**Notes to Condensed Consolidated Financial Statements**  
**(Unaudited)**  
**October 31, 2005**

**1. BASIS OF PRESENTATION**

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for fiscal year end financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended October 31, 2005 are not necessarily indicative of the results that may be expected for the fiscal year ending July 31, 2006. For further information, refer to the financial statements and footnotes thereto included in the Company's annual report on Form 10-KSB for the year ended July 31, 2005.

The financial statements include the accounts of ARI Network Services, Inc. and its wholly owned subsidiary, ARI Europe B. V. All intercompany transactions and balances have been eliminated.

The functional currency of the Company's subsidiary in the Netherlands is the Euro; accordingly, monetary assets and liabilities are translated into United States dollars at the rate of exchange existing at the end of the period, and non-monetary assets and liabilities are translated into United States dollars at historical exchange rates. Income and expense amounts, except for those related to assets translated at historical rates, are translated at the average exchange rates during the period. Adjustments resulting from the remeasurement of the financial statements into the functional currency are charged or credited to income.

**2. BASIC AND DILUTED NET INCOME PER SHARE**

Basic net income per common share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per common share is computed by dividing net income by the weighted average number of common shares outstanding during the period and reflects the potential dilution that could occur if all of the Company's outstanding stock options and warrants that are in the money were exercised (calculated using the treasury stock method). The following table is a reconciliation of the weighted average number of common shares and equivalents outstanding in the calculation of basic and diluted net income per common share (in thousands) for the periods indicated.

	Three months ended October 31	
	2005	2004
Weighted average common shares outstanding	6,126	5,951
Dilutive effect of stock options and warrants	603	297
Diluted weighted average common shares outstanding	6,729	6,248

**3. STOCK-BASED COMPENSATION**

The Company has stock-based compensation plans. SFAS No. 123 Accounting for Stock-Based Compensation encourages, but does not require companies to record compensation cost for stock-based employee compensation plans at fair value. The Company has chosen to continue using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations, in accounting for its stock option plans. SFAS No. 123 requires companies with stock-based compensation plans to disclose the pro forma effect of stock-based compensation on earnings and earnings per share. The following table sets forth the effect on earnings and earnings per share (in thousands, except per share data) of stock-based compensation had the cost been determined based upon the fair value at the grant date for awards under the plan using the Black-Scholes valuation method.

Three months ended  
October 31

Diluted pro forma	\$ 0.06	\$ 0.07

7

**Table of Contents****4. NOTES PAYABLE**

On April 24, 2003, the Company restructured its debt. In exchange for previously outstanding securities, the Company issued to a group of investors (collectively, the New Holders), in aggregate, \$500,000 in cash, new unsecured notes in the amount of \$3.9 million (the New Notes) and new warrants for 250,000 common shares, exercisable at \$1.00 per share (the New Warrants). The interest rate on the New Notes is prime plus 2%, adjusted quarterly (effective rate of 8.75% as of October 31, 2005). The New Notes are payable in \$200,000 quarterly installments commencing March 31, 2004 through December 31, 2005 and \$300,000 quarterly installments commencing March 31, 2006 until paid in full. The New Notes do not contain any financial covenants, but the Company is restricted from permitting certain liens on its assets. In addition, in the event of payment default that is not cured within ninety (90) days, Taglich Brothers, Inc., one of the New Holders, has the right to appoint one designee to the Company's Board of Directors. The New Warrants were estimated to have a value of \$36,000, of which the unamortized amount reduces the carrying amount of the debt. In accordance with SFAS No. 15, Accounting by Debtors and Creditors for Troubled Debt Restructurings, the exchange of the previously outstanding securities for \$500,000 in cash, the New Notes and the New Warrants was accounted for as a troubled debt restructuring and no gain was recorded. Instead the liability in excess of the future cash flows to the New Holders, which was originally approximately \$322,000, remains on the balance sheet as a long term debt and is being amortized as a reduction of interest expense over the life of the New Notes.

On August 7, 2003, the Company purchased from WITECH Corporation 1,025,308 shares of the Company's common stock, 30,000 common stock warrants and 20,350 shares of Series A Preferred Stock for \$200,000 at closing and an \$800,000 promissory note which is payable quarterly through September 30, 2007 at the prime interest rate plus 2%, adjusted quarterly (effective rate of 8.75% as of October 31, 2005).

**5. SHAREHOLDER RIGHTS PLAN**

On August 7, 2003, the Company adopted a Shareholder Rights Plan designed to protect the interests of common shareholders from an inadequate or unfair takeover, but not affect a takeover proposal which the Board of Directors believes is fair to all shareholders. Under the Shareholder Rights Plan adopted by the Board of Directors, all shareholders of record on August 18, 2003 received one Preferred Share Purchase Right for each share of common stock they owned. These Rights trade in tandem with the common stock until and unless they are triggered. Should a person or group acquire more than 10% of ARI's common stock (or if an existing holder of 10% or more of the common stock were to increase its position by more than 1%), the Rights would become exercisable for every shareholder except the acquirer that triggered the exercise. The Rights, if triggered, would give the other shareholders the ability to purchase additional stock of ARI at a substantial discount. The rights will expire on August 18, 2013, and can be redeemed by the Company for \$0.01 per Right at any time prior to a person or group becoming a 10% shareholder.

**6. INCOME TAXES**

The provision for income taxes is composed of the following (in thousands):

	Three months ended October 31	
	2005	2004
Current:		
Federal	\$ 169	\$ 31
State	30	5
Deferred		
Utilization of net operating loss carryforwards	(199)	
Income tax benefit (provision)	\$	(\$36)

Provision for income taxes is based on taxes payable under currently enacted tax laws and an analysis of temporary differences between the book and tax bases of our assets and liabilities, including various accruals, allowances, depreciation and amortization. The tax effect of these temporary differences and the estimated tax benefit from tax net

operating losses are reported as deferred tax assets and liabilities in the balance sheet. An assessment of the likelihood that net deferred tax assets will be realized from future taxable income is performed on a quarterly basis. To the extent that management believes it is more likely than not that some portion, or all, of the deferred tax asset will not be realized, a valuation allowance is established. Because the ultimate realizability of deferred tax assets is highly subject to the outcome of future events, the amount established as a valuation allowance is a significant estimate that is subject to change in the near future. The change in the valuation allowance during a period is reflected with a corresponding increase or decrease in the tax provision in the statement of operations. Because of the uncertainty of long-term future economic conditions, the estimated future utilization of deferred net tax assets is based on twelve quarters of projections.

**Table of Contents****7. CLAIM FOR INDEMNIFICATION**

On November 5, 2004, the Company received a letter on behalf of one of its customers asserting a warranty claim and/or a claim for indemnity with respect to a complaint filed against the customer for patent infringement in the United States District Court for the Eastern District of Texas. In connection with the case, the customer has identified three other suppliers as potential indemnitors as well. The customer is one of several primarily large, multinational corporate defendants alleged to have violated patents purporting to cover an Electronic Proposal Preparation System (U.S. Patent No. 5,615,342) and/or Computer-Assisted Parts Sales Method (U.S. Patent No. 5,367,627). The customer has denied any and all allegations of patent infringement in the lawsuit. The Company denied any responsibility, warranty or indemnification to the customer with respect to the complaint and intends to vigorously defend itself in this matter should that become necessary. If the Company can assist its customer in its defense, the Company intends to do so.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION****Results of Operations**

Total revenue for the quarter ended October 31, 2005 increased \$216,000 or 7%, compared to the same period last year, primarily due to an increase in revenues from the Company's worldwide catalog subscriptions and catalog professional services. Operating income decreased \$38,000 or 7% for the quarter ended October 31, 2005, compared to the same period last year, primarily due to an increase in selling, general and administrative expense. Earnings remained relatively the same at net income of \$498,000 or \$0.08 per basic share for the quarter ended October 31, 2005, compared to net income of \$494,000 or \$0.08 per basic share for the quarter ended October 31, 2004. Management expects revenues and operating expenses to continue to increase over the prior year for the remainder of fiscal 2006, although there can be no assurance that this will occur.

During fiscal year 2006, the Company plans to focus on four growth initiatives: (1) maintaining and enhancing the current catalog business; (2) growing the dealer marketing services business; (3) changing to a dealer-direct business model in Europe; and (4) making selected synergistic acquisitions. We anticipate that the expenses and investments associated with these growth initiatives (primarily 2 and 3) will be at a level that will result in a slight decrease in operating income for fiscal 2006, but that the revenues generated by these initiatives will result in increased net income for fiscal 2007 and beyond, although there can be no assurance that this will occur.

**Critical Accounting Policies and Estimates***General*

The Company's discussion and analysis of its financial condition and results of operations are based upon its financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to customer contracts, bad debts, capitalized software product costs, financing instruments, revenue recognition and other accrued expenses. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The Company believes the following critical accounting policies affect its more significant judgments and estimates used in the preparation of its financial statements.

*Revenue Recognition*

Revenue for use of the network and for information services is recognized in the period such services are utilized. Revenue from annual or periodic maintenance fees, license and license renewal fees and catalog subscription fees is recognized ratably over the period the service is provided. Arrangements that include acceptance terms beyond the Company's standard terms are not recognized until acceptance has occurred. If collectibility is not considered probable, revenue is recognized when the fee is collected. Arrangements that include professional services are evaluated to determine whether those services are essential to the functionality of other elements of the arrangement. When professional services are not considered essential, the revenue allocable to the professional services is

recognized as the services are performed. When professional services are considered essential, revenue under the arrangement is recognized pursuant to contract accounting using the percentage-of-completion method with progress-to-completion measured based upon labor hours incurred. When the current estimates of total contract revenue and contract cost indicate a loss, a provision for the entire loss on the contract is made. Revenue on arrangements with customers who are not the ultimate users (resellers) is deferred if there is any contingency on the ability and intent of the reseller to sell such software to a third party. Amounts invoiced to customers prior to recognition as revenue as discussed above are reflected in the accompanying balance sheets as deferred revenue.

**Table of Contents**

*Bad Debts*

The Company maintains an allowance for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. The Company currently reserves for most amounts due over 90 days, unless there is reasonable assurance of collectibility. If the financial condition of the Company's customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

*Use of Estimates*

The preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions about accrued expenses that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

*Impairment of Long-Lived Assets*

Equipment and leasehold improvements and capitalized software product costs are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the sum of the expected undiscounted cash flows is less than the carrying value of the related asset or group of assets, a loss is recognized for the difference between the fair value and carrying value of the asset or group of assets.

*Debt Instruments*

The Company valued debt discounts for Common Stock Warrants granted in consideration for Notes Payable using the Black Scholes valuation method. Non-cash interest expense is recorded for the amortization of the debt discount over the term of the debt.

*Deferred Tax Asset*

The tax effect of the temporary differences between the book and tax bases of assets and liabilities and the estimated tax benefit from tax net operating losses are reported as deferred tax assets and liabilities in the balance sheet. An assessment of the likelihood that net deferred tax assets will be realized from future taxable income is performed. Because the ultimate realizability of deferred tax assets is highly subject to the outcome of future events, the amount established as valuation allowances is considered to be a significant estimate that is subject to change in the near term. To the extent a valuation allowance is established or there is a change in the allowance during a period, the change is reflected with a corresponding increase or decrease in the tax provision in the statement of operations.

*Stock-Based Compensation*

The Company accounts for its employee stock option plans under the recognition and measurement principles of Accounting Principles Board ( APB ) Opinion No. 25, Accounting for Stock Issued to Employees, and related Interpretations. Under APB Opinion No. 25, no stock-based compensation is reflected in net income, as all options granted under the plans had an exercise price equal to the market value of the underlying common stock on the date of grant and the related number of shares granted is fixed at that point in time.

On April 14, 2005, the FASB amended Statement No. 123(R), Share-Based Payment, which generally requires share-based payments to employees, including grants of employee stock options and purchases under employee stock purchase plans, to be recognized in the statement of operations based on their fair values. This standard is effective for public companies that are small business issuers for fiscal years beginning after December 15, 2005. We expect to adopt this new standard at the beginning of our fiscal year ending July 31, 2007 using the modified prospective method.

**Table of Contents****Revenues**

The Company is a leading provider of electronic parts catalogs and related technology and services to increase sales and profits for dealers in the manufactured equipment market. The Company currently provides 88 catalogs of manufactured equipment from 69 manufacturers to approximately 30,000 dealers in approximately 89 countries in 12 segments of the worldwide manufactured equipment market including outdoor power, power sports, motorcycles, recreation vehicles, marine, construction, floor maintenance, agricultural equipment, auto and truck parts after-market and others primarily in the U.S., Canada, Europe and Australia. Collectively, dealers and distributors have over 82,000 catalog subscriptions. The Company supplies three types of software and services: (1) robust Web and CD-ROM interactive electronic parts catalogs, (2) integrated marketing services including template-based website services and technology-enabled direct mail services and (3) communication or transaction services. The Company's primary product line is electronic cataloging; the other products are supplementary offerings that leverage its position in the catalog market.

The following table sets forth certain Catalog, Customer and Subscription information by region derived from the Company's financial and customer databases. The number of distinct distributors and dealers is estimated because some subscriptions are distributed by third parties (including manufacturers), which may or may not inform ARI of the distributors and/or dealers to which the subscription is distributed. Because the estimating methodology is still being refined, comparisons to prior quarters may or may not be indicative of business trends.

**Catalog, Customer and Subscription Information by Region**  
(As of October 31, 2005)

	<b>Catalogs</b>	<b>Distinct Manufacturers</b>	<b>Subscriptions</b>	<b>Distinct Distributors (Estimated)</b>	<b>Distinct Dealers (Estimated)</b>
North America	81	59	73,201	103	23,018
Rest of World	56	10	9,693	36	7,106
Included in both Regions	(49)				
<b>Total</b>	<b>88</b>	<b>69</b>	<b>82,894</b>	<b>139</b>	<b>30,124</b>

**Catalog =** A separately sold and/or distributed parts catalog. A manufacturer may have more than one catalog. More than one brand or distinct product line may be included in a catalog.

**Distinct =** A single independent manufacturer, not owned by another manufacturer, served by ARI. Distinct manufacturers are included in the region they most serve even if they have catalogs in both regions.

**Subscription =** Catalogs subscribed to by a single dealer or distributor. A dealer or distributor may subscribe to more than one catalog.

**Distinct Distributor =** A single independent distributor, not owned by another distributor, served by ARI. A distributor generally buys from manufacturers and sells to dealers.

**Distinct Dealer =** A single independent servicing dealer, not owned by another dealer, served by ARI.

As part of its historical business practice, the Company continues to provide electronic directory and transaction services to the U.S. and Canadian agribusiness industry. As the Company focuses on its core businesses in the Equipment industry, revenues in the non-equipment industry are expected to continue to decline during fiscal 2006. The Equipment industry has been a growing percentage of the Company's revenue over the past six years and is composed of several vertical markets including outdoor power, power sports, motorcycles, recreation vehicles,

marine, construction, floor maintenance, agricultural equipment, auto and truck parts after-market and others primarily in the U.S., Canada, Europe and Australia. Management's strategy is to expand the Company's electronic parts catalog software and services business with dealers in the existing vertical markets, expand to other similar markets, and execute on the four growth initiative strategies previously mentioned.

**Table of Contents**

The following tables set forth, for the periods indicated, certain revenue information derived from the Company's unaudited financial statements.

**Revenue by Geography and Service  
(In Thousands)**

***North America******Catalog Subscriptions***

North American catalog subscription revenues are derived from software license fees, license renewal fees, software maintenance and support fees, catalog subscription fees, and other miscellaneous subscription fees charged to dealers, distributors and manufacturers for the use of the Company's catalog products in the United States and Canada. Catalog subscription revenues increased for the three months ended October 31, 2005, compared to the same period last year, primarily due to increased subscriptions from the Company's web-based catalog products. Catalog subscription renewals from the Company's North American customers were approximately 88% for the three months ended October 31, 2005. Management expects revenues from catalog subscriptions in North America to increase for the remainder of fiscal 2006 compared to the prior year.

***Catalog Professional Services***

Revenues from the Company's North American catalog professional services are derived from software customization labor, data conversion labor, data conversion replication fees, travel and shipping fees primarily charged to manufacturers in the United States and Canada. Revenues from catalog professional services in North America increased, for the three months ended October 31, 2005, compared to the same period last year, primarily due to labor charged for the deployment of new web-based manufacturer databases. Management expects revenues from catalog professional services in North America to increase slightly for the remainder of fiscal 2006 compared to the prior year.

***Dealer Marketing Services***

Revenues from the Company's North American dealer marketing services are derived from start-up and access fees charged to dealers for Website Smart and set-up and postage fees for ARI MailSmart in the United States and Canada. Revenues from dealer marketing services in North America increased, for the three months ended October 31, 2005, compared to the same

**Table of Contents**

period last year, primarily due to sales of the Company's new offering ARI MailSmart. Management expects revenues from dealer marketing services in North America to increase for the remainder of fiscal 2006 compared to the prior year.

*Dealer and Distributor Communications*

Revenues from dealer and distributor communications are derived from license renewal fees, software maintenance, customization labor and other communication fees charged for dealers and distributors to communicate with manufacturers in the manufactured equipment industry and the agricultural inputs industry. Dealer and distributor communication revenues decreased for the three months ended October 31, 2005, compared to the same period last year, primarily due to a decline in the base of customers as the Company focused the business primarily on its catalog products. Management expects revenues from dealer and distributor communication products will be a declining percentage of total revenue for the remainder of fiscal 2006 compared to the prior year.

***Rest of the World***

*Catalog Subscriptions*

Catalog subscription revenues from the rest of the world are derived from software license fees, license renewal fees, software maintenance and support fees, catalog subscription fees, and other miscellaneous subscription fees charged to dealers, distributors and manufacturers for the use of the Company's catalog products. Catalog subscription revenues for the rest of the world decreased 1% for the three months ended October 31, 2005, compared to the same period last year, primarily due to a decline in subscriptions from manufacturers offset by an increase in dealer subscriptions as the Company changed its operations to a dealer-centric model in the Netherlands. The total number of subscriptions decreased due to the challenges of adding new dealer customers in Europe who are not accustomed to paying the Company for the subscription. Management expects revenues from catalog subscriptions in the rest of the world to increase for the remainder of fiscal 2006 as the operations in the Netherlands continues to grow.

*Catalog Professional Services*

Revenues from the Company's rest of the world catalog professional services are derived from software customization labor, data conversion labor, data conversion replication fees, travel and shipping fees primarily charged to manufacturers that do not reside in North America. Revenues from catalog professional services in the rest of the world increased, for the three months ended October 31, 2005, compared to the same period last year, primarily due to labor charged for the deployment of manufacturer databases. Management expects revenues from catalog subscriptions in the rest of the world to increase for the remainder of fiscal 2006.

**Table of Contents****Cost of Products and Services Sold**

The following table sets forth, for the periods indicated, certain information regarding revenue and cost of products and services sold which is derived from the Company's unaudited financial statements.

**Cost of Products and Services Sold as a Percent of Revenue by Revenue Type**  
(In thousands)

	Three months ended		Percent Change
	October 31		
	2005	2004	
Catalog subscriptions			
Revenue	\$ 2,792	\$ 2,641	6%
Cost of revenue	278	261	7%
Cost of revenue as a percent of revenue	10%	10%	
Catalog professional services			
Revenue	404	305	32%
Cost of revenue	100	61	64%
Cost of revenue as a percent of revenue	25%	20%	
Dealer marketing services			
Revenue	68	48	40%
Cost of revenue	31	16	94%
Cost of revenue as a percent of revenue	46%	33%	
Dealer and distributor communications			
Revenue	227	281	(19%)
Cost of revenue	41	91	(55%)
Cost of revenue as a percent of revenue	18%	32%	
Total			
Revenue	\$ 3,491	\$ 3,275	7%
Cost of revenue	450	429	5%
Cost of revenue as a percent of revenue	13%	13%	

Cost of catalog subscriptions consists primarily of reseller fees, software amortization costs, catalog replication and distribution costs. Cost of catalog subscriptions as a percentage of revenue remained relatively the same for the three-month period ended October 31, 2005, compared to the same period last year. Management expects gross margins, as a percent of revenue from catalog subscriptions, to vary from quarter to quarter due to the timing of data shipments.

Cost of catalog professional services consists of customization and catalog production labor. Cost of professional services as a percentage of revenue increased for the three-month period ended October 31, 2005, compared to the same period last year, primarily due to an increase in catalog production labor which has a lower margin. Management expects cost of catalog professional services to fluctuate from quarter to quarter depending on the mix of services sold and on the Company's performance towards the contracted amount for customization projects.

Cost of dealer marketing services consists primarily of website setup labor, software amortization costs, postcards and distribution costs. Cost of dealer marketing services as a percentage of revenue increased for the three-month period ended October 31, 2005, compared to the same period last year primarily due to an increase in MailSmart sales which have a lower margin. Management expects gross margins, as a percent of revenue from dealer marketing services, to fluctuate from quarter to quarter depending on the mix of products and services sold.

Cost of dealer and distributor communications revenue consists primarily of telecommunication costs, royalties and software customization labor. Cost of dealer and distributor communications as a percentage of revenue decreased for the three month period ended October 31, 2005, compared to the same period last year primarily due to a decrease in telecommunication costs and software customization labor. Management expects gross margins, as a percent of revenue from dealer and distributor communications, to be relatively consistent from quarter to quarter.

**Table of Contents****Operating Expenses**

The following table sets forth, for the periods indicated, certain operating expense information derived from the Company's unaudited financial statements.

**Operating Expenses**  
(In thousands)

	<b>Three months ended</b>		<b>Percent</b>
	<b>October 31</b>		
	<b>2005</b>	<b>2004</b>	<b>Change</b>
Customer operations and support	\$ 303	\$ 262	16%
Selling, general and administrative	1,859	1,709	9%
Software development and technical support	275	259	6%
Depreciation and amortization	80	54	48%
Net operating expenses	\$ 2,517	\$ 2,284	10%

Customer operations and support consists primarily of server room operations, software maintenance agreements for the Company's core network and customer support costs. Customer operations and support costs increased for the three-month period ended October 31, 2005, compared to the same period last year primarily due to the addition of a manager of the Virginia office. Management expects customer operations and support costs to continue at relatively the same level for the remainder of fiscal 2006.

Selling, general and administrative expenses ( SG&A ) increased for the three month period ended October 31, 2005, compared to the same period last year, as the Company invested in new sales and marketing initiatives in both the North American and European industries. SG&A, as a percentage of revenue, increased slightly from 52% for the three-month period ended October 31, 2004 to 53% for the three-month period ended October 31, 2005. Management expects SG&A costs to increase compared to the previous year for the remainder of fiscal 2006 as the Company continues its sales and marketing initiatives.

The Company's technical staff (in-house and contracted) performs both software development and technical support and software customization and data conversion services for customer applications. Therefore, management expects fluctuations between software customization and data conversion services and development and technical support expenses quarter to quarter, as the mix of development and customization activities will change based on customer requirements. Software development and technical support costs increased for the three month period ended October 31, 2005, compared to the same period last year, primarily due to temporary help used to deploy the new catalog software and new customer databases in the first quarter of fiscal 2006. Management expects software development and technical support costs to continue to be higher than the previous year for the remainder of fiscal 2006 as the Company invests in its new catalog products.

Depreciation and other amortization expense increased for the three-month period ended October 31, 2005, compared to the same period last year. Management expects depreciation and other amortization to increase slightly for the remainder of fiscal 2006, as the Company invests in the business.

**Other Items**

Earnings increased slightly from net income of \$494,000 for the three-month period ended October 31, 2004, to net income of \$498,000 for the three month period ended October 31, 2005. The Company's increase in revenue was offset by increased investment in its new sales initiatives. Management expects to continue to generate positive earnings and cash flows for the remainder of fiscal 2006, although there can be no assurance that this will occur.

Interest expense includes both cash and non-cash interest. Interest paid or accrued for payment was approximately \$65,000 and \$64,000 for the three month periods ended October 31, 2005 and 2004, respectively. In addition, approximately \$16,000 and \$21,000 of excess debt principal was amortized to offset interest expense for the three month period ended October 31, 2005 and 2004, respectively.

**Acquisitions**

Since December 1995, the Company has had a formal business development program aimed at identifying, evaluating and closing acquisitions that augment and strengthen the Company's market position, product offerings, and personnel resources. Since the program's inception, five acquisitions have been completed, four of which were fully integrated into the Company's operations prior to fiscal year 2000.

**Table of Contents**

The business development program is still an important component of the Company's long-term growth strategy and the Company expects to continue to pursue it aggressively.

**Liquidity and Capital Resources**

The following table sets forth, for the periods indicated, certain cash flow information derived from the Company's unaudited financial statements.

**Cash Flow Information**  
(In thousands)

	<b>Three months ended</b>		<b>Percent Change</b>
	<b>October 31</b>		
	<b>2005</b>	<b>2004</b>	
Net income	\$ 498	\$ 494	1%
Amortization of software products	145	141	3%
Amortization of deferred finance costs and debt discount	(16)	(21)	24%
Depreciation and other amortization	81	54	50%
Stock issued as contribution to 401(k) plan	21	37	(43%)
Net change in working capital	(353)	30	(1277%)
Net cash provided by operating activities	376	735	(49%)
Net cash used in investing activities	(255)	(671)	62%
Net cash used in financing activities	(217)	(251)	14%
Net change in cash	(\$ 96)	(\$ 187)	49%

Net cash provided by operating activities decreased for the three-month period ended October 31, 2005, compared to the same period last year, primarily due to the decrease in components of working capital. The effect of net changes in working capital is dependent on the timing of payroll and other cash disbursements, accruals and the timing of invoices and may vary significantly from quarter to quarter. Net cash used in investing activities decreased for the three-month period ended October 31, 2005, compared to the same period last year, primarily due to the acquisition of software purchased from a third party in October 2004. Management expects the net of cash provided by operating activities and used in investing activities to be positive for the remainder of fiscal 2006, although there can be no assurance that this result will be ultimately achieved.

At October 31, 2005, the Company had cash and cash equivalents of approximately \$3,555,000 compared to approximately \$3,651,000 at July 31, 2005.

The following table sets forth, for the periods indicated, certain information related to the Company's debt derived from the Company's unaudited financial statements.

**Debt Schedule**  
(In thousands)

	<b>October 31 2005 (Unaudited)</b>	<b>July 31 2005 (Audited)</b>	<b>Net Change</b>
Note payable to WITECH:			
Current portion of note payable	200	200	
Long term portion of note payable	200	250	(50)
Total note payable to WITECH	400	450	(50)
Notes payable to New Holders:			
Current portion of notes payable	1,100	1,000	100

Edgar Filing: ARI NETWORK SERVICES INC /WI - Form 10QSB

Long term portion of notes payable	1,400	1,700	(300)
Total face value of notes payable to New Holders	2,500	2,700	(200)
Carrying value in excess of face amount of notes payable	82	105	(23)
Debt discount (common stock warrants and options)	(12)	(18)	6
Total carrying value of notes payable to New Holders	2,570	2,787	(217)
Total debt	\$ 2,970	\$ 3,237	\$ (267)

**Table of Contents**

On April 24, 2003, the Company restructured its debt. In exchange for previously outstanding debt and securities, the Company issued to a group of investors (the New Holders ), in aggregate, \$500,000 in cash, new unsecured notes in the amount of \$3.9 million (the New Notes ) and new warrants for 250,000 common shares, exercisable at \$1.00 per share (the New Warrants ). The interest rate on the New Notes is prime plus 2%, adjusted quarterly (effective rate of 8.75% as of October 31, 2005). The New Notes are payable in \$200,000 quarterly installments commencing March 31, 2004 through December 31, 2005 and \$300,000 quarterly installments commencing March 31, 2006 until paid in full. The New Notes do not contain any financial covenants, but the Company is restricted from permitting certain liens on its assets. In addition, in the event of payment default that is not cured within ninety (90) days, Taglich Brothers, Inc., one of the New Holders, has the right to appoint one designee to the Company s Board of Directors. The New Warrants were estimated to have a value of \$36,000, of which the unamortized amount reduces the carrying amount of the debt.

On August 8, 2003, the Company repurchased from WITECH Corporation 1,025,308 shares of Common Stock, a warrant to purchase 30,000 shares of Common Stock at \$.24 per share, and 20,350 shares of Series A Preferred Stock with an approximate face value plus accrued and undeclared dividends of \$3.5 million. The Company paid \$200,000 in cash and issued a four-year note for \$800,000, payable quarterly and bearing interest at prime plus 2%, adjusted quarterly (effective rate of 8.75% as of October 31, 2005). The note does not contain any financial covenants.

On July 9, 2004, the Company entered into a line of credit with Bank One, N.A. which permits the Company to borrow an amount equal to 80% of the book value of all eligible accounts receivable plus 45% of the value of all eligible open renewal orders (provided the renewal rate is at least 85%) minus \$75,000, up to \$500,000, and bears interest at prime rate. Eligible accounts include certain non-foreign accounts receivable which are less than 90 days from the invoice date. The line of credit terminates July 9, 2006, and is secured by substantially all of the Company s assets. The line of credit limits repurchases of common stock, the payment of dividends, liens on assets and new indebtedness, and requires the Company to meet minimum net worth and debt service coverage financial covenants. Management believes that funds generated from operations will be adequate to fund the Company s operations, investments and debt payments for the foreseeable future, although additional financing may be necessary if the Company were to complete a material acquisition or to make a large investment in its business.

**Forward Looking Statements**

Certain statements contained in this Form 10-QSB are forward looking statements including revenue growth, future cash flows and cash generation and sources of liquidity. Expressions such as believes, anticipates, expects, and similar expressions are intended to identify such forward looking statements. Several important factors can cause actual results to materially differ from those stated or implied in the forward looking statements. Such factors include, but are not limited to the factors listed on exhibit 99.1 of the Company's annual report on Form 10-KSB for the year ended July 31, 2005, which is incorporated herein by reference. The forward-looking statements are made only as of the date hereof, and the Company undertakes no obligation to publicly release the result of any revisions to these forward-looking statements.

**ITEM 3. CONTROLS AND PROCEDURES**

ARI maintains a set of disclosure controls and procedures that are designed to ensure that information required to be disclosed by it in the reports filed by it under the Securities Exchange Act of 1934, as amended ( Exchange Act ) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. ARI carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and its Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Rule 13a-15 of the Exchange Act. Based on that evaluation, ARI's Chief Executive Officer and its Chief Financial Officer concluded that ARI's disclosure controls and procedures are effective as of October 31, 2005.

There have been no changes in ARI's internal control over financial reporting identified in connection with the evaluation discussed above that occurred during the quarter ended October 31, 2005 that have materially affected, or are reasonably likely to materially affect, ARI's internal control over financial reporting.

**PART II OTHER INFORMATION**

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

During the quarter ended October 31, 2005, the Company did not sell any equity securities which were not registered under the Securities Act or repurchase any of its equity securities.

**ITEM 6. EXHIBITS**

31.1 Section 302 Certification of Chief Executive Officer.

31.2 Section 302 Certification of Chief Financial Officer.

32.1 Section 906 Certification of Chief Executive Officer.

32.2 Section 906 Certification of Chief Financial Officer.
