REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Administrative Committee of
the Northern Indiana Public Service Company
Bargaining Unit Tax Deferred Savings Plan
Merrillville, IN

We have audited the accompanying statements of net assets available for benefits of the Northern Indiana Public Service Company Bargaining Unit Tax Deferred Savings Plan (the Plan) as of December 31, 2007 and 2006, and the related statement of changes in net assets available for benefits for the year ended December 31, 2007. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2007 and 2006, and the changes in net assets available for benefits for the year ended December 31, 2007, in conformity with accounting principles generally accepted in the United States of America. Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2007, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan s management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic 2007 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

**NORTHERN INDIANA PUBLIC SERVICE COMPANY
BARGAINING UNIT TAX DEFERRED SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

1. DESCRIPTION OF PLAN

Northern Indiana Public Service Company (the Company or NIPSCO) is a wholly owned subsidiary of NiSource Inc. The following description of the Northern Indiana Public Service Company Bargaining Unit Tax Deferred Savings Plan (the Plan) provides general information regarding the Plan. Participants should refer to the Plan document for a more complete description of the Plan s provisions.

General The Plan was established effective October 1, 1987. It is a defined contribution plan available to substantially all active bargaining unit employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan Administration The Company serves as administrator and sponsor of the Plan. NiSource Inc. maintains an administrative committee appointed by the Board of Directors, which has the responsibility to assist the Company in administering the Plan. Fidelity Management Trust Company (the Trustee) holds all of the Plan s assets and executes all investment transactions.

Contributions Each year, participants may contribute up to 50% of compensation (as defined in the Plan) on a pre-tax basis and 25% on an after-tax basis, up to 75% in total, subject to Internal Revenue Code limitations. Additionally, participants who are at least 50 years old can make catch-up contributions to the Plan. Contributions are subject to certain limitations. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers thirty mutual funds, one money market fund, one collective trust, and one common stock fund as investment options for participants. Effective June 1, 2007, seven of the mutual funds were closed to new investments.

All NIPSCO active union employees are given a choice between a Cash Balance and Final Average Pay defined benefit plan. For employees who choose the Cash Balance defined benefit plan, the Company contributes an amount equal to 75% of the first 6% of the participants combined pre-tax and post-tax contributions. For employees who choose the Final Average Pay defined benefit plan, the Company contributes an amount equal to 1/9th of a participant s pre-tax contribution. The matching contribution is invested directly into the Plan Interest in the Master Trust. Employees may subsequently direct matching contributions among any of the funds available in the Plan.

Rollovers from Other Qualified Employer Plans The Plan allows for employees to transfer certain of their other qualified employer retirement plan assets to the Plan. These amounts are reflected in participant contributions in the accompanying statement of changes in net assets available for benefits.

Participant Accounts Each participant s account is credited with the participant s contribution and allocations of the Company s contribution and Plan earnings and charged with an allocation of Plan losses and certain administrative expenses.

Vesting Participants are fully vested in their accounts at all times.

Table of Contents

Participant Loans Participants that have participated in the Plan for at least one year may borrow up to 50% from their accounts, a minimum of \$1,000 up to a maximum of \$50,000. The loans are secured by the balance in the participant's account and bear interest at prime rate on the last day of the month prior to loan initiation. Interest rates on outstanding loans range from 4.75% to 9% at December 31, 2007. Principal and interest are paid ratably through payroll deductions over a period not to exceed five years, unless the loan is to purchase the participant's primary residence which allows repayment up to 15 years (30 years prior to January 1, 2002). Participants may have two loans outstanding at any given time.

Participant Withdrawals Withdrawals from the Plan are generally permitted when the participant terminates employment, retires, or becomes permanently disabled. The Plan offers the following options for withdrawals while still employed:

Age 59^{1/2} withdrawals;

Voluntary withdrawals from after-tax, rollover and matching contributions; and

Hardship withdrawals, subject to the Plan rules.

A Company matching contribution or hardship withdrawal may result in the suspension of the participant's deferral and Company matching contributions for six months.

Payment of Benefits All amounts distributed from a participant's account following termination of employment shall be as follows. If the amount payable under the Plan to any participant or beneficiary is \$1,000 or less, the administrative committee will direct that such amount be paid in a lump sum. If the participant's balance exceeds \$1,000, but does not exceed \$5,000 and the participant does not elect to have such distribution paid to another qualified plan or does not elect to receive a distribution directly, then the Plan administrator will pay the distribution as a direct rollover to an individual retirement plan designated by the Plan administrator.

Transfers Between Plans Transfers between plans occur when employees transfer in/out of a union but stay with NiSource Inc., which results in a transfer of any related balances between this Plan and other plans. Amounts are included in transfers, net on the accompanying statement of changes in net assets available for benefits. There were no such transfers in 2007.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The financial statements of the Plan were prepared in accordance with the accounting principles generally accepted in the United States of America using the accrual basis of accounting.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition The Plan's investments are stated at fair value. Quoted market prices are used to value investments. The fair value of the collective trust is based on quoted redemption values as of the last day of the Plan year. The Plan's investment in the Master Trust (see Note 5) is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Participant loans are valued at cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the record date.

Table of Contents

Payment of Benefits Benefits are recorded when paid.

Stable Value Fund The Plan investments include a benefit-responsive investment contract. Generally accepted accounting principles require that the statements of net assets available for benefits present investment contracts at fair value as well as an additional line item showing an adjustment of fully benefit-responsive contracts from fair value to contract value. The investment manager reports that there is no significant difference between the contract value and fair value; therefore, there is no impact on the financial statements.

Administrative Expenses Most administrative expenses of the Plan are paid by the Company. Certain other expenses of the Plan such as investment manager and broker fees are paid by the Plan. Certain loan administration fees are paid from the individual participant accounts.

FAS 157 In September 2006, the Financial Accounting Standards Board issued Financial Accounting Standard No. 157, *Fair Value Measurements* (FAS 157). This Statement is effective for fiscal years beginning after November 15, 2007. This Statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Additionally, this Statement establishes a fair value hierarchy that provides the highest priority to quoted prices in active markets and the lowest priority to unobservable data. The Plan is currently in the process of evaluating the impact, if any, the adoption of FAS 157 will have on its financial statements.

3. INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets.

	2007	2006
* Plan interest in Master Trust	\$ 15,727,504	\$ 19,404,967
Fidelity Magellan Fund	20,685,366	21,292,467
Fidelity Growth and Income Fund	11,196,706	13,286,990
Fidelity Retirement Money Market Fund		12,096,275
Fidelity Institutional Money Market Fund	14,352,579	
Fidelity Intermediate Bond Fund	5,757,921	5,677,308
Fidelity Contrafund	7,502,614	5,935,813

* Includes nonparticipant-directed investments

During 2007, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$594,447.

The Plan provides for investments in mutual funds and common stock that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that, such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Table of Contents

4. RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Fidelity Management Trust Company. Fidelity Management Trust Company is the Trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. See Note 5 for additional related party information.

5. INTEREST IN MASTER TRUST

Description of the Master Trust The Master Trust was established for the investment of assets of the Plan and several other NiSource Inc. sponsored defined contribution retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets and liabilities of the Master Trust are held by the Trustee. At December 31, 2007 and 2006, the Plan's interest in the net assets of the Master Trust was approximately 13% for both years. Investment income (losses) and certain administrative expenses relating to the Master Trust are allocated to the individual plans based upon average daily balances invested by each plan.

Summary of Significant Accounting Policies

Valuation of Investments The Master Trust consists solely of investment in the NiSource Inc. Common Stock Fund, which is stated at fair value, measured by quoted market price in an active market.

Employee Stock Ownership Plan The NiSource Inc. Common Stock Fund operates as an Employee Stock Ownership Plan (ESOP). As an ESOP, under the terms of this plan, participants may diversify their investment attributable to employer match at any time. Participants may also elect to have dividends paid to them in cash or reinvested in the fund.

Voting and Tendering Rights of NiSource Inc. Common Stock Fund Participants Each participant in the NiSource Inc. Common Stock Fund is entitled to direct the Trustee as to the manner of voting at each meeting of shareholders. A participant's interest is represented by the value of the participant's interest in the NiSource Inc. Common Stock Fund.

Payment of Benefits Any distribution consisting of units in the Plan interest in the Master Trust may be paid in cash or in whole shares of common stock represented by such units plus a cash amount equal to the fair market value of any fraction of a share of the common stock fund.

Other Purchases and sales of stock held in the Master Trust are reflected as of the trade date. Pending sales and purchases of investments of the Master Trust include receivables and payables, respectively, related to transactions that have not been settled at year-end.

Dividend income on stock held in the Master Trust is recorded on the ex-dividend date. Interest earned in the Master Trust is recorded on the accrual basis.

Net appreciation (depreciation) in fair value of investments held by the Master Trust include unrealized gains and losses associated with changes in the fair values of assets held at year-end as well as realized gains and losses on investments that were sold during the year.

Investments in the NiSource Inc. Common Stock Fund are exposed to various risks such as interest rate, credit and overall market volatility crisis. Due to the level of risk associated with the investment securities, it is reasonably possible that changes in the values of investment securities

- 7 -

Table of Contents

will occur in the near term and that, such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Related Party Transactions The Master Trust invests in shares of the NiSource Inc. Common Stock Fund, which is managed by the Trustee that holds the assets of the Master Trust, and therefore, these transactions qualify as party-in-interest transactions.

Activity

The net assets for the Master Trust consist of investments at a fair value of \$123,407,029 and \$148,042,932 as of December 31, 2007 and 2006, respectively.

Investment income/loss for the Master Trust is as follows for the year ended December 31, 2007.

Net (depreciation) in fair value of investments	\$ (31,094,410)
Interest and dividends	5,781,639
Investment loss, net	\$ (25,312,771)

6. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company reserves the right under the Plan document to terminate the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, the rights of each participant to all amounts then credited to the participant's account will continue to be nonforfeitable.

7. TAX STATUS

The Internal Revenue Service (the IRS) has issued a determination letter dated September 26, 2003, stating that the Plan is qualified under applicable sections of the Internal Revenue Code (the IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
