group and made a determination based on its desire to offer comparable mix of compensation, individual circumstances of each executive and its own judgment of the appropriate balance of cash and equity, and short- and long-term compensation it believes will reward superior performance and foster achievement of our strategic goals.

Base Salary

Base salaries are set at levels that the Compensation Committee deems to be sufficient to attract and retain highly talented executive officers capable of fulfilling the Company’s key objectives. Base salaries are also set with the goal of rewarding executive officers on a day-to-day basis for their time and services while encouraging them to strive for performance-based and long-term incentives. The Compensation Committee generally aims to establish base salaries for our executive officers between the 40th and 60th percentile of base salaries for similarly situated officers at companies in the Compensation Peer Group. Salary levels are typically considered annually as part of the Company’s performance review process.

The 2008 base salary for each of our executive officers, other than Charles S. Rhoades, was determined based upon such officer’s base salaries for the preceding year, individual performance future potential, scope of his or her responsibilities and experience; an internal review of the executive’s current total compensation, both individually and relative to other executive officers; and financial performance of the Company during the prior year. Base salary for Mr. Rhoades, through his separation date of April 30, 2008, was determined pursuant to a transition agreement entered into with Mr. Rhoades on December 31, 2007.

In October 2008, as a result of declining global economic conditions and the company’s internal business forecasts management recommended and the Compensation Committee approved temporary ten percent reductions in the base

salaries of the Company's executive officers. In December 2008, management recommended and the Compensation Committee approved continuation of the ten percent base salary reduction into 2009, subject to restoration of such salaries to original levels in the event that the Company's sustainable revenue exceeds by at least 5% the revenue level forecasted in the Company's internal operating plan.

Table of Contents

Annual Performance-Based Incentive Compensation

In 2008, the executive officers were eligible to participate in the Leadership Performance Incentive Plan (LPIP), under which incentive awards would be distributed from a bonus pool based upon the Company s operating results in 2008 and each executive officer s individual performance. Under the LPIP, the Company would have funded a bonus pool equal to 10% of the Company s 2008 operating income if 2008 annual revenue and post-bonus operating income thresholds had been met. Revenue and operating income thresholds under the LPIP are set annually based upon achievement of the Company s annual operating plan and approved by the Board of Directors.

The Compensation Committee aims to set each officer s annual target bonus around the 65th percentile of the annual target bonus potentials for similarly situated officers at the companies in the Compensation Peer Group, in order to provide relatively high incentive compensation opportunities that reward goal achievement but that also take into consideration business cyclicality. In determining each officer s annual target bonus, the Compensation Committee also considers the proposed amounts of base salary, equity incentive and other compensation as well as stockholder value created upon achievement of the specified performance targets. Target bonuses for executives in 2008 were:

Chief Executive Officer 70% of base salary

Executive Vice Presidents including Chief Financial Officer 50% of base salary

If the bonus pool had been funded, individual performance objectives applicable to each participant would have been considered to determine the amount of the bonus. Individual performance objectives were set to reward exceptional individual performance with bonus modifiers based on the individual s performance above target amounts, up to a maximum of 150% of such participant s target bonus. In accordance with the goal of retaining key talent, an executive was required to remain an employee for the entire fiscal year to be eligible for any award under the incentive bonus plan.

Individual performance objectives for the Company s executive officers are set annually by the Compensation Committee based upon the critical needs and goals of the Company for that year. For 2008, individual performance objectives for the Company s executive officers were based upon each officer s individual contributions to the Company s overall performance in the categories of (1) long-term strategic planning and execution, (2) organizational development, (3) business process development, (4) reputation and quality of critical customer and investor relationships, and (5) improving efficiencies and decreasing costs. In addition, the Chief Executive Officer had individual performance objectives with respect to financial performance and company-wide quality improvement. The Compensation Committee maintained the discretion to evaluate each executive officer s performance against these objectives and did not set specific metrics against these objectives for 2008.

In February 2009, the Compensation Committee met to determine the amounts of cash bonuses, if any, to award to the executive officers of the Company. Upon reviewing the financial performance of the Company for the fiscal year 2008, the committee determined that neither the 2008 annual revenue threshold nor the post-bonus operating income threshold had been met. As a result, the committee determined that no bonuses were to be awarded to the executive officers under the 2008 incentive compensation plan.

Long-Term Equity Incentive Compensation

The Company grants stock options and restricted stock units to the executive officers as long-term incentives and to align the executive officers interests with those of the Company s stockholders. For 2008, all awards granted to the Company s executive officers were in the form of stock options in order to maximize the alignment of the executive s performance with the Company s long-term interests. The initial award of restricted stock units granted to the

Company's Chief Executive Officer upon hire in 2005 continues to vest.

Prior to May 7, 2008 equity-based incentives were granted under the Company's stockholder-approved 2003 Stock Option Plan, as amended January 31, 2005 and February 21, 2007. Subsequent to the annual stockholder meeting held on May 7, 2008, equity-based incentives were granted under the Company's 2008 Omnibus Incentive Plan approved by the stockholders at the annual meeting. The Compensation Committee has granted equity awards at its scheduled meetings or by unanimous written consent, and the grants become effective and are priced based on

Table of Contents

the closing price on the date of the Board of Directors meeting associated with such meeting or written consent. During 2008, equity based incentive awards were granted quarterly based upon an annual target recommendation from management, which the Compensation Committee had discretion to adjust at any time.

The number of options granted to each executive officer in 2008 was based upon a review by the Compensation Committee of each executive officer's base salary, bonus potential, and individual performance and accomplishments, with the result in each case aimed at achieving total equity compensation between the 60th and 70th percentile of the total equity compensation paid to executive officers in comparable positions as reported by the Compensation Peer Group, based upon data contained in market research commissioned by the Compensation Committee. After considering the proposed amounts of base salary, target bonus and other compensation for each executive officer, the Compensation Committee determined that the amount of total executive equity-based compensation should be set at this level in order to emphasize the goals of retention and growth and to ensure strong alignment between executive performance and stockholder interests.

Personal Benefits and Perquisites

As U.S. employees, the executives were eligible to participate in health and welfare benefits, as offered to our U.S. workforce, designed to attract and retain its workforce in a competitive marketplace. These benefits help ensure that the Company has a healthy and focused workforce through reliable and competitive health and other personal benefits. These benefits were considered in relation to the total compensation package, but did not materially impact decisions regarding other elements of executive officer compensation.

All U.S. employees of the Company, including the executive officers, are eligible to participate in the Company's 401(k) savings plan and are eligible to receive matching contributions by the Company of 50 percent of the first 6 percent of compensation contributed to the plan by the employee. In January 2009, the Compensation Committee determined to discontinue the Company's matching contributions under the 401(k) savings plan as a cost reduction initiative as a result of declining global economic conditions and the Company's internal business forecast.

All U.S. employees of the Company, including the executive officers, are eligible to participate in the Company's Employee Stock Purchase Plan (ESPP), which provides participants with a right to purchase a limited number of shares of common stock of the Company at a purchase price equal to the lesser of 85% of the fair market value of the stock on either the opening or closing date of an offering under the plan. In February 2009, the Compensation Committee determined to discontinue the Company's discount and look-back under the ESPP as a further cost reduction initiative.

Other Compensation

In 2008, the Company was a party to a change in control (CIC) agreement with each of the Chief Executive Officer, the Chief Financial Officer, and the Executive Vice President of Sales, Marketing and Service. The CIC agreements provide each of these executives with severance payments and certain benefits in the event of a termination without Cause or other involuntary termination following an actual or during a pending change in control. The Company entered into the CIC agreements in order to keep management focused on the Company's stated corporate objectives irrespective of whether the achievement of such objectives makes the Company attractive for acquisition, and to avoid the distraction and loss of key management that could occur in connection with a rumored or actual change in corporate control.

Under the CIC agreements effective March 29, 2008, in the event of an executive's termination without cause following an actual or during a pending change in control, the executive is entitled to receive: (a) all then accrued compensation and a pro-rata portion of executive's target bonus for the year in which the termination is effected, (b) a

lump sum payment equal to the executive's then current annual base salary plus his or her target bonus for the year in which the termination is effected (or in the case of the Chief Executive Officer, two times such amount), (c) continuation of insurance and other benefits for 18 months following the date of termination, (d) an amount equal to the contributions that would have been made to the company's retirement plans on behalf of executive, if the executive had continued to be employed for 12 months following the date of termination, and (e) reimbursement, up to \$15,000, for outplacement services. In addition, all stock options and other equity awards then held by the

Table of Contents

executive so terminated become fully vested and exercisable. The terms of the CIC agreements were determined by the Compensation Committee based on consideration of marketplace benchmark data and the Company's retention objectives.

Tax and Accounting Implications

Section 162(m) of the Internal Revenue Code of 1986 generally limits to \$1 million the corporate deduction for compensation paid to certain executive officers, unless the compensation is performance-based (as defined in Section 162(m)). Each of the members of the Board of Directors and the Compensation Committee carefully considers the potential impact of the limitation on executive compensation and considers it to be in the best interests of Advanced Energy and the stockholders to seek to qualify as tax deductible virtually all executive compensation. The Board of Directors and the Compensation Committee also recognize the need to consider factors other than tax deductibility in making compensation decisions and thus reserve the flexibility to award compensation that is not necessarily performance-based. During 2008, none of the executive officers of the Company had compensation in excess of \$1,000,000.

Compensation Committee Interlocks and Insider Participation

The current members of the Compensation Committee are Messrs. Spedden (Chairman), Doan, Grady and Rohrs. None of such directors is or has been an officer or employee of Advanced Energy, nor has any of such persons had a direct or indirect interest in any business transaction with Advanced Energy involving an amount in excess of \$120,000 or any other interlock relationship required to be reported under the rules of the Securities and Exchange Commission.

During 2008, no executive officer of Advanced Energy served as a member of the board of directors or compensation committee of another company that has any executive officers or directors serving on Advanced Energy's Board of Directors or its Compensation Committee.
