ANNUAL REPORT

MARCH 31, 2003

(TRANSAMERICA INVESTMENT MANAGEMENT, LLC LOGO)

REPORT TO SHAREHOLDERS:

During the first half of the year ended March 31, 2003, the U.S. corporate bond market was swamped by high-profile bankruptcies and a crisis in corporate credibility. Added to this was a trend toward more stringent lending standards that made capital harder for businesses to come by. During this period, only the highest-credit quality, most defensive corporate issuers found favor with investors. The types of bonds we favor, undervalued or misunderstood bonds with improving credit profiles and above-average potential for capital appreciation, lagged under the weight of investor caution.

Later, with the corporate credibility crisis waning, confidence in the economy rising and interest rates falling, market conditions improved. Investors sifting through the debris left by the earlier storm found pockets of value among lesser-quality bonds, which came roaring back to life. After underperforming in the first half of the year, the fund bounced back, ending the 12-month period with a total return of 1.27% based upon market price with distributions reinvested.

The fund's quick recovery can be attributed to the general rebound among lesser-quality corporate bonds. It also was due to our intense focus on characteristics important to corporate survival in a capital-constrained environment: ample liquidity, hard assets and free cash flow. By mid-fiscal year, we had sold securities of companies that lacked these strengths and replaced them with a sizable number of attractively priced debentures from issuers in the Printing & Publishing, Business Services, Telecommunications and Electric Services sectors with solid or improving balance sheets. Among them were News America Holdings, Clear Channel Communications, Inc., Sprint Capital Corporation, and FirstEnergy Corp. Our faith in these companies was rewarded in the second half of the year, when each was a strong contributor to results.

At this juncture, we continue to focus on sound but underappreciated, higher-yielding bonds with capital ap-

1

preciation potential. We anticipate a modest economic recovery that should favor this market subsector.

Although war in the Middle East overshadowed economic fundamentals and crimped consumer confidence in early 2003, we expect that first-quarter economic growth will be positive. Consumer spending proved reasonably resilient, and a moderate increase in unemployment was offset by historically low mortgage rates that stimulated strong housing sales. Going forward, the situation should improve as consumers and businesses receive support from a federal tax-cut program, a weaker U.S. dollar, and lower oil prices once the war in Iraq is concluded. With the end of war, business and consumer confidence should improve as well.

Edgar Filing: TRANSAMERICA INCOME SHARES INC - Form N-30D

Finally, if needed, the Federal Reserve can stimulate the economy by lowering interest rates again. We expect that the types of businesses we hold in Transamerica Income Shares, Inc. should benefit from the stronger economic conditions that may result.

- (2) Based on the market price of the Fund's shares and including the reinvestment of dividends and distributions at prices obtained by the Fund's dividend reinvestment plan.

The notes to the financial statements are an integral part of these statements.

12

TRANSAMERICA INCOME SHARES, INC.
 NOTES TO FINANCIAL STATEMENTS
 MARCH 31, 2003

1. SIGNIFICANT ACCOUNTING POLICIES -- Transamerica Income Shares, Inc. (the "Fund") is registered under the Investment Company Act of 1940 as a diversified, closed-end management investment company. The Fund's investment objective is to seek as high a level of current income consistent with prudent investment, with capital appreciation as only a secondary objective. The Fund consistently followed the following accounting principles generally accepted in the United States in the preparation of its financial statements:

(A) Valuation of Securities -- Fund investments traded on an exchange are stated at the last reported sales price on the day of valuation on the exchange where the security is principally traded. Securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the last quoted bid price. Debt securities are valued by commercial pricing services or broker-dealer supplied quotations; however, those that mature in sixty days or less are valued at amortized cost, which approximates market value. Other securities for which quotations are not readily available are valued at fair value determined in such a manner as the adviser and sub-advisers, under the supervision of the Board of Directors and the Fund's Valuation Committee, determine in good faith.

(B) Securities Lending -- The Fund may lend securities to enhance fund earnings from investing cash collateral received in making such loans to qualified borrowers (typically broker/dealers). The Fund has engaged its custodian bank, Investors Bank & Trust Company ("IBT"), as lending agent to administer its securities lending program. IBT earns a portion of program net income for its services. When the Fund makes a security loan, it receives cash collateral as protection against risk the borrower will default on the loan, and records an asset for the cash/invested collateral and a liability for the

13

TRANSAMERICA INCOME SHARES, INC.

Edgar Filing: TRANSAMERICA INCOME SHARES INC - Form N-30D

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

MARCH 31, 2003

return of the collateral. Securities on loan continue to be included in investment securities at market value on the Statement of Assets and Liabilities and remain on the Schedule of Investments.

Loans of securities are required at all times to be secured by collateral at least equal to 102% of the market value of the securities on loan and not less than 100% thereafter. The Fund may invest cash collateral in short-term money market instruments including: U.S. Treasury Bills, U.S. agency obligations, commercial paper, money market mutual funds, repurchase agreements and other highly rated, liquid investments. During the life of securities loans, the collateral and securities loaned remain subject to fluctuation in market value. IBT marks to market securities loaned and the collateral each business day. If additional collateral is due (at least \$1,000), IBT collects additional cash collateral from the borrowers. Although securities loaned will be fully collateralized at all times, IBT may experience delays in, or may be prevented from, recovering the collateral on behalf of the Fund. The Fund may recall a loaned security position at any time from the borrower through IBT. In the event the borrower fails to timely return a recalled security, IBT indemnifies the Fund by purchasing replacement securities for the Fund as its own expense and claiming the collateral to fund such a purchase. IBT absorbs the loss if the collateral value is not sufficient to cover the cost of the replacement securities. If replacement securities are not available, IBT will credit the equivalent cash value to the Fund.

(C) Securities Transactions and related Investment Income -- Security transactions are accounted for on the trade date. Security gains and losses are calculated on the specific identification basis. Dividend income is recorded on the ex-dividend date. Interest income, adjusted for discounts and premiums, is recorded on the accrual basis commencing on the settlement date.

14

TRANSAMERICA INCOME SHARES, INC.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

MARCH 31, 2003

(D) Federal Income Taxes -- No provisions for Federal income or excise taxes have been made as the Fund intends to distribute substantially all net income and realized gains to shareholders and otherwise qualify as regulated investment companies under the Internal Revenue Code.

(E) Use of Estimates -- The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

(F) Dividends and Distributions -- Dividends from net investment income are declared and paid monthly. Dividends and distributions paid by the Company are recorded on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations that may differ from accounting principles generally accepted in the United States. These differences are primarily due to differing treatments of income, expenses and gains on various investment securities held by the Fund and timing differences. Permanent items identified in the year ended March 31, 2003, have been reclassified among the components of net assets as follows: a decrease in paid in capital by \$1,039,579, an increase in undistributed net investment income by \$1,155,646, and a decrease of accumulated net realized gains by \$116,067.

Edgar Filing: TRANSAMERICA INCOME SHARES INC - Form N-30D

The character of distributions paid to shareholders during 2003 and 2002 were as follows:

Unrealized Appreciation**.....	9,518,239
Total Accumulated Earnings.....	2,741,230

* The Capital Loss Carryforward as of March 31, 2003, is available to offset future realized capital gains through March 31, 2011.

** Differences between book basis and tax basis unrealized appreciation is attributable primarily to the difference between book and tax amortization method for premium and market discount.

2. INVESTMENT ADVISORY FEES AND TRANSACTIONS WITH AFFILIATES -- The Fund has entered into a Management and Investment Advisory Agreement with AEGON/Transamerica Fund Advisers, Inc. (the "Adviser"), which is a direct, wholly-owned subsidiary of Western Reserve Life Assurance Co. of Ohio, which is wholly-owned by AUSA Life Insurance Company ("AUSA"), a stock life insurance company. AUSA is a wholly-owned subsidiary of Transamerica Holding Company, which is wholly-owned by AEGON USA, Inc., a financial services holding company whose primary emphasis is on life and health insurance and annuity and investment products. AEGON USA, Inc. is a wholly-owned indirect subsidiary of AEGON N.V., a Netherlands corporation. Transamerica Investment Management, L.L.C. ("Transamerica") serves as sub-adviser to the Fund. Transamerica is an indirect wholly owned subsidiary of AEGON N.V.

For its services to the Fund, the Adviser receives a fee of 0.50% of the average daily net assets of the Fund. This fee is paid to the Adviser monthly. The Adviser has agreed

TRANSAMERICA INCOME SHARES, INC.
 NOTES TO FINANCIAL STATEMENTS (CONTINUED)
 MARCH 31, 2003

Edgar Filing: TRANSAMERICA INCOME SHARES INC - Form N-30D

to reimburse the Fund if the Fund's total operating expenses (exclusive of brokerage commissions, interest and taxes) exceed 1.50% of the average daily net assets of the Fund up to \$30 million and 1.00% of the average net assets of the Fund in excess of \$30 million. No such reimbursements were necessary during the year ended March 31, 2003.

As of March 31, 2003, an affiliate of Transamerica Corporation held 7.6% of the outstanding shares of the Company.

Officers and certain directors of the Adviser or its affiliates are also officers and directors of the Fund; however, they receive no compensation from the Fund.

3. SECURITY TRANSACTIONS -- The aggregate cost of securities purchased and the proceeds from securities sold (excluding short-term investments) were \$105,961,420 and \$106,399,968, respectively, for the year ended March 31, 2003.

REPORT OF INDEPENDENT AUDITORS

To the Board of Directors and Shareholders
Transamerica Income Shares, Inc.

We have audited the accompanying statement of assets and liabilities of Transamerica Income Shares, Inc. (the "Company"), including the schedule of investments, as of March 31, 2003, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in this United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of securities owned as of March 31, 2003, by correspondence with the custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. We believe that our audits provide a reasonable basis for our opinion.

18

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Transamerica Income Shares, Inc. as of March 31, 2003, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States.

AUTOMATIC REINVESTMENT PLAN

Holders of 50 shares or more of the Company's common stock are offered the opportunity to reinvest dividends and other distributions in shares of the common stock of the Company through participation in the Automatic Reinvestment Plan. Under the Plan, Mellon Investor services, as Transfer Agent (the "Transfer Agent"), automatically invests dividends and other distributions in shares of the fund's common stock by making purchases in the open market. Plan participants may also deposit cash in amounts between \$25 and \$2,500 with the Transfer Agent for the purchase of additional shares. Dividends, distributions and cash deposits are invested in, and each participant's account credited with, full and fractional shares.

The price at which the Transfer Agent is deemed to have acquired shares for a participant's account is the average price (including brokerage commissions and any other costs of purchase) of all shares purchased by it for all participants in the Plan.

Your dividends and distributions, even though automatically reinvested, continue to be taxable as though received in cash.

Another feature of the Plan is the "Optional Cash Only" feature. You can make additional investments only, without reinvesting your monthly dividend. If you own 50 shares or more, registered in your name and currently in your Plan account, and desire to periodically send additional contributions between \$25 and \$2,500 for investment, you may do so. The shares you own and the new shares acquired through this feature will not participate in automatic reinvestment of dividends and distributions. Rather, the shares you acquire if you participate in the "Optional Cash Only" feature of the Plan will be held for safekeeping in your Plan account. Each investment will be made on or near the next dividend payment date. All other procedures for the purchase and sale of shares described above will apply.

The Transfer Agent charges a service fee of \$1.75 for each investment, including both dividend reinvestment and optional cash investment.

Shareholders interested in obtaining a copy of the Plan should contact the Transfer Agent:
